

## The Return of the God of War [The Protector] Chapter 2779

“Choose Daxia! It doesn’t matter if I die! What is the difference between my humble life and the wild dog on the side of the road! You should save Daxia’s thousands of lives! There is no need to consume it with me!”

...

not only.

The big apprentice of the Dark God began to use words to stimulate the gods of the sky.

Tiance Shenshuai’s complexion flushed, and his heart was clearly struggling.

He definitely wanted to return to Daxia quickly and save Daxia from the fire and water.

But here is the flesh and blood, I have been owed all the time.

It’s really hard to choose.

...

The big apprentice of the Dark God has been irritating, and he wants to see the struggling look of the gods of the sky.

The stimulation is getting stronger and stronger.

At this time, the two who captured him couldn't stand it anymore.

What if he really irritates Tiance Shenshuai when he leaves?

This brain damage is still in this constant stimulation!

"Puff!"

They couldn't stand it anymore and gave him a knife directly!

Splashing blood!

"Shut up! Don't fucking talk anymore!"

The sudden knife caught the Dark God apprentice directly stunned.

The opposite Tiance Shenshuai was even more dumbfounded.

Although this knife didn't pierce the vital part.

Can illustrate a problem-they dare to do it!

"Tiance is a handsome man, if you go one step further! I will kill him directly!"

The man said.

At this time, the great disciple of the Dark God stopped talking.

Tiance Shenshuai was also stunned, and he didn't dare to walk around.

He is tethered to death.

He just wanted to leave, thinking that the few people in front of him were acting.

Can be seen after real hands-on.

Only then did I understand that it was not acting.

If they leave by themselves, they will really kill...

Frozen for a while.

He was completely controlled.

This is Mr. X's strategy.

Using the psychology of the two, easily locked the strongest master, unable to support.

...

“Tiance Shenshuai is temporarily under control! He shouldn’t be able to come back before Daxia is destroyed!”

At this time, the message has reached the laboratory of the gods.

“That’s great!!!”
