

The Return of the God of War [The Protector] Chapter 2686

Levi Garrison must know the specific situation of the main divine division, and the combat power must be clear.

Immediately, a few of them returned.

Levi Garrison still caught up.

He wants to find the base of these guys in the capital.

...

Track, track all the way.

Damn it!

Damn it!

Levi Garrison was shocked.

Isn't the guts of the Gods Lab too courageous?

The base in the capital was actually in the most dangerous place-the station of Yanlongwei.

It seems to be the place where Yanlongwei came out, but in fact there is a laboratory of the gods hidden.

They once again explained that the most dangerous place is the safest place!

Not only in Daxia, but also under Yan Longwei's nose.

The highest institution of Daxia!

But think about it!

If the Lab of the Gods wants to continue to develop in Daxia, it must not be exposed.

Must avoid anyone's discovery.

So just build it directly under Yanlongwei's eyelids.

This is equivalent to the existence of the highest level of surveillance.

If even they can hide, then other people will not be able to find out.

This is the power of the Lab of the Gods.

Thinking about it, my scalp feels numb.

There is a huge base hidden under the Yanlongwei station.

An experiment is being carried out every day.

It may still be a ruining experiment.

No one noticed Yan Longwei on the ground.

If they hide here, who can find, who can find?

I don't even think about it at all.

Who is so brave!

This is the Lab of the Gods.

After finding the specific base location, Levi Garrison did not go deep.

If you don't know the Lab of the Gods now, if you are too impatient, you will lose all your efforts if you are found out.

Mr. X couldn't find it.

Doesn't it mean that the main priest will not find out.

Anyway, the location of the laboratory of the gods has been determined, and there will be opportunities in the future.

Levi Garrison left in a hurry.

The next plan is very simple-

First, continue to stare at the base in the capital.

Second, excavate other bases one by one.

...

After all, according to analysis, the Gods Laboratory will not have only one base.

There are everywhere in Daxia.

But now Levi Garrison is a little worried...

Maybe the gods' laboratory has an internal response.

A traitor has emerged from Daxia.

This must be inevitable.

The Lab of the Gods is powerful and wrong.

But such a quiet activity in Daxia.

There must be an internal response.

And it is very powerful, with a very high status.

Fortunately, those with high status knew very little about Levi Garrison's true strength and plans.

Tiance Shenshuai these are still reliable.

Otherwise, it will be a big trouble.
