The Return of the God of War [The Protector] Chapter 1981

The Death Swordsman exclaimed.

The others reacted one by one!

It's a pity it's too late!

Levi Garrison, who had clearly abandoned He Qingxue, rushed towards them, suddenly disappeared from the same place!

He turned back!

He used He Qingxue as a bait to seduce the fish to the bait!

He's another killer! ! !

He Qingxue, who was originally cumbersome, can also become bait in his hands!

Half of the warriors in Dongdao, the undead warriors and the tall warriors all killed He Qingxue.

After turning back, Levi Garrison suddenly appeared behind them!

"Boom!"

"Boom!" The

undead warrior and the tall warrior were hit hard and flew out.

"Puff!"

"Puff!"

……The

other five East Island warriors were slightly weaker, all of them were cut through their throats by Levi Garrison with a broken Beiming sword and died on the spot!

The tall hill-like warrior was also hit hard. He didn't have a super healing power like an undead warrior.

This time, they lost a lot!

But this is only the beginning!

Levi Garrison didn't give everyone time to react, and he turned back, but he appeared again in the front.

There are five Toshima samurai who have been targeted by him!

Levi Garrison came back again this time and caught them off guard.

"Puff!"

"Puff!"

"Puff!"

……

Although they have the level of a master in the big summer list, they are still much worse than ShangLevi Garrison.

The North Ming Sabre once again took off and killed the five great warriors!

"This…" The

leaders of the East Island forces who saw this scene were so angry that they smashed the table.

At this time, they will lose half of their strength!

Levi Garrison is really hard to deal with!

Even Richard didn't smile anymore.

I thought that Levi Garrison would be crushed all the way, but now it doesn't seem to be the case.

Levi Garrison could even fight back!

This is something they never expected!

After doing all this, Levi Garrison quickly retreated to He Qingxue's side.

He never thought of solving so many masters at once.

That is unrealistic!

Totally impossible!

&   "Kill!" The

death swordsman was holding two beam swords to kill Levi Garrison!

The sharpness of these two swords is that Levi Garrison has to avoid it!

If he insisted, he would also be injured.

Levi Garrison quickly dodged and retreated.

"Buzzing…" There was

a sound of mechanical rotation in the air.

That is the armor of the mecha warrior in action!

I saw energy accumulating on his right arm, flashing electric lights.

According to the starting device and power device of the mecha device on his body, it is of aerospace technology level.

The rear wing ejects terrible arrogance and provides terrible power!

The power of the instant activation is almost comparable to the moment of rocket launch…

"I'm coming!" The

mecha warrior slammed a punch from midair.

The Death Swordsman quickly drew away!

The punch of the mecha fighter is really terrible!

"Boom!!!"

Just start it, spewing terrible exhaust gas, forming a whirlpool in the air!

The power of this punch is astonishing!

It turned out to be a breakthrough five times the speed of sound! ! !

This is the fastest punch Levi Garrison has ever encountered!

It was already the limit to be able to break through three times the speed of sound before!

This time is five times the speed of sound!

The power can be imagined!

Modern technology is so strong!

Raise an ordinary person to this level!

Levi Garrison couldn't evade at all, and could only bite the bullet to receive this devastating punch!

"boom!"

Levi Garrison also blasted a punch that broke the speed of sound!

"Bang!" The

two fists slammed together.

This collision was an upset, and the sun and the moon turned pale.

"Kacha!" The

earth cracked a rift valley directly, reaching a depth of hundreds of meters.

"Sneez!"

Everything around him fell apart like being destroyed by a tornado.

"Boom…"

The sea next to it was tumbling with a hundred meters of huge waves… The power of

destruction was terrifying!

After a punch.

Levi Garrison keeps backing away!

"Not good!!!"

Levi Garrison sensed that the person who had been staring at him secretly was about to take action…

The Return of the God of War [The Protector] Chapter 1982

This is the deadliest!

The moment the god of war knocked Levi Garrison back with a punch, someone secretly shot.

"Wow!"

"Wow!"

"Wow!"

… It

was a trail of afterimages, passing in front of people's eyes.

In an instant, five black shadows appeared on the left and right of Levi Garrison's head!

All kill him at the fastest speed!

Levi Garrison understood that this was not an illusion created by witchcraft, but a real existence!

Doppelganger!

It was a clone created by someone with speed or magic fighter!

Oni Samurai is ready!

The leaders of the East Island forces clenched their fists tightly, and the Oni Samurai was the most grabbing trump card among their forces.

Oni samurai is not only the master of Higashishima Kendo!

Mainly, the weird ninjutsu and special strange techniques he cultivated, making him top-notch in all aspects of speed and physique!

The most terrifying thing is that his body is like a ghost, and he can split into clones.

Like ghosts!

This is where he is best!

He has been hiding in the dark for a long time.

Finally let him seek the best time!

He shot!

The five clones of Oni Warriors kill Levi Garrison together!

The five clones held a black samurai sword and stabbed them at the same speed!

So that Levi Garrison couldn't tell which one was the real body at all!

If the judgment is wrong, it will be fatal.

Not dying is a serious injury!

Oni samurai is not easy to make a move, one move is a killer skill!

The five clones of Oni Samurai are also extremely fast!

So that everyone present could not tell the five figures, which one is the real body!

In an instant, the five figures approached Levi Garrison at the same time!

The terrible thing is that the five figures are combined into one figure!

"Puff!!" At

the moment of integration, a knife pierced Levi Garrison's throat!

Everyone was stunned!

Oni samurai is really amazing!

One shot, Levi Garrison would actually be killed!

terrible!

Levi Garrison got pierced through his throat like this?

"Successful! We succeeded!!!"

   &   The East Island forces shouted in exclamation one after another.

They stood up and celebrated.

But Richard looked serious.

He noticed something unusual.

"No! This trick is horrible! But for Levi Garrison at most, it is impossible to get a pierced throat! There is a problem! Attention everyone!"

Richard quickly reminded.

Oni Samurai himself was the first to discover the anomaly!

He felt that he had just stabbed a lonely one!

Obviously it penetrated people's throat, but it didn't seem to hit anything!

No feeling of stabbing anything in kind!

not good!

In the next second, Levi Garrison in front of him disappeared!

This is also an afterimage!

It's not Levi Garrison's real body at all!

This is the afterimage left by the speed limit, deceiving people's brain and eyes!

The afterimage he just pierced through was a residual image after all!

Levi Garrison was gone long ago!

Others also reacted one after another!

The ghost clone!

This is a stunt that Levi Garrison has used several times!

Now that Levi Garrison's strength is getting stronger and stronger, it will naturally become more and more terrifying when used.

"Boom!"

Levi Garrison punched out the instant the Ghost Warrior realized it.

"Puff!" The

Oni Samurai was attacked instead.

"Go!" The

Death Swordsman and the others rushed forward and immediately killed Levi Garrison.

The mech warrior immediately activated the aircraft and turned into a flash of lightning to rescue the ghost warrior!

Everyone was terrified!

Until now, no one dared to despise Levi Garrison for half a minute!

He is terrible!

Such a luxurious lineup can be called this way!

He is so horrible!

"The Oni Samurai is exposed, and one of our swords inserted into the heart is lost!"

Richard not only exclaimed.

"No, the real power of the ghost has not yet been manifested!" The

East Island forces said coldly.

"Huh?"

Richard was stunned, and the Oni Samurai really started.

"Levi Garrison, I've long been looking forward to a fight with you!"

The Return of the God of War [The Protector] Chapter 1983

Levi Garrison also saw the true face of the ghost warrior!

He was shrouded in a special black costume, with a biochemical mask on his face, and he couldn't see anything under the mask.

He was carrying a handful of samurai swords behind him, Levi Garrison initially estimated that there should be sixteen!

The whole person exudes a terrifying breath.

Every time he breathed, he made a terrifying sound, like a beast.

"Boom!" A

booming sound.

The ghost warrior disappeared into a blue smoke!

Ninjutsu! ! !

The ghost warrior instantly appeared around Levi Garrison, splitting into eight clones instantly!

"Boom boom boom…"

Eight Doppelgänger took the photo again!

This time it was even more difficult to tell that the figure was real!

Because the heavy palms taken by each figure are powerful!

It seems that his eight figures are real!

There are sixteen palms in a row, endless, palm after palm, one palm is better than one palm!

"Kakcha!"

"Kakcha!"

…The

earth kept shattering.

"Boom!"

Levi Garrison took these sixteen palms with a punch!

The terrible thing is that the palm strength is tumbling, layer by layer, layer by layer stronger!

The 16-fold palm power progressed layer by layer, bombarding Levi Garrison.

"Crack!"

"Crack!"

"Crack!"

……

With each heavy palm bombardment, Levi Garrison took a step back, and with each step, the earth shattered, showing a spider-web-like crack!

The destructive power is amazing!

When Levi Garrison was forced to retreat sixteen steps, dozens of football pitch-sized areas appeared densely like spider webs.

"Boom!"

In a loud boom, this area suddenly collapsed, and a huge pit appeared.

If you let ordinary people see it, you might think that there is a pit from the spacecraft that is visited by aliens.

"So strong!!!"

Everyone couldn't help but marvel when seeing the ghost warrior expressing his power.

Just now they always thought that Oni Samurai would only assassinate!

I didn't expect to come directly to be stronger!

"Sure! It was you before, right?"   Levi Garrison thought of someone staring around the Shenlong Science and Technology Base.

Now think about it, this guy in front of you!

"What are you doing in a daze? Together!" the

Oni Samurai shouted.

The death swordsman and other masters all reacted.

Let's attack Xiang Levi Garrison together!

The eight figures of the ghost warrior are in one, and they follow the others to kill Levi Garrison.

The two sides fought hard!

Levi Garrison was protecting He Qingxue while fighting with many masters!

Also be prepared for secret attacks at all times!

"Boom!" The

ghost warrior changed again, splitting into eight figures, like eight ghosts roaring and killing Levi Garrison.

The Death Swordsman and others also attacked and killed one after another.

The witch on the side tried to use witchcraft to interfere with Levi Garrison.

For a moment, Levi Garrison was in danger again.

Pulling He Qingxue to avoid constantly, several wounds appeared on her body!

It can be described as dangerous!

"Continue to increase the attack! Don't give Levi Garrison a chance to breathe!"

Richard was still commanding.

Everyone of the Death Swordsmen showed their skills!

The witch is also trying her best to interfere with Levi Garrison's mood and consciousness…

"Kill!"

All of the eight figures in the air of the ghost warrior were suddenly divided into two, turning into sixteen figures!

terrible!

terror!

This is the ultimate killing of Oni Samurai!

That is the figure he can differentiate the most!

Sixteen!

In other words, it is twice as strong as before!

Eight clones are enough to make Levi Garrison so embarrassed!

How terrible the sixteen clones would be!

As you can imagine!

"Puff!!!"

Under the siege of many people, Levi Garrison finally couldn't bear it.

Stabbed with a knife by a ghost warrior, blood splashed!

Had it not been for the burden of He Qingxue, Levi Garrison wouldn't be like this.

But there is him!

"Go harder! Kill Levi Garrison directly!"

Seeing that Levi Garrison was forced to the point where there was nowhere to escape, everyone showed excitement.

The Return of the God of War [The Protector] Chapter 1984

Masters such as the Death Swordsman joined forces to attack Levi Garrison with a powerful pressure.

The sixteen ghost warriors found the right time to assassinate Levi Garrison!

The most terrifying thing is the Oni Samurai, his sixteen clones cannot be broken at all!

In other words, it can be broken when one-on-one.

It takes time and patience.

But in this situation, there is no time or opportunity at all.

If it can't be broken, there is always danger!

"Puff!"

"Puff!"

… In the

next few consecutive attacks, Levi Garrison was injured.

Although it was not a fatal injury, it might have caused Levi Garrison to be injured, which was enough to excite Richard and the others.

"Get out!"

Levi Garrison suddenly burst into spring thunder, and terrible power erupted from his body, and shook everyone back!

"Fights are also limited, okay? His mother gave you a face?"

Levi Garrison looked at everyone with cold eyes!

He was completely irritated!

These joint attacks time and time again, attacking He Qingxue time and time again…

These made Levi Garrison very angry.

Bullying is not so bullying…

"Kill! Don't be shackled by him! Don't give him time to breathe!" The

sixteen ghost warriors all killed towards Levi Garrison.

The others also followed, not giving Levi Garrison any chance!

"Isn't it a clone? Who wouldn't be the same?"

Levi Garrison roared.

The ghost clone!

Levi Garrison directly cast the magic shadow clone!

"Wow…" In

front of the ghost warriors, Levi Garrison was divided into two, two into four… eight into sixteen!

Everyone is dumbfounded!

Levi Garrison can also differentiate into a clone like the ghost warrior?

how can that be?

Oni samurai is dumbfounded!

All the masters present were dumbfounded!

Richard and the leaders of the East Island forces who are paying attention to all this are going crazy.

What's going on here?

When they thought that the sixteen figures were already the limit!

Where did you want Levi Garrison's figure to continue to divide!

Thirty-two avatars!

Sixty-four clones!

One hundred and twenty-eight avatars!

&   …

This is actually Levi Garrison's speed and body style reaching the extreme, coupled with the magic of the magic shadow clone, which deceives everyone's eyes and brains.

So that what you see in front of your eyes is one hundred and twenty-eight avatars!

In fact, Levi Garrison was alone…At

this moment, everyone was stunned.

It's this moment!

"Puff!" A

bloody arrow shot soaring, and the witch was killed instantly!

In fact, she poses a great threat to Levi Garrison. As long as she interferes with Levi Garrison the slightest, it will be fatal!

So Levi Garrison killed him first!

"Puff!"

"Puff!"

……The

next one was the tall samurai of Dongdao. He was hit by Levi Garrison seven or eight times in a row!

But his physique is too strong!

He didn't even die!

The next one is Oni Samurai!

Levi Garrison didn't care whether his figure was the real one, they were ruined one by one!

The visual effect of the crowd was that of Levi Garrison's 128 figures attacking the sixteen figures of the ghost warrior.

Naturally it was crushed!

A clone is shattered!

Two clones are shattered!

…

Fifteen clones are shattered!

The remaining real body also suffered heavy losses!

Oni samurai was beaten back to his original form!

It's this moment!

On the ghost warrior's retina, Levi Garrison's 128 clones all killed him!

In the end, two hundred and fifty-six palms came out and patted the Oni Samurai's head.

In an instant, the head of the Oni Samurai was abruptly crushed!

Immediately, the neck, body, and legs…

were slapped into meatloaf by the palm of the hand!

The Oni Samurai was killed instantly!

Levi Garrison's one hundred and twenty-eight clones are integrated into one!

His speed and body style have reached the limit!

Just kill the Oni Samurai in one fell swoop!

This scene shocked the audience!

It's going to be silent for an instant!

"Boom!!!"

But at the moment when Levi Garrison killed the ghost warrior, he secretly shot a few arrows!

Arrows shot at seven times the speed of sound!

"Puff!" He

was penetrated instantly!

The Return of the God of War [The Protector] Chapter 1985

Levi Garrison had been guarding another person secretly and shot.

He is the Dark Arrow from the Lab of the Gods!

The king who penetrates everything with one arrow!

It is said that there is no object in the world that he can't penetrate with a single arrow!

Even the materials of the aerospace industry level can't stop him!

In this regard, the Lab of the Gods has done many experiments!

He was excavated by the Lab of the Gods from a primitive tribe in Western Continent!

He is powerful, comparable to a machine.

One arrow shot, the speed is as fast as lightning, easily breaking through the speed of sound!

His arrow never goes sideways!

More accurate than a sniper!

The person he is staring at will never escape!

Even if it is a strong like Levi Garrison!

After being locked by his arrows, he couldn't escape at all.

What's more, the Lab of the Gods uses genetic technology and super serum plus modern technology to transform and strengthen the comprehensive skills of Dark Arrow!

Such as the strongest hiding technique, assassination technique and so on!

What's more frightening is that Dark Arrow's weaponry is specially made by the Gods Lab!

The materials, functions, etc. are all top-notch!

Especially arrows are the most terrifying!

This is a special arrow created by the Lab of the Gods with a huge amount of money and a huge amount of manpower and material resources!

Not only the top material, but also the hardest alloy, it can penetrate the power of the aerospace industry!

More importantly, there is a design inside the arrow!

The small arrow contains energy compressed to the extreme. When the arrow penetrates the human body, it will act twice in the human body. The compressed energy will explode and destroy everything in the human body!

This is the most terrifying place with one stone!

It is also the most expensive place!

Dark Arrow's crossbows and arrows are all made with huge sums of money!

An arrow may cost tens of millions!

Every arrow must be used on the blade!

Not only that, the Dark Arrow is from the primitive tribe, and he also has special magic blessings on arrows and crossbows.

Makes the accuracy better and faster   The speed is faster and the power is stronger!

There is also to strengthen the body of the Dark Arrow, so that his strength, and the sensitivity of the facial features are greatly enhanced!

Especially the speed he can reach seven times the speed of sound!

Dark Arrow's arrows, accuracy, penetration, and power are all top in the top class!

So it is the best choice for him to shoot the top powerhouse!

Originally, Richard didn't want to expose this card too early, but wanted to use it later.

But in order to kill Levi Garrison, he had to use it!

Dark Arrow has been hiding in the dark without making any moves.

He is waiting for the best time to shoot!

The best time for him to shoot was not that Levi Garrison was besieged by everyone, suffered a lot of injuries, and was in the most dangerous state.

Although Levi Garrison is in a dangerous state on the surface!

But the Dark Arrow understood that Levi Garrison's vigilance was the highest at this time!

Always guard against him!

Even deliberately revealing flaws, deliberately showing that he is about to die!

In order to attract him to shoot!

On the contrary, it is not the best time for him!

What is the best time!

For Dark Arrow, it was the moment when Levi Garrison killed the ghost warrior!

At this time, even if Levi Garrison's vigilance is high, he will relax for a while!

After all, killing the ghost samurai is a sense of accomplishment, even a little bit.

But Levi Garrison is absolutely relaxed…

For this top assassin, psychology is even more important!

So at the very moment, Dark Arrow shot!

He shot five arrows in a row!

It's not arrows, but money!

But what he attacked was not Levi Garrison, but He Qingxue!

This move made Levi Garrison even more passive!

At the critical moment, Levi Garrison immediately went to rescue He Qingxue!

Despite the five arrows at seven times the speed of sound, the Dark Arrowman was still worried, and he shot another arrow!

The first five arrows are a guise!

This arrow directly penetrated Levi Garrison's body, splashing blood!
