

The Return of the God of War [The Protector] Chapter 2711

Levi Garrison had been busy with the safety island. After receiving the message, he realized that the Lab of the Gods had already moved.

The four heads of Yanlongwei asked him to investigate this matter.

He quickly questioned Agent Black Hawk.

The explanation given by the Black Hawk agent: "This is just an advance performance in the Lab of the Gods, to see if these giant creatures can be hidden under the energy power station... Or after hiding, check the energy fluctuations, electromagnetic fluctuations, etc...."

Actually it is not officially started.

It's just an experiment.

Therefore, Agent Black Hawk did not tell Levi Garrison.

It's not that he is selfish.

Instead, I feel that this matter is irrelevant.

It's just that he and Levi Garrison's expectations are more certain.

"I see!"

The same is true for Levi Garrison.

It only confirmed his expectations.

However.

This incident happened to be evidence and showed it to Yan Longwei.

Yan Longwei just asked him to investigate this matter.

“Then what is the result of your experiment?”

Levi Garrison asked.

“After a test, there is no problem...”

Agent Black Hawk answered.

“What about those giant creatures?”

“Let me take care of it in fragments! I am about to deal with it myself! After all, this matter can’t be sloppy...”

When Levi Garrison heard this, he immediately said, “Give me your address, and I’ll be right there! Don’t destroy all the giant creatures! Save me one!”

Shortly after.

Levi Garrison came to the designated place in secret.

All giant creatures are dead, and this is just an imitation, which can be understood as a robot.

There are no other functions, just to test it.

“I need this one... I will take it home first!”

Levi Garrison used a transport plane to transport this behemoth back to Daxia.

“Boom...”

Throw it in front of everyone.

Xiao Liejun and the others were dumbfounded.

“Really are!”

They watched carefully back and forth.

“This is just a fake! It’s just to test some things...”

Levi Garrison explained something.

Until now.

Everyone already believed it.

“There are more clues of this kind. I can bring them if you want! But at that time, if you believe me, it may be too late!”

Levi Garrison said.

Lu Xiong said: “I support you! What are you guys doing in a daze? Isn’t it obvious?”

“What else can you believe?”

Lu Xiong shouted.

The others hesitated.

This is not the first two days.

It’s really substantive content.

It’s not Levi Garrison’s words.

But if you want to agree.

It’s still too difficult.

The power of the whole country.

That's horrible.

They dare not.

Without that courage and courage.

Bet Daxia's fate on it.

Absolutely dare not.

Even if disaster strikes, they fail.

Not willing to start the plan ahead of time.

"Hurry up and speak! Show your attitude! What are you doing?"

"It's all this time!"

...

Lu Xiong urged dissatisfiedly.
