

The Return of the God of War [The Protector] Chapter 4081 -

Xingyue Divine Sect.

Mu Rong Wanqing, who was on the main seat of the discussion hall, had a solemn expression on her face.

The other core members of the Star Moon Sect also sighed and grimaced.

The entire discussion hall was dead, as if an old man who was dying, had almost completely lost all vitality and vitality.

Since receiving the news that Levi Garrison and his party died in the Dragon Burial Valley, the entire Xingyue Sect has been dealt a fatal blow.

As if the biggest spiritual pillar in their hearts collapsed.

“Sect Master, Levi Garrison’s strength is indeed very strong, but he is too arrogant after all, and it is not surprising that he has ended up like this now.”

“It’s just that where we go next is very important.”

One of the elders said in a deep voice.

This sentence has many meanings, the most important of which is the attitude towards the Sun Moon Divine Fire Temple.

In the past, many experts from the Sun Moon Divine Fire Academy died of the Xingyue Sect. Although Levi Garrison did this, it was ultimately inseparable from the Xingyue Sect.

There is no airtight wall in the world. Once this matter reaches the ears of the upper echelons of the Sun Moon Divine Fire Hall, the Xingyue Divine Sect will immediately be identified as an accomplice.

At that time, when all the powerhouses of the Sun Moon Divine Fire Hall will come out, the Xingyue Divine Sect will definitely be wiped out.

But if you take the initiative to confess the truth, you may still be able to win a chance.

“Yeah, Sect Master, just yesterday, I got the news that the Sun Moon God Fire Palace has investigated Levi Garrison and his party, and there is another woman besides Gongsun Yueying.”

“If Murong Qingxue is caught out, the Xingyue Divine Sect will not be far from being destroyed.”

“We have to plan ahead, or we’ll have no time to regret it.”

“Sect Master, come up with an idea quickly, Ye Changmeng will change if it’s too late. We take the initiative to confess the reason, and maybe we can get a lenient treatment.”

Most of the senior members of the Star Moon Sect were shaken.

After all, Levi Garrison is dead, and there is no one to provide protection for the Xingyue Divine Sect.

Of course, some people resented Levi Garrison’s slaughter of all the members of the Sun Moon Divine Fire Hall from the very beginning, which was simply hatred.

Mu Rong Wanqing frowned deeply, she really didn’t know what to do.

“Is Levi Garrison really going to die?”

Mu Rong Wanqing was not sure, but so many messages pointed to Levi Garrison’s death, and now there are so many people persuading her.

Even if he forcibly stopped him at this moment, he might not be able to stop those who were shaken from acting secretly.

“Elders, give me a little more time to think about it!”

There was a hint of pleading in Murong Qingxue’s tone. She still didn’t believe that Levi Garrison would die, and even wanted to investigate it herself.

“Reporting to the sect master, the latest news just came. It is said that the phenomenon of heaven and earth in the Buried Dragon Valley has attracted the attention of the Zijin Chamber of Commerce.”

At this moment, someone came from outside.

“A vision of heaven and earth? Zijin Chamber of Commerce.”

Mu Rong Wanqing was shocked, if the Zijin Chamber of Commerce went to investigate, they would definitely have accurate information about Levi Garrison.

“Continue to send people to pay attention to the movements of the Zijin Chamber of Commerce.” Mu Rongwanqing immediately gave an order.

at the same time.

The caravan of the Zijin Chamber of Commerce has arrived in Wandao City.

Wandao City, as the name suggests, the entire city is located in the center of an archipelago at sea.

This sea area is called the Sea of Formation. When you look up at the sky and water, it is night, and the stars in the sea are particularly dazzling.

However, this dazzling light is not a real star, but a low-level treasure called Hanxingshi.

Due to its extremely low density, the cold star stone can be suspended at the sea level, and some are one or two meters below the sea level.

And the cold star stone shines at night, which leads to the bright starry night in this sea area, so it is named Xingchenhai.

In the Sea of Stars, tens of thousands of small and large islands are connected to each other, and they are collectively called Wandaocheng.

The sectarian forces in Wandao City are criss-crossed, and they are more than ten times larger than the previous Longyang City.

The Return of the God of War [The Protector] Chapter 4082 -

There are not a few large-scale sects in Wandao City, and there are many medium-sized sects.

Even a large-scale sect like the Sun Moon Divine Fire Palace can only rank in the upper middle seat among the homophobic forces in Wandao City.

In the core area of the entire Xingchen Sea, there are seven super large islands.

The largest island stands in the center of the Xingchen Sea, and the remaining six islands are distributed around in a radial shape.

Looking down from a height, you can clearly feel that these seven islands coincide with the ancient formation that evolved from the gossip.

There are obvious energy fluctuations in the formation directly above the seven islands. Although the light is dim at night, it still shows colorful colors.

The Zijin Chamber of Commerce is located in the center of the island.

After the caravan entered the main city, the main road in the city was wide and flat, and even the floor was paved with holy vein ore.

There are many buildings in the city, especially there are countless tyrannical and dangerous atmospheres hidden in them, all of which are the top masters of the major sects.

Kick-kick!

Neat and rhythmic footsteps sounded.

Occasionally, heavily armed armored troops pass by on the main roads and branches in the city, and they are all well-trained city defense troops.

The city defense army is extremely powerful in both individual combat strength and collective charge, and the weapons they are equipped with will be regarded as divine soldiers of the sect of ordinary sects.

Even some ordinary large-scale sects are difficult to resist the collective charge of a hundred-strong city defense army.

The leader of the caravan rushed directly to a magnificent building in the center and stopped.

But seeing the building in front of you can be described as towering into the clouds. Although it is late at night, the building is still brightly lit.

If you look closely, you will find that these lighting objects are all made of top-quality natural materials and treasures that can emit light.

In front of the main entrance, two huge lion sculptures with a height of several people are lifelike.

Just at a glance, you can find out that the two sculptures are actually made of dragon vein spar, exuding extremely pure heaven and earth aura.

There are many gates forged from purple-gold meteorite iron in the center, and a simple plaque hangs above the center.

On the plaque, four big characters are engraved in seal script – Zijin Chamber of Commerce.

“We have arrived!”

The caravan leader said solemnly.

Before he finished speaking, he saw the purple-golden door slowly opening, and several people walked out from inside. They were the guys from the Zijin Chamber of Commerce, and they came out to help unload the goods.

However, although these people are dressed in ordinary clothes, their strength is very terrifying, even the powerhouses of the major sects dare not underestimate them.

These people are both chaperones and guards of the chamber of commerce.

“If you have a job, you will protect you all the way. Everyone will go to the interior of the chamber of commerce for repairs. The banquet and rewards are ready, so I won’t accompany you next time.”

The caravan leader said to many powerful sectarians.

These accompanying guards are all from major sects. They have long known the rules of the Zijin Chamber of Commerce, and naturally they don’t say much.

Go directly to the chamber of commerce to enjoy food and drink and receive rewards.

As for the leader of the caravan, he went directly to the main hall of the Zijin Chamber of Commerce, and he was going to report the situation encountered in the Buried Dragon Valley.

Wandaocheng is the second branch of the Zijin Chamber of Commerce, and the branch president is in the same family as the president of the Zijin Chamber of Commerce.

After passing through the guards, the leader of the caravan successfully entered the main hall, and an old man with white hair and beard sat on the golden flood chair.

“My subordinates have seen President Huangfu.”

The caravan leader knelt on the ground and said in a very respectful tone.

Huangfu Hongsheng nodded slightly and said solemnly, “You have worked hard all the way, Great Elder, get up!”

The first elder slowly got up and said respectfully: “President Huangfu, I found something different when I passed by the Buried Dragon Valley, and hereby report to you.”

Then the Great Elder told the whole thing about the vision of heaven and earth.

Huangfu Hongsheng’s eyes flashed after hearing this, and he immediately made a decision.

The Return of the God of War [The Protector] Chapter 4083 -

“This seat feels that it is necessary to investigate. In order to be safe, I will send a few more experts to assist.”

“Elder, you have traveled all the way, and you should have rested for a while.”

“But this matter is of great importance. If you don’t have your own people staring at this seat, you can work as hard as you can!”

Huangfu Hongsheng said in a very serious tone.

After listening to the report of the Great Elder, Huangfu Hongsheng became more knowledgeable, speculating that it was most likely the phenomenon of heaven and earth caused by the emergence of top-level heaven and earth treasures.

Although the Dragon Burial Valley was previously considered a backcountry, it now appears to be biased.

The first elder did not refuse, and said directly: “It’s not hard work, please rest assured, President Huangfu, I promise to complete the task.”

“Well, very good, this seat appreciates the vigorous and resolute character of the elder.”

Huangfu Hongsheng paused for a while and continued, “In order to avoid too many dreams at night, the first elder will drive the Yulei Yunzhou to take people there!”

“At present, the top powerhouses in the chamber of commerce have also sent a few more to this seat, and this investigation must not be missed.”

“Follow your orders!” The elder said solemnly.

A moment later, Huangfu Hongsheng summoned the experts within the chamber of commerce, and sent seventeen top-level experts to assist the elders to explore the Buried Dragon Valley.

Moreover, each strong man was equipped with a quasi-peerless magic weapon, which directly made the combat effectiveness of this exploration team soar again.

Looking at these people in front of him, the Great Elder was shocked. He never thought that Huangfu Hongsheng would send such a strong lineup.

“I am afraid that the weakest person here can be comparable to the temple master of the Sun Moon Divine Fire Palace!”

The first elder secretly sighed that he had discussed with the two temple masters of the Sun Moon Divine Fire Temple before coming to a conclusion.

The team of seventeen large-scale sectarian helmsmen to explore the Dragon Burial Valley is too much of a fuss, right?

“Elder, this is the same sentence. I must find out the whole story of this investigation. If it is blocked, I will kill it.”

There is no doubt in Huangfu Hongsheng’s tone.

The elder once again assured him that he seemed to understand why Huangfu Hongsheng would send so many strong men.

After all, the vision of heaven and earth is likely to attract many experts, and there is also the Taiyi Chamber of Commerce in that area, so there is a great probability of conflict.

“Set off!”

Following Huangfu Hongsheng’s order, the Great Elder and others boarded the cloud boat one after another.

After a while, Yulei Yunzhou started with a bang, rose into the sky with lightning speed, and then disappeared into the night sky.

“President Huangfu is too cautious. With the strength of our team, why do we need to keep a low profile?”

“I also feel that it’s a bit exaggerated. The best thing in that area is the Taiyi Chamber of Commerce, but they don’t dare to use force easily!”

“Elder, is the vision of heaven and earth you mentioned really that evil? I don’t think it is necessarily a top-level treasure.”

These people are extremely powerful, and most of them think that Huangfu Hongsheng has made a big fuss.

Of course, they have never looked down on the Taiyi Chamber of Commerce. Compared with the Zijin Chamber of Commerce, the former still has a big gap in comprehensive strength.

“Don’t be impatient, everyone, and keep a low profile because President Huangfu doesn’t want to make troubles outside the festival, and the Dragon Burial Valley is located in a remote place, so we don’t need to conflict with the sectarian forces there.”

“And to be honest with you, when I passed through the Buried Dragon Valley before, I could vaguely feel a strong aura hidden inside the Valley of the Buried Dragon.”

“So to be on the safe side, you should be careful.”

The elder said in a serious tone.

Although the first elder said it with sincerity, in fact, it obviously did not get too much attention from everyone.

After all, in their opinion, the Dragon Burial Valley is a remote area, so what kind of big people can attract the attention?

There are countless Jedi and forbidden areas in the core area of Kunlun Ruins, and the real superpowers will not seek far away.

The Return of the God of War [The Protector] Chapter 4084 -

The speed of Yulei Yunzhou of the Zijin Chamber of Commerce is extremely fast, and the powerhouses above the Yunzhou are all hiding their own breath.

So almost no sectarian forces found them along the way.

However, it did not escape the eyes of the Taiyi Chamber of Commerce, which exists like a snake in this area.

Originally, the appearance of heaven and earth in the Buried Dragon Valley had already attracted the attention of the top officials of the Taiyi Chamber of Commerce.

Wei Shuyang immediately sent many experts to investigate the outermost periphery of the Buried Dragon Valley.

It’s just that he was afraid of the increasingly violent Tianlei, so he didn’t rashly enter the hinterland of the Buried Dragon Valley.

When Yulei Yunzhou quickly swept through the sky, it was already detected by the top experts of the Taiyi Chamber of Commerce.

“The logo on the cloud boat seems to be unique to the Zijin Chamber of Commerce!”

“What does it seem, that’s clearly what it is, but how could the people from the Zijin Chamber of Commerce come to such a place?”

“It’s just passing by, but Yunzhou was even sent? This must be a major discovery!”

“If it is a major discovery, the biggest movement in this area is the phenomenon of heaven and earth in the Buried Dragon Valley.”

Everyone talked a lot, and they reported to Wei Shuyang at the first time.

Wei Shuyang frowned deeply after learning the news, thinking about how to deal with it.

Although he was also very curious about why the people from the Zijin Chamber of Commerce appeared in the Dragon Burial Valley, he did not dare to send someone to monitor it.

The Zijin Chamber of Commerce is very powerful, especially according to the report, that Yunzhou is likely to come from the branch of Wandao City.

The faction in Wandaocheng ranked the second branch in the entire Zijin Chamber of Commerce, and its comprehensive strength was much stronger than that of its own branch.

Rushing and secretly stalking is likely to cause conflict between the two sides, and it will be difficult to deal with it at that time.

After all, the Zijin Chamber of Commerce is not something he, the branch president of the Taiyi Chamber of Commerce, can afford.

“What did they find? Could it be directly related to the vision of heaven and earth in the Buried Dragon Valley?”

Wei Shuyang was puzzled.

at the same time.

The sky thunder in the core area of the Buried Dragon Valley became more restless.

In particular, the frequency of mixed-color Tianlei is getting higher and higher.

The entire void has become a paradise of thunder and lightning.

Levi Garrison continued to refine the magic weapon, and the forging process became more and more familiar, and the forging efficiency was getting higher and higher.

For example, at the beginning, when forging dragon burial and thunderbolt, it could only be done alone, but now two top-level peerless weapons can be forged at the same time.

For example, at this moment, Levi Garrison forged a long spear and a crossbow at one time.

Seeing the successful completion of successive works, Levi Garrison's mood became more and more happy.

Boom!

The lightning and thunder in the air became more and more irritable, and the continuous quenching of the peerless magic weapon continued to change the energy peace of the Buried Dragon Valley.

If it weren't for Levi Garrison's cultivation realm that has far exceeded the control of Tianlei and Earth Vessels, Tianlei would have been unscrupulously attacking his head.

Murong Qingxue and Gongsun Yueying didn't even dare to let out the air, for fear of accidentally stepping out of the energy range released by Levi Garrison.

Although the two women were protected by the energy field, they could clearly feel the increasing pressure of the surrounding sky thunder and earth veins.

They have no doubts that as long as they leave Levi Garrison's energy field, they will be smashed into ashes in an instant.

Chi Chi Chi!

As Tianlei continued to become powerful and restless, the airspace above the entire cold pool was almost torn apart by all forces.

Especially in the very center, there are many splendors, as if the sky has been opened up with a gate of heaven, and countless fairy lights are pouring down.

That kind of scene is like a dream, and people are intoxicated uncontrollably.

Levi Garrison, who was concentrating on forging the peerless magic weapon, suddenly paused for a moment, and then looked far north.

"There are really people who are not afraid of death and rush to the core area of the Dragon Burial Valley!" Levi Garrison muttered to himself.

The Return of the God of War [The Protector] Chapter 4085 -

the other side.

The bounty hunter organization outside the Buried Dragon Valley is still wandering, and the vision of heaven and earth is also attracting their attention.

It's just that Tianlei is getting more and more restless, and these 'speculators' don't dare to rush into the core area.

At this moment, the leaders of several bounty hunter organizations felt a strong aura.

"There are many strong people approaching, quickly retreat!"

"It is not advisable to stay here for a long time, and quickly evacuate."

"Leave this place quickly, or the consequences will be unimaginable."

The leaders of several waves of bounty hunters ordered one after another, and the others did not dare to stay and fled towards Yuan Chao.

After a while, the periphery of the Buried Dragon Valley suddenly became dark, and even the sunlight was suddenly blocked by some kind of behemoth.

"It turned out to be Yunzhou!"

"What exactly is this?"

"This seems to be the emblem of the Zijin Chamber of Commerce, bad!"

Among them, a ten-member team of bounty hunters had no time to escape, and their faces were full of panic and fear.

Swish!

The cloud boat was suspended in the air, and several figures fell from the sky, as if an immortal descended.

The leader is the big elder of the Zijin Chamber of Commerce.

"Run away!"

I don't know who was shouting in the crowd, and the others were just waking up from a dream and planning to turn around and flee.

However, before they could act, they once again felt an overwhelming aura of strength.

The legs of the members of this team of bounty hunters were as if they were filled with lead, and they were unable to move an inch.

"You can't escape, answer this seat's question obediently!"

The great elder's vigorous voice sounded.

"If you have any questions, feel free to ask, and I will definitely know everything and say nothing."

"Yes, senior, I just ask you to let us live."

"We are all willing to cooperate."

The members of the bounty hunter organization scrambled to express their sincerity and fell to their knees, begging for a way out.

The first elder said noncommittally: "Then it depends on whether your secrets have this weight."

"A bunch of rubbish organized by bounty hunters, you are not worthy of negotiating conditions with the elders."

"That's right, you bunch of rabble are really over the top, and you dare to talk about conditions when you're dying?"

"Stop talking nonsense, and answer this seat, what happened in this area recently?"

The other powerhouses of the Zijin Chamber of Commerce were full of contempt. In their eyes, these members of the bounty hunter organization were just a group of ants.

"Dragon Burial Valley was surrounded by more than a hundred sects led by the Sun Moon Divine Fire Temple a few days ago, just to kill a bandit."

"It is said that the gangster killed many of the arrogant powerhouses in the Sun Moon Divine Fire Hall, and even the vice president of the Sun Moon Divine Fire Academy tragically killed him."

"We've also seen that gangster enter the Dragon Burying Valley with two women and never came out again."

"Before Buried Dragon Valley Tianlei gathered in the core area, we guessed that it was the movement made by that gangster."

"But later, the two palace masters of the Sun Moon Divine Fire Palace decided that the gangster had died under the Heavenly Thunder Tribulation, and there has been no news for such a long time."

The members of the bounty hunter group scrambled to tell the information they knew.

Even the content of Levi Garrison's 'outrageous speech' was revealed, just to show that the content of his reply was more valuable.

The first elder narrowed his eyes and listened carefully. When he learned about the record of Levi Garrison, the gangster, he was quite surprised.

"Killing so many strong people with the power of one person can be regarded as a person. Maybe this vision of heaven and earth is really related to him!"

The elder said quietly.

"Elder, even if we randomly select one person from our team, we can do it. It's ridiculous to be called a bandit."

"The Sun and Moon Divine Fire Temple is really becoming more and more rubbish as it develops, to be frightened like that by one person?"

"What about the elders?"

The first elder signaled everyone to be quiet, and then said slowly: "Only the dead will keep secrets."
