

## The Return of the God of War [The Protector] Chapter 2967

Doctor Dark nodded: "Well, it is necessary to destroy the Super Spirit Vessel anyway! So this is a mortal game! Don't worry about it! Just wait for the destruction to come!"

The Dark Doctor and God's brain are already determined to die.

But Xiao Liejun and Levi Garrison didn't think so!

"Stop! Must stop!"

"Stop it at all costs! Once the super spirit vein is torn apart! It is a disaster!"

"Quickly, quickly, find a way to stop!"

...

Because Xiao Liejun and the others knew the super spirit veins were powerful, they were stronger than Levi Garrison's performance, and they had to stop all of this.

Lu Xiong pulled Levi Garrison aside.

Tell him the real secret of the termination of the Atlantis plan.

"So that's it! Hey! What's the use of knowing now?"

Levi Garrison finally understood why the five had such a strong reaction...

It turns out that they have long known the existence of super spiritual veins!

“How long will it take for the aircraft to reach the Super Spirit Vessel?”

Levi Garrison looked at God’s brain solemnly.

“There should be about three hours left!”

Said the brain of God.

“I should still be able to try it! So, I will immediately go to the position of Super Spirit Vessel! You come with me!”

Levi Garrison pointed at God’s brain.

Levi Garrison looked at Lu Xiong again: “Give me the fastest fighter! Hurry up!”

“clear!”

Lu Xiong immediately went to make arrangements.

Levi Garrison looked at the other people and said, “The probability of stopping it is too small! If it can’t be stopped, it is a disaster! So next, you must first tell the world about this matter, so that everyone can prepare!

Second, open our safe island and protect everyone as much as possible! Others remind them to do it, our island can only save our own people.

Third, start to defend if you can defend, reduce the loss as much as possible, or leave something!

In short, everything that can be started is started! Even if it is destroyed, you have to leave as much as possible! Especially the safety island may really come in handy! “

Xiao Liejun nodded fiercely: “Don’t worry! Let’s take care of these things!”

“But maybe even if we tell the truth, others will not believe it! They may even think that this is Daxia’s conspiracy, which will cause trouble!”

Jiang Ye raised his own question.
