

## The Return of the God of War [The Protector] Chapter 2854

“After all, we have sent two waves, he must be prepared!”

...

“The current threat to us is still a mysterious place like Daxia, so I must find out where it is!”

Mr. X has suffered a series of losses.

He was going to explode.

The only thing left to do was to suspend the plan to kill Levi Garrison.

Focus on investigating this area.

As far as possible, adjust all the instruments and so on.

“In the seven-day period, there are only two days left! It’s time to show our strength!”

The Lab of the Gods also started to do it.

Suddenly, a dozen super powers were eliminated.

Take out a weapon or a strong man that the world has never seen before.

A random shot caused a huge noise.

This was the first time they felt the power of the Lab of the Gods.

More and more people are scared.

Many hesitated to surrender.

Two days.

Basically, those who could surrender basically surrendered.

Including many small countries, or major financial groups.

All have joined the kingdom of God.

Most of them still don't surrender and choose confrontation.

After all, the world surrendered to a laboratory of the gods, it sounds absurd, they simply can't do it.

However, in order to fight against the Lab of the Gods, everyone united one after another.

Even moving closer to big countries like Daxia and Zhanxiong Nation.

The seven-day deadline is coming soon.

The atmosphere of the war is getting more and more enthusiastic.

Those who have not surrendered are preparing everywhere to build a line of defense.

Because it concerns the destiny of everyone.

No one wants to be sent under the fence.

Therefore, Dongdao and Xingguo chose to follow Daxia.

In the end, Lian Zhan Xiong Guo cooperated with Daxia.

Levi Garrison is tentatively appointed as the commander-in-chief of the coalition army.

After all, at the level of commanding warfare, his ability is unmatched.

So many forces joined together.

therefore.

The line of defense has been expanded again and again, and the scope is as broad as possible, covering as much as possible.

Countries also take care of each other...This line of defense almost stuck directly in the nose of the Kingdom of God.

The interesting point is that in this broad line of defense, the major forces that have surrendered to the kingdom of God are divided into layers.

It means that they are all within the line of defense set up by Levi Garrison.

Just go to war.
