

## CHAPTER 1346

Levilia actually understands everything.

Although I don't know exactly what happened to the Western Shu gate clan.

But she believes that her father's identity as the king of the word is absolutely qualified!

Zoey smiled helplessly.

I thought Levilia would cry because he couldn't see his father.

I didn't think that Levilia would console himself in turn.

Everyone looked at Levilia.

No one debunks Levilia.

From everyone's point of view, Levi Garrison would never hope to see them in this life.

The strong entry into the WTO of the Western Shumen clique represented the official rise of the Lopez family.

In North Hampton this one-third of acre of land to be respected! ..

Even the entire South!

The Lopez family has the final say.

The identity of the old lady is terrible!

The sister of the helm of the Xishu gate clan.

Who dares to mess with?

Zoey and Levilia have also become the jewels of the clan of Xishu!

The status is prominent and daunting!

Overnight, the third and fourth-rate Lopez family turned out to be comparable to the family.

This is the influence brought about by the entry into the WTO.

They can turn ordinary people into nobles.

Can make a crow turn into a phoenix!

The Western Shumen Clan even issued that rule specifically for Levi Garrison...

Not only the Western Shu gate clan, but the other three gate clan groups have established their own power and territory after entering the WTO, and they have also supported many family powers.

The once glorious families of the Garrison Clan in Oakland City are no longer there.

After the four gate lords entered the WTO, Levi Garrison let people check their every move.

Not only the four main gates, but also many hidden forces have joined the world together.

It seems that this agreement also restricts others.

Now they are all free again...

“Now this environment should be conducive to the actions of that group! The previous four gate valves and the hidden powers were all limited by the agreement, and it is absolutely difficult for them to act!”

“Now that the agreement is torn up and the restrictions are lifted, it is much easier for them to act!”

Levi Garrison analyzed.

The Western Heavenly King sneered and said: “They think that they are free to enter the world, but they can hide to a great extent, but they don’t know that they are giving us a chance!”

“En, I have a hunch that they will be exposed soon!”

Levi Garrison wanted to get these people out the most, he still wanted to see Levilia.

now.

In a villa on the outskirts of Oakland City.

A group of people gathered.

Everyone has a common feature, wearing masks of various shapes.

It seems that like the members of the LEvi's Squad, they can't show their true colors.

They are the people Levi Garrison and Erudia Messiah want to pick out the most.

The culprit is them!

The leader wears a black dragon-shaped mask.

He said coldly: "Three messages!"

"First, it is still unclear who is the king of the word side by side!"

"Second, it is difficult for Levi Garrison to recover, and the genius doctors in Nanjiang's clan have no idea!"

"Third, we must rob the things that Prince William of the Warhawk Nation needs!"

Others nodded one after another: "Well, we are finally free to join the WTO, and we can breathe the freshest air!"

"Yes, it is a good thing for us to tear up the agreement by the four gate valves this time!"

“Let us sinners in Erudia no longer have to hide! We can act with integrity!”

Everyone looked very excited.

“Don’t be happy too early! The Yanlong Guard personally escorted what Prince William of the Warhawk Nation asked for! To rob them from their hands, we also need to pay the price!

The man in the black dragon mask said coldly.

“Ho ho, what are you afraid of? We only need to send those few people to robbery!”

Several people disdain.

“That’s true! Get the things, and Prince William promised us that it will come true too!”
