

The Return of the God of War [The Protector] Chapter 2944

While inquiring about the progress, he directly expressed his idea of looking for the Dark Doctor together.

“Mr. Ye should also listen to all the ancient forces looking for Doctor Darkness, right?”

Agent Black Hawk reacted immediately.

Levi Garrison should have heard of this, so he took the initiative to help find the Dark Doctor.

For them, finding the Dark Doctor is a task.

But for Levi Garrison, looking for Doctor Dark is to prevent him from bringing disaster to this world.

Now I must have heard that many ancient dark forces are looking for the Dark Doctor, and if they are found, it may be another attack on the laboratory of the gods.

This is definitely something Levi Garrison doesn't want to see...

Resolutely not allow anyone to use the Dark Doctor to create threats.

But no matter who has great motives or not.

The purpose of both parties is the same.

All to find the dark doctor.

In the eyes of Agent Black Hawk.

Rather than let other forces find Doctor Darkness, Levi Garrison might as well help himself and let the Sky Shield Bureau take him.

But what he didn't think was that Levi Garrison also wanted Doctor Dark to use it for himself.

"Well, I heard it! That's why I came!"

Levi Garrison said.

"It's great. With your help, we can definitely find the Dark Doctor before all the dark forces and control him!"

Agent Black Hawk exclaimed ecstasy.

"Report the information you found and the progress in all aspects to me at any time! I will also participate!"

Levi Garrison said.

Agent Black Hawk had no doubts at all.

All the information found was given to Levi Garrison.

In particular, all the seventy-eighty-thousand-eight thousand copies that were screened out with problems were given to Levi Garrison.

There are also the latest developments, and they will be notified in time.

“It’s inappropriate if I’ve been on the cow’s side, lest other people see it, I’ll leave first!”

Levi Garrison said.

Agent Black Hawk understood that Levi Garrison was afraid that others in the Sky Shield would know.

Quickly agreed.

He also found a place for Levi Garrison and gave him a lot of authority.

After coming to the dark.

Levi Garrison began to convene the Four King Kong and begin to analyze these data.

The variants No. 1, No. 3, No. 8, and No. 11 are also around to help.

Levi Garrison also invested himself.

Want to speed up.

After all, time is precious.

He directly analyzed the seventy to eighty thousand questionable data screened by the Tiandeng Bureau.

Only after analyzing it for a long time.

Levi Garrison suddenly murmured, "Huh? That's wrong! The direction is wrong!" At present, the key direction of the Tiandeng Bureau is to conduct secret investigations of these seventy to eighty thousand pieces of information one by one.

Accurate to the interpersonal relationship of each person's daily life.

Because of the need to beware of the dark doctors, their explorations are cautious.

The workload is very large and difficult.

...

But the direction is wrong!

If you continue to search in this way, you can throw away the ancestral graves of these seventy or eighty thousand doctors.

Also useless!

Doctor Dark is not among them at all!

The direction is completely wrong!

Doctor Dark can hide from ordinary people for decades and hundreds of years. How can his information be selected?

How can it be so easy to find a problem?

There is no problem with careful screening.

How can the problem be filtered out at once!

This is absolutely impossible! ! !

Like Doctor Dark, his information was so perfect that he couldn't find any problems.

Over the years, he must have honed this aspect to the point that there are no clues, no flaws.

Whether it is information or his life and work.

It must be perfect!
