# The Return of the God of War [The Protector] Chapter 2953

The most important thing is to give them a feeling-if these two fight.

That is definitely the sky and the earth, and the mountains and rivers have lost their colors.

At this time he actually hoped that the two would fight.

Come to a peak showdown!

The rattling atmosphere is on the verge.

At this moment, Levi Garrison smiled: "But I never thought about killing you! I didn't find this for the purpose of finding it!"

"Um?"

This made the Dark Doctor stunned.

The brain of God was also stunned.

 "Otherwise, you think I've worked so hard to draw everyone away and find you before them? If it's just to kill you, why don't I unite with the Sky Shield? Wouldn't it be easier?"

Levi Garrison explained.

Doctor Dark frowned and nodded subconsciously.

"The Sky Shield is definitely trying to kill me! The Lab of the Gods has no secrets to them! Indeed, if you want to kill me, you should come together with them!"

Levi Garrison smiled: "Furthermore, you should feel it with your strength, in fact, there are no ambushes around! How many people are better than you? Other people don't know it, don't you know it yourself?"

With Levi Garrison's reminder, Doctor Dark realized that he was overly nervous.

He did not feel the presence of a person around him.

Can't it be better than Levi Garrison, right?

In that case, the chief priest would be a joke.

That is, Levi Garrison didn't really arrange to ambush.

"Then what's your purpose?"

Doctor Dark asked.

"Follow me first! At least not to let you die! Wait until you leave here!"

Levi Garrison said.

"Okay, then I'll see what you are going to do?"

Anyway, now that the aircraft's automatic program has been turned on, this task has nothing to do with them.

Why not follow Levi Garrison to see what is going on.

It is better to follow him than to wait here for the Shield.

The three people left the hospital just like that.

But at this moment, someone came secretly.

"Huh? Someone found here!"

Levi Garrison was surprised.

I thought he was the fastest, but I didn't expect someone else to come up.

This group is the ancient organization that studies ancient monks.

Levi Garrison has his own way to find someone.

They also have their own solutions.

He found Doctor Dark at almost the same speed as Levi Garrison.

This speed is simply amazing.

The three left.

They also found out.

Immediately chased up.

"very powerful!"

Doctor Dark frowned.

Obviously this group of people are super powerful and can feel it!

"Go, let's leave first!"

Levi Garrison said.

Levi Garrison did not stay with them, and left directly.

But a group of people in the back chased after him hardly.

The three of Levi Garrison didn't get rid of them for the first time.

Moreover, the ancient forces in this place have already set up a net of heaven and earth, besieging the hospital around it.

Of course, these powerhouses had just arrived, and they met Levi Garrison who had left.

"It seems necessary to do it!"
