

The Return of the God of War [The Protector] Chapter 2995

“One word side by side, the king is the god!”

“And head of land!”

...

Everyone started to talk about Levi Garrison and Lu Xiong!

After all, they built the island with one hand!

It means that everyone’s life is now given by them!

They are their reborn parents!

“How long has it been?”

Xiao Liejun asked immediately.

“Um?”

As a result, at the next moment, everyone found that various instruments were malfunctioning.

Even the most common watches are messed up.

There is no accurate time at all!

Those high-techs are even more anomalous and cannot be activated at all.

After all, the energy storm hit the magnetic field and so on.

It is strange that these instruments are not messed up.

For a while, everyone doesn't even know how long has passed!

Even the conscious perception of the strong has an impact!

"I feel it's been a long time! I don't know what's going on outside?"

Someone raised a question that everyone wants to know.

There is nothing in the safety island.

But what about outside?

What is the outside world like now?

In order to maximize the effect of the island, it was completely blocked.

Leave no gaps.

Cut off from the world!

If you want to know the outside situation, you must use an instrument to detect the outside situation.

For example, leave a special detection device.

Send back the outside picture in real time!

It's just that the magnetic field is completely disordered, and all the instruments are unusable.

Therefore, they cannot know the outside situation.

"Yes, I don't know what's going on outside?"

Everyone asked.

It's impossible to live on the island for a lifetime, right?

"Should we send someone to take a look?"

Someone suggested.

“No!”

“I don’t know what’s going on outside now. If the island is opened rashly, it is likely to be in great danger!”

Xiao Liejun thought for a while and couldn’t help saying. “Wait for a while! Can’t go out yet! What if there is any danger?”

Others said one after another.

If the energy storm has not stopped.

Then the safe island only needs to open a small mouth, fearing that it will be destroyed instantly!

Even after this catastrophe comes, even if a long time has passed.

As a result, the outside environment makes people unable to survive.

Go out hastily, for fear of death.

So be careful!

Only after waiting for a while.

Only then can we go out to explore the outside situation.

...

the other side.

Galactic Guardian Alliance, War Eagle Nation.

They activated the sky-defying device at a critical moment, and even avoided this energy storm.

It's just that everyone was stunned in the same situation as the Daxia Island.

However, after the anti-sky device was turned on, the transparent and invisible shield protected the entire Warhawk Nation in it.

However, you can clearly see a lot of damage to the device.

Obviously, in the impact of this energy storm, even the device of the Eagle Nation almost could not withstand it!

"Quickly, quickly! Repair! Repair!"

"If this continues, our device will not last for a few days! This energy storm continues to strike!"

Nelson, a senior officer of the Guardian of the Galaxy Alliance, gave the order immediately.

The Eagle Nation was still busy.
