

The Return of the God of War [The Protector] Chapter 4014

Just as Levi Garrison was feeling emotional, he suddenly heard the sound of breaking the sound barrier in the air.

Looking up, I saw a giant ship in the shape of an animal flying past at high speed.

Because the speed of the gigantic ship was so fast, even Levi Garrison couldn't see the whole picture of it.

"This speed is far from even the aircraft designed by the brain of God!"

Levi Garrison was quite surprised, and did not know what the power source of this thing was.

But it seems that it should be some kind of manned aircraft, and it is a unique means of transportation in Kunlun Ruins.

"What is this?"

Levi Garrison asked with some doubts.

Murong Qingxue explained respectfully, "Sect Master, this thing is called Yunzhou, and it is usually designed in the shape of an animal, using top-level spiritual crystals as fuel."

"Not only can it be used as a tool, but it can also be used as a super powerful weapon!"

"This kind of cloud boat can only be owned by superpowers. There are no sects of the level like Taixu Shenzong and Xingyue Shenzong."

"Of course, even if it costs a lot to buy a cloud boat, our sect doesn't have enough spirit crystals to use as fuel."

"Even the Sun Moon Divine Fire Academy doesn't have a cloud boat."

Levi Garrison smiled slightly to show his understanding, this is an upgraded version that can't burn oil even if he can afford a car!

After all, for a sect of this level like the Xingyue Divine Sect, top-level spirit crystals can't wait to distribute them to the arrogant people as training resources!

If it was used as fuel for the Yunzhou, wouldn't it be a waste of time?

However, this incident can also show that this Longyang City is indeed extraordinary.

It is conceivable that the resources of the dragon veins are definitely not few because of the consumption of spirit crystals that can supply Yunzhou.

“Longyang City is the largest city in this area, and it is not unusual to have a cloud boat.”

“But looking at the vast Kunlun Ruins, the location of Longyang City is not perfect.”

“The real top cities are in the center of Kunlun Ruins, where Yunzhou can be seen almost everywhere.”

Gongsun Yueying added by the side.

Levi Garrison turned his head and asked, “So you’ve been to the central city?”

“Fortunate to have been there once.”

Gongsun Yueying paused and continued, “The Yunzhou is also divided into many levels according to its shape.”

“For example, the cloud boat just now is obviously in the shape of a red deer. If it is a dragon and tiger-shaped cloud boat, it has more functions and more powerful.”

“I never thought that Yunzhou would say so much.”

Levi Garrison is also considered to have increased his knowledge, but think carefully about the quality of cars in the secular world.

Ordinary family cars and top sports cars are different in configuration and speed.

“Let’s go to town!”

After Levi Garrison finished speaking, he walked forward.

Murong Qingxue and Gongsun Yueying followed closely, but Murong Qingxue could not hide her worry in comparison.

Several people soon arrived at the city gate, and not far away, there was a city guard checking the crowd.

It’s not so much an inspection, it’s a simple registration and cultivation test, to have a general understanding of the people entering the city.

This approach can prevent people with ulterior motives from coaxing things in the city.

More than a dozen city defense troops inspected the goods in detail, and an old man with white beard and hair was sitting in the city gate hole.

The old man was wearing a white robe, with a lifelike dragon embroidered on his chest, and the blazing sun was standing on the dragon's head.

"Sect Master, this person is the elder of the army supervisor of Longyang City, who is specially responsible for investigating the cultivation realm of the process personnel."

Murong Qingxue introduced through voice transmission.

Levi Garrison nodded slightly to show his understanding. In his opinion, the strength of the old man was comparable to that of Murong Wanqing.

It is indeed not small for Longyang City to send a strong man who is at the helm of the middle sect to investigate the strength.

Of course, even if it is a city defense army that is generally inspecting items, the strength of each person is placed in the middle sect, and it is comparable to the level of ordinary Tianjiao.

When passing by the supervisor of the army elder, the latter only stayed on Gongsun Yueying for a while.

As for Levi Garrison and Murong Qingxue, they were obviously completely ignored by the supervisors.

The Return of the God of War [The Protector] Chapter 4015

After entering the city, Murong Qingxue saw that Levi Garrison's eyebrows were slightly raised, and he hurriedly asked, "Sect Master, what's wrong?"

"We are being watched, it doesn't matter, don't pay attention to him."

As he spoke, Levi Garrison glanced at Gongsun Yueying with a deep meaning.

Just now, Murong Qingxue and herself had deliberately suppressed their cultivation.

Only Gongsun Yueying not only did not suppress, but even deliberately showed a murderous aura.

Thinking about it, it was this murderous aura that caught the attention of the elders of the supervisor.

"Could it be that Gongsun Yueying came to Longyang City and wanted to do something small?"

Although Levi Garrison thought so in his heart, there was no sign of any strangeness on his face.

After Murong Qingxue learned that she was being targeted, she felt even more nervous in addition to being uneasy.

But when she saw Levi Garrison's confident appearance, her tense state of mind was inexplicably relaxed.

Levi Garrison didn't know the complicated changes in Murong Qingxue's mentality, but looked at everything in the city.

The main road in Longyang City is spacious and neat, with a width of more than ten feet, and the ground is laid with flat bluestone slabs.

There are various stalls on both sides of the street to trade all kinds of natural materials and treasures.

Especially the surrounding buildings have a retro style, as if they have traveled directly to hundreds of years ago, and there are pavilions and pavilions.

The entrance and walls of the mansion are even more carved, and the frescoes and reliefs are lifelike and dizzying.

Even the stone lions placed in front of the door are made of top-level sacred veins or even dragon vein mines.

It has to be said that these mansions are luxurious enough.

The three continued to walk forward, and Levi Garrison even saw a private medicine garden, which was planted with various precious medicinal herbs.

Even from a distance of more than ten feet, Levi Garrison could clearly feel the pure aura and the natural medicinal fragrance emanating from the medicinal herbs.

On the street, there are many people coming and going, especially with all kinds of spirit beasts accompanying the pedestrians.

"This Longyang City is really a master like a cloud!"

Levi Garrison sighed in his heart that he found that among the pedestrians with the worst cultivation base, they were even stronger than the elders of the Cang Qiong faction.

The tough ones are completely comparable to the middle-level sect masters, and even the powerhouses of Luo Yunyang's level are not uncommon.

“No wonder Murong Wanqing and the others strongly discouraged me from going to the Taiyi Chamber of Commerce.”

“This Longyang City itself is already a master, and the Taiyi Chamber of Commerce is the leader of many sectarian forces in Longyang City. It is conceivable how terrifying the comprehensive strength is.”

“But what if this is the case? I will turn this Longyang City upside down.”

Levi Garrison continued on with the two daughters.

After a while, Levi Garrison’s eyes narrowed slightly, and he found that there was a team of masters in black robes not far in front of him searching for something.

“It’s from the Sun Moon Divine Fire Palace!”

Murong Qingxue’s voice transmission reminded her, her face instantly turned ugly.

Levi Garrison came to Longyang City to recruit Taiyi Chamber of Commerce for trouble, and he was targeted by the city defense army as soon as he entered the city.

Now that I have encountered a wanted search by a powerhouse in the Sun Moon Divine Fire Palace, it is simply misfortune!

Gongsun Yueying obviously found her companion, and her beautiful eyes were full of brilliance. She felt that this was an excellent opportunity to escape from her life.

Once you miss it, it will be as difficult to get out of Levi Garrison’s control.

Gongsun Yueying planned to open her mouth to ask for help from her companions, but she stopped abruptly when she opened her mouth halfway.

He directly met Levi Garrison’s extremely cold gaze.

For a moment, Gongsun Yueying was like falling into an ice cave, and she swallowed the words that came to her mouth.

Gongsun Yueying had no doubt that if she asked for help, Levi Garrison would kill her immediately.

Fear quickly spread from his heart, Gongsun Yueying even began to tremble, and the cold sweat on his forehead could not stop dripping down.

At this moment, Gongsun Yueying was really frightened, and the thought of asking for help was completely thrown out of the sky.
