

The Return of the God of War [The Protector] Chapter 2888

There are more than a dozen others with similar strength.

And there are dozens of slightly weaker ones, almost this kind is comparable to the Darkness Devouring God.

There are more than a hundred at the level of Lucifer.

This is the power of the Lab of the Gods!

Anyone who comes out is super strong!

Soon, Mr. X met Ye Qingtian, Ye Zhantian and others.

After Levi Garrison's strengthening, these people can stand alone!

But in front of Mr. X, it was really not enough.

After all, they are at most similar to Lucifer.

And Mr. X is beyond Lucifer two grades or more.

"Puff!"

"Puff!"

...

Soon, the coalition forces suffered heavy losses again.

These powerful people who came to support are not at all equal to Mr. X's level of gods.

After the encounter, there were heavy casualties.

However, not just Mr. X, there are more than a dozen such strong men.

These few god-level powerhouses shot together.

It's completely crushed.

...

"puff!"

Ye Qingtian and Ye Zhantian were injured one after another.

There are corpses under my feet...too strong!

Everyone finally realized what it's like to fight against the "God"!

Invincible crush!

The former powerhouses in the Lab of the Gods made everyone unable to experience this feeling!

But after Mr. X more than a dozen god-level powerhouses, and nearly a hundred powerhouses at the same level as the Dark Devourer appeared.

That feels completely different!

Relentlessly crush the horizontal push!

No one can use any weapon!

Even the evil gods and their artifacts have no effect on Mr. X!

This is what annoys them the most!

This is the trump card of many strong people in the Bible Organization!

But no effect!
