

The Return of the God of War [The Protector] Chapter 2718

All the bases on the coastline of Daxia have detected changes in the front!

The frequency fluctuations are particularly severe...

According to this frequency, the body should be huge.

Terrible energy fluctuations were also monitored, as if a tsunami was coming, like a submarine volcano erupting.

“Come! They are here!!!”

“Hurry up and sound the alarm!!!”

“Dididi...”

There were piercing sirens all over the long line of coastal defense.

The sound was harsh.

The defense line entered the state of preparation for the first time.

“Ready to fight!!!”

“The parties are ready to fight!!!”

...

Suddenly, the defenses on the coastline were all ready.

Just wait for the “enemy” to come.

All are serious.

Nervous and excited.

After all, it is an unprecedented enemy, and there is no specific way to deal with it before.

No one knows it.

There is tension and fear!

However, Daxia is a predator, all of them are full of enthusiasm, and are afraid of nervousness, and think of a bloody battle later, there will be battles to fight, all of them are too excited.

The front-line combat headquarters set up by Yanlongwei.

Also received a message from the front.

“Is it so fast? Are we still investigating the three giant creatures that appeared a few days ago? I just found a little brow, and that’s it!”

Xiao Liejun and the others were stunned.

I was shocked too!

“Quick, quick! Let’s go straight to the front line! Inform Lu Xiong! Let him be prepared! No matter how far the island is built, be prepared to respond!”

“In addition, evacuate people as much as possible! Let them prepare to go to the safe island! Especially those within 300 kilometers of the defensive line, evacuate immediately! Let the security team that we arranged in advance take action!”

“Let the reserve team advance fifty kilometers, ready to support at any time!”

“Let the dark whistle and dark team be prepared... they are our bottom line!”

“Tell the information to Tiance Gods and Shuai them! Let them be ready to support them at any time!”

...

“The death squad rushed to the front line with us! Hurry, hurry!”

Several leaders of Yanlongwei personally led the death squad to the front line to command.

For a time, the entire Daxia exploded.

There is chaos everywhere.

But fortunately, preparing in advance can reduce a lot of trouble.

After receiving the message, the Tiance superintendent at Kunlun Academy panicked.

The main Tiance superintendent is the most nervous, and something big has happened.

But Levi Garrison is not here.

Without a backbone, how can we fight this battle?

“Quick, quick! Ready to support!”

The superintendent Tiance first sent the emergency team prepared in advance.

He also hurried to find Levi Garrison.

However, I really don't know where the retreat is.

He could only search for places where Levi Garrison might retreat.

...

Throughout Daxia, preparations were being made for the battle everywhere.

Lu Xiong's safety island is only half built.

But it's needed at this time, he can only listen to the arrangements and prepare to pick up people...

This is not only the case in the waters in front of Daxia.

There have also been abnormal fluctuations in many waters of Western Continent and Northern Continent.

The situation is exactly the same as Daxia encountered.

Fortunately, the abnormality of the previous days made them also prepared and immediately responded positively.
