

The Return of the God of War [The Protector] Chapter 2979

However, the dark doctor who knew about this immediately found Zoey Lopez and his party.

“I probably know who took Mr. Ye’s daughter away!”

With a word of him, Zoey Lopez almost broke down.

“Ah? Do you know where it is? Say it!”

Everyone surrounded them nervously.

“As far as I know! There is an ancient organization in the West that specializes in ancient monks! For example, I was on their list early! I have long wanted to study me as an ordinary person.

This time, it should be them!

When Mr. Ye and I left from the Eagle Nation, they found out. It was mostly them who exposed Mr. Ye afterwards! Mr. Ye and their Golden Eagle fighters were attacked before, and it should be them too! “

“I was only skeptical, a little unsure! But they attacked Mr. Ye’s daughter! I’m sure! In the previous battle, Mr. Ye’s daughter showed off, much like the Qi training technique of the Summoner in the legend of Daxia! Daxia gas trainers have always been the target they want to study! It is estimated that for this reason, Mr. Ye’s daughter was taken away.”

The Dark Doctor’s guess was completely correct.

It was suspicion before.

Now that I learned about it.

It was affirmed immediately.

This ancient organization discovered them.

Now the soldiers are coming to Daxia in two ways.

The Dark Doctor immediately looked at Zoey Lopez: "Mrs. Ye, please don't worry! Your daughter is temporarily in danger of life! They are just researching!"

"Then can you find them?"

Zoey Lopez asked excitedly.

"I don't know, but I will try it! It's just that there is too little time!"

Said Doctor Dark.

The longest is only ten hours.

It is estimated that it will take a long time to find this ancient organization.

"Forget it, let me give it a try! Give Mr. Ye a favor!"

“Mr. Ye is more nervous than us, so you don’t have to bother!”

Said Doctor Dark.

Finally, he took Zoey Lopez and his party to search for this ancient organization.

Of course, the urgency of time is no less than that of Levi Garrison’s side.

After Levi Garrison entered the new passage here, he tried to intercept the next two aircraft.

“Make up a little bit of time! But it’s just a minute or two! It won’t work at all!”

God’s brain is gloomy.

“Agent Black Hawk may not be much faster there! I can’t catch up!”
