

## The Return of the God of War [The Protector] Chapter 2106

“Come!”

Levi Garrison got serious.

From the tens of thousands of people in front of him, he has felt two very different existences from the others.

Whether it is a super power or a warrior.

Both are different from these two people.

How do you describe these two people?

Correct!

Sun Stone!

These two people are pure energy bodies just like the Sun Stone.

There is terrible energy in it.

They can't feel their organs, blood, muscles and veins at all.

Pure energy body?

It seems to be composed entirely of energy.

As expected of Xu Zhengjie!

If this lunatic is alive, it is probably more terrible than Richard!

Fortunately, he died.

Before Levi Garrison could think more, all the masters in the Lab of Gods came up.

Even though there were two pure energy bodies in the battle, Richard was still worried and needed a large number of masters to assist.

Levi Garrison and Li Chengmin joined forces.

I have to say that Li Chengmin has two tricks, especially her control ability, which is simply the nemesis of the superpower.

Always restrain them.

Li Chengmin immediately entangled dozens of masters and shared a lot of pressure for Levi Garrison.

Levi Garrison also fought with a large number of masters.

...

Richard is always paying attention to the situation, and this matter has been fixed immediately, but he still can't ignore it.

But at this moment, he received the news.

People like Sun Stone and Qilin chased and disappeared.

They disappeared completely, no matter what method they used to find them.

"Are those machines?"

Richard asked.

"It's so strange, it disappeared for no reason! The other party's method is a bit powerful!"

Richard thought for a while, and said: "Forget it, according to their strength in the previous few times, this we certainly can not find the time! leave some people still look, another part to Star City! there is a person, we must catch! "

track unicorn Sunstone team of people to return, and the pressure up to the side.

It will be difficult for Levi Garrison to leave when that happens.

Unless abruptly to open a bloody path.

...

Levi Garrison had already fought against the pure energy body in the field.

“Boom!”

“Boom!”

... The

two sides fought back and forth.

Although it is a low-profile version of pure energy body, the power is too fast.

Can actually fight Levi Garrison!

Don't let the wind fall in the slightest!

However, the rest of the masters suffered. Levi Garrison slammed it down with a punch, and they couldn't bear it.

Either the body exploded, or a blood hole was blasted...

even though they were also very strong.

But between Levi Garrison and the two pure energy bodies, it still seemed weak.

Not one level.

If you insist on getting involved in this level of battle, there is only one dead end.

What Richard originally wanted was to use the two pure energy bodies as the main combat power, and the other masters to consume and harass.

Now it seems to be of little effect.

It had little effect on Levi Garrison.

The casualties were heavy.

More and more masters fell.

These people can also stalemate with Li Chengmin.

“Boom!”

“Boom!”

.....

Along with Levi Garrison’s horrible two punches, all those who consumed and harassed him were blown away.

Only two pure energy bodies are left.

“Master, no need to send someone

## **The Return of the God of War [The Protector] Chapter 2107**

“Bang!”

“Bang!”

Levi Garrison was strong enough, as strong as a pure energy body that flew out horizontally under his two punches.

“Kacha!”

“Kacha!”

...

the armor on their bodies burst into pieces.

They backed up hundreds of meters and didn't stop.

A look of hideous pain appeared on his face even more.

This is the first time everyone has seen a pure energy body like this.

Seeing everyone was frightened.

This is too strong, right?

At first, everyone thought that the pure energy body encountered anyone was a unilateral crush and slaughter.

Unexpectedly, this time the opponent is so strong, so that it can suppress the pure energy body.

...After the

pure energy body exited more than 100 meters, it finally stabilized the figure.

But they became weird in the next second.

“Bang bang bang...”

bursts of crackling like firecrackers came from their bodies.

Multiple strengths broke out!

Second strength!

“Bang bang bang...” The

third heavy force!

...

Five-strength!

One heavy force followed by another heavy force completely exploded in the body of the two pure energy bodies.

There were horrible sounds.

And their bodies were blown through thousands of holes, torn apart, and extremely deformed.

This is the second display of Levi Garrison's multiple strengths.

The first time it was to kill the Destroyer, no one knew.

This time it is equivalent to showing it to the world.

Is it amazing to everyone?

There is this kind of exercise?

what is this?

Everyone is unheard of!

Especially the pure energy body can be beaten without the power to fight back!

It's terrible!

Seeing the embarrassed look of the pure energy body, the body is about to explode.

Everyone was dumbfounded.

Could it be that Richard's biggest killer was abused the first time it appeared?

That will become the biggest joke!

Even Li Chengmin was excited.

As expected, Levi Garrison was able to beat Richard's biggest killer.

She became more and more confident about surviving.

No way?

Is the pure energy body going to lose?

Li Shiji looked at Richard.

They are also scared.

If you lose, it would be too shameful.

It's just that Richard had a calm face and said coldly: "Look at it!"

He was surprised only because of the multiple strengths Levi Garrison had just used.

He even appeared in a trance before, what if this person is really Levi Garrison?

But now the doubts are dispelled.

This man used a method he had never seen before.

Exclude Levi Garrison!

...

"Boom!"

Multiple vigors broke out completely.

The bodies of the two have been severely deformed.

Just when Li Chengmin thought he was going to win, Levi Garrison's expression changed: "Not good."

Sure enough, in the next second, the bodies of the two masters deformed and returned to their positions, and the bodily wounds were eliminated one by one.

They are exactly the same as before.

There was no sign of injury at all.

This is the terrible thing about pure energy bodies!

They are energy bodies, not entities.

So the attack is useless.

Only temporarily can suppress them.

“I don’t believe it!”

This time, Levi Garrison took the initiative to attack.

“Boom!”

“Boom!”

... There

are multiple vigors again, this time six vigorous vigors!

The two are still as embarrassed as before, and they will explode when they see their bodies

**The Return of the God of War [The Protector] Chapter 2108**

Such is a rascal!

No matter what method you use, you can't kill them.

Play!

It consumes all the energy to kill you!

What's more, these two are extremely powerful.

Can completely threaten Levi Garrison!

And as it drags on for a long time, the army that Richard brings will all be overwhelmed.

Even the Lab of the Gods will send masters.

At that time, Levi Garrison hadn't talked about retreating all over his body, it was the same thing whether he was alive or not.

If it is dragged by the pure energy body, there will be constant danger.

Seeing that Levi Garrison was about to run, the two pure energy bodies tried their best to entangle him.

Richard sent more people to hinder Levi Garrison.

"Go, strengthen manpower, and take Li Chengmin down!"

Richard wanted to see if the person in front of him would leave Li Chengmin and escape alone.

He sent more people to besiege Li Chengmin.

There are also a few wizards among them.

Li Chengmin can control others, so he does the opposite.

Use wizards to control or disturb Li Chengmin.

Soon Li Chengmin fell into a disadvantage.

“Bang!”

She was beaten and flew out.

Even Li Chengmin felt that she was going to be abandoned by Levi Garrison.

After all, she is a burden in this situation.

...

“Mr. Richard and our people will arrive in three minutes!” At

this time, the army that had returned to press over arrived immediately.

That's all Richard's power.

Although the two pure energy bodies are immortal.

But the main fighting power depends on these people.

When they came, Levi Garrison couldn't escape anyway.

Unless everyone is killed.

But that is impossible.

"Two minutes!"

...

time is passing.

Li Chengmin seemed to be controlled.

Levi Garrison returned suddenly and rescued Li Chengmin.

This woman can't die.

Still useful!

“Hahaha... Now it seems that he is not separating us. They are really a group! But now it’s fine, none of them can leave!”

In Richard’s view, Levi Garrison’s act of rescuing Li Chengmin can only be done. Explain that they are in the same group.

But this is a great opportunity for him.

Levi Garrison dragged a burden, absolutely unable to escape.

“Go on! Take him down!” With

a wave of Richard, everyone went crazy and besieged Levi Garrison.

At this moment, Li Chengmin had been seriously injured and was almost useless.

Only slightly better than cumbersome.

...

“One minute! In one minute, our large forces will arrive! They will definitely not be able to escape by then!”

Hearing the voice in his ears, Richard was excited.

Finally able to catch an enemy.

Grasping one can definitely pull out the entire force.

“Boom...”

Richard’s army was about to arrive, and the voice from far away had already been heard.

The aircraft team has arrived.

Form a blockade in the air.

The same advanced weapons were all aimed at Levi Garrison.

...

“They’re here! We will be surrounded in tens of seconds! We can’t go out at that time, unless everyone is killed!”

Levi Garrison said solemnly.

Now he is not as strong as this laboratory of the gods, so he is not sure whether he can kill it once he is surrounded.

Really not sure.

So try to escape before Richard's army encircles.

## **The Return of the God of War [The Protector] Chapter 2109**

The time until the encirclement of the army is about to count down.

Levi Garrison still couldn't get rid of the pure energy body.

"Hurry up and find a way!"

Levi Garrison shouted at Li Chengmin.

Li Chengmin's face changed.

In the next second, a group of young people rushed out of the crowd.

To be precise, they are boys and girls aged 13 or 4 years old.

That is, the young people of Sanxing Group who are afraid of fear, they are known as the "devil".

They suddenly lost control, and even killed the masters of the Gods Lab.

These young people had never had time to show their strength before.

In particular, they only listened to Li Chengmin.

After Li Chengmin was taken away, they remained still.

Of course, no one in Sanxing Group dared to order them.

Don't dare to provoke.

Plus Richard didn't pay attention at all, so they kept hiding in the corner.

But now after hearing Li Chengmin's order, this group of people actually killed the master of the Gods Laboratory.

This group of young girls is simply terrifying.

Some of the super masters in the Lab of the Gods could not stop them at all.

They soon came to Levi Garrison in front of the two.

They separated six people and actually entangled two pure energy bodies.

This is the opportunity.

A chance to get out!

In ten seconds, Levi Garrison took Li Chengmin away.

At this time, before the army of the Gods Lab was encircled, Levi Garrison still found a gap and rushed out.

The two pure energy bodies wanted to catch up, but they were tightly entangled.

These young boys and girls are all powerful and terrifying.

There were a total of 13 people, and the shots together were earth-shattering, and they suppressed the masters of the Gods Laboratory for a while, including the two pure energy bodies.

Of course, everyone did not react.

Attention was all on Levi Garrison.

Suddenly someone came out, so naturally he couldn't take care of it.

"Huh? This is..."

Richard was stunned.

He didn't expect that Sanxing Group would still exist like this?

Li Shiji said immediately: "Mr. Richard seems to be the finished product of the Magic Creation Project developed by Sanxing Group and the laboratory." The

Gods Laboratory created the "God Creation" project thirty years ago.

Together with Sanxing Group, they developed the "Making Devil" plan.

In fact, it is almost the same as the God-making plan.

It's just that the technology is a little more advanced, but Zhu Shen Lab only provides partial technical support, not all of it to Sanxing Group.

The Gods Lab estimated that the murderous weapons created by the Sanxing Group's Devil-making Project were at best a little stronger than the Destroyer.

How do they know that Sanxing Group's own technology is also advanced, although it has not reached the level of the Gods Laboratory, but it is close.

Therefore, the success rate of the Magic Project is very high, with 13 people succeeding.

And much better than Destroyer.

It's just that Sanxing Group has concealed it itself, including data.

So the Lab of the Gods did not pay attention.

Only the insiders of Sanxing Group know what kind of demons this is.

Too strong, too violent and bloody.

After the initial success, no one can control it.

Almost overturned the Sanxing Group.

Fortunately, Li Chengmin can control them.

Therefore, Li Chengmin also became the leader of the security team.

Know

## **The Return of the God of War [The Protector] Chapter 2110**

“Haha, good! I forgot about him!”

Richard was surprised and delighted.

I thought I couldn't catch up with Levi Garrison.

Unexpectedly, the evil god Huoyun appeared.

Every time Huoyun Cthulhu shows his power at a critical moment!

This time he has done something again.

“I want to owe him a favor! Go catching up at full speed!”

Richard sighed.

After Levi Garrison led Li Chengmin to break through the line of defense, he fled frantically.

Only then did Li Chengmin understand.

It's not that Levi Garrison can't escape, he doesn't want to escape!

He had escaped long ago if he wanted to.

In fact, he stayed to hold down Richard and part of the power of the Lab of the Gods.

To make it easier for others to escape.

Now his goal has been achieved, so he withdrew directly.

It turned out that Levi Garrison was so calm and leisurely in her safe house. He was delaying time and was waiting for Richard and them.

Richard now understands Levi Garrison's purpose.

Just to delay him.

So he couldn't let Levi Garrison go.

Fortunately, there is Fire Cloud Cthulhu!

...

Levi Garrison took Li Chengmin away and asked: "Unexpectedly, you still kept one hand!"

Li Chengmin understood that Levi Garrison meant that when she was captured, he let him lead by the nose.

But in fact, she can control that group of demons to save her.

But she didn't.

It was not until the end that she showed her hole cards.

"I just want to see what you are doing? I want to know who you are! I want to get rid of everything before Richard comes!"

"But I underestimated you, and underestimated your people! Underestimated My position in Richard's eyes! I didn't expect you to be Levi Garrison! By the time I wanted to control everything, it was too late!"

...

After listening to Li Chengmin's explanation, Levi Garrison understood.

She wants to solve everything by herself.

Unexpectedly, the situation could not be controlled in the end...

but the thirteen young people she controlled were indeed terrifying.

Soon Levi Garrison and the two fled out of Star City.

It's very close to the harbour.

As long as he enters the sea, Levi Garrison can definitely escape.

Along the way, the masters of Zhushen Lab and Sanxing Group have met a lot.

But they couldn't stop Levi Garrison's footsteps.

Unless the collective encirclement.

Otherwise, if you stop him like this, gourd baby saves grandfather and sends them one by one.

But Levi Garrison, who was far away, noticed a powerful breath.

It seems to be waiting for him deliberately.

"I'm in big trouble!"

Levi Garrison said in a deep voice.

Li Chengmin looked puzzled: "Trouble?"

"Maybe even more difficult than a pure energy body!"

Levi Garrison's expression became serious.

"Are we detouring?"

Li Chengmin asked.

"It's too late, he's been staring at us long ago! If you go to other places, you may be surrounded by front and back! You can only rush through from the front, and solve the battle as quickly as possible!"

Levi Garrison's face was cold.

When the two came to the beach.

I saw a person sitting on a big rock in front of him.

A black robe covered his face.

It's a bit similar to Levi Garrison's dress.

"This road

is nowhere !" An old but powerful voice came.

It seemed as if thunder exploded.

Li Chengmin's heart seems to burst...the

strong!

Super strong!
