The Return of the God of War [The Protector] Chapter 2290

Seeing the face of the Dark God, Levi Garrison, Ming Xie Shen and others were all shocked.

Incredible!

It's incredible!

female!

The Dark God turned out to be a woman!

Everyone thinks that the dark god is a man!

Turns out a woman!

Outrageous!

It's too ridiculous!

Just because she is a woman, and Zoey has seen her real face, she is very convinced.

But Levi Garrison was also aware of the fact that she was a woman.

The earth sword can merge into the realm of the unity of nature and man, and it must be a woman.

In addition, when the Dark God said that Tiance Mansion was handsome, his tone was a little bit resentful.

This shows that there is a story…

not many people are shocked.

The body of the dark god exploded suddenly!

The power left by Levi Garrison's punch was completely exploded in her body at this moment…

infinite doubts…

filled the minds of the Underworld God and the others.

But Levi Garrison didn't care much!

Who is the Dark God, and what does it have to do with the superintendent of Tiance Mansion? It's a matter of him.

Anyway, he has revenge!

Kill it!

Dyeing for himself and for plum.

The dark god fell.

Levi Garrison's eyes gradually fell on the evil gods… The

evil gods were frightened, but now they calmly looked at Levi Garrison.

Anyway, it's a death.

They also want to be relieved now.

More than 4,000 people died, not a few of them.

"Do you know why I kept you until the end?"

Levi Garrison asked.

"No… I don't know…"

Everyone shook their heads.

"Because you have use value! I want to control the Bible organization! I want to become the new dark god!"

Levi Garrison played with the half-god and half-devil mask in his hands.

The Dark God has never seen her face, and those who have been following the Dark God have never seen her face.

Not to mention that the Dark God is actually a woman.

Now the true dark god is gone.

So everyone can be the God of Darkness.

As long as he has the strength of the dark god, Levi Garrison is much stronger than the dark god.

He came to be the god of darkness, and he couldn't even find it.

Before coming, Levi Garrison wanted to destroy the Bible organization directly.

But after I came, I discovered that the Bible Organization actually has one-third of the world's power.

This is huge!

The layout of the Dark God in the past few years has been like a huge net that weaves the whole world together.

This is useful for Levi Garrison.

He can't do things by himself in the future, right?

Not to mention one-third of the forces!

Think about it, it's exaggerated!

So he temporarily changed his plan to take control of the Bible organization and replace the Dark God.

The Underworld God and the others quickly understood Levi Garrison's intentions.

"Choose! Either follow me or I kill you, anyway, killing you is easier than trampling on an ant!"

Levi approached.

Underworld God and they looked at each other…

just now they wanted to get rid of death.

But now there is hope for life.

Of course they have to choose to give birth.

"We are willing to follow you!"

Underworld God several people compromised.

And following Levi Garrison's more development, right now, this is the most powerful man on the planet, right?

He controls one-third of the forces in this world, that's not bad!

Their future will take off! ! !

Everyone agreed.

Take Levi Garrison into the main control room of the base.

The core secret of the Bible Organization, the password to be opened turned out to be a facial scan.

To put it bluntly, it is the unique mask on the face of the Dark God.

After all, no one can take it off her face.

It is impossible to copy.

Needless to say, the details of the pattern on the mask, the mask material alone cannot be known.

In this way, Levi Garrison controlled the entire Bible organization in the main control room.

Become the new owner of the Bible Organization!

Seeing everything in the main control room, Levi Garrison was shocked.

The biblical organization is really strong, permeating to the point of pervasiveness. it turns out……
