

The Return of the God of War [The Protector] Chapter 4106 -

To appease Lei Kirin (Kirin (Qilin)), Levi Garrison continued to forge magic weapons and speeding boots.

Of course, there is still one more task, which is to help Lei Kirin (Kirin (Qilin)) forge a top-level battle suit.

It has been forged by peerless gods one after another, and the vision of heaven and earth in the Dragon Burial Valley is getting stronger and stronger.

The eyeliner of the Taiyi Chamber of Commerce in the periphery naturally found an abnormality, but they were afraid of Tianlei and did not dare to enter the Dragon Buried Valley to investigate.

Later, the strong Taiyi Chamber of Commerce learned from the bounty hunters that the Yunzhou of the Zijin Chamber of Commerce entered the Dragon Burial Valley.

The spies immediately sent the message back to Longyang City.

In the Taiyi Chamber of Commerce, Wei Shuyang sat in the middle.

“What do you guys think about this?”

Wei Shuyang made the message from the eyeliner public.

“President, so the Zijin Chamber of Commerce’s cloud boat disappeared in the Dragon Burial Valley, which explains the reason why every eyeliner couldn’t find it.”

“And the phenomenon of heaven and earth in the core area of Buried Dragon Valley appears frequently, obviously there are earth-shattering treasures.”

“That’s right, only this possibility will attract the attention of the Zijin Chamber of Commerce, otherwise how could it be possible to come to our site?”

“If I say that Levi Garrison may still be alive, maybe he found the shocking treasure.”

This guess came out, and the scene instantly burst into an uproar.

Of course, some people objected. After all, it was the Lord of the Sun and Moon Divine Fire Temple who announced the news of Levi Garrison’s death.

Wei Shuyang frowned deeply, obviously thinking about what to do next.

If Levi Garrison was still alive, it would be a windfall for the Taiyi Chamber of Commerce.

“It’s not too late, you follow this seat to the Dragon Burial Valley to explore the truth, this may be an excellent opportunity for our Taiyi Chamber of Commerce to enter a higher level.”

Wei Shuyang made a decision immediately, and the senior members of the Taiyi Merchant Congregation agreed.

They are all old fritters who have been in the arena for many years, and they naturally know what benefit Levi Garrison will bring to Taiyi Merchant if he can survive.

The Longyang City Taiyi Chamber of Commerce branch can be said to be the best of the best. Wei Shuyang personally led the team to take a cloud boat to the periphery of the Buried Dragon Valley.

After arriving at the destination, the eyeliners who have been in charge of peripheral exploration also rushed over.

Boom!

Clap clap!

Lightning and thunder continued in the Buried Dragon Valley, especially the horizon was full of rays of light, as if the gate of heaven had opened above the sky and gods had descended into the world.

Wei Shuyang was immediately stunned by this scene.

He can be considered to have seen many great things in the world, but this is the first time he has encountered such a terrifying vision of heaven and earth.

The other leaders of the Taiyi Chamber of Commerce also praised them again and again, and they all said that the trip was worthwhile, and there must be rare treasures in the core area of the Buried Dragon Valley.

“The president’s guess is not wrong. The people of the Zijin Chamber of Commerce must be attracted by the best treasures here.”

“How many chances do you think Levi Garrison has to survive?”

“The Tianlei here is extremely terrifying, and coupled with the many masters of the Zijin Chamber of Commerce, I’m afraid there is no possibility of them coming out alive.”

“This is not necessarily. As long as Levi Garrison can withstand the bombardment of the strongest thunder, it may not be impossible to win a chance.”

“If Levi Garrison survives, he will be the best ally of our Taiyi Chamber of Commerce, and if he gets a piece of the pie, it will definitely benefit a lot.”

Time passed, and half a month passed in the blink of an eye, and the senior members of the Taiyi Merchant Congregation still saw no trace of Levi Garrison.

So someone advised Wei Shuyang to evacuate, so many people waiting here is also a huge consumption of resources.

“President, let’s withdraw, no one can survive three days in this harsh environment.”

In the face of the sincere persuasion of the senior leaders in the meeting, Wei Shuyang was unmoved.

“Well, we’ll wait here for a month, and if there’s no news by then, we’ll evacuate as much as possible.”

Wei Shuyang made up his mind, and the others could only obey the order silently.

But those people felt that Levi Garrison’s hope of surviving was getting slimmer and slimmer.

Time passed by, and the senior members of the branch of the Zijin Chamber of Commerce in Wandaο City were also waiting for the news.

They waited with anticipation for the elders and others to return with fruitful results.

However, for so many days in a row, the Great Elder and others still did not return, which made everyone feel a little panic in their hearts.

Even Huangfu Hongsheng had some ominous premonitions, but the communication instruments sent back messages every day, which gave him a little peace of mind.

the other side.

In the past month, Gong Qianqiu has also consolidated his position in the Sun Moon Divine Fire Hall.

Especially after winning the Holy Maiden Trials with outnumbered opponents easily, it was highly valued by the high-level officials of the Sun Moon Divine Fire Hall.

Coupled with Gong Qianqiu’s exquisiteness in all directions, he has won the favor of Situ Wanli, the master of the Sun Moon Divine Fire Palace.

Because of this, Gong Qianqiu obtained a lot of cultivation resources from the Sun Moon Divine Fire Hall.

In order to completely transform Gong Qianqiu into a confidant, Situ Wanli even directly ordered a small dragon vein to be given to Gong Qianqiu to devour and enhance his strength.

Many Sun Moon Divine Fire Hall powerhouses also gave them all the money, and passed on many exercises to Gong Qianqiu.

For a time, Gong Qianqiu seemed to be cultivated as a future heir, which made Gong Qianqiu's influence rise rapidly.

At the same time, the Seven Holy Sons were not idle, and went everywhere to investigate the dragon veins and the treasures of heaven and earth for Gong Qianqiu.

With the blessing of cultivation resources from two aspects, Gong Qianqiu's strength has increased a lot again.

It didn't take long to reach the strength of Gongsun Yueying before, even stronger.

And through the efforts of all parties during this period, Gong Qianqiu also completely controlled the entire Taixu Shenzong.

Yin Xuejian has basically been completely suspended, and many key positions in the sect have also been taken over by Gong Qianqiu's confidants.

This situation gave Gong Qianqiu a sense of accomplishment, but in front of the powerhouses in the Sun Moon God Fire Hall, Gong Qianqiu behaved extremely low-key.

"Qianqiu, you really did not disappoint me. The upper limit of cultivation is several times stronger than that of Yueying."

Situ Wanli said with great relief.

Gong Qianqiu said respectfully: "It depends on the careful teaching of the hall master and the elders, and this kind of kindness will definitely be remembered in my heart."

Situ Wanli was very satisfied with Gong Qianqiu's attitude, secretly saying that his recent efforts were not in vain.

It was a pity because Gongsun Yueying was damaged in the Buried Dragon Valley before, but now it is comforting to see Gong Qianqiu's cultivation ceiling being higher.

“After your strength increases again, this seat will take a back seat, and you will be able to manage this Sun Moon Divine Fire Palace.”

Situ Wanli continued to draw the pie, deep in his heart he still wanted to observe and then make a decision.

All the previous emphasis and the teaching of exercises were all about keeping Gong Qianqiu for his own use.

“Thank you for the cultivation of the hall master.”

Gong Qianqiu paused and continued: “Palace Master, I want to recommend myself to thoroughly investigate the forces related to the bandits, to avenge the death of my fellow sect, and hope that the Palace Master will agree!”

Gong Qianqiu’s thinking is very clear. If he wants to completely stabilize his position in the Sun Moon Divine Fire Hall, in addition to winning the favor of many high-level officials, he must also make a real contribution to the sect.

The gangster incident caused a lot of uproar, and the Sun Moon Divine Fire Hall and Sun Moon Divine Fire Academy suffered heavy casualties, and everyone was suffocating in their hearts.

Although the bandits have already died in the Dragon Burial Valley, they could not be killed by the high-level officials themselves, and the resentment in their hearts has not been fully released.

If he can successfully investigate the bandit gang, he will definitely make his position more stable.

Situ Wanli pondered for a moment, and said, “Since you have this intention, this seat has agreed. You can do it anyway, and you must find out all the gangsters and gangs.”

“As ordered!” Gong Qianqiu said excitedly.

Next, Gong Qianqiu began to investigate the bandits with all his heart, and soon found a lot of clues.

The Return of the God of War [The Protector] Chapter 4107 -

In fact, Gong Qianqiu was able to find out the clues related to the bandits so quickly, which was entirely due to her vigorous development of confidant forces at the beginning.

Among them is the group of dead soldiers headed by Duguxiao and Xuanming. The place where they finally entered the Taiyi Chamber of Commerce in the Longyang City Investigation Office.

Although the high-level officials of the Taiyi Chamber of Commerce are very secretive about the identities of Levi Garrison and others, there is no airtight wall in this world.

In addition, Levi Garrison almost had a conflict with the powerhouses of the Taiyi Chamber of Commerce, and there were many powerhouses of sectarian power watching the show.

It is not too difficult to learn some internal information from their mouths, especially if they are tempted by heavy profits, it is even easier.

So Duguxiao quickly found out that the other woman following the bandit was Murong Qingxue.

After learning this information, Gong Qianqiu quickly contacted the Xingyue Divine Sect that was the last sect to arrive before the experts from the Sun Moon Divine Fire Academy disappeared.

So Gong Qianqiu focused the investigation on the Xingyue Divine Sect.

If it was put in the past, Gong Qianqiu may have a high probability of returning without success.

However, as the news of Levi Garrison's death in the Dragon Burial Valley continued to ferment in the Xingyue Divine Sect, two voices gradually emerged in the sect as to what to do next.

Although Mu Rong Wanqing tried her best to suppress and appease her, she couldn't control her completely.

In the end, Gong Qianqiu's people found the most crucial information: the Xingyue Shenzong had been occupied by the robbers.

Gong Qianqiu immediately informed Situ Wanli of the news.

Snapped!

Situ Wanli slapped the table abruptly, and the table made of amethyst known for its hardness shattered.

"Bastard, a mere star and moon god sect dares to help Zhou to abuse, this seat wants them to be wiped out."

Situ Wanli roared in anger.

Before launching many sects to catch the gangsters without success and returning to the original, I was full of anger, and now I finally have a vent.

“The palace master calms down his anger, why use a bull-slaughtering knife to kill a chicken? Qianqiu is willing to lead the elites to clear the bandits and gangs.”

Gong Qianqiu took the initiative to invite Ying again.

Situ Wanli agreed after pondering for a moment, and said with great relief: “Qianqiu, you did a very good job this time. When you return from the extermination of the Star-Moon Divine Sect in triumph, this seat will celebrate for you in person.”

Situ Wanli was really surprised that so much key information could be investigated and dealt with in just one month, and at the same time he valued Gong Qianqiu even more.

“Please rest assured, the hall master, Qianqiu will definitely live up to expectations.”

After Gong Qianqiu finished speaking, he immediately gathered many powerful people to prepare to attack the Xingyue Divine Sect. She wanted to use this battle to gain a firm foothold in the Sun Moon Divine Fire Hall.

the other side.

The Xingyue Divine Sect also got the message inside.

In the discussion hall, the atmosphere was extremely dull, and there was a dead silence, like the last tranquility before the storm.

Mu Rong Wanqing sat in the middle, her expression extremely ugly.

“Sect Master, you insisted on not listening to persuasion before, but now it’s better. It’s too late to go to the Sun Moon Divine Fire Hall to seek leniency.”

“How is this good? Although the person who attacked the Xingyue Divine Sect this time is not Situ Wanli, it is said that the newly selected Saintess led the team.”

“I heard that the new saintess is very talented. She easily won the trials with outnumbered enemies. Her strength is only not weaker than Gongsun Yueying.”

“With the blessing of the experts from the Sun Moon Divine Fire Hall, we have no power to fight back.”

There was a lot of discussion, and it was hard to hide the panic on the faces of the high-level officials.

Mu Rong Wanqing was devastated by the quarrel, she knew very well that once the Sun Moon Divine Fire Palace attacked, the Xingyue Divine Sect would definitely die.

“If you want me to say it, it’s Levi Garrison’s fault. We all stopped him at the beginning, and he insisted on destroying all the people in the Sun Moon Divine Fire Hall.”

“Now he patted his butt and left, and let us clean up the mess, really hateful!”

“That’s right, Levi Garrison is a bum star. After causing a catastrophe, he is nowhere to be seen. Let us pay for him.”

Everyone was outraged and accused Levi Garrison one after another.

In the core area of Dragon Burial Valley.

Levi Garrison forged a large number of magical weapons in this month.

But the most outstanding are the top ten peerless weapons.

The top-level magic soldiers also need to occupy the right place and the right place. In comparison, the next forty magic soldiers are somewhat less rhythmic.

Of course, this situation is unavoidable. Even if the blacksmith’s level is high, there is no guarantee that all the magical weapons forged can be the same as the heaven and earth.

Moreover, forging divine weapons in this space area, the rhythm of heaven and earth is constantly being consumed, and it is precisely because of this that it will gradually decrease.

But these peerless gods are not much different, and they all belong to the peerless gods of the first echelon.

As for the rest of the quasi-magic soldiers, there are countless more.

“The two of you just pick a weapon that you can use!” Levi Garrison said with a smile.

Engaging with power is the best means of subjugation, and Levi Garrison knows this well.

Gongsun Yueying and Murong Qingxue were really excited, and they both cast a grateful look at Levi Garrison.

They scrutinized for a long time in front of many divine weapons and sharp blades, all of them were very good, it was a bit dazzling.

Of course, Gongsun Yueying and the two daughters also knew that they did not choose the fifty peerless weapons.

It's not that the two women don't want to, but because they can't control the real peerless weapons.

Just like Slaying Thunder and Burying Dragon, even if they were used by two women, they would probably injure the enemy eight hundred and lose one thousand, and would not be able to exert their strongest power at all.

"I choose this sword!"

"Then I choose this sword!"

The two women chose a magic weapon made of quasi-sacred bones, and they couldn't put it down.

Gongsun Yueying looked at the long sword in her hand almost obsessively. Although it was only a quasi-magic weapon here, the entire Sun Moon Divine Fire Hall did not have this level of magic weapon.

Murong Qingxue even regarded the long sword as a treasure. Her knowledge was far inferior to Gongsun Yueying's. If she hadn't followed Levi Garrison, she would never have thought of getting a sword of this level in her entire life.

The two women can even imagine the majestic picture after they walk out of the Dragon Burial Valley in the future.

Leaving aside other mentions, even if these two magical weapons are shown, they will be sought after and looted by many top sects.

"You will each choose a pair of running boots, which will be beneficial to your future battles."

Levi Garrison is not stingy, and he really wants to train the two daughters well. After all, he can't do everything himself in the future.

The two women were elated when they heard the words. These fast-running boots are an artifact for speeding up, especially the swordsmanship they practiced belongs to the elegant and agile route.

The speeding boots complement each other even more, which will increase their combat effectiveness in a straight line.

Levi Garrison picked up the forged battle suit and came to Lei Kirin (Qilin).

While waiting for Levi Garrison to forge the magic weapon, Lei Kirin (Qilin) was suffocated. Normally, it would have been bathing in the sea of thunder and playing.

But at that time, the most terrifying thunder in the core area of Dragon Burial Valley was attracted by Levi Garrison to forge divine weapons.

Thunder Kirin (Qilin) was bombarded by ordinary sky thunder and tickled, and could only fall asleep beside him, and would be woken up by the sound of sky thunder chain-quenching magic soldiers from time to time.

“Wow!”

Seeing Levi Garrison walking towards him, Lei Kirin (Qilin) hurriedly greeted him, but this strange call was filled with a trace of complaints and dissatisfaction.

In Lei Kirin (Qilin)’s view, admitting counsel is also an art when facing the peerless powerhouse.

Neither can they completely lose their dignity and make themselves disgraced, nor can they anger the strong and lead to death.

“Come on, I’ll help you put on the suit and get down!” Levi Garrison said with a smile.

Lei Kirin (Qilin) shook his huge head, and then slowly fell down.

However, he was quite interested in the battle suit Lei Kirin (Qilin) in Levi Garrison’s hands. After a while, Levi Garrison helped to put it on.

Sure enough, under the battle uniform, the thunder and lightning power on the surface of Lei Kirin (Qilin) completely disappeared, and the flames were all covered up.

The Return of the God of War [The Protector] Chapter 4108 -

“It fits well!”

Levi Garrison commented while touching his chin.

Lei Kirin (Qilin) also rotated and jumped with his eyes closed, obviously quite satisfied with the new clothes.

“Wow!”

There was excitement and excitement in the strange cry, as if asking everyone: Is it mighty? Domineering or not?

Levi Garrison twitched the corner of his mouth, secretly saying that this unicorn can really squeak.

“It’s time for us to go out too.” Levi Garrison said solemnly.

The peerless magic weapon, the quasi magic weapon, and the speeding boots have all been forged, and it can even be said that the task has been exceeded.

Gongsun Yueying and Murong Qingxue were also very excited, and they were finally able to go out to ‘show off their power’.

Especially during the period of fear and fear, the emotions in my chest need to be vented urgently.

“Master, I was fortunate enough to control the Yunzhou before. Although I am not very skilled, I will be familiar with it as long as you give me some time.”

Gongsun Yueying took the lead.

Levi Garrison nodded, and took the two women to the cloud boat to start research.

After Gongsun Yueying’s explanation, Levi Garrison also understood the general principle of Yunzhou.

In fact, the Yunzhou itself is a huge spaceship with various mechanisms to control the flight state of the Yunzhou.

In addition, it is mixed with ancient formations to maintain the operation of the organs and the stealth effect.

The power system is also driven by the formation method, so that the top-level spiritual crystal can be burned to provide the energy source for the flight of the cloud boat.

“I didn’t think that Yunzhou still had so much knowledge hidden, and he could even help hide his tracks and aura.”

Levi Garrison said with emotion.

Gongsun Yueying echoed: “Yes, master, and Yunzhou’s injury to the formation requires a top-level formation master to describe the layout.”

“The level of the formation master directly affects the performance of Yunzhou. Of course, the financial and material resources spent cannot be compared.”

Murong Qingxue could only listen in, she couldn't provide any reference or suggestions, she could only be amazed by the side.

After a full two hours, Gongsun Yueying finally mastered the driving skills of Yunzhou.

"Master, we can go out now, do we need to activate the stealth function?" Gongsun Yueying asked respectfully.

Levi Garrison waved his hand and said, "No, it's impossible to transport everything out at once with Yunzhou. I need to use those people outside."

Gongsun Yueying immediately understood what Levi Garrison meant, which was to deliberately reveal the position.

In particular, recalling what Levi Garrison said to the members of the bounty hunter organization before entering the Dragon Burial Valley, Gongsun Yueying was even more at the horror of Levi Garrison.

"I hope the people from the bounty hunter organization are still there." Murong Qingxue said secretly.

Afterwards, the two women also hid fifty peerless divine weapons in Yunzhou's storage warehouse, and some top-level heaven and earth treasures were on the surface of Yunzhou.

As for the other things, they are still stacked in place, waiting for the next time they come and continue to deliver.

When everything was ready, Gongsun Yueying's voice came: "Master, please sit down, we are going."

"Xiao Lei, we're leaving!" Levi Garrison waved to Lei Kirin (Qilin).

Lei Kirin (Qilin) looked around reluctantly, then roared as if saying goodbye, and jumped into the sky and jumped onto the cloud boat.

Whoosh!

With a loud noise, the cloud boat rose into the air and flew towards the periphery of the Buried Dragon Valley like lightning.

The speed of Yunzhou was extremely fast, and Levi Garrison couldn't help but sigh, this thing's speeding up to a fixed point is no different than his own movement.

the other side.

Wei Shuyang led many Taiyi Chamber of Commerce powerhouses to wait outside. Just as he was about to evacuate today, he suddenly heard the sound of breaking the sound barrier.

“President, it’s Yun Zhou of Zijin Chamber of Commerce, what should we do?”

“The Zijin Chamber of Commerce is powerful, we are not opponents at all!”

“It must be that they found the treasure, and the vision of heaven and earth has disappeared.”

Wei Shuyang stared solemnly in the direction of Yunzhou, as if he was facing a great enemy.

“Everyone, keep calm, if the people from the Zijin Chamber of Commerce don’t follow the rules, they will fight with them.”

Wei Shuyang said solemnly.

Although the comprehensive strength of the Zijin Chamber of Commerce is far superior to that of the Taiyi Chamber of Commerce, after all, this is on the site of the Taiyi Chamber of Commerce, and there must be no compromise.

Clang!

The strong men of the Taiyi Chamber of Commerce drew their swords and swords one after another, as if they were facing a great enemy.

All of them knew that if the Zijin Chamber of Commerce really found a top-level treasure, they would definitely think that they were fighting for it.

The war between the two sides is almost inevitable, and the Zijin Chamber of Commerce has always been known for its powerful force. Once they fight, life and death are unpredictable.

The scene was dead silent, and everyone didn’t even dare to breathe too hard.

Boom!

The cloud boat slowly landed, and everyone involuntarily took a few steps back.

Even Wei Shuyang held his breath at this moment, and the hand holding the sword trembled slightly.

bang!

The hatch opened, and three figures slowly walked out from inside.

“It turned out to be Mr. Ye!”

A sharp-eyed person in the crowd was the first to scream.

The others watched closely, and sure enough, Levi Garrison came out first, followed by Gongsun Yueying and Murong Qingxue.

“As expected of Mr. Ye!”

“Even such a terrifying thunderbolt can’t hurt Mr. Ye.”

“Finally don’t have to work hard.”

Everyone was so excited, some even jumped in place.

The absolute top of the Taiyi Chamber of Commerce also looked at Wei Shuyang with admiration.

It was because of Wei Shuyang’s insistence that Taiyi Chamber of Commerce waited an extra month, and it turned out that they were right.

It was Levi Garrison who came out of the Buried Dragon Valley.

“Look at the things in the Yunzhou warehouse, they seem to be treasures from heaven and earth!”

“Nine Nether Bone Flowers, Fire Lotus, Top Divine Bone... God, any of them are top treasures.”

“Those two are peerless gods!”

The exclamations of the crowd came one after another.

Levi Garrison didn’t expose all the treasures of heaven and earth, and even the peerless soldiers only revealed dragon burial and thunder slaying.

Wei Shuyang hurriedly walked up to Levi Garrison and asked eagerly, “Mr. Ye, where are the people from the Zijin Chamber of Commerce?”

“I killed them all.”

Levi Garrison said lightly.

hiss!

Wei Shuyang gasped involuntarily.

The personnel who can be sent by the Zijin Chamber of Commerce to drive the Yunzhou must be high-level internal, and the realm of cultivation can be imagined.

In addition, according to the previous eyeliner report, if the eyeliner strength has not reached the level of the leader of a large-scale sect, it may not be able to perceive the existence of the strong Zijin Chamber of Commerce.

In other words, the Zijin Chamber of Commerce powerhouses above Yunzhou at the worst reached the level of the helmsmen of large sects, and there were more than five people.

The combat power of this team may be able to easily destroy a large sect, but it was destroyed by Levi Garrison.

“His strength is too terrifying!”

Wei Shuyang was extremely shocked.

“Wow!”

At this moment, a thunderous roar came from above the cloud boat, shaking everyone's eardrums.

Everyone followed the voice to look, and saw a ferocious spirit beast standing on the cloud boat.

At this moment, it is opening a bloody mouth, and there is a faint flame spewing out of its breath.

“What spirit beast is this?”

“Qi... Kirin (Qilin), it looks like a unicorn!”

“Are you sure the unicorn will discharge?”

Lei Kirin (Qilin) enjoyed the appearance of these people who had never seen the world, and shook his head, as if the leader was reviewing the subordinates in line.

“This stuff is so good!”

This thought occurred in everyone's mind almost at the same time.

Levi Garrison was also dumbfounded. He had already found out that Lei Kirin (Qilin) was a patient of late stage cancer, and he had to pretend when he found an opportunity.

“Xiao Lei, keep a low profile for Lao Tzu.” Levi Garrison said solemnly.

So Lei Kirin (Qilin) slowly fell down under everyone’s astonished eyes, obedient like a cat.

The Return of the God of War [The Protector] Chapter 4109 -

Everyone was shocked again, and they could clearly feel the strength of Lei Kirin (Qilin)’s strength, which was even comparable to the strength of the helms of large sects, or even stronger.

However, it was such a terrifying beast that actually obeyed Levi Garrison.

In particular, the emotion in Lei Kirin (Qilin)’s eyes is clearly called fear. It’s hard to imagine how much this guy was bullied by Levi Garrison?

Wei Shuyang was also extremely surprised, but he was relieved instantly when he thought that the super team of the Zijin Chamber of Commerce was destroyed by Levi Garrison.

“Mr. Ye, I wonder if you are willing to cooperate with Taiyi Chamber of Commerce?” Wei Shuyang asked sincerely.

Levi Garrison asked back with a smile, “How to cooperate?”

“I want to hire you to be the chief forging master of the Taiyi Chamber of Commerce.” Wei Shuyang directly stated the purpose.

Levi Garrison chuckled noncommittally and continued to ask, “Then what benefits can I get?”

“The Taiyi Chamber of Commerce will give Mr. Chen the highest level of treatment, and there are thousands of masters in the Taiyi God Group who can follow your assignment at any time.”

“You also get the best deal on any deal.”

“At the same time, if you want any treasures, Taiyi Chamber of Commerce will collect them for you at any cost.”

“If you are willing, I am willing to offer the position of vice president of Longyang City Taiyi Chamber of Commerce.”

Wei Shuyang's offer can be said to be sincere. He looked at Levi Garrison with hope, waiting for his final answer.

After pondering for a moment, Levi Garrison said, "Let me think about it again, but President Wei, please rest assured. If I want to trade in the future, Taiyi Chamber of Commerce will be the preferred partner."

Levi Garrison didn't say it to death. After all, the Taiyi Chamber of Commerce was a high-level large-scale force, and he would use it sooner or later to gain a foothold in the Kunlun Ruins.

But Levi Garrison didn't want to agree directly, otherwise it would be too restrictive to himself.

"Okay, then we'll agree."

Wei Shuyang said excitedly.

Although the desired results have not been obtained, the commitment of Levi Garrison as a 'preferred partner' is also extremely important.

After all, Levi Garrison is a top forging master, and the magic weapons forged in his hands are priceless treasures.

It is also a huge wealth for the Taiyi Chamber of Commerce.

Others in the Taiyi Chamber of Commerce were also very excited when they heard this.

The Taiyi Chamber of Commerce can have the first choice cooperation commitment of a top forging master, which is equivalent to embracing a cornucopia that can make unlimited money.

"The Sand Sculpture Hall Master of the Sun and Moon Divine Fire Hall actually announced that Mr. Ye died in the Dragon Burial Valley, which is simply too dizzy and stupid."

"That is, Mr. Ye is so powerful, how could Tianlei have no choice but to get him?"

"The Sun and Moon Divine Fire Palace is really stupid. I'm afraid they don't know what kind of terrifying existence they have provoked."

"With Mr. Ye's strength, destroying the Temple of Sun and Moon Divine Fire is as easy as the palm of your hand."

"Sun Moon Divine Fire Palace will eventually pay for their stupidity."

The high-level members of the Taiyi Merchant Congregation had a lot of discussion, and some people even started to mock the Sun Moon God Fire Hall's deadline is approaching.

"Mr. Ye, what are your plans next? I'm afraid the Zijin Chamber of Commerce will not give up." Wei Shuyang reminded.

Levi Garrison didn't care at all, and smiled: "The soldiers will block the water and cover the soil. If the people of the Zijin Chamber of Commerce want to die, then come and seek revenge for me!"

Seeing that Levi Garrison didn't take the Zijin Chamber of Commerce seriously, Wei Shuyang didn't dare to persuade him deeply, fearing that angering Levi Garrison would backfire.

"President Wei, take someone back first! I still have some things to deal with. If I need it again, I will take the initiative to come to the door."

Levi Garrison has already issued an evacuation order.

Wei Shuyang didn't dare to stay any longer, and immediately took out a blood-red badge in his arms and handed it to Levi Garrison.

"Mr. Ye is the highest-level badge of the Taiyi Chamber of Commerce. It also has a communication function and can directly contact the leaders of each branch."

Wei Shuyang said solemnly.

Levi Garrison did not reject Wei Shuyang's good intentions, and directly pocketed the top badge of the Taiyi Chamber of Commerce.

"President Wei, you all go back first! In case the information spreads out here, the Zijin Chamber of Commerce will trouble you."

Levi Garrison said solemnly.

Wei Shuyang's face suddenly became solemn. He understood what Levi Garrison meant. Many strong people in the Zijin Chamber of Commerce were destroyed by the group, and he would definitely not let it go.

Once it is known that the Taiyi Chamber of Commerce is related to Levi Garrison, it is bound to be implicated, and it will be a hundred words at that time.

"Thank you Mr. Ye for reminding me, then I'll leave first."

Wei Shuyang paused, and then added quickly: "If Mr. Ye has any needs, just use the badge to contact me."

"Even if the other party is the Zijin Chamber of Commerce, our Taiyi Chamber of Commerce will fight for it. After all, this site belongs to the Taiyi Chamber of Commerce."

Wei Shuyang's remarks can be said to be a solemn statement of his position. He has really reached that point, and he will not hesitate to turn against the Zijin Chamber of Commerce for Levi Garrison's sake.

"I have written down President Wei's favor. Don't worry, the Taiyi Chamber of Commerce is indispensable for forging magic weapons." Levi Garrison said with a smile.

Since the other party showed his favor, Levi Garrison also reciprocated.

Wei Shuyang clasped his fists and raised his eyebrows with joy, and immediately led the masters of the Taiyi Merchant Congregation to leave.

Although Yunzhou was loaded with so many treasures, Wei Shuyang didn't dare to ask Levi Garrison's intention to make a deal.

After all the members of the Taiyi Chamber of Commerce left, Levi Garrison directly shifted his gaze to a farther place.

"Don't hide it sneakily, and show up if you don't want to die."

Levi Garrison sounded like thunder, and it exploded in the sky in an instant.

It was as if a loudspeaker had been installed, dizzying the many members of the bounty hunter organization hidden in the jungle.

The person with a slightly poorer cultivation actually fainted directly.

They were the bounty hunters who had wandered around the Dragon Burial Valley before.

Not long after, these bounty hunters rushed over, and when they saw that it was Levi Garrison, everyone was amazed.

"It turned out to be the mad... adult from before?"

"So the terrifying thunder bombardment can't help him?"

"This cloud boat looks familiar! It seems to be from the Zijin Chamber of Commerce."

“Could it be that the people who killed our companions were the strong men of the Zijin Chamber of Commerce?”

“It seems that those strong people will not be spared!”

The members of the Bounty Hunter Organization felt incredible, especially when they thought of what Levi Garrison said when he entered the Dragon Burial Valley, it was even more shocking.

What is a peerless powerhouse?

This is!

Completely did not put the so-called forbidden Jedi in the eyes.

“What is the senior’s order?” The leader of the bounty hunter said cautiously.

Recalling that he had ridiculed Levi Garrison as an outspoken madman before, he felt a tremor in his heart, for fear that Levi Garrison would settle accounts in the autumn.

Others are also trembling, Levi Garrison can be safe and sound under the top powerhouses of Terrorist Tianlei and Zijin Chamber of Commerce, which is enough to prove how terrifying the strength is.

Levi Garrison said playfully: “I told you before, help me transport something, you shouldn’t refuse, right?”

“No, no, the seniors dispatched the task, that is, to look up to the bounty hunter organization, we will definitely not be ignorant of praise.”

The leader of the bounty hunter hurriedly expressed his attitude, and his attitude was extremely humble.

Facing the evil god Levi Garrison, the leader did not dare to offend in the slightest, even the powerful members of the Zijin Chamber of Commerce were completely wiped out.

If Levi Garrison is angered, I am afraid that the entire bounty hunter organization will face extinction.

Levi Garrison nodded with satisfaction and said, “That’s good, don’t worry, as long as you complete the task, I will never treat you badly.”

“Master, where are we going next?” At this moment, Gongsun Yueying suddenly asked respectfully.

Levi Garrison pondered for a moment and said, “Go to the Xingyue Shenzong first.”

The Xingyue Divine Sect is now its own sect.

Levi Garrison also plans to develop sectarian power based on the Xingyue Shenzong, and gain a firm foothold in Kunlun Ruins as soon as possible.

Not long ago, the proposal of Taiyi Chamber of Commerce was not rejected, and it was also paving the way for future alliances. After all, it was impossible for him to stay in the sect around the clock.

“Senior, the Xingyue Divine Sect has a big event recently, you probably don’t know it yet?”

The bounty hunter leader trembled.

“what happened?”

Murong Qingxue was the first to ask questions. She grew up in the Xingyue Divine Sect since she was a child, and her affection for the sect was far beyond comparison.

“It was the Sun Moon Divine Fire Palace that found out that the gangsters who killed many of the sect’s geniuses had a close relationship with the Xingyue Divine Sect, so they sent the new saintess there...”

The leader of the bounty hunter stopped abruptly, because he suddenly thought of one thing, Levi Garrison seemed to fit many characteristics of a gangster.

Strong in strength, with two saintess by his side, and in contact with the Xingyue Divine Sect.

Levi Garrison said with a smile: “Continue to speak, without omission.”

“Okay... okay.”

The voice of the leader of the bounty hunter was shaking violently, and then he told everything he knew.

Gongsun Yueying was a little angry at first when she learned that her status as a saint was replaced, but she was relieved quickly.

I even felt that the saintess of the Sun and Moon Divine Fire Palace was nothing special, far less than the benefits obtained by the follower Levi Garrison.

“If you find an opportunity, you must prove them wrong in front of the high-level officials of the Sun Moon Divine Fire Hall.”

Gongsun Yueying secretly made up her mind.

Murong Qingxue's face was as pale as paper when she heard the words, according to what the leader of the bounty hunters said, the Xingyue Divine Sect could not escape the tragic fate of being destroyed.

Murong Qingxue felt anxious when she thought that the place where she grew up was about to be destroyed, and that the elders who regarded her as her own were more fortunate and less fortunate.

"Sect Master, let's hurry back, maybe it's still too late!"

Murong Qingxue's voice was obviously urgent.

Levi Garrison nodded and said, "The Xingyue Shenzong must be saved, but the things inside have to be transported away."

After making up his mind, Levi Garrison directly instructed the bounty hunter organization to get the means of transport.

First, transport the many quasi-magic soldiers and treasures from heaven and earth out of the Dragon Burial Valley.

Since the bounty hunter organization has been operating near the Buried Dragon Valley for nearly half a year, various means of transportation are complete and nearby.

Afterwards, everyone followed Yunzhou's trajectory into the Dragon Burial Valley, in order to avoid the coercion of Tianlei and Earth Vessel.

Just one trip shipped those things out.

When the bounty hunter organization saw so many quasi-magic soldiers, it was astonished, as if a beggar suddenly saw a mountain of diamonds.

However, the bounty hunters also know very well that even if these things are priceless, they are not what they can covet.

"Qingxue, you take Xiaolei to escort the team and supervise them to transport things to the Xingyue Divine Sect. Yueying and I will rush to the rescue first in the cloud boat."

As soon as he left the Dragon Burial Valley, Levi Garrison ordered directly.

Although Murong Qingxue was worried about the situation of the Star Moon Sect, she also knew the priorities of the matter.

So many quasi-magic soldiers and treasures of heaven and earth must be monitored by confidants. It may be inappropriate to leave Gongsun Yueying. After all, she was born in the Temple of Sun and Moon Divine Fire.

Once there is no suppression from Levi Garrison, it is difficult to guarantee that she will not do anything out of the ordinary.

What's more, if the people in these bounty hunter organizations are not supervised and completely reliable, it will be different for Lei Kirin (Qilin) to stay.

“You'd better not play any tricks, otherwise, even if the sky falls into the ground, I will destroy the entire bounty hunter organization.”

Levi Garrison warned.

The bounty hunters hurriedly stated that they did not dare to make small moves, and they really did not have the courage to steal Levi Garrison's things.

After everything was settled, Levi Garrison and Gongsun Yueying boarded the cloud boat again and rushed to the Xingyue Shenzong.

The Return of the God of War [The Protector] Chapter 4110 -

The various rudders of the Xingyue Divine Sect.

Many magnificent buildings have been reduced to ruins, and corpses are scattered in rivers of blood.

Gong Qianqiu, as a saint, led many powerhouses in the Sun Moon Divine Fire Hall to attack the Xingyue Divine Sect.

At the same time, in order to consolidate his position to the greatest extent, Gong Qianqiu took the lead in this battle and rushed to the forefront every time.

The Sun Moon Divine Fire Palace already has an absolute strength advantage, and Gong Qianqiu personally charged into the battle, which is even more inspiring.

In just one day, the army of the Sun Moon Divine Fire Hall was able to destroy more than ten divisions of the Star Moon Divine Sect.

Although the disciples of the Xingyue Divine Sect were also standing up to resist, the difference in strength was too great, and the fighting spirit was sluggish with countless casualties.

The remnants of the forces gathered towards the helm of the Xingyue Divine Sect, and those disciples who chose to flee were killed by the elites of the Sun and Moon Divine Fire Palace.

The head of the Xingyue Shenzong.

Inside the conference hall.

Mu Rong Wanqing sat in the middle, her face as pale as paper.

The surviving elder of the sub-rudder who came from the rout was telling the situation of the battle, and the expressions of the other core senior leaders of the Star Moon Sect were also extremely difficult to see.

“Sect Master, in the face of the attack of the powerhouses of the Sun Moon Divine Fire Hall, we have no chance of winning, let’s find a way to negotiate!”

“Yeah, Sect Master, after all, those people from Sun Moon Divine Fire Academy were not killed by us, and the Star Moon Divine Sect was also the victim of the coercion.”

“A bunch of idiots, talking about this now, do you think the new saintess of the Sun Moon Divine Fire Palace will listen?”

“Even if we are willing to make peace, the Sun Moon Divine Fire Palace may not agree. The new saintess obviously wants to use this to establish prestige in the sect.”

As soon as these words came out, everyone’s heart sank to the bottom in an instant.

The hall was dead silent, and the senior members of the Xingyue Divine Sect sighed.

On the one hand, the strength is strong and the momentum is like a rainbow. On the other hand, the fighting strength is weak and the people are scattered. The decisive battle has not yet started, and the result is already doomed.

“Reporting to the Sect Master, the new saintess of the Sun Moon Divine Fire Hall has already entered the city.”

The reporter’s voice was clearly trembling.

Mu Rong Wanqing’s delicate body was shocked, and after a long silence, she slowly stood up.

He said coldly: “Elders, don’t have any illusions about being able to negotiate now. That new saint needs military exploits to establish her prestige.”

“Now is the time between the life and death of the sect. You all go to the battlefield with me. Even if you die in battle, you will make the Sun Moon Divine Fire Temple pay a heavy price.”

It has to be said that Mu Rong Wanqing is still somewhat courageous, and just a few words have cheered up the sluggish atmosphere a lot.

There are even many elders who have regained their determination to sink the boat. After all, the Xingyue Divine Sect is their lifelong effort.

Fighting to protect the sect, even if you die in the end, you will be considered dead.

Then Mu Rong Wanqing led the elders out of the hall and went straight to the main rudder city gate.

Seeing the flags fluttering under the city and the dense crowd, Mu Rong Wanqing and the others looked a bit ugly.

There are huge differences in both numbers and quality. How can we fight this battle?

Gong Qianqiu slowly walked to the front and shouted to the crowd at the head of the city: "Listen to the Xingyue Shenzong, obediently open the city and surrender, there may be a chance of survival."

"Otherwise, this saint will definitely step down the Xingyue Divine Sect today, and all the males of the sect will be beheaded, and all the female disciples will be slaves and maids."

The faces of the disciples of the Xingyue Divine Sect suddenly changed. The Sun Moon Divine Fire Palace was originally a sect that was both righteous and evil.

Mu Rong Wanqing said loudly, "Disciples, only by fighting to the death can you win a chance for survival. Kaesong's surrender will never end well."

"In this battle, the elders and I will try to hold back the enemy as much as possible. You can escape when you have a chance. When you learn something in the future, remember to take revenge for us."

The effect of this wave of people's bribing was excellent, and the disciples of the Xingyue Divine Sect once again shared the same hatred, preparing to live and die together with the sect.

Gong Qianqiu said with a sneer: "It's really a group of stubborn guys, everyone, come with me to pacify the Xingyue Divine Sect!"

"Abide by the decree of the Holy Maiden." All the powerhouses of the Sun Moon Divine Fire Hall said in unison.

Gong Qianqiu took the lead in this battle, and has completely won the respect of the high-level officials and disciples of the Sun Moon Divine Fire Hall.

“kill!”

Gong Qianqiu gave an order, and the army of the Sun Moon Divine Fire Hall shouted and killed, and directly attacked the main gate of the Xingyue Divine Sect.

The masters walked in the air and directly entered the city for a decisive battle, while the disciples fought under the city.

Mu Rong Wanqing also ordered to start, and the two armies fought against each other, and they fought in one place in an instant.

It can be clearly seen that the two sides have not fought for how long, and the Sun Moon Divine Fire Palace has already controlled the situation.

On the battlefield, the scene of the powerful Xingyue Sect being besieged by many people of the same level or even stronger can be seen everywhere, and the ending can be imagined.

Gong Qianqiu continued to take the lead, wielding the long sword in his hand, and three elders of the Xingyue Shenzong had become the souls of her sword.

Mu Rong Wanqing had the intention to rescue her, but she was besieged by the three elders of the Sun and Moon Divine Fire Palace, and she was unable to protect herself.

Gong Qianqiu felt that it was rather boring after beheading the elder of the Xingyue Divine Sect, and his eyes were directly placed on Mu Rongwanqing.

“If you can kill the Sect Master of the Xingyue Divine Sect, the prestige of this sect leader in the Sun Moon Divine Fire Temple will definitely be improved to a higher level.”

Thinking of this, Gong Qianqiu held a long sword, like a ghost, and stabbed directly at the back of Mu Rong Wanqing’s heart.

“Danger!”

Mu Rongwanqing, who was struggling to deal with the siege of the three masters, froze in her heart, and out of instinct, she tried her best to dodge to the side.

However, after all, it was half a beat, and the shoulder muscles were directly penetrated by the long sword, causing Mu Rong Wanqing to take a deep breath.

“What a quick response.”

Gong Qianqiu was slightly surprised, she thought Mu Rong Wanqing was restrained by the three elders, and she could easily kill her.

He didn't think that he not only avoided the ultimate move, but also counterattacked. In desperation, Gong Qianqiu had to draw his sword and retreat, and then he avoided the cold palm wind.

However, the rest of the elders also saw the needle and took advantage of this opportunity to directly attack Mu Rong Wanqing.

Mu Rong Wanqing was caught off guard and hit three palms again, and immediately vomited blood and her breath shriveled.

Fortunately, the other two elders of the Star Moon Sect rushed to rescue in time, otherwise Mu Rong Wanqing would most likely die on the spot in the next siege.

Although Mu Rong Wanqing temporarily saved her life, her serious injury also made the already precarious Star Moon Divine Sect even worse.

The main general's injury was extremely fatal to the imposing manner of the Star Moon God Sect.

The disciples and elders of the Xingyue Divine Sect continued to return to Jiuyou, and Mu Rongwanqing, who was supported and retreated again and again, felt sorrow in her heart.

"Could it be that the Xingyue Divine Sect, which has lasted for more than two hundred years, is about to be destroyed by my hands?"

"Could it be that you really should have listened to the opinions of the elders and went to the Sun Moon Divine Fire Temple to surrender yourself?"

"Forget it, it's useless to think about it now."

Mu Rong Wanqing let out a long sigh, watching her disciples keep coming down, her heart was extremely sad, and she slowly closed her eyes.

Gong Qianqiu said loudly: "Everyone continues to attack, they can't hold on for long, step down the Xingyue Divine Sect, kill the Xingyue Divine Sect Sect Master."

"Stand down the Xingyue Sect and kill the Sect Master of the Xingyue Sect."

The masters of the Sun and Moon Divine Fire Hall shouted in unison, and their prestige directly made the disciples of the Xingyue Divine Sect shudder.

"kill!"

Gong Qianqiu charged with a group of elders again, this time targeting Mu Rong Wanqing.

Mu Rong Wanqing slowly opened her eyes. At this moment, she didn't have any thoughts of resistance, waiting for death to come.

"Is the sect of Laozi, how can you say that it can be destroyed when it is destroyed?"

At this moment, an extremely cold voice came.

The sound exploded in the ears of everyone like a thunder on the ground, making everyone dizzy.

The Sun Moon Divine Fire Hall, which was rushing forward, also suddenly stopped and looked in the direction of the sound.

Swish!

What caught the eye was an extremely dazzling incandescent light, and most people were temporarily blinded.

"Go back, that's sword energy!"

Sun Moon Divine Fire Hall Grand Elder reminded.

Before he finished speaking, the blazing sword energy was already in front of him, and many powerhouses had no time to dodge.

Chi Chi Chi!

Everyone faintly felt the pressure of the terrifying arc, and then lost all senses.

Clap clap!

The arc swayed, and in an instant, more than ten top powerhouses in the Sun Moon Divine Fire Hall were bombarded into coke.

Immediately, it was blown away by the aftermath of the violent sword energy and reduced to powder, which dissipated in the air.

"Ahhh!"

Screams and howls came one after another.

Obviously, the lethality of the sword qi that followed was far more terrifying than the electric arc.

The nearest dozens of elders of the Sun Moon Divine Fire Hall were instantly disintegrated by the sword energy, forming blood mists in the void.

The elite disciples in the back were even worse, and before they even had time to let out their screams, they were taken to hell by the sword energy.

Clap!

The sword qi finally slashed two miles outside the gate of the Xingyue Divine Sect, forming a bottomless ravine that was dozens of meters wide.

It didn't take long for a source of water to emerge, like a natural moat.

On both sides of this 'moat' is already a sea of corpses and blood.

The powerhouses of the Sun Moon Divine Fire Hall in the front died tragically, and the elite disciples in the rear were also not much better.

The energy hurricane formed by the aftermath of the sword qi swept through, and these disciples were far less powerful than the elders, and they were instantly killed by the sword qi energy.

There were stumps and broken arms everywhere around the gully. With this single blow, only a very few survived the power of the Sun Moon Divine Fire Temple to attack the Xingyue Divine Sect.

The power of a sword is so terrifying!

Gong Qianqiu was also shocked and flew out, and the blood in her chest surged. Although she was trying to suppress it, there was still blood overflowing from the corner of her mouth.

"Who?"

Gong Qianqiu suddenly looked in the direction of the breath.

I saw a figure slowly falling from the sky like a god, and finally suspended in the void in front of the city wall.

Gong Qianqiu observed carefully, and saw the sword in his left hand and the sword in his right hand.

"Could it be a real peerless magic weapon?"

Gong Qianqiu was so shocked that his eyes were extremely fiery.

No wonder the sword just now had such power, it must be the reason for the top peerless divine weapon.

Gong Qianqiu held her breath and continued to observe carefully. At this moment, she really did not dare to act rashly.

The coming person's gestures showed the breath of a peerless powerhouse, and even the temple master of the Sun Moon Divine Fire Temple was far from being able to compare.

What shocked Gong Qianqiu the most was that there was a strong Dao rhyme around the body of the visitor, as if it was integrated with the heaven and the earth.

"Why does it feel familiar?"

Although the appearance of the visitor is unclear, Gong Qianqiu still has a feeling of déjà vu.

However, regardless of the opponent's cultivation realm or the peerless divine weapon in his hand, there is no such level of powerhouse in the impression.

This made Gong Qianqiu puzzled.

After carefully observing the visitor, a figure appeared in Gong Qianqiu's mind.

"Why do I suddenly think of Levi Garrison?"

Gong Qianqiu immediately threw this thought out of the sky.

The person in front of him is holding a peerless magic weapon, and he can kill many strong men with one sword. How can Levi Garrison compare?

Thinking that even his current cultivation level is enough for Levi Garrison to look up.

How can a mere ant in the secular world be compared with the peerless powerhouse in front of me?

"Who is your Excellency, who dares to take care of our Sun Moon Divine Fire Hall's business?"

Gong Qianqiu tried his best to control the fear in his heart and asked tentatively.
