

# The Return of the God of War [The Protector] Chapter 2650

Ten pass one hundred.

...

Soon the whole college knew.

Thousands of students all gathered together.

The mentors were all taken aback by this battle.

They also gathered quickly.

The students and instructors gathered in the place where the artifacts were stored.

Even the gods of Tiance were dumbfounded.

They also did not release the message that the artifact was missing. Who sent it?

There is a problem with this.

But so many students have come.

At least give them an explanation.

“Teacher, see if the artifact is there...”

Everyone hastened to urge.

Faced with the urging of so many people, the superintendent Tiance could only bring everyone to the laboratory.

The place where the artifact was placed, after the box was opened, there was another weapon in it, not a artifact at all.

Obviously it has been swapped.

At this point, Tiance Shenshuai seemed to understand something...

They were calculated.

“Sure enough, the artifact was lost!”

“Hurry up and find it! The artifact has been contracted!”

...

This time the crowd burst.

In everyone’s mind, this artifact is just like yours.

Lost, absolutely unbearable.

“We must find the person who stole the artifact, and we must absolutely punish it!!!”

Everyone shouted.

“That’s not right! You said yesterday that the mentor, the artifact is definitely not to be thrown away! Unless you are...”

“I think the instructor who guarded the artifact last night had a word side by side, right?”

“Yes, I’m sure! I saw the king guarding the artifact side by side!”

“Now that he is not here, it shows that he is suspicious...”

Someone said suddenly.

Index the flame on Levi Garrison’s body.

“That being the case, let’s go to Master Ye and find out, don’t we know?”

“good!”

Everyone responded.

Thousands of people rushed to Levi Garrison here.

At this time, Levi Garrison had just arrived at the station.

“Teacher Ye, when was the divine tool here with us?”
