

CHAPTER 1358

Because the faces under the mask are totally unrecognizable.

The faces are terrifying and scary!

Worse than ghosts!

The scars crisscrossed, completely disfigured.

Everyone is like this!

To what extent is the face damaged?

Even the most advanced face recognition technology cannot tell who they are?

“I see! These people cover their faces with masks to hide their scars, and such scars don’t want anyone to recognize them!”

“Even if they are caught and killed, they won’t be distinguished by us!”

“What a mysterious and cautious organization!”

Levi Garrison took a breath. ...

“It’s terrible!”

Others were also frightened.

It seems that this organization is even more terrifying than imagined!

No wonder there are no clues left for so many years.

Such a meticulous operation.

It's hard to stay.

As for the traitors like Poison Yama, they used it in a big way.

And these people would rather die than speak out.

It shows the tightness of this organization!

"I'm more and more interested in getting these people out!"

Levi Garrison's eyes ignited intense interest.

"But it is also difficult. The four main gates and the major hidden powers abided by the agreement before they were born. They still operated an incident that was unfavorable to Erudia, let alone completely free. They are more convenient to move and can hide! "

Messiah expressed his worries.

Levi Garrison smiled: "But this will increase the chance of them appearing! With this kind of opportunity, they will act more and more in the future!"

"That's true! There will be Lao's word side by side!"

Messiah was humane.

"Don't worry, they won't get rid of them for a day. I, Levi Garrison, will definitely hold on to them!"

Levi Garrison's domineering way.

Looking at Levi Garrison's appearance, Tyrannosaurus and the others were both admired and ashamed.

This is the country's most important weapon!

It is worthy of the name of the god of war of the country and the king of the word side by side.

"How important is this genetic medicine?"

Levi Garrison asked.

"One word side by side, the king tells you the truth! This gene liquid medicine is mainly to make a special effect medicine!"

“This drug is a fusion of modern biotechnology and Erudia’s ancient medical techniques, and is made with some extremely precious medicinal materials. To be exaggerated, this drug can have the effect of resurrecting the dead! It is used to save life at the most critical moment!”

Messiah explained.

Levi Garrison smiled and said, “Is it for your life?”

That should be stronger than the drugs brought by Ray and Terry.

“Yes, it’s a bit exaggerated to come back to life! But you can definitely save your life at a critical moment! It’s even more possible to prolong one’s life!”

“According to the results of the experiment, when some patients are on the verge of death, taking drugs not only guarantees that they will not die, but also prolongs their lifespan by at least three years!”

“Other people take it to prolong their life for seven or eight years, and change their physical physique!”

After listening, Levi Garrison understood.

No wonder so many people want this genetic liquid medicine.

This medicine can almost bring back the dead.

“After the drug is born, it will be distributed in the form of rewards to those who have contributed to Erudia!”

“Don’t worry, you also have a share of the word side by side! This is what you deserve!”

Messiah assured.

Levi Garrison smiled.

This medicine can be given to mothers and wives and daughters.

Useful at critical moments!

Can make him worry about the future.

On the other side, in a manor in Fengtian City next to the capital.

“What? The mission failed?”
