

The Return of the God of War [The Protector] Chapter 2903

After all, in the eyes of the gods of Tiance, Levilia is the next master of Tiance Mansion!

At this moment, it is already Levilia's critical moment.

Although she could see that the other party was not trying to kill her, it was arresting her.

Not life-threatening.

But we must not let them be captured alive!

"Boom..."

When Levilia took this supreme pill, the whole momentum exploded.

At this moment, it seemed that a dragon that had been sleeping for a thousand years had awakened.

Swallow the mountains and rivers with anger, shock the world!

Both the coalition forces and the army of the Kingdom of God were shocked.

This aura is as if the true god of the nine heavens has descended...

Even the people in Tiance Mansion were stunned.

I know that the supreme pill is very powerful, but where can I think it will be so strong!

How do they know that only Levilia's level can exert the true power of the supreme pill.

At that time, Tiance Shenshuai was not enough to exert the true power of the pill, only a little improvement.

This supreme pill is accompanied by strength.

At this moment, Levilia fully exerted the power of the supreme pill.

Her strength and momentum have soared!

Awe-inspiring aura to shock the five of Mr. X.

She was obviously going to be trapped just now, but she got rid of wherever she wanted to.

With terrible force, the five people were forced to retreat.

Shocked!

It was shocking!

At the same time, Levilia joined the chaos and forced the army of the Kingdom of God with his own power.

This is the super super strong!

Can change the situation of the entire battlefield with one person!

Look dumb!

Look silly!

Levilia has come to a new round of realm with the help of the supreme pill.

In the eyes of the people of the Kingdom of God, the monarch is at the level of the main divine division at this moment.

It's crazy!

Unleash the most powerful force wantonly!

With this kind of capital, Levilia uses various elements with his aura, making it even more terrifying.

There are a lot of powerhouses in the kingdom of God who have fallen under Levilia's hands.

The rest of the powers of the kingdom of God immediately avoided the edge of Levilia, and did not dare to confront him head-on.

It seems that one person is about to reverse the whole battle.

“What kind of medicine she just swallowed, gave her a strong power temporarily! As long as we wait for a period of time, once the power of the medicine has passed, we can take it smoothly!”

Mr. X has a clear analysis of the battlefield situation.

This supreme pill can only last for a while.
