

The Return of the God of War [The Protector] Chapter 2056

For some reason, Richard was a little flustered.

“Understood!” The

subordinates immediately contacted Akers.

It’s just that there is no signal, let alone a reply.

What’s more frightening is that any signal from this ship is gone.

It seems to have disappeared.

“Mr. Richard’s big business is not good!!!”

“The Battle Gold has disappeared! There is no contact at all!!!”

... As

soon as the news came out, Richard and everyone was shocked.

“What? The War Gold disappeared?”

“How is this possible?”

Richard looked incredible.

Could anyone really dare to touch this batch of things?

“I just checked. The Battle Gold has lost its signal since last night, but everyone didn’t treat it as the same thing and didn’t check it!”

...

“Last night???”

Richard was furious.

I thought it was stable last night.

Where do I want this to happen.

Richard hurriedly asked, “Can’t I get in touch with Zhanjin? Can’t I get in touch with Ax?” He

shook his head. The gold number really disappeared!”

Richard ordered “Check the chips on Van der Seck and the others, and determine their location!”

“Well, you need to enable permission to view this!”

“Latest news!!! Escort! All the chips in the bodies of Van der Sek and others in the team failed! They were all dead! None of them survived!”

In the escort team, there are twenty powerhouses related to the Gods Lab.

Everyone has a chip implanted in their body.

Now the chips have failed.

The proof is dead.

“Boom!”

Richard was shocked.

The whole person was dumbfounded.

All the masters of the escort team died.

That means that the entire army of the War Gold was wiped out... The

Sun Stone is also almost impossible to protect.

“Who? Who dares to oppose the Lab of the Gods?”

Richard snarled up to the sky.

He believes that no one has done anything in the most dangerous area of Erudia, but he believes that something has happened in the safest place.

who?

Who the hell is it?

Don't you ignore the announcement and force the things in the laboratory of the gods?

"Look, look for it right away! Even if the War Gold is destroyed, you must find it!"

Richard immediately dispatched dozens of super aircraft to search for the War Gold.

About an hour later, news came.

The War Gold was discovered somewhere in the sea.

Most of the ship was damaged, and there was not a single mouth left on the ship.

All the sun stones were also robbed and disappeared.

In terms of time, it happened about seven hours ago.

"Boom!!!"

Richard backed back again and again, almost fainting to the ground.

Not to mention the huge number of sunstones mined in this batch, the key is that someone dares to move!

The loss is too great! ! !

“Who? Who is it?”

“Check,

check it out for me!” “You have to find out!”

...

Richard was crazy.

“Mr. Richard, do you think Erudia did it?”

Someone asked.

“If Levi Garrison is alive, it must be Erudia! But

Rex almost fainted.

“Is there anything else? Who is so bold?”

“I don’t know at the moment, listen to me, continue to mine, and mine the second batch at the fastest speed! Hurry up!!! You stare at it yourself! Absolutely can’t get out. A little problem!”

Richard urged again and again.

Rex ignored the others and immediately put on his clothes.

Simultaneously notified Jimson and the Four Majors.

These five people hid all night last night and hadn’t slept for long.

But after receiving the news, all of them were completely distressed.

All were awakened.

The four young masters learned what was being transported last night.

But it’s a matter of interest, they are on the side of the Blackwater Company.

They were also shocked when they learned that something had been robbed.

“Everyone immediately stare at me!”

Rex shouted.

Upon receiving Richard's task, a few of them immediately started at the mining.

The first batch has problems, and the second batch must not have problems.

...

Just as Richard sent all the resources to investigate who stole the Sun Stone, he also ordered that all news be temporarily blocked.

The news of the Sun Stone cannot be known to the whole world.

After all, the Sun Stone is currently the top secret of the Gods' Laboratory, and few people know it.

But at this moment, someone posted a message on the dark web and was shocked! A batch of sun stones mined by the Blackwater Company of the Gods Laboratory from Erudia was robbed by mysterious forces... As

soon as the news came out, the whole world was boiling.

atory of the gods was robbed.

They all turned over with joy.

Time passes by one minute and one second

The first point of shock is what is the sun stone?

What is the mysterious force that shocks the second point? Even dare to grab things from the Gods Lab?

.....

Someone soon found out what sun stone is, and currently only the energy materials found in the laboratories of the gods.

This energy material is unprecedentedly strong!

It is the substance with the strongest energy found so far!

The source of energy supplied to the Gods' Laboratory over the years is the Sun Stone!

This time, the Lab of the Gods was forcibly appeared in the public's field of vision...

Someone directly rendered the Lab of the Gods as a terrifying force...

and some people directly pointed out that Levi Garrison and others were killed by the Lab of the Gods.

...For

a while, everyone was cheering that the mysterious forces had robbed the sun and stone calamity!

But I was also lamenting that the courage of the mysterious forces was really too great.

Apart from Levi Garrison who openly opposed the Lab of the Gods, they were the second.

This is ground breaking on Tai Sui's head!

Everyone wonders who this mysterious force is?

To say this, Richard and the Lab of the Gods want to know who it is?

To grab the Sun Stone is to grab the future of the Lab of the Gods and the lifeblood of the Lab of the Gods.

They are not in a hurry!

...

Who is the happiest to say that the sun stone in the laboratory of the gods has been robbed?

That must be Erudia's side.

Tiance Mansion and Messiah regretted what they had done a moment ago.

Sigh that everything is too late.

Can only helplessly watch the Lab of the Gods mining on the land of Erudia.

But helpless.

Unexpectedly, the next moment, I heard the news that the sun stone in the labor

The Return of the God of War [The Protector] Chapter 2058

“What way?”

Everyone looked over.

Richard looked serious, “Wait for them to take action again!”

“Now we have no clues about their information, we have no breakthrough at all, just like a headless fly!”

“Even with our strength, we can investigate. Less than the slightest, it shows that the other party has a great background and a little ability.” The

others agreed, “Yes, that’s right! The other party can steal the sun stone silently, there are definitely two brushes.”

Richard took it. The topic “So we can’t find it! Unless we search every corner of the world, but that’s impossible!”

“Now we have to wait for them to show up and wait for them to leave clues. To catch them and dig them out!”

Richard cleared his throat. “I have arranged for Rex and them to mine the second batch of sunstones and transport them again one day later! I will escort them along the way, and I will see them still Can you grab it?”

Everyone nodded, “The plan is good! Transport the Sunstone again to see if they still can’t make a move! Once they make a move, they will be completely exposed! We will uproot them at that time!”

“Yeah, everyone ! Start preparing! Let’s see where it is sacred in a day?” Richard’s brows twisted into a sacred word, and he said, “But it is also possible! They just want to grab the sun stone once! After all, that batch of sun stones The energy is huge, and for most forces, it is enough for a lifetime

.”

“So it is possible that they will not appear at all, and we can’t wait!”

...The

others were silent.

This is really the case.

“So tomorrow they will know whether they want to prevent the Sun Stone from leaving Erudia, or simply want to rob the Sun Stone.”

Richard smiled, “I hope they are trying to prevent Sun Stone from leaving Erudia...”

...

Richard quickly planned everything.

The enhancement of the transportation escort and the blessing of various instruments.

There are inspections everywhere along the route, as well as various unmanned aerial vehicles and various advanced technology applications.

Once a problem is discovered, the support team will arrive within a few minutes.

And this time, Richard asked Rex to mine only one day's amount in

order to attract people, not really want to transport so much.

On this day, the eyes of the whole world are on the laboratory of the gods.

In particular, no mysterious forces can be found, and all parties are slandering the laboratory of the gods.

However, Richard let the mining continue again, and this plan is clearly tempting.

Everyone knows it well.

Levi Garrison and they naturally knew all this.

Suzaku's real-time intelligence transmission, Levi Garrison is reading everything.

"Boss, Richard's second transportation is to get us out! He must have laid a net waiting for us!"

"I suggest giving up this time! Anyway, they only mine one day's sunstone, not many!"

...

Several people suggested.

Levi Garrison glanced at them, "Did I say that they never wanted to take a sun stone from Erudia?"

The Return of the God of War [The Protector] Chapter 2059

The eyes of the world are focused again.

Everyone wants to know whether the mysterious forces will make another move.

The major forces in Erudia hope that the mysterious forces will take action, and they least want Erudia's things to be taken away by others.

Richard wanted them the most so that he could catch them all in one fell swoop.

I have to say that Richard is an old fox.

In addition to laying out the net, he also deliberately exposed some gaps.

If the transportation team is extremely defensive, then the opponent will never have a chance to take action, but will not be exposed.

So Richard deliberately exposed flaws along the way or in other areas.

It is convenient for the mysterious forces to invest, thereby robbing the Sun Stone.

Only then can they have a chance to catch these people.

On the other side, Levi Garrison received the news of the departure of the transportation team.

“Okay,

let’s start!” Levi Garrison ordered.

“The boss is still a bit wrong, we rushed to take action , we will definitely be targeted.”

...

Some people think it will be exposed, so they don’t agree with Levi Garrison’s actions. Levi Garrison smiled. “Do you think that Richard wanted to attract me to show up. Didn’t I expect it in advance? To be honest, I thought about it once before the first start. We just need to do it, and the next one will be difficult. I’ve been prepared long ago

.”

“So that’s the case, then we can rest assured.”

“This time is the time for us to show our strength!”

Levi Garrison’s mouth showed a smile.

...

This time the transportation team is no longer so relaxed, there are no drinking and dancing.

I'm afraid my life is gone.

Everyone is extremely vigilant.

Waiting for the danger to come.

Richard has always kept in touch with the transportation team...

every minute has passed, but for Richard and the others, every minute is as long as a century.

One hour.

Two hours.

...

Seven full hours have passed.

The person still didn't show up.

Everyone panicked.

Everyone's first thought was that the mysterious force simply disappeared.

Even Richard began to doubt.

“Are they really not showing up? Don’t they want to stop the Sun Stone from leaving Erudia, just to grab energy?”

“Don’t, you guys show up, or I can’t find you.”

...

Richardt Started to panic.

He very much hopes that the mysterious forces can make another move.

“The transport team keep going! You show up, show up!”

Richard prayed.

Time continues to pass.

It’s been eight hours.

There is still no movement.

None of the tests arranged by Richard found any abnormalities.

There was no movement along the route.

Erudia, who was worried, was gradually disappointed.

They especially don't want the Sun Stone to be taken away by the Gods Lab.

But now the mysterious forces have been slow to take action.

That proves to be impossible.

With the addition of Richard's arrangement of the net, the fool would touch this mold.

In the future, everyone can only watch the Sun Stone being taken away a little bit.

...

"Is it really a simple robbery

The Return of the God of War [The Protector] Chapter 2060

The news came suddenly and everyone was shocked.

Richard was refreshed in an instant.

The whole person stood up immediately.

"What happened?"

Richard shouted.

“Mr. Richard just now we discovered that the signal from the No. 18 sea area detection station is gone!”

The personnel of the general control room sent a message.

“Huh? Quickly check what’s going on?”

Richard had a bad premonition passing through his mind.

“It’s not good, the signal from the sea area inspection station No. 19 is gone!”

“The signal from the sea area inspection station No. 20 is also gone!”

“No. 17 has disappeared too!”

“No. 16 has disappeared too!”

“No. 15! “

No. 14!”

...the

next second, alarms sounded everywhere in the master control room.

The 30 sea area detection stations that Richard arranged all lost one after another.

“Boom!!!” The

news was like a broken bomb, and the bombed Richard and others were out of breath.

The bad news came one after another, and the psychological endurance was almost impossible, and it was estimated that he would be frightened and fainted on the spot.

“No, no! All the 78 unmanned aerial vehicles we sent out were destroyed!!!”

“Our potential subsea instruments are also malfunctioning!”

“No, all our instruments are abnormal! There is a problem! Alarm! , Alert!”

...

No one thought that this was just the beginning.

One big thing after another!

But it's not just a problem with the equipment...

“No, the first team we ambush has disappeared collectively!”

“The second team is also missing!”

“The third team is also missing!”

...

Richard arranged a total of Eighteen super teams lie in ambush in the sea or surrounding islands. When someone shows up, these teams will be dispatched immediately.

But now all of them have disappeared.

“Not only that! All the chips implanted in their bodies have failed, which means that everyone is dead! No one is left!”

Another bad news came.

Doesn't it mean that all the 18 teams in ambush died?

This is the main combat power arranged by Richard.

All dead?

Don't even give me a little time to think?

What level must this be?

How did so many masters disappear in an instant? ? ?

“Boom boom...”

“Boom boom...”

...

At this moment, Richard clearly saw the picture uploaded on the screen.

That is the picture of explosion.

The location is impressively seven islands around the route.

Where there is an airport base, Richard arranged a support team.

Once something happens, these support teams will arrive within a few minutes at the earliest.

But now the seven islands have exploded and bloomed...

none of them was spared...

“Mr. Richard, our support and the island base are all gone! Several islands sank directly to the bottom! Everything is gone!”

...

Richard was silent.

The entire control room was silent.

Everyone was shocked by the bad news again and again.

Nothing can react.

“The big thing is not good!”

“Ship No. 1 is out of connection!”

“Ship No. 2 is out of connection!”

“No. 3 is also out of connection!” <
