

# The Return of the God of War [The Protector] Chapter 2855

All the forces that surrendered became Levi Garrison's lips.

It can be eaten at any time.

These surrendering forces are not connected from end to end, and they have no legal contact with the laboratories of the gods.

After the war, their role is directly zero.

Levi Garrison's move to lay out the line of defense amazed the whole world.

In particular, the cooperating members of the War of the Bear Kingdom praised Levi Garrison.

I feel more and more that Levi Garrison is right to sit in the position of commander-in-chief!

This trick is really wonderful!

As soon as it came up, first abolish all these doglegs of the Kingdom of God.

When they reacted, they were all trapped.

Even the line of defense was directly on the nose of the Kingdom of God.

It's so subtle and scary.

at the same time.

Levi Garrison ordered people to bombard the entrance of the Atlantis plan.

At this time, members of the Lab of the Gods who were inquiring about this area were bombarded.

One by one, there were heavy casualties.

Greatly disrupted their plan!

Levi Garrison didn't harass them in the first place.

It's when they have a bit of a clue that they start harassing.

This disrupted all their efforts and made them have to start again.

After the beginning, Levi Garrison harassed again when it was about to be effective.

...

So repeatedly.

Make their plan impossible.

The Lab of the Gods was so angry that there was no way to do it.

Can only bear it silently.

Levi Garrison's sudden layout was also something that the Gods Lab hadn't thought of.

I thought that these forces in Daxia would take defense and actively reinforce the walls of their own gates.

How did you know that Levi Garrison actually took the initiative to take the offensive, except for the fact that there was no fight, it was equivalent to taking the initiative to attack.

No one thought of this trick!

Levi Garrison expanded the line of defense to four-fifths of the world.

Not to mention dividing all the surrendering forces, it also strangled the throat of the kingdom of God.

Wait for everyone to react.

Levi Garrison has completed all the deployments, and the speed is so fast that the Labs of the Gods are unresponsive.

The forces following Daxia were all cheering and praising Levi Garrison for his resourcefulness.

All the gods' laboratory was furious.

“Did you see it?”

“This is the horror of Levi Garrison!”

“He has become like this now, and he is still our biggest threat!”

“We are all gods, he has become an ordinary human, and the person who is fighting with us is still him!”

...

One by one, they gritted their teeth at Levi Garrison.

This is just great.

The cannon fodder in front of them, the running dogs were all controlled by Levi Garrison.
