

The Return of the God of War [The Protector] Chapter 2937

Agent Blade and others also blurted out: “He must have been working as a doctor in the Eagle Nation!”

“It is estimated that he is still a very well-known doctor with a considerable social background!”

...

After Levi Garrison’s on-demand broadcast, everyone responded one by one.

Now the direction is directly determined!

Search every doctor in the Eagle Nation.

“In fact, it is not necessarily the War Eagle Nation, but it must be around or related to the War Eagle Nation!”

Agent Black Hawk added.

Levi Garrison nodded: “Follow this direction to find it, there is a high probability that you can find it!”

“Well, although it is difficult for doctors to distinguish one by one, and Doctor Dark is extremely vigilant, he may be able to know our actions soon!

So we need to plan well and carry out this task in secret! “

Agent Black Hawk is very cautious, of course, based on the strength of Doctor Dark.

Must be cautious.

Otherwise, the Dark Doctor will react as soon as the investigation begins.

With a certain direction, everyone became excited.

I can't wait to check it right away.

"I have to thank Mr. Ye!"

Agent Black Hawk smiled.

"I'm here, in addition to looking for Doctor Darkness, there is one more thing to look for you!"

When Levi Garrison said this, Agent Black Hawk's face changed.

Bring Levi Garrison to the dark place.

I don't want other people to hear it.

Even these people are confidants.

"I know what you want to ask... I don't know, this is not something I can reach at my level!"

I don't know why. I also asked why they didn't directly attack and destroy the world coalition forces to dominate the world. But they retreated without telling me why! This is definitely not something I can know..."

Agent Black Hawk spoke candidly.

Not just clinging to Levi Garrison.

Instead, he said his true thoughts-such as destroying the world coalition forces and dominating the world.

Therefore, Levi Garrison believed what he said.

And he also understood that Agent Black Hawk was still at that level.

"You are very smart and did not reveal my message to others!"

Levi Garrison smiled.

"But you are right! No matter how strong the Warhawk country is, it is easy to kill you if I want to kill you! You know this by yourself!"

Levi Garrison added another sentence.

Agent Black Hawk smiled: "I'm afraid of death! I dare not!"

“Okay, go to the Dark Doctor! If you need my help, let me know!”

...

After everyone leaves.

Levi Garrison looked at the Eagle Nation in confusion.

What does it have?

Why is it easy to solve the laboratory of the gods?

It's still so easy!

What kind of existence is this country?

What kind of power is behind...

Strange and familiar!

This is a free country, so there may be many similar to the laboratory of the gods.

It's just that the Lab of the Gods didn't know it, and then inflated, thinking that it was in control of everything, and was in control of the Warhawk Nation.

As everyone knows that he is the clown!

I thought that to solve the laboratory of the gods, Levi Garrison's mission was completed.

Didn't think...

More powerful is coming.

Moreover, there are still remnants in the laboratory of the gods, and Levi Garrison's eyelids have been jumping.

He knew that if he didn't get the Dark Doctor out as soon as possible.

Then the danger will come again.

What Levi Garrison can do is to urge the safe island project.

Fortunately, all parties are working together now, and the speed is very fast, day and night in progress.

And with a wealth of experience, the efficiency is very high.

It is expected that the construction of all safe island projects will be completed within one month.

In addition, it is an investigation into the war eagle country.

Investigate why it has become so powerful?

But this is definitely a long-term process, don't want to know the answer in a short time.

It seems that there are secrets in every place.
