

The Return of the God of War [The Protector] Chapter 2679

Seven or eight are most suitable.

“Okay, you guys are going to prepare and report to the dean and them!”

Tiance Shenshuai said.

“Although you have been selected, don’t be proud! It’s just a preliminary screening! Will continue to be eliminated!”

“Others still have opportunities! Entering Kunlun Academy means more opportunities!”

He also comforted others.

Zoey Lopez clenched his fists, a little annoyed.

This time she was not lucky enough.

I feel very upset.

Others who were not selected were also very upset.

“We have been mocking Jiao Tianyu and the others. Now that we can’t make it, aren’t we the same as them?”

“That’s still different! We are just not selected by the strongest! But our tutor is still in the top ten, and we are still strong!”

“They are completely abolished! How does it compare to us?”

...

“Come, come, all the selected people are in line!”

Under the organization of Tiance Superintendent.

All people with blood marks on their faces stand in line.

“Teacher, where are we going now?”

One of the spies Yang Yaofeng asked.

“You can go in this direction, and you will understand when you reach the end!”

Tiance Shenshuai pointed a direction.

“Huh? There? Isn’t there where Levi Garrison and his students are? Where are we going to do?”

Everyone was surprised to find that the direction that Tiance God Commander was pointing was where Levi Garrison was...

Could it be...

Everyone thinks of a possibility!

The dean is related to Levi Garrison?

After all, only Levi Garrison had been to the scene just now, and he had observed them carefully.

If it is him, then everything makes sense.

But they don't believe it!

I'll understand when I see it.

But for the spies, no matter who they are, it will do.

They only need the information of the three dark gods.

Nothing else matters.

Levi Garrison is also good, so are cats and dogs.

As long as you can make a deal.

With a sense of anxiety, the team set off and headed towards each other.

Soon, everyone passed the place where Levi Garrison's students practiced.

Go deep into the snow-capped mountains.

"Everyone is there, right?"

A voice came.
