Chapter 3916

Levi Garrison's eyes narrowed slightly, and he could feel that the strength of the five sect leaders was higher than that of the Three Holy Sons.

"bring it on!"

Levi Garrison said solemnly.

"Sect Master Fu Hanxue, please enlighten me!"

"Shen Bo Party, the leader of the Wuxing faction, please enlighten me!"

"Xu Wantong, the leader of the Iron Fist Gang, please enlighten me!"

"Ouyang Chao, Sect Master of Rising Cloud Sword Sect, please enlighten me!"

"Xie Zhongmou, the master of the Cang Qiong faction, please enlighten me!"

Before he finished speaking, the five helmsmen had already surrounded Levi Garrison in multiple directions.

Wen Lei and others originally planned to come to help, but were stopped by Levi Garrison one step ahead.

"It's up to me to deal with it myself, you can deal with other people, kill if you can, and make a quick decision!"

Levi Garrison said coldly.

Although everyone was worried about Levi Garrison, they never questioned his order.

"kill!"

Xie Zhongmou gave a low voice, and the five attacked at almost the same time.

The sword gang flickered, the sword glow flew, the fist shadow was heavy, the hidden weapon was like rain...

The five helmsmen showed their means, and directly surrounded Levi Garrison with no wind and rain, and all possible escape directions were completely blocked.

"Good come!"

Levi Garrison's fighting spirit was awe-inspiring, and he quickly ran the basic exercises, and for a while, the pressure of the breath spread.

Looking at the golden charm of Levi Garrison's body, he quickly formed several thick energy shields.

Ding Ding Ding!

The hidden weapon was the first to hit the energy shield, making a piercing sound of golden symphony.

The fist shadow was as thick as a mountain, and the outermost energy shield was compressed and deformed slightly, but it did not touch Levi Garrison at all.

The sword gangs and sword lights criss-crossed one after another, and they specially selected the places where the energy shield was deformed to slash.

Xu Wantong's moves were extremely fierce, and he was responsible for Zhengman's attack to attract Levi Garrison's attention.

Shen Bodang majored in hidden weapons and poison, and hidden weapons interfered with Levi Garrison's mind like rain.

Fu Hanxue and Ouyang Chao were responsible for side-by-side attacks with one sword and one sword, mainly attacking Levi Garrison's two wings.

Xie Zhongmou is a ghost in his body, and he is very good at hiding his breathing exercises. He is responsible for finding the perfect opportunity in the dark and giving Levi Garrison a fatal blow.

I have to say that the five helms attacked like mercury pouring down the ground, giving Levi Garrison no chance to breathe at all.

"It's such a strong defense, isn't it too perverted to practice physical training?"

"No wonder the elder was killed in one move!"

Xu Wantong sighed in his heart that the Iron Fist Gang focuses on physical cultivation, and for them a pair of iron fists is the best weapon.

But compared with Levi Garrison's physical strength, it's far from enough. If you can get hold of this body refining technique, the Iron Fist Gang will take off directly.

The first round of the five-man attack was over, and only the last layer of the energy shield on Levi Garrison's body was left.

The situation seems to be firmly controlled by the helmsmen of the five sects.

However, before the five people launched the second round of attack, the energy shield on Levi Garrison's body increased sharply again, as if he had put on countless layers of heavy armor.

"Is the speed of condensing energy too fast?"

The five helmsmen were a little dumbfounded.

You must know that in the connection stage between the first round and the second round of attacks, the Shen Bo Party's hidden weapon attack did not stop.

In other words, the main attack point in the connection stage is the hidden weapon, so Levi Garrison quickly replenished the energy shield while responding to the attack.

"Levi Garrison is a pure body cultivator, most of the body is difficult to penetrate, and he focuses on attacking his weakness."

Xie Zhongmou kept changing his position while transmitting sound to several other people.

Shen Bodang said solemnly, "I attacked his eyes, and Sect Master Fu and Sect Master Ouyang attacked his left and right sides."

"Xu Gang master specialized in his temple and heart, Xie Pai Master assassinated Levi Garrison's back heart."

"This is a great plan!"

Everyone nodded in agreement, these parts are relatively vulnerable parts of monks, even pure body repair is no exception.

"It's a good one, but what I'm trying to say is you're so naive."

Levi Garrison suddenly ran the basic exercises, and the golden radiance of the body surface became more obvious, just like an ancient god of war came into the world.

"In the face of absolute power, all plans are useless."

Levi Garrison said coldly.

The five helmsmen did not believe in evil and launched a new round of attacks again.

This time, they no longer tried to test the depth, and the energy shield on Levi Garrison's body was finally shattered under this round of attack.

"This is the moment!"

Xie Zhongmou discovered the flaw. It was the moment when the energy shield was broken, and his body shot out, and he was behind him in the blink of an eye.

He thinks this is a once-in-a-lifetime opportunity, and even if he can't kill Levi Garrison, he can completely injure him.

Swish!

The sword light flashed, and it stabbed Levi Garrison in the back of the heart like a giant.

Ding!

A crisp metallic sound came, and the originally sharp blade was folded into a huge angle by a powerful force.

On the other hand, the surface of Levi Garrison's face was not broken, only a tiny white spot appeared on his body.

"The sneak attack was good, and the flaws sold to you, do you still believe it?"

Levi Garrison's joking voice sounded.

"Oops!"

Xie Zhongmou suddenly had an ominous premonition in his heart, and instinctively wanted to draw a sword to escape.

"late!"

Levi Garrison's cold voice sounded again.

He saw his body turn like a spinning top, quickly protruding three fingers, pinching them on the blade of the long sword with great precision.

"Release this seat!"

Xie Zhongmou suddenly turned his body, trying to break free from Levi Garrison's shackles with the power of his body turning.

However, the power he suddenly released was easily resolved by Levi Garrison, and he didn't even turn his body.

"Your strength is too weak."

Levi Garrison said quietly.

While speaking, Levi Garrison flicked the blade of the long sword with his left hand.

hum!

As the blade vibrated violently, Xie Zhongmou only felt numbness in his arm, and finally let go of his hand after a short resistance.

At the same time, the figure shot out in reverse, and he felt Levi Garrison waving his arm, and a powerful force roared out.

If you don't evade, even if you can save your life, I'm afraid you will end up with serious injuries.

Swish swish!

Fu Hanxue and Ouyang Chao's attacks were seamlessly connected, but Levi Garrison swung the long sword he had snatched with his backhand.

Several swords roared out.

Clang! Clang! Clang!

In the void, sparks radiated in all directions, and the two helmsmen were shaken and flew out.

At the same time, the Shen Bo Party's hidden weapons attacked again.

"How about a sneak attack?"

Levi Garrison suddenly ran the exercise, and even used his breath to forcefully catch the hidden weapon, and then reversed the force.

Those hidden weapons were reflected back like rain, Shen Bodang's eyes narrowed slightly, but he couldn't dodge a little, and his shoulders were injured by his own hidden weapons.

"Now it's Lao Tzu's turn to attack."

Levi Garrison didn't give the opponent a chance to breathe, and punched Xu Wantong's body.

Facing this thunderous blow, Xu Wantong couldn't dodge any longer, so he had to bite the bullet and confront Levi Garrison.

Bang!

With a muffled sound, Xu Wantong only felt the terrifying force coming, and the whole person was shocked and flew out, and he vomited blood while his body was still in the air.

Levi Garrison did not give Xu Wan a chance to breathe, and continued to launch a frantic attack, hitting him three times in a row.

Although Xu Wantong instinctively ran the exercises to resist, the energy shield was defeated by Levi Garrison.

Eventually fell to the ground and passed out.

"Go back!"

Several others realized that something was wrong, but it was too late.

With the heavy damage to Xu Wantong, Levi Garrison sounded the horn for a counterattack.

With absolute advantages in strength and speed, Levi Garrison directly controlled the entire battle.

The helmsmen of the four sects have only the ability to parry, but have no ability to fight back, in the face of the stormy fist-bombing.

It didn't take long for him to be hit by the fist wind one after another and fell to the ground with serious injuries.

"Protect the sect master (sect leader), don't entangle here anymore."

The elders of the major sects who were fighting with Wen Lei also realized that the situation of the battle had changed, and they all withdrew from the battle and attacked in the direction of Levi Garrison.

"Just because you want the Savior?"

Before he finished speaking, Levi Garrison seemed to have transformed into a war machine, rushing around with his fierce fists.

Wherever they passed, blood mist burst out, and in just over ten seconds, seven or eight elder-level powerhouses died on the spot.

sizzle!

The sound of sucking cold air was constantly heard from the scene.

Levi Garrison's terrifying combat power deeply shocked the powerhouses of the five major factions.

For a while, no one dared to continue to attack, and they all retreated to the far side.

Wen Lei and others wanted to chase, but heard Levi Garrison say in a deep voice, "Don't chase after poor thieves. Besides, as long as these people are in hand, they won't be able to make any big waves."

Levi Garrison dodged and came to Xie Zhongmou and others, and directly used his strength to restrain them.

The five sect leaders looked at each other, their faces filled with incredible.

After killing them, they never thought that the five of them would be so vulnerable in front of Levi Garrison.

"There are some questions that you need to answer. If I am satisfied, I may be able to spare your life."

Levi Garrison said coldly.

Although the leaders of the five major sects were reluctant, they could only nod their heads to express their willingness to cooperate.

Seeing that the elixir and treasures from heaven and earth were swept away by Levi Garrison.

The helms of the five sects are like concubines.

The eggplants seemed to be beaten by frost, and they didn't have the momentum they had when they first came to the base camp.

I originally wanted to capture Levi Garrison to get his blacksmithing and cultivation techniques, but now he has lost his wife and lost his army.

Even himself was reduced to a prisoner, facing the danger of losing his life at any time.

"You guys first give me a detailed introduction to the Kunlun Ruins!" Levi Garrison asked directly.

"The major sectarian forces in the Kunlun Ruins are criss-crossed, and even we can't accurately describe how many powerhouses there are."

"Yes, Mr. Ye, our sect is only a small force, and higher-level information cannot be accessed."

"But we're willing to say everything we know."

"That's right, I would too!"

"I just ask Mr. Ye to spare my life, and I will only follow Mr. Ye's lead in the future."

The leaders of the five major sects scrambled to make a statement, and it was obvious that they had a strong desire to survive.

Levi Garrison nodded with satisfaction and said, "One by one, especially in the case of Taixu Shenzong, it is even more important to be meticulous."

The leaders of the five sects nodded, and then informed Levi Garrison of what they had learned.

After some understanding, Levi Garrison was also quite shocked, the size of the Kunlun Ruins far exceeded his imagination.

It is not an exaggeration to describe it as one world, and according to preliminary judgments, even the seven holy sons of the Taixu Shenzong are only outstanding people of the younger generation.

But definitely not among the strongest.

The strength of those super sects is unfathomable, and they can kill small and medium-sized sects in seconds, regardless of their cultivation techniques or resources.

It is conceivable that the strong people have been cultivated.

"By the way, Mr. Ye, Gong Qianqiu presented a sword called Shen Jie to Yin Xuejian, the vice suzerain of Taixu Shenzong."

"After being appraised by Yin Xuejian, it was regarded as the sacred sword of the sect, and it was placed in the core sacred vein to warm and nurture in order to transform into a peerless magic weapon, and it was renamed the robbery of the gods."

"Gong Qianqiu has made great contributions to offering treasures, and was enfeoffed by Yin Xuejian as the elder of the last seat, and worshipped under the sect of the Great Holy Son, and the Great Holy Son took care of him."

"And as far as I know, Gong Qianqiu has an ambiguous relationship with the Great Holy Son for the sake of his superior position."

Xie Zhongmou said solemnly.

"Gong Qianqiu is so hateful, he even licked his face and borrowed flowers to offer Buddha!"

"This woman really is a dog who can't stop eating shit, so she brought this set to Kunlun Ruins again."

"It must be killed to relieve the hatred in my heart."

Phoenix and others were filled with righteous indignation when they heard the words, but they never thought that Gong Qianqiu would climb directly to the top of Taixu Shenzong in just a few days.

In particular, the methods she used were disgusting, and there was no lower limit for Israeli servants.

Xiao Feng's face in the crowd was instantly ugly, his fists were tightly clenched, and his nails were embedded in his palms.

"Qianqiu, why are you doing this to me?"

"How long has it been since you turned around and threw yourself into the arms of another man, just to climb up?"

"Could it be that the Great Holy Son forced her? Listening to Xie Zhongmou's remarks, the Great Holy Son is clearly a devil of flowers."

"But no matter what, you can't treat me like this!"

The more Xiao Feng thought about it, the more angry he became, his chest heaving violently.

"Furthermore, that divine calamity was lost because of his own disclosure of information, and it must not fall into the hands of the Taixu Shenzong."

"Even if you risk your life, you have to take it back."

Xiao Feng made up his mind, but thinking that his current cultivation is really difficult to deal with the powerhouses of the Taixu Shenzong, he was incompetent and furious.

"You must continue to devour and improve your cultivation, so that your wish can be fulfilled as soon as possible."

The more Xiao Feng thought about it, the more insane his facial features began to distort.

"By the way, Mr. Ye, Yin Xuejian commented that even in the Kunlun Ruins, no more than three people can achieve the forging technique."

Xie Zhongmou was surprised again.

"And this?"

Levi Garrison was a little surprised.

The Divine Tribulation was forged according to the method left by the master, and I never thought that it would be able to hit such a level in the Kunlun Void.

According to Xie Zhongmou, even if the entire Kunlun Ruins cannot find three people who can achieve such a level of forging, is it too strong?

You must know that the robbery is just forged and played by yourself.

Advertisement

If you choose better materials and forge more meticulously, wouldn't the refined weapons directly reach the level of magic weapons?

"The things that the master left are too awesome. Forging techniques are like this, and so are the basic exercises."

Levi Garrison became more and more curious about the background of Master Cheap.

What is left is not only suitable for Kunlun Ruins, but also at the top level in Kunlun Ruins.

If you find your master in the future, you must ask him clearly, the old man is definitely not the boss of a super sect, otherwise he will never have such a heritage.

"I'll save your life for the time being, presumably you also have the means to contact the inside of the sect."

"Now tell those who escaped to keep silent, and help me keep an eye on the movements of the Taixu Shenzong."

"In the future, when I enter the Kunlun Ruins, I still need you to lead the way for me! Is there any problem?"

Levi Garrison asked coldly.

The leaders of the five major sects nodded, and they did not dare to disobey Levi Garrison's request now.

It is a blessing to be able to guarantee a worry-free life. As for the dignity of the face, they have long been thrown into the clouds by them.

“And tell me all the exercises you’ve cultivated.”

Levi Garrison said coldly.

The corners of the mouths of the leaders of the five sects twitched, and it seemed that these were their original intentions to join forces to besiege Levi Garrison.

Now that the roles have changed, it is really a loss to my grandma’s house.

But in order to survive, the five did not dare to disobey, so they had to tell all the combat skills and exercises they had mastered.

It’s just that the five helmsmen don’t understand that Levi Garrison is so much stronger than them, and these exercises are useless at all!

Of course, Levi Garrison didn’t want to use these things for himself. It is enough for him to rely on his own pure strength now.

When strength and speed are at their peak, even the simplest uppercut can be fatal to the opponent.

So Levi Garrison doesn’t pay much attention to fancy moves now, but this doesn’t mean that the exercises are useless for others.

In particular, Wen Lei and others have only had a short time to practice basic exercises. If they cooperate with exercises and combat skills, they will naturally be able to exert stronger combat power.

Levi Garrison is now doing everything possible to improve the people around him. After all, the Taixu Shenzong is a hidden danger after all.

The Return of the God of War [The Protector] Chapter 3920

[/ The Return of the God of War \[The Protector\]](#)

And it is impossible for him to protect everyone around him 24 hours a day. As long as they are strong, the solution is to solve the problem.

Levi Garrison wrote down all the exercises that several people said, and then matched and taught them according to the characteristics of the people around them.

the other side.

Xiao Feng has entered the mode of crazy cultivation.

He wants to go to Kunlun Ruins as soon as possible to find Gong Qianqiu and ask him clearly, and then personally kill him to take revenge.

Devour!

Advertisement

Crazy Devour!

Xiao Feng practiced sleepless nights at the location of the divine veins provided by God's Brain.

During this period, Levi Garrison, Levilia and others have persuaded Xiao Feng that the extreme devouring exercises have great disadvantages.

Especially for cultivators who are not devouring spiritual roots and bones, the extreme devouring method is even more powerful, and may even be life-threatening.

Advertisement

However, Xiao Feng can't listen to it at all now. His mind is full of improving his strength as soon as possible, and then seeking revenge for Gong Qianqiu.

After several persuasion to no avail, Levi Garrison and others just let it go.

Fortunately, there are enough divine veins detected by God's Brain, which also gives Xiao Feng enough power source.

Xiao Feng can clearly feel that his strength is constantly rising.

But as time went by, Xiao Feng found that swallowing had fallen into a bottleneck.

"It's time for revenge!"

Xiao Feng secretly made up his mind.

Under the arrangement of Levi Garrison, the members of the base camp began to practice the exercises and combat skills of the leaders of the five major sects.

Make final preparations for going to Kunlun Ruins.

Advertisement

In his spare time, Levi Garrison went to the Brain of God and found the location of the energy explosion near the War Eagle Country.

This time, Levi Garrison has done a rather detailed investigation, and it can basically be determined that this is a world similar to Kunlun Ruins.

And the time inside this space seems to be a little strange to the outside world, but the purity of the spiritual energy can definitely kill the spiritual energy contained in the divine veins.

For Levi Garrison, this is the most abundant cultivation resource, and it is simply the fat on the lips. If you make good use of it, you will benefit greatly.

However, Levi Garrison still did not find a place similar to Tianmen, which made him decide to suspend entry.

According to Xie Zhongmou and the others, even Tianmen changes its position randomly within a certain range.

Perhaps the same is true of this independent world near War Eagle Country, so it has to be used after all-round observation to avoid uncontrollable situations.

"Let's solve the troubles of the Taixu Shenzong first!"

Levi Garrison muttered to himself.

the other side.

In the Taixu Shenzong.

After several days of extreme devouring the power of the divine veins, Gong Qianqiu's strength increased very quickly.

Even Gong Qianqiu didn't think that the effect of using Tianlei to quench his body would be so good.

At the same time, I was very fortunate that the people from the Tianshi Mansion were not chased and killed.

In this way, even if you encounter the upper limit of swallowing again, you can force Tianshifu to urge the lightning formation to help you temper your body.

In this way, you can continue to perform extreme devouring and upgrading until you are invincible in the world.

Gong Qianqiu has even fantasized about the wonderful scene of himself standing on the top of the Kunlun Ruins.

And Gong Qianqiu's cultivation realm has advanced by leaps and bounds in a short period of time, which has also made the Great Saint Son pay more and more attention.

"Qianqiu, cultivation requires a combination of work and rest. In the past few days, you have been cultivating without sleeping and eating, which is not a good thing in the long run."

The Great Holy Son said in the tone of an elder.

Gong Qianqiu received the merits and hurriedly greeted him with a smile: "Thank you for the guidance, otherwise I may go astray!"

"It's not that serious, but this seat is also for your own good."

"By the way, Qianqiu, do you know what kind of sword intent this seat is practicing?" The Great Holy Son asked with a smile.

Gong Qianqiu said truthfully: "I only know that the three holy sons practice ruthless swordsmanship, and I also ask the first holy son to enlighten me."

"The ruthless kendo is too boring, not to mention that people themselves are emotional animals, and they just cut off their emotions and enter the Dao, don't they seek troubles themselves?"
