

## The Return of the God of War [The Protector] Chapter 4166 -

When Levi Garrison's figure was introduced into the hall of the dilapidated building, several figures floated into the courtyard again.

It was Meng Wuya and others who were constantly looking for opportunities to teach Levi Garrison a lesson.

Today they saw that Levi Garrison went to the main street of Longyang City after alchemy and followed in secret.

It wasn't until recently that there was a faint energy fluctuation here, and Meng Wuya and others followed it.

Looking at the scattered corpses in the courtyard, Meng Wuya and the others fell into contemplation.

The aura fluctuations that overflowed before were not very strong, and they were barely able to detect it by means of a special perception technique.

"Look, miss, this costume should be the killer group of the Skeleton Swamp!"

"They are all leaders in the killer world. They have not failed in their missions for many years, and now they have been destroyed by people?"

"Killing so many strong people, you can still control the breath to such a weak point, what kind of cultivation realm can you do?"

Once this question was raised, everyone present was silent.

It is well known that when a cultivator runs a kung fu method against an enemy, it will naturally cause aura fluctuations, and the stronger the opponent, the greater the fluctuations.

However, being able to kill so many killers without any aura fluctuations can only show that this person has the strength to kill all killers in seconds.

"Could it be Levi Garrison?"

Meng Wuya was taken aback by this thought.

If it was really what Levi Garrison did, she thought of teaching the latter a lesson before, which would be tantamount to finding her own way!

"who?"

Suddenly, Meng Wuya turned his head to look, and saw two black shadows disappearing from the wall.

The Taiyi Chamber of Commerce powerhouses followed closely, but they failed to catch up, so they had no choice but to give up.

"Let's go back first! If Levi Garrison is not in the Taiyi Chamber of Commerce, then this is probably what he did."

After Meng Wuya finished speaking, he took the lead in leading the people to leave.

After they left, a figure sneaked into the courtyard again. After confirming that there was no one alive at the scene, he hurriedly sent a message to the Zijin Chamber of Commerce.

"The entire army of killers was destroyed, and the eldest lady of the Taiyi Chamber of Commerce appeared on the scene. It should be killed by the strong men of the Taiyi Chamber of Commerce, and the gangsters disappeared."

Levi Garrison didn't know about this, but took the lead to leave the dilapidated courtyard.

After returning to the Taiyi Chamber of Commerce, he continued to refine the medicinal pills, but this time Levi Garrison used the top treasures of heaven and earth.

According to the records of alchemy in ancient books, a top-quality medicinal pill was refined, named Huichundan.

This elixir is almost a magic medicine that can bring the dead back to life.

Wei Shuyang, Meng Wuya and the others who rushed back screamed and reorganized their knowledge of Levi Garrison's alchemy technique.

"Mr. Ye, your alchemy is a top-level existence even if you look at the entire Kunlun Ruins."

"Forging is also at this level, but I don't know why, I always feel similar to the taboo family recorded in ancient books!"

There was a hint of uncertainty in Wei Shuyang's tone.

Levi Garrison's eyes lit up, and the first thought in his head was Master Cheap.

"Could it be that Master is a taboo family?"

Levi Garrison was a little excited. He was not interested in Kunlun Ruins before, but now it is different.

Now that we have Master's message, we must go and find out.

"President Wei, can you tell me about the taboo family?"

Levi Garrison asked.

Wei Shuyang sighed and said, "Mr. Ye, it's not that I don't want to tell you, but this taboo family is too mysterious. Even the records in ancient books are only a few words. I only discovered it by combining your forging skills and alchemy skills. A clue."

Wei Shuyang's tone was full of helplessness. In the final analysis, the Taiyi Chamber of Commerce was still too insignificant compared to the Tabu Clan.

Levi Garrison was a little unwilling, and then revealed some of his exercises, which made Wei Shuyang more certain of the previous speculation.

## The Return of the God of War [The Protector] Chapter 4167 -

After chatting for a long time, Wei Shuyang was called to the room by Meng Wuya again, and told what happened in Longyang City today.

Wei Shuyang frowned immediately and said, "If you can invite the Skull Swamp Killer Group, I'm afraid it is the Zijin Chamber of Commerce. These people are too despicable."

"It seems that the Zijin Chamber of Commerce will never let it go, and I'm afraid it will not be uninterrupted in the future. The enemy is in the dark and I am in the light, so it's hard to guard against it!"

Meng Wuya nodded and said, "Especially Levi Garrison's alchemy and forging techniques are top-level existences. Once they are known to outsiders, it is even more extraordinary."

"At that time, it will be even more difficult for us to win over Levi Garrison. You should hurry up and come up with a foolproof plan to bring him under your command."

In fact, Meng Wuya has long regarded Levi Garrison as the most loyal servant.

In particular, Levi Garrison can also concoct alchemy and forge. If he does not bring it back to the headquarters, it will be a huge loss!

After everyone's deliberation, they decided to have a showdown with Levi Garrison, and then Meng Wuya found Levi Garrison again.

"Mr. Ye, we have no doubts that those killers are the masterpieces of the Zijin Chamber of Commerce. In order to make sure nothing goes wrong, you should follow us back to the headquarters!"

Meng Wuya proposed again.

Levi Garrison waved his hand and said, "It doesn't matter, as long as they are not afraid of death, they can come and kill me."

Levi Garrison had already made up his mind and was unwilling to become a tool of the Taiyi Chamber of Commerce anyway.

Furthermore, since the Zijin Chamber of Commerce hired killers not to talk about martial arts, they would have to fight back against him.

It's just that now is not the best time to start, Levi Garrison also plans to refine some medicine pills for the people around.

the other side.

Meng Wuya encountered rejection again and almost ran away on the spot, but in the end he endured it.

After all, Levi Garrison's strength is strong, and he may not be able to take it down with the existing manpower alone.

To be on the safe side, Meng Wuya directly reported this information to the Taiyi Chamber of Commerce headquarters.

The president of the Taiyi Chamber of Commerce immediately issued an order to send hundreds of peak powerhouses, even if they were bound, Levi Garrison would be bound.

However, before the powerful Taiyi Chamber of Commerce arrived in Wandao City, Levi Garrison found Wei Shuyang first.

"President Wei, I'm going to Wandao City to destroy the Zijin Chamber of Commerce." Levi Garrison said indifferently.

Wei Shuyang was still thinking about persuading him a few words, but Levi Garrison didn't give him a chance at all, so he left the Longyang City branch directly.

Levi Garrison led Murong Qingxue and Lei Kirin to the Xingyue Divine Sect in a dragon-shaped cloud boat.

"While I'm leaving, all of you will find a secret place to hide, and come out after I destroy the Zijin Chamber of Commerce."

Levi Garrison explained it.

These remarks immediately made the Xingyue Divine Sect powerhouses dumbfounded, but they were also very clear about Levi Garrison's temper.

Once a decision is made, it is very difficult to change it, so no one dares to persuade him, so he has to follow the orders.

After settling the Xingyue Shenzong, Levi Garrison had no worries.

It's just that in addition to seeking revenge from the Zijin Chamber of Commerce, Levi Garrison also has to look for the whereabouts of the taboo family.

In this way, the future is unpredictable. In case of encountering difficult problems, it will inevitably delay a lot of time. If there are any problems in the secular world, he will not have time to take care of it.

Therefore, Levi Garrison decided to go back to the secular world after much thought. He had to settle the people in the base camp to be truly free from worries.

So three people and one beast drove the cloud boat to the mundane world.

the other side.

Inside the base camp.

Levilia is very powerful now, and others have greatly improved their strength either because they practiced Levilia's practice or Levi Garrison's practice.

However, the guardians of the gods and the large number of people in the Twelve Temples, and the reincarnation of the twelve main gods have been completely awakened because of enough dragon power.

In order to avenge the previous Levi Garrison snatch the dragon veins, they chose to assemble to attack the base camp, vowing to completely destroy the base camp.

## **The Return of the God of War [The Protector] Chapter 4168 -**

Inside the base camp.

Levilia and the others all had heavy expressions on their faces, and the high-intensity battles for days made everyone physically and mentally exhausted.

Even if the members of the base camp rely on the various equipment of the God's Brain, they can only reluctantly resist.

"Everyone, hurry up and repair, a new round of attacks by the guardians of the gods is coming soon."

Zoey Lopez said in a deep voice.

The continuous fighting has caused many people to suffer internal injuries, but they are still barely supporting with amazing perseverance.

However, everyone knew that, judging by the strength of the two sides, it was only a matter of time before the base camp was completely breached.

After all, none of the twelve reincarnations of the main gods have been involved in the battle. Once they all join, Levilia and others may not be able to last long.

Of course, there are many other forces that follow the guardians of the gods.

They were all suppressed by Levi Garrison before, and the remnants of the Eternal Kingdom bore the brunt of it.

Boom boom boom!

With the deafening sound of the road, the people who were repairing in place immediately stood up, armed with weapons and ready to fight.

Because they all knew that the movement just now was the result of the last defensive formation being broken.

"Everyone fight with me!"

Levilia rushed out first.

Everyone is already holding the determination to burn the jade and stone. This time should be the general attack guarded by the gods.

However, when Levilia and others went out, their scalps became numb, because the guardians of the gods and the reincarnation of the twelve main gods were all in it.

"This seat has long said that Levi Garrison will pay the price for his arrogance, and today is the death of his relatives and friends."

"Come on Levi Garrison and come out to die. Today our twelve main gods have all been reincarnated. I want to see how arrogant he is?"

"The previous feud for robbing the dragon veins will be settled together today!"

These powerhouses guarded by the gods have long held back their fire, and now they are finally able to pretend to be a tiger, and naturally they will not miss the opportunity of Xi Lei Levi Garrison's Landing.

They didn't launch a general attack before because they were concerned about Levi Garrison's strength, but after several days of crazy testing, it was clear that Levi Garrison was not in the base camp.

This further strengthened the determination of the gods to guard and completely destroy the base camp, and they now have the advantage.

However, just as the two sides were about to start, a cold voice came from the air.

"Want to settle with me, okay! I'm here, I hope your mouths will be so tough."

Before the words fell, everyone saw a huge cloud boat descending from the sky, and Levi Garrison and others walked out slowly.

"Dad, is it really you?"

"The boss is back!"

"Master, it's Master, now we have hope."

Everyone in the base camp also quickly recognized Levi Garrison. Originally, he was stunned, but at this moment, he was instantly inspired.

"Everyone's been waiting for a long time!"

Levi Garrison waved his hand in greeting, and the scene became quiet for a moment, and he heard him continue: "Let's talk in detail when I get rid of these trash fish first."

"Lord Lord God, it was he who robbed the dragon vein at the beginning, which delayed the awakening time of the adults."

Lucas directly accused Levi Garrison of his "crime", and the twelve reincarnated gods looked at Levi Garrison with a bit more murderous intent.

“Eastern Monkey dares to destroy the good deeds of this god, let you disappear completely today!”

A Western Lord God with a ring of fire in the back of his head said in a cold voice.

“Levi Garrison, your kid is dead. These adults are the real reincarnations of the Lord God, and any one person can crush you to ashes.”

Lucas said contemptuously.

Levi Garrison said with a smile, “Really? Since it’s so good, let’s go together! Don’t waste time.”

“Wow!”

Just then a roar came.

Everyone saw Lei Kirin shaking his head and walking out, as if there were seven big characters written on his face: Why kill a chicken with a slaughtering knife?

## **The Return of the God of War [The Protector] Chapter 4169 -**

Seeing this scene, everyone present was stunned.

Especially seeing Lei Kirin’s stern expression, if it were a human being, he would definitely be a top player with a thirteenth outfit.

Levi Garrison didn’t have the slightest surprise, Lei Kirin is a normal operation, and it will never miss the opportunity to appear before anyone.

“Well, be careful yourself, don’t take it lightly, those guys are still not easy to deal with.”

Levi Garrison reminded.

Lei Kirin looked at the reincarnation of the twelve main gods, and his eyes were filled with disdain.

Although the reincarnation of the twelve main gods has been extremely tough, he is still angry and angry when he is despised by a strange pet.

“Lord God, let me kill this monster!”

Lucas volunteered.

The reincarnation of the main god naturally agreed, and with his status, he could not compete with animals.

“Wow!”

Lei Kirin was obviously very unhappy with the name ‘monster’, so he roared and attacked first.

Seeing that it suddenly released the power of thunder and lightning, a terrifying lightning bolt was released and slammed directly towards Lucas.

Lucas didn’t think that Lei Kirin was so powerful until he realized that it was too late.

boom!

The lightning bombarded Lucas’ energy shield, making a loud noise in an instant, and the energy shield was instantly shattered.

And Lucas was also stunned because he couldn’t dodge, and he died directly.

“What kind of monster is this, so powerful?”

“The leader of Lucas can’t even resist a blow?”

“Please also ask the Lord God to take action and kill this monster.”

The guardians of the gods took a deep breath and felt an unprecedented threat.

Because Levi Garrison didn’t make a move from the beginning to the end, just a monster around him has such combat power, one can imagine how strong he must be.

“kill!”

One of the main gods reincarnated suddenly shot, but Lei Kirin was not afraid at all, and directly fought with him.

Although the reincarnation of the main god was not killed in seconds, it was suppressed by Si Si, which shocked everyone.

In desperation, the reincarnation of the main god was involved in the battle again, and it was not until the three main gods shot together that the battle with Lei Kirin was worthy of a draw.

“Okay, don’t waste time with them, let’s go together, none of these people can be spared.”

The voice did not fall, Jun Lin rushed up first, his speed has reached the limit, and he did not give the Lord God any chance to react.

Bang bang bang!

Levi Garrison threw his fists recklessly, and the reincarnation of the Lord God was like a baby with no power to hold a chicken, and was easily beheaded by Levi Garrison.

The members of the base camp were shocked and stunned. They never thought that in just a few months, Levi Garrison’s strength had increased to this point.

But this is great news for the base camp, the protection of the gods and the reincarnation of the main god have overwhelmed them.

As Levi Garrison and Murong Qingxue joined the battle, the whole situation turned into a one-sided massacre.

In the face of Levi Garrison's powerful power, the guardian of the gods and the reincarnation of the main god did not even have the chance to escape.

In just a few hours, tens of thousands of temple powerhouses and the reincarnation of twelve main gods were slaughtered by Levi Garrison.

In order to completely eradicate this scourge, Levi Garrison led the crowd to kill the gods guarding the nest directly according to the information obtained.

In one fell swoop, the twelve temples were also uprooted, similar to the remnants of the War Eagle Kingdom and the Eternal Kingdom who also killed a piece of armor.

Since then, the powerhouses of Levi Garrison's base camp in the secular world have dominated, and there is no longer any force that can threaten their safety.

Next, Levi Garrison arranged the affairs of the secular world properly, and left the refined quasi-magic weapons, medicinal herbs, and heaven and earth treasures to everyone.

You You Qi handed over many treasures to the god and young marshals of Tiance Mansion, and let them take on the heavy responsibility of protecting Daxia.

## **The Return of the God of War [The Protector] Chapter 4170 -**

Levi Garrison settled everything in the secular world, while waiting for Zoey Lopez, Levilia and others to rush to Kunlun Ruins again.

This time, when I entered the Kunlun Ruins, I was very familiar with the road, especially with the two girls of Murong Qingxue as guides.

Looking at the scenery in the Kunlun Ruins, Zoey Lopez and others sighed repeatedly, saying that it was like a fairyland.

After entering the Kunlun Ruins, Levi Garrison took everyone to the Dragon Burial Valley to improve his strength.

After all, the power of Tianlei here is enough to allow everyone to greatly improve their cultivation in a short period of time.

In addition, there are a lot of heaven and earth treasures in the Yunzhou cabin, which are reserved by Levi Garrison for everyone.

at the same time.

The Zijin Chamber of Commerce also received information: the first batch of killers were wiped out, and Levi Garrison's whereabouts were unknown.

Huangfu Hongsheng and others suspected that Levi Garrison was secretly transported to the headquarters by the Taiyi Chamber of Commerce for protection.

However, what Huangfu Hongsheng didn't know was that Meng Wuya was also looking for traces of Levi Garrison everywhere.

For the entire Taiyi Chamber of Commerce, Levi Garrison is a huge treasure that must not fall into the hands of other sects.

So Meng Wuya launched all power to find Levi Garrison.

the other side.

Levilia and others spent a full week to improve.

Afterwards, Levi Garrison led the crowd on the cloud boat and continued to move forward. During this period, he also provided others with equipment such as speeding boots, peerless weapons, and medicinal pills.

On the way to Wandao City, Levilia and others seized all the time to practice.

Since these people are coming to Kunlun Ruins for the first time, the spiritual energy of heaven and earth here is extremely pure, which is also of great benefit to their improvement.

For this reason, Levi Garrison deliberately slowed down Yunzhou's speed, and what made him laugh the most was that Levilia and Lei Kirin became good friends.

Don't look at Lei Kirin's opportunity to appear before anyone, but he is extremely humble in front of Levilia, which makes Levi Garrison quite curious.

After all, once Lei Kirin put it on, he didn't even care about himself. Although it was a tyrannical meal at the end, Lei Kirin still enjoyed it.

After half a month, Levi Garrison and others finally came to the vast sea of stars.

"This sea area is too big!"

"It's no smaller than the four oceans in the secular world. I never thought that the Kunlun Ruins would be such a sea area."

"And this is only the sea area of Wandao City. I'm afraid there are similar places in other places. It's really amazing."

Zoey Lopez and others were amazed again and again, but Levi Garrison was extremely calm.

"Master, it seems that the Xingchen Haidian was hit hard last time, otherwise we would have been discovered as soon as we approached."

Gongsun Yueying said with a smile.

Levi Garrison said with a smile: "Not necessarily, we abandoned Yunzhou a long time ago, and we did a very good job of hiding our breath. It is normal for them not to find out."

“By the way, master, I heard that there are several star veins in Xingchenhai, which makes Xingchenhaidian proud to grow into a top large-scale sect.”

“But due to the vast sea area of Xingchen Sea, there are only two star veins found in Xingchen Sea Palace. If you dig for a long time, you will be able to find other star veins.”

Gongsun Yueying said solemnly.

Levi Garrison suddenly became interested, the star vein is higher than the dragon vein level, if you can get it, it will be of great help to improve your cultivation.

“Do you know the approximate location?” Levi Garrison asked.

Gongsun Yueying recalled seriously for a long time, and then slowly said: “There is a record in ancient books that there is an area in the southwestern sea of Xingchen Sea called the Sea of Death, where storms gather all year round, and many passing ships and even Yunzhou are involved in it. Can't survive, I think it's very suspicious there.”

“It's a bit like the Bermuda Triangle of the secular world!”

Zoey Lopez muttered softly.

Levi Garrison said in a deep voice: “Then let's go to the sea of death to see the situation first. It must be a huge energy pull to be able to roll up a monstrous storm.”
