

The Return of the God of War [The Protector] Chapter 2790

The loss is even greater...

withdraw!

withdraw!

Xiao Liejun and the others evacuated hurriedly.

However, this wave of losses is heavy and it is an unpredictable loss...

Xiao Liejun was about to cry.

Not only the position they held, but other positions on the same front, they all encountered the same attack from Leviathan.

All have been breached.

The real power of Leviathan is reflected!

After this line of defense was broken.

It is equivalent to truly opening the gate of Daxia Country.

Everything becomes simple next.

Leviathans can go north or south.

It can also be advanced in parallel.

Wherever you go, you will surely suffocate life.

The most important level is lost.

“It’s me who doesn’t use it! Everything is my fault!”

The most important level is lost.

Xiao Liejun could not shirk the blame.

He cried directly.

No one knew better than him what it meant next.

This group of Leviathans are rampant, and can be directly pressed to the capital.

If the capital falls...

That’s a big problem.

“Support! Request support!”

Xiao Liejun was crazy.

“Keep going!”

After the Lab of the Gods knew the results, they continued to let Leviathan press on.

This is the proud work of the Dark Doctor, and it incorporates many technologies that are beyond the world in the laboratories of the gods.

There are no shortcomings!

It was dubbed the “Hexagon Behemoth” by the Lab of the Gods!

It means that every aspect is invincible!

“Are there any messages from Maya Industry and the Bible Organization?”

Mr. X asked.

“It’s still useless! It stands to reason that they should have arrived! But now they are still nowhere to be seen!”

The others answered.

“In this case, the more we can explain our guess! They must attack Daxia!”

Mr. X feels relieved.

The intelligence officer asked: “By the way, our people are almost assembled! The secret powerhouses from other bases in Daxia are the only way to gather the reinforcements of Tiance Mansion! Do you want to take action?”

Mr. X looked at the map and finally determined a good location: “Snipe the reinforcements of Tiance Mansion at Langya Mountain in the north!”

The Lab of the Gods not only has a base in Daxia, but also has bases in the north, west, south, and even the waters of the south.

All bases add up to seven.

But what reminded Levi Garrison was that the main priest was not in the capital base.

But in other places.

Although the base in the capital is the headquarters!

Now in order to snipe the reinforcements of the Baolong clan of Tiance Mansion, they have mobilized a lot of powerhouses from other bases of the Gods Laboratory.

Shouldn't have come forward.

But to maximize the effect.

Still used.

Now the Langya Mountain in the north is full of strong and trained dead men in the laboratory of the gods!

Just waiting for reinforcements from Tiance Mansion to come here.
