

# The Return of the God of War [The Protector] Chapter 2883

Killed so dimly, the sun and the moon reversed, and the blood flowed into rivers.

powerful!

The Kingdom of God is really strong here!

Whether it is weapons and equipment or the strength of the strong!

Better than the coalition forces here!

However, the coalition depends on the number of people, the number of weapons and equipment, and the use of various tactics.

Hold on tightly! ! !

The two sides met head-on for only an hour...

The coalition forces suffered heavy losses to the extreme.

The number of casualties is hundreds of times the opposite.

In other words, hundreds of weapons and people may be lost in exchange for the opposite one!

It's too miserable and miserable.

Fortunately, the coalition forces are united by nearly a hundred forces, and they are extremely sufficient in all aspects.

And aware of the severe situation, all parties continue to provide assistance.

All countries have brought out real combat power and secret weapons.

Take Daxia's side, for example, he took out the Tiance Mansion.

To block the opponent here!

Now it looks like the loss is big.

But someone constantly added...This is the benefit of large numbers!

No matter how strong the kingdom of God is!

It takes a long, long time to kill these people!

Therefore, ignore the heavy damage to the coalition in the first hour.

But on the basis of a large number, it is not worth mentioning.

They can hold it!

Coupled with the use of various tactics by Titan Ares, we strive to reduce casualties and maximize results.

So the longer you hold it!

At least after taking a posture, he can deal with the kingdom of God.

...

“Kill! Kill me!!!”

Seeing obstacles in front of him, Mr. X personally commanded and stepped up the attack.

Want to break here as soon as possible!

He didn't want to be blamed by the main god.

The reckless attacks of the Kingdom of God have gradually increased the losses of the coalition forces.

Seven of the 37 positions that Titan War God arranged on the eleventh line of defense have already lost seven positions.

It is still gradually increasing.

The Kingdom of God is too strong after all!

While the Titans are organizing the defense of the coalition forces, while organizing the death squad to regain the position.

The death squads have adopted the method of dying with the power of the kingdom of God...

awful!

That's horrible!

The coalition is extremely miserable here!

It can't stop the powerful offensive of the Kingdom of God!

The strong of the kingdom of God is really as powerful as a god!

There is no better way for the coalition besides the crowded tactics.

Their super powers cannot compete with the gods powers at all.

Before the absolutely powerful power of the Kingdom of God, it was a miracle to be able to hold it all the time.

...

Although the coalition is strong.

But hidden dangers pervade the hearts of everyone in the Titan God of War!

They understand!

There is no way to solve the problem if it continues like this.

Regardless of the number of people and weapons, it is actually delaying time!

To put it bluntly, it's all cannon fodder!

No matter how much the number is, there will be the moment of lighting up!

The Kingdom of God is too strong.

It's a completely crushing posture! ! !

"Finally understand why Levi Garrison didn't fight before! Even the opponent's vanguard team didn't fight! There's a reason! The Kingdom of God is too powerful to be able to fight!"

"How many people are sent to death! There is no way to solve any problems!"
