

The Return of the God of War [The Protector] Chapter 2728

Almost covered the sea.

The Underworld God was surprised: “No? Have you already solved all the Big Macs, have you?”

The words came out.

Everyone gasped.

Ye Wudao and the others were shocked.

Xia Liejun and the others smiled: “That’s right, it’s wrong! We have just solved it! The battle is over!”

“Look here, it’s the giant creature we caught!”

Hong Qingcang pointed not far away.

After seeing the Big Mac, the Underworld God and the others opened their mouths wide, and their eyes were full of weirdness.

this.....

Is this Daxia too powerful, or these giant creatures are too weak.

You must know that after they learned the information, they also came with the determination to die together and not leave the battlefield alive.

As a result, they came to support and they ended the battle.

This is too exaggerated.

They are equivalent to a trip for nothing.

Coaxing to play?

“No, are you too strong, or are they too weak? I didn’t come all the way, but supported? Why don’t you go back?”

Ye Wudao and they were also very depressed.

Originally, during this period of time, he and Ye Lingtian and the others had greatly increased their strength, and they were holding artifacts, wanting to show their power.

Let the world know how good they are!

As a result, there was no chance of performance at all.

Isn’t this pissing them off?

Tiance Shenshuai smiled and said: “You guys are late, you can’t catch up!”

“But tell the truth! A bit weak! We all have lost much!”

“Of course the premise is that when the Yanlong Guard puts all his firepower on, this place has become a sea of flames! It is everyone who underestimates the terrible nature of modern weapons!”

After listening to what Tiance superintendent said.

The evil gods felt that something was wrong.

They couldn't believe what Levi Garrison said.

Levi Garrison said that once such a giant appeared, it would be absolutely catastrophic.

But now the fact is that Daxia Yanlongwei and Tiance Mansion can easily solve it.

Even dispatching a powerful person of the level of Tiance Shenshuai, there is a feeling of overkill.

Where is the problem?

Is Levi Garrison wrong?

They still believe in Levi Garrison.

Absolutely what he said is true.

Then there must be some...

But Ye Wudao and the others are different, and they all have regrets.

It is a pity that they have not caught up with this battle.

“Hey, I thought there was a big battle! We came to support the loneliness!”

“Is this thing so weak? It’s worth so much excitement? Who said this thing is so powerful!”

Ye Wudao asked.

“It was the king who first discovered this giant creature side by side, and he said that this thing is extremely powerful, and it is necessary to build a defensive wall on the coastline of Daxia...”

Someone in Yan Longwei told everyone the matter.

“Hahaha...you dare to believe what Levi Garrison said?”

“It’s strong enough to need a 300-meter wall to block it? Now, didn’t you solve it easily?”

“He’s just alarmist! You really believe it! Coaxing such a big battle! Anti-aircraft guns hit mosquitoes?”

“Everyone must not tell me about this in the future! Otherwise, it will damage my reputation of Daxia!”

Ye Wudao sneered.

Others also echoed: “Yes! The fact that the king predicts the message side by side must not be spread! It is blocked for me!”

But everyone refuted it.

This is the case!

These giant creatures are afraid that they don't even have one percent of the strength that Levi Garrison said.

What he said would become a disaster as soon as it appeared.
