

## The Return of the God of War [The Protector] Chapter 2963

Xiao Liejun nodded: "Okay, since you have promised, you can't go back! You leave quickly! Leave the rest to us!"

They still believe in Levi Garrison.

He should be able to solve it.

"Hurry up! Just now, I found out that dozens of powerful people are already coming here! And the Sky Shield has also sent a large number of people here! It can be at most half an hour!"

Cao Zhiguo hurriedly urged.

Everyone looked at Levi Garrison.

Let him take someone away first.

Levi Garrison is not nonsense.

"Go, follow me and leave first, I'll take care of other things!"

Levi Garrison greeted the two dark doctors.

It's just that the Doctor Darkness isn't moved at all.

"Go, what are you doing in a daze?"

Levi Garrison urged.

“It’s not necessary!” The Dark Doctor still sat motionless, but he said something inexplicably.

God’s brain also sighed.

They just want to see how Levi Garrison chooses.

But it’s really unnecessary.

“Huh? Why is it necessary!”

Levi Garrison asked subconsciously.

The others also leaned in.

Seeing the look of God’s brain, Levi Garrison realized something even more: “Could it be that you have already...”

Doctor Dark confessed: “Yes! You guessed it wrong! We have already started revenge!”

God’s Brain sighed and said, “Hey, it’s too early! Start your revenge plan as soon as you find us!”

“Mainly at that time we were afraid that we would die if we met you, and we had to start a revenge plan! Didn’t think you actually killed us! Give us such a chance!”

There was a trace of regret in the tone of God’s mind.

Even Doctor Dark’s face was ugly.

After a brief exchange just now and the decision that Levi Garrison made at a critical moment.

The dark doctors had a great change in Levi Garrison.

It seems that it’s okay if you don’t start the retaliation plan.

They can continue their unfulfilled series of dreams, and they can also take revenge. Slowly in other ways.

Rather than desperately throwing all the money right now, it all ends up.

But everything is too late.
