

# The Return of the God of War [The Protector] Chapter 1880

Zoey had a dream.

No, two to be exact!

The first dream recalled everything from her memorial to the present!

The acquaintance with Levi Garrison, the marriage, the birth of Levilia ... the

past scenes clearly emerged.

The other dream was illusory and vague. It seemed that Xu Zhengjie's experiment went to the end, and it seemed that something went wrong.

At that moment, her eyes seemed to be full of dazzling light, shining so hard to open her eyes.

When she opened her eyes, she saw an old man vaguely, uncut, and could even be described as sloppy.

However, the front face was blurred, and he couldn't see clearly.

Only know the outline.

If Levi Garrison knew about Zoey's dream, he would be surprised.

Because the old man is his cheap master!

That's right!

Zoey is still alive!

It was Levi Garrison's master who saved her!

The energy bombardment caused by the collision of four super-energy particles could not handle Levi Garrison!

Only his master's level can retreat in this kind of energy collision!

And successfully rescued people!

It shows how strong this old man is!

Abruptly being able to withstand this kind of energy bombardment...

unimaginable!

How strong is he?

"Wake up, wake up!"

Zoey was in a daze, feeling someone shaking her vigorously.

When she opened her eyes, Wen Lei's beautiful face caught in her eyes.

She looked around and found that she was in an abandoned factory building.

Wen Lei was wearing worn-out protective clothing, densely packed with small holes.

“What happened?”

Zoey asked.

Wen Lei told Zoey about starting the particle collider after she was unconscious.

“Then why are we still alive? Impossible! We are ordinary people, how can we survive?”

Zoey dyed his face puzzled.

Wen Lei also nodded: “Yes, we can’t survive! But I had a dream, and dreamed of an old man...it seems to be...”

“What? You dreamed it too? I dreamed it too! That might Not a dream! It’s true

It happened! “

Zoey exclaimed.

Wen Lei’s expression also changed: “So, we were saved by this old man!” We are not dreaming! “The

two were filled with astonishment.

What kind of existence is this capable of saving both of them in that situation?

Horrible!

Unbelievable!

“Miss Wen, are you not injured?” I think you are embarrassed! “

Zoey asked concerned.

After all, Wen Lei’s protective clothing is going to be broken.

Wen Lei began to look at herself carefully, and then turned around.

“I’m fine! Not only is it okay, I also feel full of power! Ah! “

Wen Lei also slammed a punch.

“Boom...”

A terrible force tore the ground directly, and a gully one meter wide and several meters deep appeared, and it continued to spread out, on the foot. A hundred meters before stopping.

“Boom! “

This abandoned factory building collapsed in an instant...

A big crack of a hundred meters long appeared in front of the two of them. They

looked silly!

Both of them looked dumbfounded!

Especially Wen Lei looked at her fist incredibly! The

same as before. Ah, it doesn't make a difference.

How could it have such power?

“Boom! “

She tried to punch the air boom.

The results came thunder thunderbolt movement, and clearly see the air pulled out a long blast come.

As exaggerated takeoff with the plane!

“This...”

Wen Lei's face was full of incredible.

She is an ordinary person.

how come?

Like Xu Zhengjie, particle collisions gave her terrifying superpowers.

She studies science and knows more than ordinary people.

Many superpowers in the West are either awakened from childhood with talent or genetically modified.

In another case, the experiment failed and the superpower was accidentally obtained.

"How about you Zoey? Try it!"
