

## The Return of the God of War [The Protector] Chapter 2972

It seemed that the matter was not Levi Garrison's strategy.

It's really the same!

Agent Black Hawk realized something was wrong.

He immediately said: "Well, let's lock Levi Garrison's position first! I'll catch up with you first! This thing is rather believable than nothing!"

"Okay, I have locked on where Levi Garrison is! This is the Daxia Golden Eagle fighter!"

soon.

The Black Hawk agent drove the Sky Shield's Lightspeed One aircraft and began to catch up.

This speed is a bit stronger than the Golden Eagle fighter!

However, Levi Garrison could catch up.

But time was completely wasted.

Originally, if the Black Hawk agent set off directly, there was still a chance.

Now ran to find Levi Garrison, and with the blockade from the people before, dozens of minutes was wasted again.

The first line of life is wasted directly...

But Levi Garrison actually encountered obstacles here.

It also greatly delayed time.

There was only a trace of time to save, but now it's all gone!

It means that Levi Garrison's double protection is no longer available.

"Fucking sick, right? Harassment at this time!"

Levi Garrison was really angry.

At this point, any harassment is harmful!

And it hurts the whole world!

And it was the ancient force who studied the ancient monks that blocked the Golden Eagle fighter!

They leaked the message of Levi Garrison.

When the information is known to the whole world, they have already come to Daxia.

Some people are staring at Levilia, and some are looking for Doctor Levi Garrison Darkness.

Now some people are following up.

But after ten or twenty minutes of harassment, they couldn't stop them, so they could only retreat.

It happened that Levi Garrison was going to kill and clear all obstacles.

See the enemy retreat.

It can only speed up the Golden Eagle fighter!

"We may not be able to catch up! The extra time is completely wasted!"

God's brain is full of sorrow.

Levi Garrison also frowned, "Fortunately, the Sky Shield has already gone! Fortunately, I notified Agent Black Hawk in advance!"

But at this time, the driver's voice sounded: "There is an aircraft eight kilometers behind us, which is faster than us! It is catching up with us!"

Hearing this, Levi Garrison understood.

The Sky Shield Bureau didn't believe him, and came to confirm it.

Now time is completely wasted.

That trace of vitality was lost!

“idiot!”

“moron!”

Levi Garrison scolded.
