

## The Return of the God of War [The Protector] Chapter 2735

But there are still some secretly built by the Bible organization.

They were dumbfounded.

To build or not to build?

All the troops ran away.

Keep them?

They immediately contacted their superiors, the evil gods, wind evil gods and the like.

Tell them about this.

“You can’t go! A safe island must be built!”

“Listen to our mistake! The safety island is absolutely necessary!”

...

After the evil gods knew about it, they immediately ran to stop it.

Others don’t know.

Can they not know?

This is what Levi Garrison said!

That must be right!

There will be no problems.

Now that they suddenly withdraw, that's no good.

But where everyone in Daxia will listen to him?

They all left without looking back.

“Stop all of us, no one is allowed to leave!”

Underworld gods are really anxious.

Hastily stopped people.

“Hey! There is no way! Now in this situation we can only withdraw...”

“I'm sorry, I can't fight side by side with you...”

A voice sounded.

Lu Xiong came to the court helplessly and apologized to everyone.

In his position, he can't tolerate his arrogance, and can only rely on true evidence.

He himself was helpless.

He believed that Levi Garrison was going to retreat.

Now, even if the people of the Bible Organization say that they are breaking the sky, it is useless.

"Hey, all right! Let's build the rest by ourselves!"

Underworld gods are also very helpless.

But there is no way.

This is the case.

"Well, head Lu, give us the materials and resources that have not been used up, and we will continue to come..."

Lu Xiong looked embarrassed: "Huh? This horror doesn't work! You guys are a step late!"

"In order to reduce losses! All remaining materials, even if they have been processed into semi-finished products, must be shipped back to Daxia. The requirement is to reduce losses at all costs! Even the pots and pans must be brought back. !"

“If it weren’t for the fact that the island has been built in half, it has already taken shape! It is estimated that it will be destroyed, and the substances in it will be extracted and taken away!”

...

Lu Xiong reluctantly left with everyone and a large amount of resources.

The dark gods and their faces changed drastically.

Leave nothing?

All human and material resources should be removed.

“Then what shall we do now???”

Everyone asked.

“Our pressure is even greater, dozens of times greater!”

“Listen to my orders now! Hurry up and continue! Within the specified time, you can build as much as you want!”

“They are gone, we can only do our best!”

...

The evil god looked into the distance and sighed: "I hope that the master will not have trouble before he leaves the customs!"

However, we were supposed to deal with the next thing! The master won't be on it!"

"Once there is danger, we have to work hard!"

Feng Xie Shen and several people are ready.

"Hahaha, Daxia has withdrawn the defensive line! Everything has been withdrawn!"

"They thought it was really over! But the facts are in front of them, and it must be over if it doesn't end."

"I have to say that Mr. X's plan is wonderful!"

The Lab of the Gods got the message for the first time.
