“Tell the message to the chief priest again!”

“At the same time, tell Doctor Dark that there are people and drugs he is interested in here!”

Now the battle seems to be controlled by Levilia alone.

But in fact, she was holding on, everything was an illusion.

It will be broken soon! If there is no real way to fight the kingdom of God!

In the end, Levilia will also fall, and sooner or later will be captured by the main god.

Others have no way of doing it.

Everything that can be taken out is taken out.

In addition to the human sea tactics cannon fodder tactics, there are no other methods.

Where is the hope?

Levilia is not anymore.

Levi Garrison is not hope...

So where is the hope?

Can't find it!

Especially know that Levilia is on.

He was even more anxious.

But the order Levi Garrison gave him was nailed here, and he had no idea.

He is near the base of the Atlantis project.

During this time he has been preparing...
