

Chapter 701: Bliss Forging Workshop (3)

At the moment, a well-dressed young man suddenly stepped forward and walked in front towards Master Du.

“Master Du, I’m Chu Yi from the Tiangang Sect. Today, I’m here to meet you in the name of my master.” The young man explained slowly.

Master Du’s sight then landed on Chu Yi.

The rest in the forging workshop looked at Chu Yi in awe when they heard that he was a Tiangang Sect disciple.

Tiangang Sect was a super sect of the Nine Nights Dynasty. Its ability could be compared to that of the Falling Sky Valley. People who were able to enter the Tiangang Sect were extremely talented.

“My Master has sent a letter previously. May I know whether Master Du has received that?” Chu Yi smiled and asked.

Master Du nodded his head slightly.

Seeing the Tiangang Sect disciple Chu Yi, others interpreted Master Du’s response differently. Previously, they thought that Master Du was invited out by the dagger of the unknown young man. Now, it seemed that they were thinking too much.

When Du Sheng was introducing Ye Qingtang to Master Du, his voice was soft. Thus, no one else heard that besides the two of them.

Now, as they saw Tiangang Sect disciple Chu Yi go forward, they all credited Chu Yi for inviting Master Du out.

Chu Yi also thought that way.

“It’s my pleasure to be able to meet Master Du today. My Master wants you to help him to forge a sword. My Master said that as long as you are willing to do so, he will offer a few hundred kilograms of black gold meteoric iron,” Chu Yi said respectfully.

The moment Chu Yi finished his words, gasps sounded throughout the forging workshop.

How precious was black gold meteoric iron?

It was almost impossible to find any weapon forged using black gold meteoric iron in normal forging workshops.

A few kilograms of black gold meteoric iron could not be calculated by money. Only a super sect like the Tiangang Sect would be able to offer a few kilograms of black gold meteoric iron at one shot.

Everyone’s eyes were filled with joy. How lucky they would be if they could get a weapon forged using black gold meteoric iron?

No wonder Master Du came out personally! The price that the Tiangang Sect offered was too tempting!

“Black gold meteoric iron?” Master Du’s face was expressionless.

“Yes.” Chu Yi nodded.

“I’m not short of black gold meteoric iron, and I’m not interested in forging any weapon for your master. If you do not have other things, please leave.” Master Du waved his hand impatiently.

His words shocked Chu Yi and everyone else.

“Master Du, what... what do you mean? Did you not agree to forge a weapon for my Master?” Chu Yi panicked as he did not imagine that he would receive such an answer.

“When did I agree to that?” Master Du frowned.

“You received my Master’s letter, and the letter also explains my Master’s intention. Did you not agree to my Master’s request since you came out personally today?” Chu Yi said.

Chu Yi was stunned. The letter clearly explained his Master’s request and said that he would be here at this time. He thought that Master Du must have agreed since he came out personally. However, he did not expect Master Du to reject his request!

Master Du frowned and took a glimpse at Chu Yi. “How does coming out here have anything to do with your master? Who said that I walked out because of your Master?”

Chapter 702: Black Gold Meteoric Iron (1)

Chu Yi opened his mouth wide and did not manage to say anything after a long while.

The reason why Master Du came out now was not due to his Master’s letter?

Besides Chu Yi, others in the forging workshop were all confused by Master Du’s changing temper.

Master Du was apparently out of patience to talk to Chu Yi anymore. He walked passed him and reached in front of Ye Qingtang.

“Young man, where did you get this dagger?” Master Du suddenly took out the dagger that Ye Qingtang handed over to Du Sheng previously. He stared at Ye Qingtang with sharp eyes.

Everyone else in the forging workshop was stunned after hearing Master Du’s words.

They all stared at Master Du in disbelief, and their sights landed on the pretty young man again. It seemed like they were staring at a ghost.

What is going on?

Master Du really came out because of this guy?

And not the Tiangang Sect elder’s letter?!

“I forged the dagger by myself,” Ye Qingtang said and looked at Master Du.

Master Du lifted his eyebrows, and his eyes were full of suspicion.

Master Du had scrutinized the dagger. Both the forging technique and the details on the dagger were considered perfect. Even someone like him who was so strict also could not find any flaw.

However, the young man in front of him was at most fifteen or sixteen. How could he be the blacksmith that forged such a perfect dagger?

“Young man, you said that this dagger was forged by you? Do you know what the material of the dagger is?” Master Du asked.

“Black gold meteoric iron,” Ye Qingtang said.

Black gold meteoric iron?

Chu Yi, who was ignored by Master Du, looked at the dagger after hearing Ye Qingtang’s words. He had seen many weapons forged by black gold meteoric iron in Tiangang Sect. However, those weapons were different from the dagger here.

Chu Yi took a glimpse at Master Du, who frowned slightly. A thought emerged in his mind. He said directly to Ye Qingtang, “Young brother, Master Du is the representative in the forging industry. I think it’s not very appropriate for you to say such nonsense here.”

“Oh? Why do you say my words are nonsense?” Ye Qingtang looked at Chu Yi.

Chu Yi chuckled but did not say anything. He took out a black sword from his space ring. The sword was pure black in color, but the sword body was suffused with cold gleams.

“I have a sword forged using the black gold meteoric iron. Young brother, though your dagger is black in color, it seems to be different from the one in my hand?” Chu Yi smiled and said. He wanted to expose the young man’s lie to earn a good impression in front of Master Du.

Everyone’s sight landed on the sword on Chu Yi’s hands.

It was obvious that when the sword and Ye Qingtang’s dagger were placed together, the materials seemed to be different.

Though both were black, Ye Qingtang’s dagger seemed to be mixed with impurities and did not have the gleam like the one on Chu Yi’s sword.

The black gold meteoric iron was rare, and normal people might not even have the chance to witness one. Chu Yi was a disciple of Tiangang Sect. It was normal for him to have a sword that was forged using black gold meteoric iron. Of course, no one would question the authenticity of his sword.

However, as for Ye Qingtang...

Though she appeared to be a handsome man, she was dressed in ordinary clothes.

She did not seem to be able to own any weapon forged using black gold meteoric iron.

“The young man here really hit the wall today. How dare he say such nonsense in front of Master Du?”

“Black gold meteoric iron? If he had black gold meteoric iron, I would have the Millennium Meteoric Iron.”

Chapter 703: Black Gold Meteoric Iron (2)

The crowd all felt that the young man was here to find trouble. However, it was unlucky for him to meet Chu Yi, who had a weapon made of real black gold meteoric iron here.

“Master Du, the brother here is still young. I believe that he did not purposely offend you.” Chu Yi looked at Master Du and explained nicely. It seemed that he was helping Ye Qingtang, but his words assured that Ye Qingtang was a liar.

Chu Yi then smiled and looked towards Ye Qingtang. “Young brother, I understand that you are still immature, but you should not be rude towards Master Du. Leave now and don’t create any more trouble.”

Create more trouble?

Ye Qingtang raised her brows slightly. Chu Yi had said everything for her and played the role as a good man.

Ye Qingtang did not plan to explain anything. However, since someone wanted to use her to bring himself up, she was not so kind to be a stepping stone.

“Young Sir Chu?” Ye Qingtang chuckled.

“Yes.” Chu Yi nodded slightly.

“You said that your sword is made of black gold meteoric iron?” Ye Qingtang asked.

“That’s right.”

“I heard that the black gold meteoric iron is strong and unbreakable. Since you feel that my dagger is fake, how about using your sword to compete with my dagger?” Ye Qingtang smiled and said.

Chu Yi frowned slightly. He took a glance at Master Du and noticed that Master Du was deep in thought. He then smiled and said, “Young brother, since you insist, I agree. However... my weapon is extremely tough as it’s made of black gold meteoric iron. If your dagger can not take it and gets damaged...”

“If it gets damaged, I will not say anything. But if your sword is broken...”

“I will not complain about anything as it’s an honor to help Master Du to prove the authenticity of the sword.” Chu Yi smiled as he was very confident with his sword.

“Okay.” Ye Qingtang nodded and took back her dagger from Master Du.

“Please, Young Sir Chu.”

Chu Yi smiled. He lifted his sword and split down towards Ye Qingtang’s dagger.

Everyone’s sight was fixed on Chu Yi and Ye Qingtang. Even Master Du was also contemplating.

“Master, that dagger...” Du Sheng wanted to say something.

Master Du shook his head and said, “We shall see first.”

Du Sheng then kept quiet.

Chu Yi lifted his sword high up and split down at the dagger. When the two weapons clashed, a loud clatter followed.

As the clatter was heard, a cold gleam suddenly shot out from the point of collision!

Everyone was stunned at that moment.

Chu Yi, who was holding the sword extremely confidently, suddenly froze.

The black sword in his hand that was made of black gold meteoric iron was broken into half, and the dagger was still intact in Ye Qingtang’s hand.

“It seems like your sword is not that tough...” Ye Qingtang raised her eyes and smiled at the shocked Chu Yi.

The confidence on his face was replaced by astonishment. He gazed at the broken sword in his hand, and his eyes were filled with disbelief.

“How is it possible...” Chu Yi could not believe that his sword was broken.

Chapter 704: Black Gold Meteoric Iron (3)

The crowd was also stunned. They thought that Ye Qingtang’s dagger would definitely be broken. How could Chu Yi’s sword break first?!

Only Master Du nodded his head slightly. He seemed to have predicted the outcome.

“Young man, you really forged this weapon?” Master Du looked towards Ye Qingtang and asked.

Ye Qingtang nodded. “I forged the dagger using black gold meteoric iron in combination with Spirit Crystals.”

Master Du’s eyesight changed as Ye Qingtang finished her words.

Spirit Crystals were completely useless for normal people. However, Master Du was trying to mix Spirit Crystals into the materials to forge weapons ever since half a year ago. There was no outcome until now.

When Du Sheng passed him the dagger previously, Master Du knew that the dagger was made of black gold meteoric iron. However, it was mixed with other things that he did not figure out.

Ye Qingtang’s words answered Master Du’s question.

However, he did not expect that someone had figured out the method now.

“Young man, who is your master?” Master Du asked.

Ye Qingtang thought for a second and smiled. “My master is Ao Yuan.”

“Ao Yuan? You are Master Ao’s disciple?” Master Du was shocked.

Ao Yuan was the most famous blacksmith on this mainland. His forging ability was beyond the Grand Master’s level. From the legend, every weapon that Ao Yuan forged was a rare treasure. Even the half-completed products could be compared to those divine weapons.

However, Ao Yuan had disappeared for years. People from the super sects also could not trace him.

“Yes.” Ye Qingtang nodded.

Ye Qingtang had never met Ao Yuan before. She just wanted to prevent some trouble by saying his name. It would take a lot of effort to convince others about her forging skills at her age.

Anyway, Ao Yuan had disappeared for so many years, and Ye Qingtang did not hear anything about him even after two hundred years in her previous life. She could use his name to save herself from some extra trouble.

Master Du was surprised. Though he was still doubtful, the forging skills demonstrated in that dagger erased most of his doubts.

Master Du’s forging ability was way beyond others. Ao Yuan was the only one who was better than him. The skill of forging using Spirit Crystals could only be invented by Ao Yuan. No one else could figure that out before him.

However, Master Du did not believe her so easily. He looked at Ye Qingtang and asked, “Since you said that you are Master Ao’s disciple, do you know the Black Heaven Forging Skill created by Master Ao?”

The Black Heaven Forging Skill was created by Master Ao. Normal blacksmiths would never know that. Master Du had met with Master Ao before and heard something about the Black Heaven Forging Skill from Master Ao.

Ye Qingtang smiled gently and said, “The Black Heaven Forging Skill that Master created uses the extraordinary flame as the foundation. The key part is the process of quenching...” Ye Qingtang explained fluently. She heard about the Black Heaven Forging Skill on the second mainland in her previous life.

Though Ao Yuan’s forging skill was superior, it was only limited to this mainland. There were many more skillful blacksmiths on the second mainland. His Black Heaven Forging Skill was not something significant to Ye Qingtang, who lived for three hundred years in her previous life.

Chapter 705: Forging (1)

“You really are Master Ao’s disciple? How is Master Ao recently?” Master Du asked.

“Everything is good.” Ye Qingtang fooled Master Du, but her face was still calm.

Master Du and Ye Qingtang were chatting with each other, but Chu Yi, who wanted to look down at Ye Qingtang, was now pale.

He stared at the broken sword in his hand and listened to the conversations between Ye Qingtang and Master Du. He could feel cold sweat running down his back when he heard that Ye Qingtang was Ao Yuan's disciple.

If Master Du was the finest blacksmith in the Nine Nights Dynasty, Ao Yuan would be the god of forging on this mainland.

Chu Yi could never imagine that the mediocre young man would be Ao Yuan's disciple!

"May I know what brings you here today?" Master Du looked at Ye Qingtang and smiled.

"I want you to help me to forge a sword, Senior," Ye Qingtang said directly.

"What kind of sword?" Master Du was curious. As Ao Yuan's disciple, he should not need others to help in forging.

"A sword made of the Millennium Meteoric Iron," Ye Qingtang said.

When Ye Qingtang said that, gasps rang in the entire forging workshop instantly!

"Millennium Meteoric Iron?!"

"Did I hear it wrong? Millennium Meteoric Iron? This guy... has Millennium Meteoric Iron?"

Everyone felt that it was insane. Ye Qingtang's identity as the Ao Yuan's disciple had already shocked them previously, and the words "Millennium Meteoric Iron" really caused them to be mad.

Only a countable few on this mainland could use the Millennium Meteoric Iron to forge weapons. Nothing was as rare as Millennium Meteoric Iron on this land.

Even Master Du was shocked by the mentioning of Millennium Meteoric Iron.

"You have Millennium Meteoric Iron?" Master Du stared at Ye Qingtang in surprise.

Ye Qingtang nodded slightly.

Master Du then understood the reason why the young man wanted to look for him. The method of forging using Millennium Meteoric Iron was extremely rigorous and complicated. Though the young man was Ao Yuan's disciple, based on his age, he had yet acquired the method of forging using Millennium Meteoric Iron.

"I know how to forge using the Millennium Meteoric Iron. However... why do I need to help you with that?" Master Du looked at Ye Qingtang and asked.

"Master Du, I think he's bluffing." Chu Yi sneered before Ye Qingtang could say anything.

Master Du took a glimpse at Chu Yi.

"Master Du, Master Ao has disappeared for years. Many people have also pretended to be his disciples as well. Why do we need to believe that he is Master Ao's disciple just based on his words? It seems like I can also say that I'm Master Ao's disciple." Chu Yi shook his head and said.

Master Du was in thought after hearing Chu Yi's words.

“Do you have any proof when you say you’re Master Ao’s disciple?” Master Du stared at Ye Qingtang and asked. Though she knew something about the Black Heaven Forging Skill, that could not be the solid evidence.

“There is no proof,” Ye Qingtang said.

“Hehe, without any proof, you can say anything you want. Do you know the reputation of Master Ao? If you were really his disciple, why would you come and look for Master Du to forge weapons?” Chu Yi laughed coldly.

Chapter 706: Forging (2)

Ye Qingtang took a glance at Chu Yi coldly.

Chu Yi was hard to fool with. Just as he said, she did not know Master Ao. It was just a lie that she said in order to be closer with Master Du.

“Master Ao’s disciple cannot ask Master Du to forge a weapon? Do you mean that even a disciple of Master Ao is more skillful than Master Du?” Ye Qingtang’s lips curled and sneered.

Master Du looked towards Chu Yi after Ye Qingtang finished her sentence.

“Don’t bullsh*t! I didn’t mean that. How dare you to pretend to be Master Ao’s disciple? You totally did not respect Master Du at all. Where are your manners?” Chu Yi scoffed coldly.

“Master Du, the price that I’ll offer will definitely not disappoint you as long as you are willing to forge a weapon.” Ye Qingtang turned to look at Master Du and smiled as she did not bother to talk to Chu Yi anymore.

“Price? What a joke! Based on Master Du’s reputation, what tempting price can you offer as a liar?” Chu Yi said.

“Since you can’t show any proof that you’re Ao Yuan’s disciple, find me when you’re able to do so.” Master Du was very impatient.

“Please leave now!” Master Du waved his hand.

It seemed that he was very unpleasant towards Ye Qingtang.

The crowd all started making fun of her when Master Du ordered her to leave.

“Such a joke! How dare he call himself Master Ao’s disciple? I have never heard that Master Ao had any disciple.”

“I think he’s just bluffing to gain more attention.”

The crowd started discussing among themselves.

“Please!” Du Sheng walked forward and said indifferently.

“Wait. Don’t you want to know what my price is, Master Du?” Ye Qingtang smiled. It seemed that she was not bothered by Master Du’s attitude at all.

However, Master Du did not say anything. He did not even bother to look at Ye Qingtang.

“Leave now. We’re not interested no matter what you’re offering,” Du Sheng said impatiently.

“Is it... How about Millennium Meteoric Iron?” Ye Qingtang’s lips tugged up.

Du Sheng was stunned after hearing Ye Qingtang’s words. He looked towards Master Du instinctively.

The Millennium Meteoric Iron was a rare forging material. It was very limited on this mainland. Almost no one was willing to use it to forge a weapon or Dharma treasure.

If yellow-grade weapons could be mixed with a little amount of Millennium Meteoric Iron in forging, they could be top-grade yellow-grade weapons.

Thus, there were no words that could describe how rare the Millennium Meteoric Iron was.

Even the Bliss Forging Workshop did not own any Millennium Meteoric Iron.

Master Du took a glance at Ye Qingtang. He sneered and did not speak.

“Hahaha, that’s another lie. He lied that he was Master Ao’s disciple and that he owned the Millennium Meteoric Iron. Now that his lie was exposed, he still claims that he has the Millennium Meteoric Iron.”

“I don’t believe that he can really take out Millennium Meteoric Iron.”

“What a joke! Even the Bliss Forging Workshop does not have any Millennium Meteoric Iron. Millennium Meteoric Iron could make yellow-grade weapons into top-grade with just a few grams mixed.”

Chapter 707: Forging (3)

Master Du stared at Ye Qingtang coldly but did not say anything. From his perspective, Ye Qingtang was just bluffing. Even Master Ao himself might not own a few grams of Millennium Meteoric Iron, not mentioning Master Ao’s disciple.

“Master...” Du Sheng looked towards Master Du.

Master Du sneered. “Du Sheng, do you believe that he has Millennium Meteoric Iron?”

Du Sheng shook his head.

Du Sheng had followed Master Du since he was young. He learned many forging skills, and he was very clear what Millennium Meteoric Iron was.

“How dare you to continue bluffing here?! Since you say that you have Millennium Meteoric Iron, I’ll give you a chance. Take out your Millennium Meteoric Iron now. If you don’t have any, I will not go easy on you!” Chu Yi shouted in anger.

Ye Qingtang sized up Chu Yi and uttered coldly. “Who are you? You don’t even deserve to have a look at the Millennium Meteoric Iron.”

“You are seeking death!”

Chu Yi suddenly raged after hearing Ye Qingtang’s words. With a clang, his sword was pulled out by his waist.

“How dare you! Do you know what place this is! If you want to fight, go outside!” Before Chu Yi made the next move, Du Sheng rebuked.

Chu Yi kept his sword back into the scabbard when he realized that he lost control. He folded his fists and said towards Master Du, “Please forgive me, Master Du. I just could not tolerate him bluffing in front of you.”

Master Du did not say anything.

“Master Du, is this enough?” Ye Qingtang did not bother to confront Chu Yi. Instead, she took out 250 grams of pure black Millennium Meteoric Iron from her space ring.

The moment when the Millennium Meteoric Iron was taken out, the temperature in the Bliss Forging Workshop suddenly dropped. It seemed that winter arrived as the surrounding was freezing.

Everyone’s eyes were fixed on the meteoric iron in Ye Qingtang’s hands. They all frowned as they did not know what kind of meteoric iron that was.

The Millennium Meteoric Iron was too rare. They had all heard about it, but no one had seen it before. Even Du Sheng, as Master Du’s disciple, also had not seen Millennium Meteoric Iron before.

At the same time Ye Qingtang took out the meteoric iron, the indifference in Master Du’s eyes was replaced by astonishment.

Based on Master Du’s experience, he was certain that Ye Qingtang was holding Millennium Meteoric Iron!

The Millennium Meteoric Iron was cold in property. Around 250 grams of them would be enough to lower the temperature in the surroundings.

“Millennium Meteoric Iron... You really have Millennium Meteoric Iron!” Master Du said surprisingly.

Chu Yi and the rest of the people were stunned as they heard Master Du’s words.

This guy really has Millennium Meteoric Iron?!

If others told them that was Millennium Meteoric Iron, they would not believe them. However, Master Du confirmed that, and he was definitely correct.

“Master Du, this is the down payment. If you’re willing to help me to forge a weapon, I will offer another 250 grams,” Ye Qingtang said and smiled.

The way everyone looked at Ye Qingtang changed.

He can offer 500 grams of Millennium Meteoric Iron as payment?!

Chu Yi stared at the Millennium Meteoric Iron in Ye Qingtang’s hand closely. If he could...

“Du Sheng, send the guests off,” Master Du Sheng suddenly said.

“Oh... Leave now. Master will not help you even if you have five kilograms, not to mention the 500 grams you offered.” Du Sheng nodded and spoke to Ye Qingtang.

Before Ye Qingtang said anything, Master Du frowned and said, “I mean this young man can stay. Send off the rest.”

Chapter 708: Extraordinary Flame (1)

Du Sheng was slightly stunned, and he flashed an apologetic smile at Ye Qingtang rather awkwardly.

Very quickly, Du Sheng walked to Chu Yi and the rest and said, “Please.”

Since Master Du had already given the orders to chase the visitors away, everyone did not dare to stay any longer and could only leave.

“Alright. Sorry to bother you, Master Du. When it’s convenient for you, I’ll come and pay respects again.” Chu Yi cupped his fists and subsequently left the Bliss Forging Workshop.

After leaving the Bliss Forging Workshop, Chu Yi glanced at the workshop coldly, and an icy smile hung on his lips.

Today, Chu Yi was not depressed over Master Du’s rejection but unknowingly excited instead.

That fellow could take out 500 grams of Millennium Meteoric Iron from his space ring so casually. It seemed that there was even more Millennium Meteoric Iron in his space ring!

...

In the Bliss Forging Workshop, Master Du led Ye Qingtang into the back of the hall while the blue-haired girl was told to remain in the front of the hall.

“You said that the payment is 500 grams of Millennium Meteoric Iron earlier on. Is that still valid?” Master Du asked Ye Qingtang.

“Of course.” Ye Qingtang nodded with a smile.

“Junior, although the Millennium Meteoric Iron is a treasure... an Extraordinary Flame is required to forge the Millennium Meteoric Iron. It is difficult for ordinary flames to refine it...” Master Du hinted at another meaning.

Since this person could take out the Millennium Meteoric Iron, he must have some Extraordinary Flame ingredients with him as well.

The Millennium Meteoric Iron would only have its worth when an Extraordinary Flame could be started. Otherwise, it was ultimately a useless metal.

“Junior, not to hide from you, I have no use for these Millennium Meteoric Iron of yours... I don’t have the fire source of an Extraordinary Flame. Even if I obtain this Millennium Meteoric Iron, it is still impossible to refine it.” Master Du shook his head.

“So your meaning is?” Ye Qingtang asked.

“If you can find some fire sources for an Extraordinary Flame, you don’t need to give me 500 grams of Millennium Meteoric Iron as payment. Just three taels are enough.” Master Du answered.

No matter how good a meteoric iron was, there was no use if there was no way of refining it.

“Are you talking about this?” As Ye Qingtang spoke, she flicked her wrist, and a golden flame emerged in her palms and swayed energetically.

“This is...?!” Master Du stared at the golden flame in Ye Qingtang’s hand, and astonishment filled his eyes.

Although Ye Qingtang did not possess an Extraordinary Flame, the might of the flame from her Ultimate Origin Skill was not any weaker than an Extraordinary Flame.

In the next second, an inexplicable excitement emerged in Master Du’s eyes.

“My flame compares favorably with an Extraordinary Flame and can refine the Millennium Meteoric Iron,” Ye Qingtang said with a smile.

“Not bad...” At that instant, there was a change in the way that Master Du looked at Ye Qingtang. It was as though he was inspecting a certain treasure.

“Master, so about building a weapon...” Ye Qingtang felt a little unnatural with Master Du’s gaze. It was as though she became a piece of superior-quality meat.

“That’s a small matter. What is your name, little brother?” Master Du asked with a smile.

“Ye Chen.” Ye Qingtang replied.

“Alright. Brother Ye Chen... forging a weapon is a small matter... Brother Ye Chen, I wish to collaborate with you...” Master Du’s eyes twinkled.

“Collaborate?” Ye Qingtang was confused.

“That’s right!” Master Du nodded with a mysterious expression on his face. “There’s a Dragon Vein... That place has a gathering of the richest spirit energy of this mainland... There are countless treasures in the Dragon Vein... However, that Dragon Vein is cornered by the Peerless School, Beiming Manor, and even the Phantom Valley forces...”

Chapter 709: Extraordinary Flame (2)

“Peerless School, Beiming Manor... Phantom Valley...” After hearing Master Du’s words, Ye Qingtang frowned.

The Peerless School was the most powerful group in the Nine Nights Dynasty. Even super sects like Falling Sky Valley and Tiangang Sect had to bow down to them and pay tribute with large quantities of treasures to the Peerless School.

The Beiming Manor, on the other hand, was situated in the Formidable Heavens Dynasty, and it was almost on par with the Peerless School.

In the Formidable Heavens Dynasty, super sects like Yunxiao Sect and Yuehua Sect, similarly, had to pay allegiance to the Beiming Manor and were required to offer tributes annually.

As for the Phantom Valley, it was the most powerful evil cult that rose in this mainland over the last hundred years.

The Peerless School, Beiming Manor, and Phantom Valley were the three strongest forces of this mainland, and almost no other group could contend with them!

In her previous life, Ye Qingtang once heard that the Valley Master of Falling Sky Valley was severely injured by an ordinary warden of the Peerless School...

From this, the horrifying capabilities of these three forces could be seen.

As for the Dragon Vein, Ye Qingtang had never heard of it before.

However, speaking accurately, there was indeed a force that placed above these three great forces...

That was the Antiquity Palace!

However, although the Antiquity Palace commanded a respectable position, it never got involved with worldly matters as though it was completely outside the world.

Ye Qingtang lowered her head instinctively and looked at the ring that was forcefully put on her finger by a certain Palace Lord. A chill ran down her spine, and she immediately swept the Antiquity Palace out of her mind.

She did not wish to meet that someone ever again in her life as her Heart of the Demon God might just be exposed anytime otherwise.

“Brother Ye Chen, it’s said that carcass of an ancient demon lays in the Dragon Vein... The spirit energy all around is gathered and condensed into millions of destinies and treasures. Even a complete Earth-level weapon as said in legends exists there too!” Master Du was agitated.

If one had the skills to control a complete Earth-level weapon, he could easily destroy the Nine Nights Dynasty territory with just the wave of a hand!

“The Beiming Manor, Peerless School, and the Phantom Valley were unable to completely open up a tunnel in over ten years... You have an Extraordinary Flame, and we can enter the Dragon Vein...” Master Du persuaded with all his might.

“With those three forces, wouldn’t we be courting death by heading there?” Ye Qingtang said after pondering for a moment.

“That’s not the case.” Master Du shook his head and continued. “We do not need to come into contact with those three forces. Many years ago when I was in the northern region, I found another tunnel that connects to the Dragon Vein by chance... However, that tunnel is blocked by a massive rock made from Millennium Meteoric Iron... That massive rock can only be destroyed with an Extraordinary Flame... As

long as we use your Extraordinary Flame to destroy the massive rock..." Excitement was written all over Master Du's face.

"I need to think about it," Ye Qingtang said.

Although Ye Qingtang was extremely interested in the Dragon Vein as well, if it was really guarded by the Peerless School, Phantom Valley, and Beiming Manor forces as Master Du said...

"Sure. There's no hurry. No hurry. Brother Ye Chen, let's refine the weapon first. We'll talk after it," Master Du said with a smile.

Before Ye Qingtang could speak, Master Du said again, "To refine a weapon with a Millennium Meteoric Iron, we will need a complete proposal. Give me half a month's time, Brother Ye Chen. After I'm done with the proposal, you can come here and use your Extraordinary Flame to assist with the forging of the weapon."

"Okay. We'll settle on this then." Ye Qingtang nodded.

Not long later, Ye Qingtang turned around and left the Bliss Forging Workshop.

Chapter 710: Extraordinary Flame (3)

As the forging of a new weapon was more or less settled, Ye Qingtang finally planned to head to the Falling Sky Valley, but before that, she still had a small matter to settle.

She looked at the silent and obedient blue-haired girl who had been following beside her and was a little awkward.

She could not possibly bring her along, could she?

"Where's your house? Do you have any family? I'll let someone send you back if you want?" Ye Qingtang spoke.

The blue-haired girl looked up and replied obediently. "Can you send me to somewhere with a sea, benefactor? You just need to send me to the seaside."

Sea?

Ye Qingtang was rather curious. This lady was not in a hurry to go home and was looking for a sea?

However, she did not think much about it. There was a sea at the back of the Nine Nights Dynasty, and it was convenient to send this lady there.

Then, Ye Qingtang immediately brought the blue-haired girl to the sea behind the monarch city.

The surface of the vast sea sparkled, and the sea breeze was refreshing.

When the blue-haired girl saw the seawater, a glint flashed across her eyes, and she bowed to Ye Qingtang slightly. "Thank you very much, benefactor."

Without waiting for Ye Qingtang to return to her senses, the blue-haired girl jumped into the sea directly.

Once the blue-haired girl entered the water, her legs suddenly turned into a gleam of light without delay.

However, in the next second, an icy-blue fish tail flashed across the calm sea surface, and countless water beads scattered in the air. In the reflection of sunlight, the water beads glistened in the colors of the rainbow.

"..." Ye Qingtang was dazed.

What the hell is that?!!

"Mermaid?" The little white tiger mumbled when it saw the fish tail that flashed by.

It was said that in the sea connecting the mainlands, a group of mermaids who lived in the sea still existed, though no one had seen this clan before. Yet unexpectedly...

Ye Qingtang rubbed her temples in speechlessness. What exactly did she rescue?

"Rumors have it that the mermaids are very powerful. Why did she end up being sold by a human?" Ye Qingtang did hear some legends about mermaids in her previous life but had never seen them before. Unexpectedly... after her rebirth, she actually rescued a mermaid after going through a strange combination of events.

The little white tiger said, "That is in the sea. Once a mermaid is on the land, all their skills will be lost unless they wear a special item that can maintain their powers. I reckon that... it was the first time that this mermaid went on the land, and she probably did not know about it."

"You do know a lot of things."

"Of course. I'm a Fiendcelestial Beast. What do I not know?!" The little white tiger wagged its tail proudly.

A laugh escaped from Ye Qingtang's lips as she shook her head. Fortunately, it was on land. If it was in the sea, those slave masters who caught the blue-haired girl would probably be beaten to a pulp by that young girl.

Looking at the figure that gradually swam further away, Ye Qingtang spoke. "Forget it. Let's head to Falling Sky Valley first."

The little white tiger did not say anything and followed Ye Qingtang.

Just as they left, the blue-haired girl who had swum a distance suddenly poked her head out from the surface of the sea. However, the gentleness and obedience from before had long disappeared from her exquisite face as a sharp look flashed across her eyes.

Damn it...

Why did she not know that her skills would actually be suppressed on land?

She was really careless and almost got attacked by these humans!

Subsequently, she looked thoughtfully at the back view of the person who was gradually disappearing away from the shore.
