

## The Return of the God of War [The Protector] Chapter 2690

“As for the weapon that the Gods Lab gave you, my people are still studying it. I have to return it to you after a while!”

Levi Garrison handed the information prepared in advance to Agent Black Hawk.

“Mr. Ye needs to know what, I can click on the side to ask, or try other means...”

Agent Black Hawk is very smart, and he doesn't need Levi Garrison to say, he knows it in his own mind.

Levi Garrison smiled: “I guess you know what I want to ask.”

“It should be asking how to deal with it now that you know who the top three are on the list?

What is the next plan of the Gods Lab? “

Agent Black Hawk said.

“Well, it's wrong! I'll leave it to you!”

...

Shortly after.

Agent Black Hawk contacted the Lab of the Gods and said that he had important clues here.

Mr. X personally chose the location to meet him.

“This is what my subordinates found at the base of the Bible Organization on Apocalypse Island in the Western Continent... Their armors are so strange... I’ve never seen it before... You are so knowledgeable...”

Agent Black Hawk gave the photos and other information to Mr. X.

In the photo and video, in a place similar to a secret warehouse.

There are many weapons on display, as well as a few special armors.

It seems different from what everyone perceives.

Others can’t tell.

But Mr. X can’t see it.

This battle armor belongs to the group of gods in Forbidden Land No. 76.

Exactly the same.

Decades ago, when the Lab of the Gods first explored the forbidden area No. 76, it was the weirdo in this armor that caused the Lab of the Gods to lose so much! ! !

There are some weapons in the video...

Don't think about it!

Definitely the god of Forbidden Land No. 76!!!

This is the cleverness of Levi Garrison.

If other people wanted to deliberately give clues like this, they might pretend to be a few gods from Forbidden Land No. 76 in it.

But that might leave flaws.

So much the better.

Leave it to the Lab of the Gods to reverie endlessly.

Let them analyze for themselves.

No one can easily overthrow what they have analyzed.

This is the cleverness.

"Mr. X, what is this?"

Sombra asked.

He really didn't know what it meant.

“Forbidden Area No. 76, don’t you know?”

Agent Black Hawk nodded: “Well, it’s taken over by the Dark God!”

Next, Mr. X explained what a wave of gods in Forbidden Land No. 76 was all about.

Hearing that, the Black Hawk agent was amazed.

“So...the top three of the current god list and the Bible organization are all the gods of No. 76 forbidden land?”

Agent Sombra deliberately guided.
