

The Return of the God of War [The Protector] Chapter 2577

People can kill later.

What's more, he broke through to the highest state of Dafa, wouldn't it be easier to kill the three dark gods?

"Okay! Then postpone the day of the decisive battle! When I completely absorb the crystal energy and break through to the highest level, I will come and find the Dark God three!"

Chen Kong looked at everyone: "Because I have something else temporarily with the Dark God! So the decisive battle is delayed. Three days later!" After the

explanation, Chen Kong hurriedly left and went to Forbidden Land No. 76.

I want to quickly absorb the energy in the crystal, and strive to reach the highest state of power absorption Dafa.

Everything else is forgotten.

Does the inscription on the back of the stele have anything to do with him?

Underworld god left with a smile.

shocked.

Everyone present was dumbfounded!

what happened?

Chen Kong suddenly postponed everything?

what happened?

“Ahem...”

Levi Garrison came back from the toilet at this time.

He was actually going to give the Underworld God crystal just now.

Chen Kong was too weak, he didn't want to give it to himself.

This crystal was the remaining one-fifth of Levi Garrison's tempering “Divine Tribulation”.

But this fifth of the energy is also unimaginable in the world.

Seeing how happy Chen Kong got it, I forgot about it.

Obviously the energy contained in the crystal is beyond his cognition... It is

stronger than all the energy he has seen!

That's why he is so crazy!

Of course, from Levi Garrison's point of view, he is too weak to be so crazy!

That's right.

Levi Garrison just disliked him for being too weak.

I want to improve him, and even open the forbidden area No. 76 for him to strengthen.

In order to push his strength to the highest level in one breath!

In this way, Levi Garrison was interested in fighting him.

Not too weak.

Raised to the highest level, at least Levi Garrison can blast out a hearty punch...

Who knows the loneliness of invincibility?

In order to find a decent opponent, Levi Garrison made the opponent stronger at all costs and allowed him to practice to the highest level of Dafa.

No one understands Levi Garrison's good intentions.

In order to have an opponent, hesitate to rack his brains for the strength of the enemy.

One thing-do whatever it takes to make Chen Kong stronger!

“What’s the matter?”
