

The Return of the God of War [The Protector] Chapter 2046

“Understand, let’s make arrangements immediately! Let the Blackwater Company arrive in Erudia tomorrow!”

Richard groaned, “There is also the problem of Zoey! The Destroyer must not die in vain! The most important thing now is to be able to detect her battle. Strength! She can never be our threat!”

“Mr. Richard, are you afraid that you want to use pure energy to deal with Zoey?”

Someone asked with a smile.

The others immediately followed and said, “Not only that! You should use people

like Lokita and Zhang Wentao, right?” Everyone showed a sly smile like a fox.

After working with Richard for a long time, they have guessed well about Richard’s mind and style.

“Mr. Richard is afraid that he wants to use these Erudia people to destroy Erudia?”

“Of course the premise is that they can be transformed into pure energy bodies!”

Hearing this, Richard just smiled indifferently.

It was indeed his plan.

That’s why he will pay attention to people like Lopez and Black’s family.

In the early stage of the experiment, they have been strengthening their physique and brain.

The purpose is to make the success rate better in the real experiment.

It is best that these people can be transformed into pure energy bodies!

In this way, Richard can use them to destroy Erudia...

“The third round of experiments will begin soon! It is estimated that these people will be able to participate in the fifth round of experiments! I am really looking forward to it!”

Even Richard showed expectation. .

“Brother, when I am strong enough to challenge Tiance Mansion, I will save you!”

Richard thought of his brother who was still locked up in Erudia, and a trace of anger flashed across his face.

...The

next day.

The Beijing circle, that is, the capital circle is boiling.

Because Heishui Company will arrive in Erudia half a month earlier.

Human life, the shadow of the tree!

Blackwater is unique in the world.

The main industries are technological weapons. To put it in exaggeration, they have the world's top technological weapons technology.

To many regional forces!

Be regarded as a god by many people!

Their wealth is an enemy country, the world is leading in science and technology, and they have a profound foundation for hundreds of years...

Whether it is the previous era, or the era of warriors and superpowers.

Blackwater companies are super overlords!

Even in this era of warriors, their status is even more terrifying!

Their black-tech super weapons can only come in handy in this era!

Therefore, no consortium family in the world, no matter which country, does not want to cooperate with the Blackwater Company...

If it can establish a relationship with the Blackwater Company, then it will be the ancestor of glory!

If there can be great cooperation, then it is really a green smoke on the ancestral grave.

In Erudia, the majority of netizens have four young men in their minds.

They are Fang Shao from the Beijing area, and his grandfather is the president of the Beijing Chamber of Commerce...

Wang Shao from the Beijing area, their family's business is mainly real estate, all over Erudia.

Shao Qin from Haicheng Circle is the owner of three of Erudia's six supercar clubs. His mysterious family is Erudia's leading consortium, and he is nicknamed the sea emperor by netizens.

And Chen Shao from Yangcheng District, his family background is mysterious, almost everything about seafood in coastal areas

The Return of the God of War [The Protector] Chapter 2047

As soon as the news that Heishui Company was coming to Erudia to seek cooperation came out, the circles in all regions of Erudia were boiling.

All the hidden wealthy consortia want to cooperate with the Blackwater Company.

Even if it's a relationship, it's good.

No one expected that the four big prodigal sons with poor reputation in the circle would cooperate with the Blackwater Company.

This made Erudia's upper-class circles boil.

Why are they?

In terms of background and strength, the families of these four young masters can only be regarded as medium, but on the bright side, they are relatively well-known.

In terms of skill and ability, these four young masters are recognized as the least in the circle.

Every day can only be a bubble female anchor, show off these wealth.

But Blackwater has cooperated with them.

Soon the CEO of Heishui Company was going to Erudia in person, and it was these four people who received him.

Everyone can only watch, envy, jealousy and hate!

This time.

The family behind the four young masters is exuberant.

Just because the four young masters are famous for their behavior, the parents of the four young masters are controversial in the circle.

Four less often because of being ridiculed

even suppressed!

However, this time the Big Four can cooperate with the Blackwater Company, which is equivalent to a turnaround.

Turn over all their reviews!

Just cooperating with the Blackwater Company is enough to make the Four Great Young Masters be included in the family's glorious list!

For a time, the fathers of the four youngsters praised them.

Give their family all the rights to welcome representatives of the Blackwater Company and cooperate with these things.

Why did Blackwater choose these four people?

In fact, this is all Richard's plan!

In Richard's view, the feasibility of this plan is still very high.

After all, now the eyes of the world are all on the super weapons of the martial arts superpowers.

On the contrary, few people pay attention to secular power and wealth.

In particular, the news of Sun Stone has not spread at all.

Plus, nosy people like Levi Garrison died.

No one cares about this at all.

Wouldn't go deep into it at all.

By the time they reacted, it was too late.

At that time, these production areas were already in the hands of the Blackwater Company.

Everyone can only watch.

Why choose these four people?

Because it's so controllable!

Compared to other people, the Four Great Young Masters have better control and will not be suspicious of them.

In this way, their plan will be easier to implement successfully.

The next day, the passage of Beijing International Airport.

Dozens of Rolls Royce are already waiting.

The four young masters headed by Wang Shao came to receive representatives of Heishui Company.

They are CEO Rex and young boss Jimson.

Jimson was beaten to death by Levi Garrison, and all his teeth were lost. Now Jimson wrapped a mouthful of dentures and his body has just recovered.

He dared to come to Erudia swaggeringly.

After all, Levi Garrison was dying.

Who would dare to move him?

Isn't that looking for death?

When he thought of Levi Garrison, he felt pain all over his body.

The whole person shuddered.

That is a kind of fear carved in the bones.

The Return of the God of War [The Protector] Chapter 2048

Jimson said stiffly, "I'm not afraid, why should I be afraid?"

"Don't say that Levi Garrison is dead, even if Levi Garrison is not dead, I am not afraid!"

“I was not ready last time. He comes to try? See how I let him die!”

Rex smiled, “Just don’t be afraid! I thought you were living in Levi Garrison’s fear!”

“Uncle Rex, you must know that it was I sent the news about Levi Garrison’s stay on Golden Harbor Island to Mr. Richard! So I was credited for killing Levi Garrison!”

“Well, we all understand!”

Everyone has come to the exit of the passage after the conversation.

The four young masters outside were already greeted by the team.

“Welcome Mr. Rex, welcome Mr. Jimson...” As soon as Shao Wang and Shao Qin saw a few people, they immediately greeted them.

“Go back and talk!”

Rex said.

Immediately, the convoy set off.

Bring Rex, Jimson and others to the hotel where they are staying.

It is the most luxurious one of the high-end hotels under the Wang Shao family.

It is not open to the public these few days, and is dedicated to hosting the Blackwater Company.

As soon as the representatives of the Blackwater Company came, countless people followed.

They are very envious of the Four Great Young Masters.

They also want to host the Blackwater Company.

After staying at the hotel, Rex immediately gathered everyone together and began to discuss matters.

Richard gave him the order as soon as possible.

Can't make people react.

“Next, a black male Group will expand cooperation with you! All of our technical support! Origin of raw materials, including but you rely on these bases themselves, which were indicative of the program! You can see for yourself!”

Rex resolutely and begin talking Cooperation.

The four young masters of Wang Shao received a plan one after another.

Although they may not be able to understand, their respective families have sent masters to follow them to help them complete their cooperation.

So the contract plan is for them to see.

After spending a little time, the assistants of the four majors and minor leaders all read the plan and nodded one after another, indicating that there was no problem.

Moreover, the concessions and conditions of the Heishui Group were really unexpected.

Blackwater Group basically makes very little money.

But these assistants are all masters, they know that there are conditions next.

“But we have an additional condition! It’s true that you asked you to build these basic real estate areas, but they must all belong to the Blackwater Company! We can come to the initial capital!”

Rex said the conditions.

The meaning is very simple, they have technical support, and these production bases must become Heishui Company’s.

Hearing this, the four young masters and their entourage smiled.

That’s right!

If the Blackwater Company simply makes profit, it will make everyone think that they have problems and conspiracy.

Now we need the origin of these new energies to suit them.

But for the Four Great Young Masters and their families, this is simply trivial.

They only want to cooperate with the Blackwater Company. As far as profit is not profitable, there is no

The Return of the God of War [The Protector] Chapter 2049

Just buy these production areas and put them on the head of Heishui Company.

Then it will always belong to the Blackwater Company.

Even Tiance Mansion could not do anything about it, and there was no reason to do it.

Unless the place of energy extraction is completed

back even know the sun is stone, and there is no way.

“Very well, I like to deal with people who are efficient!”

Rex smiled.

Jimson also smiled and said, “This will allow more cooperation in the future!”

Hearing this, the Big Four became more and more excited.

They must work hard to become the spokesperson of Heishui Company in Erudia, and even the spokesperson of Dongfangzhou as a whole.

Thinking of this, the four are full of enthusiasm.

“Don’t worry, this thing must be done!” The

Four Young Masters immediately went to do it.

They also wanted to sign the contract immediately and really cooperate with the Blackwater Company.

At that time, their status in the family and in the circle will also be greatly improved.

Show those who look down on them and laugh at them.

They are already on the blackwater company list.

The Blackwater Company’s need to cooperate with the four young masters was a big issue in Erudia.

Of course Levi Garrison knew.

The Suzaku of the Five Great Wars King was sent by him to collect various intelligence materials.

Now, Suzaku has placed in front of Levi Garrison a sample of the contract that Heishui Company and the Big Four will sign.

“Boss, the four young ones have gone to buy these six sunstone production areas overnight. No surprise, they will be able to hand over the six production areas to the Heishui Company tomorrow!”

Suzaku said.

“Um.”

Levi Garrison nodded.

Ye monarchs looked at data laughed “It happened ah, this is actually six Wen Lei family?”

“Yes, yes. There are a lot of text home laboratory, they store a lot of experimental field! This is exactly what they are six
!” “

but the strange thing is the text of the home did not find Sunstone, otherwise it six Origin else, forget it! “

Suzaku said.

Levi Garrison sighed, “After all, it is the Lab of the Gods, maybe the Sun Stone is no different from ordinary stones to others, but after they are developed, it is the greatest energy source! This shows the power of the Lab of the Gods!”

“Boss, I have budgeted. If we make a move ahead of time, we will completely cut the beard before them! Buy the six origins in advance!”

“And compared to the Big Four, Wen Jia is definitely more willing to sell the place to us!”

Suzaku looked worried.

Levi Garrison smiled and asked, “How much does it cost to buy all the six production areas?”

Suzaku replied, “The Four Great Young Masters have prepared a full 100 billion! This price should be completely won!”

“Then why should I spend such a waste of money? What? One hundred billion, what’s wrong with it?”

Levi Garrison said.

Suzaku looked surprised, “The boss said we didn’t stop it? Let the four major generals buy the six production areas to the Blackwater Company?” The

others also looked anxious.

If it really becomes the Blackwater Company, then others will have nothing to do.

Can only watch.

After all, we must take into account the reputation of the great powers.

Especially Erudia attaches great importance to it!

It was difficult to stop at that time!

Levi Garrison watched

The Return of the God of War [The Protector] Chapter 2050

Suzaku glanced at Levi Garrison and smiled and said, "The boss meant this-don't stop them from acquiring these six plots, and give them all!"

"But how can this be done? What culprits can't be allowed by our Erudia stuff Take it away!"

Everyone started shouting.

This matter firmly disagrees.

"Calm down first and listen to me. If we stop now, there is a high probability that we can prevent success! But if we don't say anything about it, it may also anger the Blackwater Company and the Lab of the Gods, and unexpected bad things will happen.

Besides, for now, come here. Said that although we know the sun stone, what is the real sun stone, has anyone seen it?"

Suzaku asked.

Everyone shook their heads.

Even Levi Garrison didn't know what the sun stone looked like.

It is estimated that in the world, no one except the laboratories of the gods knows exactly what the sun stone looks like.

"So even if we stop it this time! The Lab of the Gods will come and steal it. After all, only people know what this thing looks like, and people know how to mine it. It's useless to give it to others!" The

others nodded.

It is true.

Mining is also a technical activity.

Perhaps it can only be achieved by other people's technology.

"So, what does the boss think?"

Everyone looked at Suzaku expectantly.

"The Sun Stone is no longer a secret, so sooner or later, it will be mined. It's better to let the Blackwater Company mined all of it..."

Suzaku had already smiled like a fox.

"What then? Didn't the Blackwater Company transport all the Sun Stones back to the Warhawk Nation?"

"Then it's very simple, we'll take them all in half! Don't even think about leaving the Sun Stone from Erudia's land!"

Suzaku smiled.

Levi Garrison, who was on the side, corrected and said, "What to snatch it, is it to take it? My Erudia's things, I take it as I want!"

"Puff!"

Everyone almost laughed out loud.

So this is Levi Garrison's plan? ? ?

That's wonderful!

I allow you to buy the land, and I allow you to mine it even more.

But the Sun Stone is half of it, don't even want to take it from Erudia!

In fact, in the final analysis, the laboratories of the gods don't want these six pieces of land. What they want is the sun stone.

In fact, to stop coming and stopping is to stop the sun stone.

Levi Garrison didn't need to do anything else, as long as they waited for them to mine the sunstone, he would "rob" all of them.

Isn't the goal achieved?

Everyone immediately understood the reason why Levi Garrison didn't move.

It turned out to be so.

"But is this a bit bad? After all, they are legal and reasonable..."

everyone said.

Levi Garrison sneered, "According to that, I'm still dead. Just push on a dead person!"

"Hahaha...the boss is wonderful!"

Everyone exclaimed.

"Okay, don't have to do anything now. Waiting for them to mine the sun stone quietly, we just need to rob!"

Levi Garrison arranged.

“But, they want to buy these six pieces of land, it’s not that easy! Suzaku, make it more difficult for them!”

...

In addition
