

The Return of the God of War [The Protector] Chapter 2712

The three of Xiao Liejun glanced at each other and said: “Sorry, one word side by side! Although these evidence proves what you said, it is not enough to enable us to start the nationwide plan! Not enough!”

“I understand this! After all, I have to bear too much!”

Levi Garrison nodded.

“But...”

The three looked at Lu Xiong.

“Since we know this is true, we won’t be prepared for it at all!”

“We decided to let Lu Xiong assist you. The city wall can’t be built! However, safe islands and the like can be built! The power of the whole country is impossible! But Lu Xiong can mobilize a lot of power!”

“It is still possible to make the safe island you mentioned! It can play a big role at that time!”

In the end, the three chose a compromise method and made some defensive measures.

But not the power of the whole country.

“OK, alright!”

Levi Garrison agreed.

He brought this giant creature to show Yan Longwei.

Don't ask for the power of the whole country to build a defensive wall.

I want to fight for a strength to create a safe island.

Now the goal has been achieved.

He is still very excited.

In addition, it was Lu Xiong who supported him from the beginning.

They can build hundreds of safe islands...

This reached Levi Garrison's plan.

After Yan Longwei agreed.

Lu Xiong immediately went to make arrangements.

Come and help Levi Garrison build a safe island.

The first step is manpower and material resources. Including machinery and so on.

The second step is to select a site and build the location of the safety island.

The third step is the issue of materials for the construction of the island.

...

Moreover, everything is done in secret.

This means that the difficulty is greatly increased.

Especially the time is short.

Even if Lu Xiong came to help, the difficulty was not small.

But in this respect, after Lu Xiong came, his strength was definitely much greater than Levi Garrison.

The number of islands can also rise.

This is a great thing!

Lu Xiong's execution was very strong, and he immediately started to act.

After Levi Garrison's various investigations.

Hundreds of locations for establishing safety islands were selected.

Seventy islands are located in Daxia, or around Daxia.

The remaining thirty are a little further away from Daxia in case of emergency.

In terms of manpower, Lu Xiong has all the arrangements in place.

A large number of people signed a two-month non-disclosure agreement, and they didn't even know what they were going to do.

Everything needed by a large number of people is also arranged.

The number of machinery to be built, etc., is insufficient.

And Lu Xiong couldn't do it with fanfare.

After Daxia assembled a part, it ordered a part from other countries.

Each country orders a small amount, so that the movement will not be too big, and it will not be doubtful.

As for the materials used for construction, Levi Garrison and his men have found substitutes after researching.

But it is also precious metals and other materials.

Such resources are limited.

Daxia alone is far from enough.

Need to order from other countries.

And it has to cost sky-high prices.

“I’ll fix it!”

“If I ordered under the name of Daxia, they wouldn’t doubt it. They just thought we were building some base!”

...

Next, Lu Xiong used a huge price to order enough resources.

It’s really a big price

After all, such resources are scarce in every country.

If you want to order, you have to pay a lot of money.

Today’s era is more than just money to buy things.

Just like this time.
