

The Return of the God of War [The Protector] Chapter 4073 -

Clap!

Originally, the dark clouds were suffocating, and a flash of lightning cut through the sky, as if the sky was collapsing in the end times.

Murong Qingxue and Gongsun Yueying involuntarily took a few steps back, their eyes filled with shock and fear.

They have long been admired by Levi Garrison's superb forging skills, but at this moment, they did not expect that the power of Tianlei would suddenly increase so much.

"Look at the clouds, the color of this thunder seems to be nine."

Murong Qingxue screamed in shock.

Gongsun Yueying looked in the direction of her finger, and sure enough, she saw the nine-color sky thunder pouring down, and suddenly bombarded the body of the long sword that had just been formed.

Clang!

Electric sparks radiated everywhere, and Changjian Fitness asked for a vibration, and a deafening metallic sound came out, which made the eardrums of the two girls hurt.

But they can clearly feel that the long sword has become more crystal clear after being baptized and tempered by the nine-color sky thunder.

Especially the toughness of the blade part is extremely strong, as if reborn in an instant, naturally carrying the charm of the power of thunder.

"Nine has been the number one since ancient times, and the nine-colored Tianlei also has a hidden Dao rhyme. I am afraid it is the most pure and terrifying power in this Tianlei."

"The master tempered the magic weapon with the nine-color sky thunder in order to maximize the strength and rhythm of the magic weapon."

"Being able to see such superb and superb blacksmithing skills is truly a life in vain!"

Gongsun Yueying said with emotion.

She has also seen the process of many so-called forging masters creating magical weapons, but compared with Levi Garrison, those people are simply worlds apart.

Murong Qingxue also agreed with this. He had seen Levi Garrison and Levi Garrison forging magic weapons before, but it was still a lot different from now.

This is the real peak forging technique, and I am afraid that no one in the Kunlun Ruins can surpass it.

“Being able to follow Levi Garrison’s side is really worth it.”

Murong Qingxue thought so in her heart.

At the same time, in the dark place at the far end of the core area, there is a pair of clear eyes, who are observing all this with interest.

Especially for Levi Garrison’s process of forging magic weapons, his expression is more complicated, and it seems that there are people and things from a long time ago.

the other side.

The outermost area of the core area of Dragon Burial Valley.

A burly figure was avoiding the thunderstorm everywhere, and it was Xiao Feng who came to investigate Levi Garrison’s situation.

Seeing that Xiao Feng was in a state of embarrassment at the moment, the solid and heavy black armor was almost gone, and his entire body was like coal.

The bombardment of Tianlei made him suffer a lot. He thought that the Tianlei in the non-core area was terrifying enough.

However, when he continued to walk forward, Xiao Feng realized that he had made a big mistake. The moment he entered the core area, the sky thunder became violent again.

It was as if being attracted by some invisible force to gather in the most central direction, during which there were many thunderbolts of various colors falling.

“The lethality of this multi-colored sky thunder is too great, let alone being bombarded from the front, even the aftermath of the energy is enough for Lao Tzu to drink a pot.”

Xiao Feng cursed again and again, and the ordinary thunder had already caused him to struggle.

In the face of the irregular bombardment of multi-colored thunder, Xiao Feng was only too weak to fight.

He originally wanted to inspect and even rescue his master Levi Garrison, but he never thought that he would end up with an unsafe end.

“I can’t give up, I don’t believe that I can’t enter the core area.”

Xiao Feng quickly dodged and avoided, while looking for a location with relatively few thunderstorms, he continued to penetrate into the core area of the Dragon Burial Valley.

Many forces at the outermost periphery of the Buried Dragon Valley took the lead to evacuate along with the Sun Moon Divine Fire Temple, and they also evacuated after a period of close monitoring.

In the eyes of everyone, the bandits who entered the Buried Dragon Valley had absolutely no chance of surviving. After all, they still disappeared for so long.

If they were safe and sound, those people would have come out long ago.

The Return of the God of War [The Protector] Chapter 4074 -

The super-powerful eyeliners of the Taiyi Chamber of Commerce also returned messages one after another.

Even Wei Shuyang gave up completely, he still had a glimmer of hope, after all, the strength that Levi Garrison showed was so powerful.

Of course, it is more regrettable that Levi Garrison is very likely to be a senior forging master.

If you can escape and cooperate with Taiyi Chamber of Commerce, it will be the greatest blessing of Taiyi Chamber of Commerce.

But now all hope has disappeared, Wei Shuyang directly ordered the eyeliner to be withdrawn, there is no need to continue wasting time in the Buried Dragon Valley.

On the contrary, the Taixu Shenzong has been holding on for the longest time, of course, this is also to show loyalty to the Sun Moon Divine Fire Temple.

After waiting for a week and still no one came out, Yin Xuejian and others were completely given up.

“There is no doubt that the bandit will die, and we don’t need to continue wasting time, let’s withdraw!”

Yin Xuejian gave the order.

As the Taixu Shenzong withdrew from the Dragon Burial Valley, other sects followed.

Of course, the burial of the Dragon Valley also made everyone terrified. The helms of many sects have listed this place as a forbidden place, and all disciples are not allowed to enter.

However, the Bounty Hunter Organization still operates around the Dragon Burial Valley as originally planned.

“I thought how terrifying the madman’s cultivation base was, but now he is in a cocoon and paid the price for his arrogance.”

The Great Saint said solemnly.

The three saints sneered and said: “People are crazy, and this sentence is true. It’s just that the power of the thunder in this Dragon Burial Valley is too powerful.”

“If it weren’t for this, I really wanted to go inside and find out. There must be no shortage of treasures from heaven and earth. It is said that the most valuable thing in it is the divine bone.”

The Seventh Holy Son said solemnly, “Especially, I can faintly sense the existence of a special spiritual meridian. It would be great if there were no thunderstorms.”

The Seven Holy Son’s tone was full of regret, and at the same time, these words also attracted a lot of interest from the people of the Taixu Shenzong.

They all knew that the Seventh Holy Son had the special ability to perceive the spiritual veins, and could be sensed by him, so they could imagine how terrifying this spiritual vein in Buried Dragon Valley was.

Gong Qianqiu was also very shocked. It was rare to see spiritual veins that could be called ‘special’ by the Seven Holy Sons.

“Even if there are more treasures in it, it’s useless if you don’t have your life to bring them out.”

“Don’t think about it, there is no need to hang yourself on this tree.”

Yin Xuejian said solemnly.

The sighs in the crowd came one after another. Just as the deputy suzerain said, the Dragon Burial Valley can kill the bandits, not to mention their cultivation realm.

There is only one chance of being bombarded into ashes when entering, no matter how many treasures of heaven and earth there is no way to bring them back.

“When this sect’s major is further improved, we must enter the Dragon Burial Valley to investigate.”

Gong Qianqiu thought secretly in his heart.

the other side.

It took Levi Garrison seven days to forge the first divine weapon, which was a sword.

The hilt of the divine bone sword is about three feet long, and the divine light is dazzling.

Murong Qingxue and Gongsun Yueying could hardly move their eyes, they were already deeply attracted by this long sword.

But seeing the crystal clear body of the long sword, even the best crystals are far from it.

Especially around the sword’s edge, there are faint flashes of electric light, and at the same time, it has an extremely cold chill, and it can even freeze the surrounding air.

And this long sword seems to be integrated with this world, and there is a rhythm flowing when it is gently swayed.

“Master, can you show us the power of the magic weapon?”

“Yeah, Sect Master, I’m looking forward to seeing it too!”

Gongsun Yueying said very excitedly.

Levi Garrison nodded and said, “Okay!”

In fact, Levi Garrison is also very curious about the power of this sword. After all, this is the magic weapon he has built with the most heart in history.

Levi Garrison held the sword in his hand and gently waved it towards the cold lake in the distance.

The Return of the God of War [The Protector] Chapter 4075 -

Swish!

A cold light was drawn out, and a faint sound of thunder came from the void.

Immediately afterwards, a bottomless crack suddenly appeared on the originally incomparably solid ground of the cold pool.

Chi Chi Chi!

After a while, water seeped out, but soon it was directly frozen into ice cubes by the cold air carried by Jianmang.

“As expected of a peerless weapon, the lethality is so terrifying!”

“This ground has been bombarded and quenched by Tianlei for many years. Even ordinary magic weapons are very laborious to cut.”

“And the master did not use the cultivation technique, in other words, this is the power exerted by the divine sword itself.”

Murong Qingxue was stunned when she heard the words, she really didn't pay attention to this just now.

In this way, even a person with no cultivation base can exert a huge lethality as long as he uses this divine sword.

If a sword cultivator were to use this sword, wouldn't the power it exerted would be even more terrifying?

“not bad!”

Levi Garrison was also quite satisfied with this long sword.

In contrast, the divine calamity that was forged at the beginning was no different from rubbish.

“Sect Master, give this divine weapon a name!” Murong Qingxue suggested.

Levi Garrison nodded, pondered for a moment and said, “Let's call it Dragon Burial!”

“Good name!”

The two women hurriedly agreed, the name obviously meant to commemorate the trip to the Dragon Burial Valley, and it sounded really domineering.

“You stay here, I will continue to forge the magic weapon.”

Levi Garrison paused and added: “Since you have followed all the way, I will naturally not treat you badly, so I will also forge a magic weapon for each of you as a reward!”

“Thank you master!”

“Thank you Sect Master!”

Gongsun Yueying and the two daughters knelt on the ground and thanked them.

Levi Garrison didn't say much, and continued to forge the magic weapon.

After all, there are enough materials collected to give some benefits to the people around them, and it is also beneficial for them to follow them willingly.

Gongsun Yueying was indeed extremely grateful, and the remaining unwillingness in her heart completely disappeared.

Following Levi Garrison can obtain such a level of peerless divine weapon, even if he is valued in the Sun Moon Divine Fire Hall, he will not be able to enjoy such treatment.

Especially along the way, Levi Garrison himself has shown incomparably powerful strength, and there is absolutely no harm in following him.

“What kind of scenery will it be like to walk out of the Dragon Burial Valley and carry the peerless magic weapon after this incident?”

Gongsun Yueying has already begun to look forward to the highly sought after scene in the future.

After all, the top-level divine weapons forged by Levi Garrison, even those top-level sectarian forces in the core area of Kunlun Ruins, will be highly contested.

Murong Qingxue also felt like a dream, her background was far from that of Gongsun Yueying, and her psychological expectations were naturally greater.

The Xingyue Divine Sect is just an ordinary middle-class sect. If you don't meet Levi Garrison, you will probably miss out on the peerless divine soldier in this life.

Now that only being a sidekick can get such a reward, the excitement in Murong Qingxue's heart has long since been added.

the other side.

The news of the re-election of the Holy Maiden in the Sun Moon Divine Fire Temple spread like wildfire.

After being killed by Levi Garrison in succession, the Sun Moon Divine Fire Academy and many of the arrogant powerhouses in the temple, the Sun Moon Divine Fire Temple urgently needs to replenish fresh blood.

Therefore, the election of the Holy Maiden has lowered a lot of standards. In the past, the candidates had to be at least the best among the middle sects.

The selection of saintess this time does not limit the size of the sect, as long as those with outstanding qualifications can participate in the selection competition.

This made many small sects overjoyed. After all, they were not qualified to hold the thighs of the Sun Moon Divine Fire Temple in the past.

Nowadays, as long as you become a candidate, you can make the sect flourish, so many small sects also send top talents to participate in the trials.

The Taixu Shenzong naturally also got the message. Gong Qianqiu has long been fascinated by the Sun Moon Divine Fire Temple, and now he has the opportunity to go there.

But before Gong Qianqiu went, he had already swallowed up all the dragon vein resources provided by the Seven Saints, and his strength had greatly increased.
