

The Return of the God of War [The Protector] Chapter 2913

Let him take people to the base camp of the Kingdom of God to steal weapons, and then use it to bombard the Kingdom of Warhawks!

Then unite with Black Hawk agents inside and outside.

The purpose is simple.

The purpose is to force the Eagle Nation faction to take action.

Of course, they are not used to fight the kingdom of God.

Levi Garrison can't count on this!

Non-my family, its heart must be different.

It's not bad to stab you.

In fact, this is used to force out the main divine division!

Levi Garrison used three aspects to persecute.

First, deliberately creating the illusion of the Palace of the Heavenly Master of the Sword Demon, coupled with their suspicion of Levilia, strengthened the true existence of this legend.

Second, sneak attacks on the base camp of the Kingdom of God and provoke the Kingdom of God to the utmost.

The third is that the war Eagle Nation made the move, and the Lord God Division had another fearful existence.

...

Three-pronged approach.

It won't work if the chief priest doesn't come out.

In this way, Levi Garrison's goal was achieved.

...

About twenty minutes later.

The guards of the Galaxy Alliance set off together.

The advance team is even about to reach the battlefield...

The whole world is in an uproar again!

The Hawk Nation faction also participated.

A sensation!

It's so rare!

This time, I am afraid that the whole world is involved.

The Kingdom of God also learned the message.

“What, the Guardians of the Galaxy Alliance also participated in the war? Will soon reach behind us?”

“This, this... messed up! Completely messed up!”

Mr. X, they showed a trace of deep jealousy.

“Hurry up and notify the Lord God! The Galaxy Guard Alliance has taken action! They must come out! Otherwise, this is not something we can handle!”

Anxious!

The Kingdom of God was so impatient for the first time.

Many signs show that their fears are coming.
