

## Radom Noew 101

### Chapter 101: Nothing Better To Do? Go Home and Take Care of Your Grandson

After leaving school, Lin Yi went to have a meal before returning to the Jiuzhou Pavilion.

He was not planning to go to school in the afternoon. Although leaving early was not a good thing, the thought of Sugar's ugly face made him lose all interest. He might as well sleep at home.

Ring, Ring, Ring...

Just as Lin Yi was enjoying the sun, the phone next to him rang. It was an unknown number.

Lin Yi could vaguely guess who it was.

"Hello, is this Mr. Lin Yi?"

On the other side of the phone came the voice of an unknown man. It sounded a little elegant.

"It's me."

"Let me introduce myself first. I'm the Director of the Longxin Research Institute, Sun Fuyu. I just received news that you've acquired the Longxin Research Institute, and I'm contacting you about it."

"I was just about to look for you." Lin Yi smiled. "Let's set up a time to meet."

"Mr. Lin, I'm really sorry. I'm holding an academic conference in the Northeast and might not be able to make it back today. I'll take care of things here as soon as possible. Can we meet at the institute tomorrow at 1:00 pm?"

"No problem." Lin Yi said straightforwardly. "That's settled then. See you tomorrow."

"Okay."

The next morning, Lin Yi arrived at the office on time and saw that Sugar had just arrived at work.

The relaxed atmosphere in the office became a little complicated because of Lin Yi and Sugar's relationship.

Sugar realized that if she dismissed her prejudice and observed Lin Yi properly again, he would appear to be really handsome and have both a good temperament and figure.

"Director Su looks really good." Lin Yi said with a smile.

"It's useless to kiss my \*ss," Sugar said proudly.

"Oh, then I'll change my way of saying it."

"Change your way of saying it?"

Song Jia and the others were also a little curious. What was the other way of saying it?

"The effect of Madam's Oral Liquid is really good."

Pfft

Song Jia couldn't help but laugh out loud.

Lin Yi was too bold.

"What are you laughing at? I didn't drink that thing!"

Sugar was furious. She had already let go of her prejudice, yet he was still talking about her like that. Now, she was going to die from anger.

"Go and prepare your class. Don't be so rude," Sugar said with a straight face.

"Class later?" Lin Yi was puzzled. "I don't think there's any class schedule for the school's committee."

"Teacher Shi has other work to do. From now on, I'll leave the 'career planning for university students' class to you."

"Ah? No way."

Lin Yi was a little surprised. Sugar's actions caught him off guard.

The system gave him the wisdom of the sage when he received his new career gift pack. Although he did not have the best professional knowledge in the industry, he could still use it to teach an undergraduate course.

However, it was a little difficult for him to teach a course on career planning.

This was completely meaningless. It was just a course to fill up the required credits. How could he teach it?

"Also, I have very high requirements for this course. If the attendance rate is less than 95%, the class will be given a D grade. If this happens more than three times, all your bonuses will be deducted."

Sugar was very proud. The salary of a school committee official was very low. It was only about two thousand dollars. If he did not receive a relatively high bonus, he could not live at all.

This time, she had to give him a show of force. Otherwise, she would lose her reputation.

"Okay."

Huh?

Everyone in the office was stunned.

"Okay what?" Sugar asked.

"You just mean to cut out the bonus, right? I don't want the salary anymore, so I don't think I need to attend this class anymore."

Sugar and the others were stunned.

What was Lin Yi talking about?

He did not even want his salary anymore?

How was he going to live? He probably could not even afford gas!

Song Jia suddenly felt bad for Sugar.

The killer move you came up with didn't seem to work on him!

"Hmph, it doesn't matter if you want your salary or not, but I've already arranged this class," Sugar said.

Lin Yi, "..."

"Alright, it's just an elective class."

Lin Yi agreed to it. It was just an elective class. He just needed to go over and give some chicken soup for the soul while bragging to the students.

However, the difficult part was getting the attendance rate to 95%!

If it really did not work out, he would have to use his money.

"Lin Yi, I'll warn you in advance. Don't try to take advantage of me," Sugar said:

"When you're in class later, we'll listen in and record the actual attendance rate, so don't even think about playing any tricks."

"Director Su, why are you making things difficult for me?" Lin Yi asked.

"If you really have nothing to do, go home and take care of your grandson. There's no need to waste time on me, so you might as well give up."

Sugar was stunned.

Go home to take care of my grandson?

Song Jia, Shi Li, and the others were petrified.

The former held back his laughter and said, "Lin Yi, don't talk nonsense. Director Su is only 29, and she doesn't have a boyfriend yet. How can she have a grandson?"

"Ah? Only 29?" Lin Yi said in surprise.

"That's not right. Looking at her face, she looks like she's 99. She looks too old."

1

"Lin Yi! If you don't want to work anymore, just say it! I'll let you go now!"

Sugar felt that she was going to die from anger.

She had already let go of her prejudice, but he was not giving her a way out!

Did she have to go against him?

"Who said I don't want to do it anymore?" Lin Yi said. "I've been working hard since I was a kid, and I still have to shine in this position. It's impossible for me to leave."

“Alright, Lin Yi, stop talking.”

Song Jia pulled Lin Yi and left the office with two textbooks in her hands.

“Mister Lin, please stop talking. If this continues, Sister Su will die from anger.”

“It’s not my fault, is it?” Lin Yi said indifferently:

“I didn’t want to talk to her at all. She’s always targeting me.”

“In truth, Sis Su already realized her mistake, but she’s too embarrassed to admit it. Please give her a way out.” Song Jia said.

“And you don’t know anything about her. Otherwise, she wouldn’t be like this.”

“What’s wrong with her? Do I look like her ex-boyfriend?”

“No, no, no. Sister Su’s ex-boyfriend isn’t as handsome as you.”

“Your words are enough to prove that you’re an honest person.”

Song Jia covered her mouth and chuckled, “I don’t know much about Sister Su. She and her ex-boyfriend met when they were in university. After graduation, Sister Su’s ex-boyfriend went to America to further his career. He said that he would work hard for three years and then come back to get married.”

“But in the second year, he met a woman there, so...”

Song Jia did not finish, but Lin Yi already understood what she meant.

“Then what does this have to do with me?”

Song Jia pursed her lips, not knowing how to explain it.

Even if Lin Yi got a woman drunk and brought her to a hotel, it was his personal problem, not hers.

“Alright, let’s not talk about this for now.” Song Jia handed the textbook to Lin Yi and said.

“Class is ending in half an hour. The next class is your class on ‘career planning for university students.’ Go prepare for it.”

“Alright.”

The two separated as Lin Yi thought about how to get the attendance rate up.

He did not have much time left, though, and even if he wanted to make use of his money, he probably would not have the time to do so.

He might as well forget about today’s class and focus on the next one.

It did not take long before the bell rang. Lin Yi followed Song Jia’s instructions and headed towards the third classroom.

“Hello, Teacher Lin!”

As he entered the building, Lin Yi saw two girls in skirts walking toward him while greeting him.

Lin Yi looked around. Besides the students passing by, he seemed to be the only teacher around.

“Hello,” Lin Yi said with a smile.

“Teacher Lin, you have the textbook in your hand. Are you going to class?”

Lin Yi nodded. “My next class is on ‘career planning for university students’. I’m going to class now.”

The two girls’ eyes lit up. “Teacher Lin, you just came to the school and you’ve already been assigned a class?”

“Yeah, it was arranged by the committee.”

“Teacher Lin, where are your classes? Let’s go and support you.”

“The staircase classroom on the third floor.”

“Yeah, yeah, I’ll see you later, Teacher Lin.”

“Okay.”

After a brief conversation, Lin Yi headed up to the third floor, ready to go to class.

At the same time, another post became a hot topic on the teacher’s forum.

“Big News, Teacher Prince Charming will be attending the lecture in the lecture hall on the third floor of the third session next class. Gather the beauties and go and clock in!”

“No way, they arranged a lecture for Teacher Prince Charming so quickly? It’s too exciting!”

“My long-forgotten short skirt is finally going to come in handy!”

“My black silk is finally going to come in handy.”

“Come out, my low-cut vest!”

## **Chapter 102: Drinking Two Cases Isn’t a Problem**

When Lin Yi arrived at the third-floor classroom, he found Sugar, Song Jia, and Shi Li already there.

“Good luck, Lin.” Shi Li said.

“Thank you, Shi.” Lin Yi said. “Don’t worry, it’s just 95% attendance. It’s nothing.”

“You’d better not talk big. There’s not a single class in the entire college that has 95% attendance,” Sugar said.

“If no one can reach 95% attendance, but you ask me to do it, it’s obvious that you must think highly of me.”

“If it’s not difficult, can it be called a test?”

“Then what if I can reach 95% attendance?”

“I’ll give you an extra 1,000 dollars.”

"It's no fun just giving out bonuses," Lin Yi said. "Do I look like someone who needs that kind of money?"

"Then what do you want?"

"How about this? If I get the attendance to 95%, you'll drink a box of Mrs. Oral Liquid."

Song Jia and Shi Li looked at each other. Lin Yi's obsession with Mrs. Oral Liquid was very real!

However, the highest attendance rate in this class was only 30%. It was impossible to reach 95%.

Lin Yi would definitely lose the bet with Director Su.

Su Ge rolled his eyes at Lin Yi. "As long as you can reach 95% attendance rate, I'll drink two boxes, let alone one box."

"Deal."

Lin Yi smiled. It would be impossible to get 95% attendance in today's class. After all, he had not done anything.

Even so, it wouldn't be a problem to use the money counting ability in advance during the next class.

Sugar was full of confidence. She knew the situation within the college best.

Even for professional classes, attendance only ever reached 94%. As for elective classes, it was impossible to reach this standard.

Therefore, it didn't matter what they said. She could not lose at all!

Sugar and the others went to the back row and said, "There are still ten minutes to class. You will need to do a roll call later. I need the actual attendance rate."

"Sister Su, you are overdoing it. None of the elective courses in our school have reached 95%. It's impossible for him to complete it. Roll call is meaningless."

"That's what I want."

There were still three minutes left before the class started.

Song Jia looked at the people in the classroom and said helplessly.

"Sis Su, there's a total of 259 people who took this class. However, there's only about 30 people here now. I don't think he'll even be able to pass the 50 person mark."

Song Jia and Shi Li sighed to themselves. Lin Yi would definitely lose.

At that moment, the sound of laughter came from outside the door. The three girls saw more than ten girls walking in one after another.

"What's going on? So many people came at once?" Song Jia asked.

"That's not the point." Shi Li said. "Look at the girls clothes. They're either showing their thighs or wearing short skirts and black silk. They don't look like they're here for class!"

"Hello, Teacher Lin."

A dozen girls came in from outside and greeted Lin Yi.

“Okay, find a place to sit.” Lin Yi quickly got into character.

The girls happily sat in the first row and stared at Lin Yi.

They finally saw him in person!

He was so handsome!

“Can you guys hurry up? If you’re slow, there won’t be any seats in front!”

“Don’t rush me. My bra is crooked.”

“What bra are you wearing for an A cup? Hurry up and leave. I want to sit in the first row!”

Just as Sugarr was still in a daze, he noticed that more than twenty girls were rushing in one after another. They were dressed seductively as if they were items on sale at a mall.

In less than two minutes, the attendance rate in the lecture hall had already reached more than 50%!

There were even some people arguing over a front-row seat.

This scene made Sugar feel bad.

“Wh-what’s going on? Why are there so many people here?”

Sugar could not understand why there were so many people in this elective class?

Forget the elective class, even the core classes had never seen so many people!

“I know what’s going on,” Song Jia said. “These people are definitely here for Lin Yi.”

“They’re here for him?”

“Lin is so handsome that all these girls are attracted to him,” Song Jia said.

“That’s normal,” Shi Li said in a low voice. “Even a married woman like me is attracted to Lin, let alone these girls.”

Suge’s face darkened. What was going on?

“I can understand why the girls came, but why are all these boys here to join in the fun?”

“Look at these girls. One of them is wearing a short skirt and her thighs are exposed. All the boys are here to see these girls,” Shi Li said.

Sugar:” ...”

At this time, the bell rang, but there was still a steady stream of people entering.

After about ten minutes had passed, and the entire lecture hall was full.

Even the aisle was full of people.

It could be said that there was no room for anyone other than on the podium.

Song Jia looked around. The lecture hall, which could originally accommodate 330 people, now had at least 500 people inside!

This did not include those who were blocked outside and could not enter.

Wasn't that a little too crazy?

"Sis Su, I don't think there's a need for attendance," Song Jia said in a low voice.

Based on the current situation, forget 95% attendance, he might even have reached 200% attendance rate!

It was obviously impossible to subdue Lin Yi with such a method.

"I think so too. There are so many people here, it's a little petty to talk about attendance." Shi Li said. "Why don't we leave first? There's no point in staying here."

Suger's face turned ugly. "We're not leaving. We're staying right here."

"We're not leaving? We were just here to check attendance. There's no need to do that now, so what are we still doing here?"

"I want to see how he's going to teach this class."

At the same time, Lin Yi stood on the podium and glanced at the people below.

"Everyone's almost here now. I'll take attendance."

Sugar was using attendance as an excuse, so it was necessary to take their names.

"Lin, we didn't sign up for this class. We're here to listen in. Our names aren't on the roster," a long-haired girl said.

"We've thought it through. As long as it's Lin's class, we won't miss it!"

Lin Yi was speechless. "You guys are planning to skip classes for a long time, right?"

"Yes, yes."

"How about this, you guys leave your names on the paper so that I can take attendance in the future."

A girl took the paper and pen from Lin Yi and left her name on the paper.

After half an hour, the registration work was only half done.

Sugar, who was sitting in the back row, couldn't stand it anymore.

"Teacher Lin, you can put the registration work aside for now. Class can start now."

"Alright."

Lin Yi replied and said to the students below:

"Let's not register for now. Let's start the class now."

“No!”

The girl who was writing her name said, “I have to leave my name behind. What if the teacher forgets us?”

“But Director Su of the League Committee has already said that you can’t register. She wants me to start the class.”

The gazes of all the students present fell on Sugar in unison.

In an instant, the three of them became the target of public criticism. Sugar felt extremely uncomfortable looking at them.

“Teacher Su, you’re the Director of the League Committee. You should listen to Teacher Lin’s plans for the class, right?”

“That’s right. If we listen to your plans, then what is the point of having a teacher for this class?!”

“Lin has his own ideas, don’t interfere with his rhythm.”

Sugar was stunned. He didn’t expect these students to speak up for Lin Yi.

Seeing the murderous gazes, Song Jia gently nudged Sugar and said in a low voice,

“Sister Su, what should we do?”

“Forget what I just said. Let’s just follow Lin’s instructions,” Sugar said helplessly:

“Oh yeah!”

The girls who didn’t leave their names cheered and continued to leave their names. Another half an hour passed before the registration work was done.

Lin Yi’s second batch of pesticides was also done.

Lin Yi frowned slightly when he saw the names on the paper. He finally understood why it took so long to finish the registration work.

“I asked you to register your name. Why did you all also leave your phone number?”

“We were afraid that teacher Lin would come looking for us, so we left our phone number.”

“Teacher, my phone number is the same as my WeChat ID. You just got broke up with my boyfriend, so you can add me.”

“Teacher, I’ve never even had a boyfriend.”

### **Chapter 103: Master’s Memory!**

“Stop, stop, stop.”

Lin Yi said, “I won’t say anything more about you guys who left their numbers. There’s also a group of girls who left their measurements behind. What does that mean?”

“It’s convenient for teacher Lin to get to know us better.”

“Get to know us better? How much do you want me to get to know you?”

“That depends on how forceful Teacher Lin is.”

Lin Yi was speechless.

A skilled speaker!

These people were too terrifying!

“Alright, Let’s start the class now.”

“Teacher, you haven’t started the roll call yet.”

“Called the roll call?” Lin Yi waved the paper in his hand. “I just finished receiving the names and nobody even left yet. Is there a need to do a roll call?”

“Of course, this is a necessary procedure, it can’t be skipped.”

“Alright, I’ll start doing the roll call now.”

“Okay.”

The students in the classroom sat upright, waiting for Lin Yi’s roll call. This way, Lin Yi would be able to get to know them more personally.

Who knows, Lin Yi might even take the initiative to add them on WeChat.

Ring, Ring, Ring...

Just as Lin Yi was about to start the roll call, the bell rang.

“Alright, that’s all for today. Let’s continue the roll call next class.”

“Got it, Mr. Lin.”

Sugar, “...”

Song Jia, “...”

Shi Li, “...”

The three of them were in a mess. A 90-minute class was over just like that?

It was obvious that they had not done anything at all!

Lin Yi left the classroom, surrounded by a group of girls.

Only Sugar and the other two were left in a mess.

This was the first time they had seen a class like this.

They simply jotted down their names and the class was over.

“Sis Su, your plan seems to have failed again,” Song Jia said.

“I seem to have understood something,” Shi Li said as if she was talking to herself.

“Lin Yi isn’t a scumbag, and those women let him be.”

“Alright, let’s not talk about this anymore. Let’s go back to the office first.”

Sugar returned to the office speechlessly.

However, when the three of them returned to the office, Sugar was in a bad mood.

This was because Lin Yi took out two boxes of Mrs. Oral Liquid, and even inserted a straw into one of them.

“Director Su, you came back just in time. I’ve already prepared it for you. How about drinking a bit to taste it?”

Sugar felt like she was about to break down!

Why did he have to put up in a straw?

There were two whole boxes, how was she supposed to drink them?

Song Jia and Shi Li stood to the side dejectedly.

Sister Su had already boasted that she would drink two boxes of Mrs. Oral Liquid liquid as long as his attendance reached 95% . Now it was time for her to fulfill her promise.

Song Jia sighed secretly.

Sister Su was really pitiful, losing to Lin Yi twice in a row. Sister Su’s nemesis had arrived.

“I’ll drink it!”

Sug picked up a bottle of Mrs. Oral Liquid and drank it unwillingly.

“Come, come, Director Su. There are still dozens of bottles left after this. Don’t rush to finish it all.”

Seeing the mountain of oral liquid, Sugar wanted to die.

There were at least hundreds of bottles. How long would it take to drink it all?

“You don’t have to tell me. I know what to do!”

“If that’s the case, then I won’t say anything else.” Lin Yi said with a smile. “Take your time, Director Su.”

Lin Yi left the school in a good mood. He had an agreement with Sun Fuyu in the afternoon that he would go to the institute today.

Lin Yi drove to the Peninsula Hotel, had a bite to eat, and headed to the institute according to the address Sun Fuyu gave him.

However, on the way to the research institute, the system’s notification rang in Lin Yi’s mind.

[200,000 experience points for completing the first class of your teaching career.]

[Job completion: 40%. Reward: Master's memory.]

"Hm? Master's Memory?"

Lin Yi was a little suspicious when he read the words in his mind.

The system had already given him Sage's memory when he opened his new job.

What was with this Master's memory?

"System, what is Master's memory?" Lin Yi asked. "How is it different from Sage's memory?"

[Sage's memory is broad but not refined, Master's memory is refined but not broad. ]

After listening to the system's explanation, Lin Yi roughly understood what was going on.

When he first accepted the Sage's memory, he discovered that although there were all kinds of knowledge in it, it was only at the surface level and he was not proficient in any of the topics.

However, this so-called master memory must be specialized knowledge in a certain field.

[Host, please choose the master memory you want to fill in.]

"Let me think."

Lin Yi thought for a few seconds. In his current state, he did not really need this kind of knowledge.

After all, with enough money, more than 99% of things could be obtained.

If you could not buy it, it meant that you did not have enough money.

Even so, Lin Yi soon thought of a way to use the reward of the Master's memory.

It even felt like it came at the right time.

The domestic chip field had always been at the early stage of development.

The global high-end chip field had always been monopolized by Intel, Qualcomm, Hynix, Texas Instruments, and other companies. Meanwhile, the domestic industry was at least 40 years inferior to theirs.

This was also the reason why Longxin was sold.

If he chose Master memory's in the related field, he would be able to make some breakthroughs in this area.

"System, who's the most powerful person in the chip industry?"

"The father of the chip, Jack Kilby."

"Alright, I'll take his knowledge!"

"Master memory filling successful!"

In that instant, Lin Yi felt an overwhelming amount of knowledge pouring into his mind like a tidal wave!

Lin Yi was ecstatic as he felt the changes in his mind. With what he knew now, it would not be difficult for him to make a breakthrough in the chip field!

This would be crucial to the expansion of his business!

...

Longxin Research Institute was located in the outskirts of Zhong Hai. It occupied an area the size of a football field.

For a research institute, such an area was not considered small.

In the director's office was a man in a white coat. He wore a pair of black-rimmed glasses and looked like a scholar.

"Director Sun, I heard that the research institute has been acquired."

The person who spoke was a woman. Like Sun Fuyu, she wore a white coat and had a good-looking oval face. She had a simple ponytail, but her cold face gave people a sense of distance.

The woman's name was Lu Ying. She graduated from Tsinghua University with a doctorate. After graduating, she came to work at the Longxin Research Institute.

However, things did not go according to her wishes. Although Lu Ying's business ability was top-notch, she still hadn't made much progress in the development of the chip. Some technical problems also had not been solved yet.

"Yes, I received the news yesterday and rushed back."

Sun Fuyu looked at his watch. "We're meeting at one o'clock in the afternoon. The other party will be here soon."

"Who is the other party? Is He from the circle?" Lu Ying asked.

"Not really. I've read the information about the boss behind the scenes. He's a young man. He shouldn't be from the circle. He seems to be a rich second generation."

#### **Chapter 104: I Thought It Was a Kindergarten Education**

"No way, he's a rich second generation?"

The people in the office curled their lips when they learned of Lin Yi's identity.

They had thought that the person who bought the research institute would be a research tycoon, but they did not expect it to be a random rich second generation.

This was the thing they were most afraid of, and something they badly did not want to see.

Once such a situation occurred, it could spell the end for the institution.

"Director, do you know his intentions behind buying our research institute?" Lu Ying asked.

Sun Fuyu silently lit a cigarette and said,

“The specific intention is hard to say. We did not communicate too much over the phone. We have to wait for the other party to come before we can talk about everything.”

“Humph, do you still need to guess? I already know.”

The person who spoke was a man who looked just like Sun Fuyu. They both wore glasses and were around thirty years old. He had short hair and exuded a faint sense of pride.

The man’s name was Liu Chu. He was a doctor from Fudan University in Zhonghai and was also a loyal admirer of Lu Ying.

However, in the past year or so, the two of them never really hit it off. However, Liu Chu did not give up and continued to pursue Lu Ying.

“You guessed it?” Sun Fuyu asked. “What are his intentions?”

“There are two possibilities,” Liu Chu said with confidence.

“I think this rich second generation may have a certain official background. He wants to use our research results to earn some political achievements. This way, he will have a chance to climb up the official career ladder.”

Hearing Liu Chu’s words, Sun Fuyu nodded. This was indeed a possibility.

Because the domestic chip field had always been in a backward stage, if they could really develop a product that could compete with the international chip giants, then those at the national level would pay a lot of attention to it.

Therefore, this was very possible.

“What’s the second possibility?”

“The second guess is for reformation,” Liu Chu said:

“Use the outstanding talents in our institute to carry out other projects, and then abandon our chip research!”

“It can’t be that bad, can it?” Lu Ying said regretfully.

She came here for to work on the domestic chips. If she had to switch to other projects, there would be no point for her to continue staying here.

The others were also very resistant to this idea. They were not interested in other projects, and they did not seem to have any energy left when they heard this.

“Okay, don’t look so sad. We haven’t even gotten to the bottom of this yet. This is all our assumptions. Don’t rush to conclusions. Maybe things aren’t at all like we think,” Sun Fuyu said.

Lu Ying nodded, “I’m just a little worried. My research has reached the most critical stage. If we solve the current problem, we can enjoy huge progress in the domestic chip industry. Thus, we can’t give up so easily.”

“I know about your situation, but calm down first,” Sun Fuyu comforted her.

“Let’s look at this matter with a rational mind. Don’t be too radical.”

“Director, I think you’re still being too optimistic,” Liu Chu said. “No matter what the situation is, it won’t change the situation that we will be led by someone who knows nothing of the industry. I’m afraid our future situation is not too optimistic.”

The people in the office all had solemn expressions, just as Liu Chu had guessed.

No matter what the situation was, it would not change the fact that a layman was going to lead the professionals.

Their future scientific research would probably not be as free and easy as before.

Ring, Ring, Ring...

At this moment, Sun Fuyu’s phone rang.

“Mr. Lin.

“You’re already here? Okay, I’ll go out to pick you up now.”

He hung up after a few simple words. Everyone in the office was a little nervous. They were finally going to meet the man in person.

“If you guys have nothing better to do, come out with me.”

The group nodded and walked out with Sun Fuyu.

They did not see the crowd outside the research institute.

Sun Fuyu looked around—there didn’t seem to be any changes other than the addition of a random Shari.

At that moment, the door to the Shari opened, and Lin Yi got out of the car before walking up to Sun Fuyu.

“You must be Director Sun Fuyu.” Lin Yi said.

Sun Fuyu reached out his hand when he saw Lin Yi. He recognized Lin Yi the moment he saw his photo.

“Nice to meet you, Mr. Lin. We’ve been waiting for you for a long time.”

The female researchers were stunned when they found out that Lin Yi was the second-generation heir to the research institute.

This... This guy was way too handsome!

“Little Lu, we married women don’t stand a chance. You’re single, do you have any thoughts about him?”

“You guys are too gossipy. You’re so infatuated,” Lu Ying said. “But he’s really attractive.”

“Look at me. I said I didn’t want him, but my body is too honest.”

“Sister Xu, you guys are underestimating Little Ying too much. People like him who just have some stinky money and good looks make for the most unreliable partners,” Liu Chu said.

“I know you’re interested in Little Lu, I’m just commenting on the guy.”

“Mr. Lin, let’s go to the office first. This isn’t the place to talk.”

“I’m not going to the office. Let’s see where you work first,” Lin Yi said.

The best way to do a good job was to have a sharp tool. No matter how good these people were, they would not be able to do a good job if their hardware was not up to standard, so they had to go take a look.

“Alright, Mr. Lin is the director now, so I’ll listen to you.”

“Don’t flatter me. I’m just using my name. You’re still the one handling the details.”

The group arrived at the place where Sun Fuyu and the others were working.

Lin Yi understood from Sun Fuyu’s introduction that some of the equipment in the factory was outdated and needed to be replaced soon.

“Mr. Lin, that’s basically the situation in the factory. What do you think?” Liu Chu asked

“I do have a lot of opinions, but I’m in a hurry today. I’m just here to look around. I’ll sort out my thoughts in the future and pass them on to you.” Lin Yi said.

“Alright, I’ll listen to Mr. Lin’s arrangements.”

“Wait.”

Liu Chu spoke just as Lin Yi was about to leave.

“What’s wrong? What’s the matter?” Lin Yi asked.

“Mr. Lin, you bought the research institute, and you’re the boss here. As an employee, I have a few things to say.”

“Okay, go ahead.”

“The research institute has its own research direction. I don’t want you to interfere too much in our work. I hope you can let us do what we want.”

What Liu Chu said was what the others cared about the most.

What they cared about the most was whether they could work freely in the future. They did not want to be restricted by a boss’ interference.

At this time, everyone was looking forward to Lin Yi’s answer.

Lin Yi looked at Liu Chu and asked faintly,

“What’s your education?”

Liu Chu straightened his back with a proud look on his face.

“Fudan, PhD in computer communications.”

“Oh, so it’s a PhD.” Lin Yi smiled.

“If you didn’t tell me, I would have thought it was a kindergarten education.”

### **Chapter 105: “I’ll Do It.”**

“Kindergarten education...”

Lin Yi’s words shocked everyone in the institute.

The new boss looked kind, but how could he scold people like that?

Liu Chu narrowed his eyes and clenched his fists in displeasure.

“Mr. Lin, we know that you’re rich, but I hope that we can maintain the principle of equality. I’m a doctor in Fudan, not one of those migrant workers. Please don’t insult me.”

“I’m not insulting you,” Lin Yi said lightly.

“I don’t have as much education as you guys, and I envy people like you who study well. But I look down on people like you who have high grades but low abilities.”

The anger on Liu Chu’s face intensified. “I have high grades but low abilities?”

“I bought Longxin Research Institute, so I naturally have absolute control. As the boss, do I need you to tell me how to run the place? What kind of person do you think you are?”

Sun Fuyu secretly clicked his tongue. It was said that a new official had three fires in his mouth, and what was meant to come would still come. Unfortunately, Liu Chu was learning this first hand.

“What I said is the truth,” Liu Chu argued. “We need a relatively free working environment, otherwise it will be difficult to carry out the research and development task.”

Although Liu Chu’s behavior was a little impulsive, it represented what everyone was thinking at that moment.

What they were most afraid of was a layman guiding an expert.

“I have a specific plan for the work of the research institute. If you think that I can’t become a good leader, then you can look for another job. I won’t stop you.”

“Mr. Lin, I know that you rich people have your own tempers, but some things are not as simple as you think,” Liu Chu said.

“The project in my hands is in the final stages of development. If I am able to solve the final problem, the domestic chip industry will be able to advance at least ten years forward. If I leave, the project will be put on hold. The impact will be immeasurable!”

Sun Fuyu frowned. He did not expect that the two of them to start a fight on the first day they met.

However, Liu Chu was not lying. He and Lu Ying were the two most outstanding researchers in the institute. If he left, the project might really be put on hold.

“Do you think the Earth will stop spinning without you?” Lin Yi asked.

“No, but without me, the project won’t be completed,” Liu Chu said.

Lin Yi looked up at Sun Fuyu.

“Director Sun, what’s the project he’s talking about?” Lin Yi asked.

“The early stages of the project have all been completed, but we still need the control unit program. Our research hasn’t made any progress, and the program we’ve written hasn’t been able to match the control unit thus far,” Sun Fuyu said.

“Is doing so very difficult?” Lin Yi asked

“It is!” Sun Fuyu said with certainty. “This is the most important step in chip research, and it’s not exclusive to us. The research and development work of the other chip research institutes are also stuck at this point, and the progress is slow.”

“Then I’ll do it.” Lin Yi said lightly.

“What! You’re do it?!”

Everyone in the research institute was stunned. No one had expected Lin Yi to say something like this.

Scientists from famous universities like them were all at a loss on this aspect of research. How could a rich second generation like him possess this kind of knowledge?

The chances were slim!

Lin Yi did not know what others were thinking, but he had absolute confidence in this matter.

He had already received the memory of the chip’s creator, Jack Kirby, in his mind. He knew the whole process of developing the chip very well, and it was not a difficult matter for him at all.

Lu Ying was surprised. The new director was too confident.

He was actually trying to lead the development of the unit program?

This was not something an ordinary person could do.

“Mr. Lin, may I ask what degree you have?” Sun Fuyu asked tentatively.

“I’m an undergraduate at Zhonghai University of Science and Technology, Marketing.”

Pfftt!

Sun Fuyu almost vomited blood when he learned of Lin Yi’s degree.

What the hell was he doing?!

An undergraduate at a third-rate university, and a marketing major at that? Yet, he was trying to program a chip?

How much did he drink before this?!

That was what Sun Fuyu was thinking, but he did not say anything.

After all, he was his boss, and he had to give face to this man.

“What’s wrong?” Lin Yi said. “Zhong Hai Polytechnic may not be a good school, but our marketing major is an ace program. Don’t look down on us.”

The people from Longxin Research Institute were speechless.

Bro, even if you’re an ace, you’re only a marketing major!

There were so many PhDs in this department, yet you still wanted to try your hand at the problem? Was this not a waste of their time?

The institute under his control might not enjoy much development in the future.

They had just received a glimmer of hope before this, but they did not expect something like this to happen.

The situation was too difficult.

“Mr. Lin, we are not looking down on you. If you want to try, just give it a try,” Sun Fuyu said while wiping away his cold sweat.

“Give me a copy of the basic information that you are currently researching. I will check if there are any mistakes.”

Liu Chu had a look of disdain on his face. It had already come to this point, yet he was still pretending.

Even if you worked yourself to death, you would not be able to understand the research!

“Little Lu, you and Liu Chu have always been in charge of this project. Bring the basic information here for Mr. Lin to review.”

“Got it.”

Lu Ying went to the file cabinet, took out a few documents and USB drives, and handed them to Lin Yi.

“Director Lin, the basic information of the project is here. If there’s anything you don’t understand, you can ask me.”

Lin Yi smiled. “You think I won’t understand it?”

“That’s not what I meant,” Lu Ying said. “It’s just that your speciality doesn’t match the subject, so you might not be familiar with it.”

“Looks like you guys don’t trust me.” Lin Yi looked at Lu Ying. “If you have feelings toward me, you can say it now.”

“No.” Lu Ying said. “Director Lin, don’t misunderstand.”

“If you’re too shy to say it, then speak confidently.”

Then, Lin Yi looked at the basic information and memorized some of it.

All that was left was to start working!

If nothing unexpected happened, it would take about three hours to finish all these things.

Seeing Lin Yi open the programming tool, Liu Chu smiled.

“Mr. Lin is really something. As a marketing student, you actually know how to use a programming tool. It’s so rare that I can’t help but applaud you.”

### **Chapter 106: A God-level Figure**

Lin Yi smiled. “That’s why people like me are considered well-rounded talents. You’re just a high-scoring but low-skilled person.”

“Mr. Lin, I think you should focus on how to solve the problem in front of you. Don’t sit there like a perfect being. If you end up not being able to solve any problems, won’t it be embarrassing?”

“You’re right. We’re already at this stage, so I should at least do something.”

Lu Ying sighed secretly. She did not think that Lin Yi had the ability to do this.

Even the top scientists in China weren’t able to solve such a problem, so it was even more impossible for him.

Even so, why did he have to try?

Was he not the one who would suffer in the end?

Why?

Crackle, crackle, crackle...

Lin Yi’s fingers fell on the keyboard like raindrops, the program code flashing on the computer screen dazzling everyone’s eyes.

At first, everyone at the research institute was just watching the show. How could someone who studied marketing know anything about microchips?

However, they soon realized that something was not right.

The code Lin Yi typed out was not useless. It was the program code of the control unit!

What was even more unbelievable was that the code Lin Yi typed out was both familiar but also slightly unrecognizable.

It looked similar, but it was not the same as the code that was written here before.

To put it bluntly, it was just slightly similar. After taking a closer look, they would realize that the code Lin Yi wrote was completely different!

It was completely different from what they had imagined before!

It even gave people a feeling of subversion!

“Mr. Lin, the code you wrote is...” Sun Fuyu asked tentatively.

“The reason why you can’t write the code suitable for the control unit is because there are errors in the source code,” Lin Yi said. “I’m writing a new source code now. You can keep it for future use. This way, you won’t have to make many detours.”

“Other than that, there are also many errors in the DFT, FloorPlan, CTS, parasitic parameters, and so on. I’ll help you adjust it now so that there won’t be any more errors.”

They were stunned!

They were dumbfounded!

Hearing Lin Yi’s words, everyone in the research institute was dumbfounded.

No one expected Lin Yi to have such professional chip knowledge in his mind!

This was an ability that even they did not have!

Lu Ying’s eyes were wide open, filled with vigor.

The string of codes seemed to be more attractive than the rose that symbolized love in her eyes.

However, what was more attractive to her was the man sitting in front of the computer, staring at her intently.

Could it be that he did not have any other purpose in acquiring the research institute?

Was he really doing it out of the feelings in his heart?

Unconsciously, Lin Yi’s image in Lu Ying’s heart grew bigger and bigger, as if he had infinite charm.

After three hours, Lin Yi’s various operations amazed everyone present.

To them, Lin Yi’s operations were like opening the door to a new world.

It was like an epiphany, a genuine epiphany!

During this period of time, not a single person went to the toilet, afraid of missing even a single line of code.

To them, forget a single line of code, even missing a single character was unacceptable.

“Huff...”

Lin Yi exhaled. “All done. I’ve done the most basic things for you guys. You guys can handle the rest yourself.”

“Mr. Lin, don’t you need to check it again?” Sun Fuyu asked

In some ways, writing code was like writing a thesis. It was easy for errors to appear, and they had to be checked at the end.

“No need. You’ll know after you link and test it.” Lin Yi said.

Sun Fuyu then used the code Lin Yi had written and combined it with the control unit. He found that there were no errors at all!

Moreover, the program could run perfectly without a single flaw!

Hiss...

Everyone in the research institute gasped at this scene!

This man in front of them was too much of a genius!

In just three hours, he had completed the problem that had been troubling them for years!

He was simply a rare genius!

“There shouldn’t be any problems, right?” Lin Yi said lightly.

“Yes, yes, yes. The program is perfect. We already know what we should do next.”

Sun Fuyu said. The glow in his eyes could not be hidden anymore.

Lu Ying looked at Lin Yi in shock. This man was too amazing!

He was just an ordinary undergraduate, and his major was not at all related to the subject. She held a PhD from a famous school, but when compared to him, there seemed to be almost no difference between them.

This was amazing!

Lin Yi raised his head and looked at Liu Chu. “You were in charge of these things before, but now that I’ve finished them, I don’t need you anymore. The door is behind you, you can leave on your own.”

1

“Mr. Lin, I apologize for what I did just now. I shouldn’t have looked down on you.”

Liu Chu was completely impressed by Lin Yi’s ability after witnessing it with his own eyes!

If he continued to stay in the research institute, the chip field in the country would definitely improve by leaps and bounds with the help of the source code he wrote.

As long as he stayed here, he would definitely become the leader of the industry!

His position in this field would also rise by leaps and bounds.

However, if he left just like that, everything would be ruined.

“I’m not a petty person. I won’t be angry over such a small matter. I just think that there’s something wrong with your ability and that you’re not suitable for this kind of work. Pack your things and leave.”

“Got it, got it...”

Seeing that Lin Yi was not going to back down, Liu Chu left the institute with his head lowered.

Lin Yi looked at the others and said,

“I’ve done what I needed to do. I’ll leave the rest to you.”

“Alright, leave the rest to us.”

“Oh right, I see that the equipment in the institute is a little old. Make a list of all the old equipment and replace them with new ones.”

“Replace them with new ones?”

Sun Fuyu’s expression was a little confused. “Mr. Lin, to be honest with you, a lot of the equipment here are outdated. If we replace them with new ones, it’ll cost at least 30 million. That’s not a small amount...”

“I’ll transfer 50 million to you later. Buy the best equipment and give each of yourselves a bonus of 500,000. The rest of the money will be used as the research funds for the institute. Tell me when it’s all spent.”

Everyone looked at Lin Yi with burning eyes, even feeling a little embarrassed.

At first, they thought that he was an amateur, but they did not expect him to be a god that was even more powerful than them.

Moreover, he was now taking out so much money to support the research in the institute. From the very beginning, it was Lin Yi who had the heart of a gentleman.

“Thank you, Mr. Lin. On behalf of the Longxin Institute, I’d like to express my gratitude for your trust.”

Lin Yi nodded and walked out of the institute.

At that moment, Lu Ying ran after him.

“Director Lin, please wait.”

### **Chapter 107: The Great Nation Values Its People**

“What’s the matter? Did you want to see me?” Lin Yi asked.

“He Liuchu has always been in charge of this project. Now, the basic problems and errors have been solved, but there are some other questions I would like to ask you.” Lu Ying said.

“I thought you didn’t trust me?” Lin Yi said with a smile.

“Director Lin, I’m... I’m sorry,” Lu Ying said nervously, bowing to Lin Yi.

“What are you doing?” Lin Yi asked.

“I’m sorry for what I did before. I really want to ask for your advice, and I want to contribute to our country’s chip industry.” Lu Ying said.

Lin Yi was slightly moved by Lu Ying’s sincerity.

He was not investing in Longxin Research Institute to make money, but to break through the technological barriers that foreign countries had put up so that they could stop being controlled and led by Western powers.

1

Lin Yi saw this spirit in Lu Ying.

“Then what do you want? With your looks and education, you won’t be treated badly even if you go to other places. Why waste your youth in the Institute?”

“Because when I was in school, the teacher said that famous schools were the most important thing in the country. I may be a woman, but I also have a patriotic spirit. I want all the people in China to believe that our country is no worse than any other country!”

Lin Yi’s heart instantly rippled with shock.

He had never thought that a woman would be able to unleash such spirit.

5

“I believe you,” Lin Yi said lightly. “But I still have other things to do. It won’t be too late to talk after you finish your work.”

“Thank you, Director Lin!”

Sun Fuyu and the others then sent Lin Yi out.

The people at the research institute were moved when they saw Lin Yi’s car.

He’d given 50 million dollars to the institute casually, but he was driving a shabby Shari. In comparison, Sun Fuyu was driving a car worth 200,000 to 300,000 dollars.

In terms of structure and vision, Sun Fuyu was still miles away.

“This is a person with a big heart,” Sun Fuyu sighed.

“Exactly. He’s already so rich, but he still drives a Shari. He’s really a role model for us.”

“He’s obviously a rich second generation, and he’s so handsome. He’s actually willing to devote himself to the country’s scientific research. Such a person is really rare.”

“Little Ying, look at our new director. Not only is he a technological genius, but he’s also handsome and rich. You have to hurry up.”

“Don’t make fun of me. Director Lin won’t be interested in me,” Lu Ying said, embarrassed.

Creak...

Lin Yi was about to get into the car when he saw an Audi A6 coming in from outside.

Two people got out of the car. One of them was in his 60s and wore an old-fashioned Chinese tunic suit, but his body was still strong.

The other one was slightly younger, appearing to be in his 30s. He wore glasses and looked very easygoing.

Lin Yi found the two people who got out of the car familiar.

The old man seemed to be Zhao Qi, the director of Normal University, and the other one was his secretary, Zhou Genzhe.

Judging from the current situation, this man should be his immediate superior.

Lin Yi was not in a hurry to leave when he saw Zhao Qi. He wanted to see what was going on.

As for Sun Fuyu and the others, they were curious about the two's identities as well. They wanted to know what they were here for.

"Yo, everyone's here. Let me introduce myself first. I'm the principal of Zhonghai Normal University, Zhao Qi. This is my secretary, Zhou Genzhe. Sorry for the intrusion."

Sun Fuyu understood Zhao Qi's intentions after learning of his identity.

A few days ago, they had sent someone over to say that the university had a research project and wanted to borrow the laboratory equipment.

However, because he still needed to use the laboratory equipment, he refused their request.

He did not expect the principal to personally come this time.

"President Zhao, I believe that you are here to borrow the laboratory equipment," Sun Fuyu said.

"Yes," Zhao Qi said with a smile, "Our school has a scientific research project, and it's at a critical stage right now. We want to borrow the equipment of your research institute, so..."

"President Zhao, if it were yesterday, I could still make the decision if you came to me personally, but not anymore."

"What's wrong? Is there a problem with the institute's equipment?"

"There's nothing wrong with the equipment, but our research institute has already been acquired. As the director, I'm only in charge of the research projects. As for the rest, we'll have to look for our new boss." Sun Fuyu said.

"New boss?" Zhao Qi was a little surprised. He had not expected something like this to happen.

"That's right."

Sun Fuyu pointed at Lin Yi, who was not far away. "That's the new boss of our research institute, Lin Yi. You'll have to talk to him about this."

Zhao Qi and Zhou Genzhe were both surprised to see Lin Yi.

They didn't think that the person buying the institute would be a young man.

Zhou Genzhe frowned slightly. He felt that Lin Yi looked familiar, but he could not remember where he had seen him before.

At the same time, Lin Yi walked over and smiled.

"Principal Zhao."

“Hello, hello.”

Knowing Lin Yi’s identity, Zhao Qi took the initiative to extend his hand.

“You want to borrow the equipment from the lab, right?” Lin Yi cut straight to the point.

“Yes, this is because the school is researching a project, but the research equipment in our school is not up to par, so we want to borrow some equipment from the research institute. Don’t worry, we will pay the related fees.”

“There’s no need for the related fees.” Lin Yi said with a smile.

“President Zhao, how about this? The research institute is going to phase out a batch of equipment in the near future. It’ll be a little difficult to develop the chip with this equipment, but it’s still fine to use for academic research. If you don’t mind, I’ll donate this batch of equipment to the school.” Lin Yi said with a smile.

The research project of the school and the research on the chip were on two completely different levels of difficulty.

The hardware requirements for the related experiments likewise were on completely different levels.

The old equipment might not be good enough for Sun Fuyu and the others, but it was more than enough to conduct scientific research, especially at a school on the level of Zhonghai Normal University.

“You want to give the equipment to us?” Zhao Qi and Zhou Genzhe were surprised. They did not expect Lin Yi to do such a thing.

“That’s right. If the old equipment can’t meet the needs of the research project, we’ll lend you more equipment from the research institute.”

“Enough, enough.” Zhao Qi said gratefully. “Our research project can’t be compared to what’s going on in the research institute. Even if it’s obsolete equipment, it’s enough for us to use.”

“Then it’s settled.”

“Mr. Lin, I have something to tell you. Is it convenient to talk in private?” Zhou Genzhe said politely.

“Of course.” Lin Yi said

The three of them then stood to one side as Genzhe spoke.

“Mr. Lin, I’ve always thought that you looked familiar. Have we met somewhere before?” Genzhe asked

Lin Yi smiled. “Teacher Zhou has a good memory. Actually, I’m a member of the general committee of a Normal University. I just joined a few days ago.”

### **Chapter 108: Face to Face**

Zhao Qi and Zhou Genzhe were shocked when they heard this.

“Mr. Lin is a teacher at the university?”

“That’s right.”

The two of them looked at each other and saw the shock in each other's eyes.

"Teacher Lin, may I ask why you decided to become a teacher at the university when you were able to purchase Longxin Research Institute and donate so much of its equipment?"

"I have nothing to do at home. I want to experience life in the university."

Zhou Genzhe could not help but laugh. "Teacher Lin's situation is really not something we can compare to."

Although his words sounded nice, Zhou Genzhe could not help but ridicule him.

He was already so rich. What kind of life did he want to experience at the university?

Could it be that he was sick of playing around with the young models in the club and now wanted to play with female students?

This was certainly a possibility.

"Teacher Zhou, you're too polite. I'm just an ordinary person. I'm not as powerful as you think."

"Wow, this is such a coincidence. I actually met one of my own." Zhao Qi could not stop smiling as he said,

"Teacher Lin, you donated such a large amount of equipment and made an indelible contribution to the school's scientific research. Don't work for the school's league committee anymore. I'll give you a role as honorary vice-principal. It's much better than being a member of the school's league committee."

The so-called honorary vice principal was just an empty position without any real power. Anyone who had contributed or held a certain amount of influence could be given such a position.

"Principal Zhao, you're too polite. I'm pretty good at working for the committee, and I don't want to be too high-profile," Lin Yi rejected.

"Lin, I know you're a low-profile person, but I have to give you this honorary vice principal position," Zhao Qi said.

"Even so, I won't say anything about this. We'll do it in private. I'll give you the certificate tomorrow, but on the surface, you're still be the secretary of the school's committee." Zhao Qi said

Lin Yi was able to purchase the Longxin Research Institute, and he had donated so much equipment. It was obvious that his identity was extraordinary.

He had to protect this newfound goldmine tightly. He could not let him run away, or it would be a huge loss to the university.

"Since Principal Zhao has said so, I'll have no choice but to obey."

"Okay, okay, okay. It's settled then."

"Okay."

After a short chat, Lin Yi realized that it was getting late, and he was not going back to school anymore. He was planning to go home and rest.

Right now, apart from his identity as a shareholder of Didi, he had a total of four properties under his control.

Zhong Hai International Racetrack, Peninsula Hotel, Wangjiang Dock, and Longxin Research Institute.

Currently, the first two industries did not suffer from too many ups and downs, but it also was not suitable for any big opportunities in the near future.

Thus, he had to focus on the renovation of Wangjiang Dock and the development of the chip.

Even with the support of the system, he still had a long way to go.

Ring, Ring, Ring..

On the way back, Lin Yi's phone rang. It was Ji Qingyan calling.

"Are you free tomorrow?" Ji Qingyan asked.

"Why? You want to ask me out?" Lin Yi said with a smile. "I can think about it."

"You're so pretty. I'm not going to ask you out." Ji Qingyan said proudly. "The company is holding a press conference tomorrow afternoon. If you're free, come and take a look."

Lin Yi remembered what Ji Qingyan was talking about.

It was because of this press conference that she had previously performed ten s-squats. It was interesting just thinking about it.

"This is the company's press conference, I don't think it's good for me to attend."

"What's wrong with attending? Whoever I tell to come has the right to come."

"Alright, since President Ji has spoken, I'll definitely be there on time."

1

"Tomorrow afternoon at three. It's already agreed. You can't go back on your word."

"Don't worry, I got it." Lin Yi said. "We know each other so well by now. Don't you know what kind of person I am? I won't go back on my word."

"Then it's settled."

"Okay."

After hanging up the phone, Lin Yi drove back to Jiuzhou Pavilion.

Thinking about it carefully, he realized he really had to go to the press conference tomorrow.

This was not because of the conference, but because he had to talk to Ji Qingyan about something.

Yaluo had been given the design of Wangjiang Pier, and the construction had to be outsourced to other companies.

There was no doubt that Chaoyang Group was the most suitable candidate for this.

After all, it was better to give Ji Qingyan the benefits than to give it to others.

Upon arriving home, Lin Yi did not go to Villa Number One, but Villa Number Two.

It was his house, so he could not be too biased. He had to stay in every villa for a few days.

1

After taking a bath, Lin Yi took out his phone and turned on the game.

There were a few private messages inside, all from "Pleated skirt".

Pleated skirt, "God, I'm in a bad mood today. Let's form a team."

Invisible chicken wings, "It's normal, everyone has those days."

Pleated skirt, "I've told you so many times. I'm a girl."

Invisible chicken wings, "It's all the same."

Upon seeing the reply, Sugar was stunned and said to herself, "Could he mean the same effect as that?"

Pleated skirt, "Let's not talk about it. Let's start the game and kill some time I'm in a bad mood."

Invisible chicken wings, "I can bring you, but you have to behave. Don't show off."

Pleated skirt, "I got it, God. Mwah."

Invisible chicken wings, "Scram, scram, don't disgust me."

After about half an hour, the three rounds of the game ended. Although the process was not at all easy, they still managed to obtain three consecutive victories.

Pleated skirt, "God is amazing. It's been a long time since I've won three consecutive victories."

Invisible chicken wings, "To be honest, other than professional players, there aren't many amateur players who can carry you."

Pleated skirt, "God, you've worked hard. Why don't I treat you to a meal?"

Invisible chicken wings, "A meal? Do you think I'm interested in gay men?"

Pleated skirt, "That's right. You've already led me to a diamond. You should at least give me a chance to thank you."

Invisible chicken wings, "I don't meet gays."

Pleated skirt, "Why don't you believe that I'm a girl? Why don't I say something? You'll know when you hear it."

Invisible chicken wings, "Forget it, everyone uses voice changers nowadays. I won't believe it."

Pleated skirt: "Aiya, even if I'm a guy, what's the big deal about meeting? It's just a meal. You're not afraid of me, are you?"

Lin Yi rubbed his chin and replied,

"I've been too busy recently, we'll talk about it later."

Pleated skirt, "Alright, what's your WeChat number, God? I'll add you. It's too inconvenient to contact you privately in the game."

Pleated skirt, "Yeah, yeah, I'll add you now."

Soon, Lin Yi received a friend request on his WeChat.

She really was a girl.

Her nickname was pleated skirt, and her head was like an adorable duckling. She looked quite cute.

However, he could not see anything on her WeChat story. Just like him, she had blocked all strangers from viewing her story.

Pleated skirt, "God, now you believe that I'm a girl, right?"

Invisible chicken wings, "How can I believe that? Am I supposed to believe that you're a girl just because of a WeChat account?"

Lin Yi soon received a photo on his WeChat.

It was a half-body photo of a woman. She did not show her face, but her curvy assets were explosive, especially those two mountains. They looked even bigger than Ji Qingyan's.

Pleated skirt, "Have I proved myself?"

Invisible chicken wings, "You don't say. You actually look pretty familiar."

### **Chapter 109: You're About to Go Through Menopause, Yet You're Still Being Pursued?**

Pleated skirt, "Tsk, this thing looks familiar to all men. You're too old to be flirting with girls."

Lin Yi rubbed his chin. He was not flirting with her.

He really felt that it looked familiar.

He felt like he had seen someone like this before.

Pleated skirt, "You should believe that I'm a girl now, right?"

Invisible chicken wings, "So what if you're a girl? It's not like I've never seen a girl before. Let's talk about this later."

Pleated skirt, "God, are you an otaku that's too shy to come out and see me?"

Invisible chicken wings, "Who says I have to meet someone just because she's a girl? I just don't have the time these days."

Pleated skirt, "Hehe, then I'll ask you out another day. You can't stand me up then. Let's do it immediately when the time comes."

Invisible chicken wings, "Alright, we'll talk about it in a few days."

Lin Yi put down his phone and went to bed. He did not get up until seven in the morning the next day.

He arrived at the office and found a few other male colleagues he had not seen before. Thus, he immediately introduced himself.

These people were more easygoing and easy to get along with.

"Where's the Mrs.'s Oral Liquid that was on the table? Why is it all gone?"

"Sis Su didn't finish it yesterday, so she took it to her office," Song Jia said with a smile.

"Not bad, not bad. She has a good character to openly admit defeat like this." Lin Yi said

"Of course, otherwise we would lose confidence in her." Song Jia said

Lin Yi did not really like Sugar, but he recognized her abilities.

Otherwise, she would not have been able to become the director of the school committee at such a young age.

Creak!

The office door was pushed open, startling everyone inside.

The person who came in was around thirty years old. He was wearing a white Polo shirt and blue jeans. His attire was not considered trendy, but rather ordinary.

"Teacher Fu is here, but Director Su isn't here yet."

The person whom Song Jia called Teacher Fu was called Fu Jiajun. He was a teacher at the university and had just been promoted to associate professor last month.

Everyone in the committee office knew about Fu Jiajun's situation.

He was Sugar's loyal admirer, but there had not been any substantial progress in their relationship thus far.

They also did not know why he had rushed over.

"I'm not looking for Director Su." Fu Jiajun's gaze fell on Lin Yi as he spoke. "I'm looking for him."

"You're here for me?"

Lin Yi was surprised. "I don't think we know each other."

"No, but there's something I need to ask you." Fu Jiajun said with a cold expression.

“Ask me what?”

“There were two boxes of Mrs. Oral Liquid in Director Su’s car the day before yesterday. You put them there, right?”

Lin Yi was stunned.

‘What the hell was that? What does that have to do with you?!’

“I put it there, but what’s wrong? Do you want some too?”

“Stop bullsh\*tting me!” Fu Jiajun raised his voice. “Do you know how much your actions have affected Director Su? A lot of people are laughing at her now!”

Fu Jiajun got angrier as he spoke. “I’m ordering you to publicly apologize to Director Su on the School Forum and review your actions. Otherwise, don’t even hope that this matter is over!”

“What did you say? You want me to apologize?” Lin Yi looked at Fu Jiajun as if he was retarded. “What does this have to do with you? Isn’t it normal for people to take medicine when they’re sick? What do I have to apologize for?”

Lin Yi was a little suspicious. With that IQ, how did he become a university teacher?

Did he get the job through the back door?

“Hehe...”

Fu Jiajun laughed coldly. “I order you to apologize. If you don’t, then you have to reconsider whether you will be able to stay on in the university!”

“Are you really all that? Can you fire me as you please?”

“Mr. Lin, don’t talk so much.”

Song Jia pulled Lin Yi over. “Mr. Fu’s uncle is Li Detian. He’s the vice principal of the school and holds a lot of power.”

Shi Li also came over and whispered:

“There was a male teacher who was interested in Director Su. In the end, he was fired because of Jiajun.”

Lin Yi was speechless.

“What’s wrong with these people? She’s about to go through menopause, yet there’s still someone chasing after her? For what? To save time?”

Pfft!

Song Jia could not help but laugh out loud.

Why did Lin Yi’s description seem so fitting!

It was at this moment that the office door was pushed open, and Sugar, dressed in a long dress, walked in with her handbag in hand.

“Fu, what are you doing here?”

Sugar’s face darkened. She never thought that she would see Fu Jiajun here.

Song Jia walked over to Sugar and whispered updates about what had happened in her ear.

“Fu, I asked Lin Yi to buy the Mrs. Oral liquid for me, and I drank it too. I hope you won’t pursue this matter anymore,” Sugar said. “This is a private matter between us.”

No matter how much she disliked Lin Yi, Sugar’s hatred for Jiajun had reached the extremes.

The way he pestered her every day was beyond annoying.

If his uncle was not the vice-principal of the school, she would have fallen out with him a long time ago!

“Director Su, don’t protect a black sheep like him,” Fu Jiajun looked at Lin Yi and said.

“I’ll put it this way. If you don’t apologize, you won’t be able to stay in the school anymore.”

If Sugar had not said those things, Fu Jiajun would not have been so angry.

Her words clearly showed that their relationship was not ordinary.

Therefore, he had to be kicked out!

Lin Yi had to understand how powerful he was!

“In that case, I’ll look forward to it.”

Fu Jiajun snorted coldly and slammed the door.

At this time, the office was silent. Song Jia and the others immediately surrounded Lin Yi.

“Director Su, what do we do now? Fu Jiajun is a petty person. He’s capable of anything. With his uncle’s connections, it’s easy for him to make things difficult for Lin Yi,” Li Xingbang said.

Sugar was silent. She was trying to think of a solution, but it was useless.

“Alright, you don’t have to pay attention to that idiot. I don’t believe that he can act lawlessly,” Lin Yi said lightly.

“But...”

“There’s no buts, just take it easy.”

Ring Ring...

Just as the two were talking, the phone in the office rang.

Song Jia was shocked when she saw the number.

“Oh no, it’s an inside line from Vice Principal Li’s office.”

“No way, he called so soon? Fu Jiajun moves too fast,” Shi Li said.

“He’s too much. Isn’t he bullying us?” Li Xingbang asked in dismay.

“Answer it, let’s see what he has to say,” Lin Yi said indifferently.

He was the honorary vice principal of the university. How could he be afraid of this guy?

If he left, Zhao Qi would beg him to come back.

Song Jia picked up the phone helplessly. Before she could say anything, she heard a deep voice.

“Ask Lin Yi to come to my office!”

### **Chapter 110: You’re Fired!**

“Got it, Vice-Principal Li.”

Song Jia hung up after giving a quick response.

“Lin, Vice-Principal Li wants you to go over.”

“Where’s his office?”

“Bishop 608.”

“Okay, I’ll go over now.”

“Lin, you have to keep a low profile when you go to the principal’s office. You have to apologize to them. There might still be room to save the situation. Otherwise, you won’t be able to stay in the school,” Li Xingbang advised.

“It’s fine, I know what I’m doing.”

Lin Yi whistled as he walked slowly towards Li Detian’s office.

The Vice Principal’s office and the School Committee’s Office were both in the bishop’s block, but they were not located on the same floor. Lin Yi arrived at the door to the vice principal’s office in a few minutes.

Lin Yi pushed open the door and saw a middle-aged man in his fifties sitting behind the desk. He was wearing a white half-sleeve shirt and gray suit pants. If he was not mistaken, this person was Li Detian.

The guy he had just met, Fu Jiajun, was sitting on the sofa next to him, looking at him with a smile.

“Lin Yi, you’re pretty punctual. You got here so quickly. Have you packed everything?”

Lin Yi pulled a chair over. “Go ahead, I’d like to hear what reason you’d like to use to fire me.”

“Cough cough cough...”

Li Detian coughed a few times and pretended to be calm.

“Lin, I looked at your information just now. I don’t think you’re suitable to work in the university with your education. You should find another job.”

“That’s a strange reason.”

“Lin, don’t misunderstand. I just think that your educational qualifications are suitable for the work of the school committee. It has nothing to do with anything else,” Li Detian said.

Ring, Ring, Ring...

Lin Yi’s phone rang in his pocket. It was from an unknown number.

“Is that Teacher Lin?”

The voice sounded familiar. Lin Yi thought for a few seconds and realized that it was the principal, Zhao Qi.

“What’s the matter?”

“I’ve already prepared the letter of appointment and the Certificate of Honor. Do you have time now? Come to my office, let’s sign the contract.”

“It’s impossible for me to sign the contract as I’m about to be fired. Don’t worry, our paths down life are long and winding. We’ll meet again if we’re fated.”

“Eh? Fired?”

Zhao Qi’s voice rose. “I’m the principal of the university. I haven’t said anything yet, so who dares to fire you!”

“Li Detian.”

“Where are you guys? I’m going over now.” Zhao Qi scolded, “That bastard, watch how I deal with him today!”

“He’s in his office.”

“Wait for me, I’m coming over now!”

“Alright, come over then.”

Li Detian hung up the phone, his expression a little unnatural. “Lin, who called you just now?”

“Don’t worry, you’ll see him soon,” Lin Yi said with a smile.

“Uncle, don’t bother with him,” Fu Jiajun said. “You’re already the vice principal, so you’re the boss of the university. Who can control you?”

Li Detian nodded. In the entire school, he was second-in-command only to Zhao Qi, so who could do anything to him?

Moreover, Lin Yi was just a member of the school’s committee, so how capable could he really be?

If he really had powerful connections, why would he just be a small-time member of the league committee?

“I think you should stop struggling and quickly pack your things and leave.” Fu Jiajun smiled at Lin Yi.

“If you realize that you’re wrong, I can give you a chance, but you can’t stay in the committee. The security job at the door suits you.”

Click!

At that moment, the office door was pushed open and Zhao Qi walked in from outside.

“Principal Zhao!”

Li Detian and Jiajun were surprised to see Zhao Qi come in. They did not expect Zhao Qi to come quietly.

“What’s going on?” Zhao Qi asked.

Li Detian said with a smile,

“This is Teacher Lin from the league committee. I looked at his resume just now and found that he is just an ordinary undergraduate student. Moreover, he has no previous experience in the education industry. I don’t think he is suitable to work in a normal university. I’m talking to him right now.”

“Bullsh\*t!”

Zhao Qi cursed, and Li Detian and Fu Jiajun were dumbfounded!

“Principal Zhao, what’s wrong? Why are you so angry?”

Zhao Qi was so angry that he was out of breath. “Do you know who Lin Yi is? I finally got him to be an honorary vice-principal, yet you want to expel him? Are you out of your mind?”

“What? ! Honorary vice-principal?!”

Li Detian and Fu Jiajun’s jaws almost dropped to the ground. They were so scared that they could not speak!

“Let me tell you, Lin Yi is the director of Longxin Research Institute, and he donated more than 20 million dollars worth of research equipment to the university. If you want to expel Lin Yi, it means you don’t want to stay at the university anymore, right?!”

“H-he is the director of Longxin Research Institute?”

Li Detian knew about the situation at Longxin Research Institute.

However, he never thought that Lin Yi would have bought the huge Longxin Research Institute himself!

“He... Isn’t he just a member of the school committee? How could he do such a thing?”

“Member of the school committee?” Zhao Qi snorted, “Do you think that Lin Yi is the same as you??

“He’s a big-hearted person. He wants to devote everything he has to education, and that’s why he came to teach at the university. Even so, you two are treating him like this. I think you should stop working at the university and resign!”

Fu Jiajun was dumbfounded.

He had just climbed to the position of associate professor, and his butt had not even warmed up yet, and he was being fired?

What should he do in the future?

Li Detian's situation was not any better than Fu Jiajun's.

He was the vice-president of the university, and his appointment and dismissal were all handled by the education bureau.

However, Zhao Qi had a strong network in the education bureau. If he wanted to fire him, it was just a matter of a simple phone call.

Now that he had spoken, it would be difficult for him to stay in the normal university.

"President Zhao, this is our fault. I beg you to give me another chance," Li Detian said with a sad face.

"We have worked together for so many years. You can't just kill us off!"

"Kill us off?" Zhao Qi snorted. "Think about it carefully. How many opportunities have I given you? With Fu Jiajun's character, don't you know how he became an associate professor?"

"You know how much money you have stolen from this position over the years! I have done my best by keeping you here for so long!"

Thinking of this, Li Detian was completely dumbfounded. At this point, there was no room for redemption.

Slap!

Li Detian slapped Fu Jiajun's face. "It's all your f\*cking fault! For the sake of a woman, you even made me lose my job!"

"I didn't do it on purpose. If I had known that he had such a strong background, I wouldn't have dared to do it even if I had a hundred guts."

"Alright, I don't want to talk anymore. You two can pack up and leave."

"Yes, yes, Principal Zhao. We are packing up now."

Lin Yi ignored the rest of the matter and went to Zhao Qi's office to sign the letter of appointment.

"That's enough, right?" Lin Yi said.

"Yes." Zhao Qi nodded. "I'll get the letter of appointment and certificate to the police station in the afternoon. It'll then be confirmed."

"I'll have to trouble you with that, Principal Zhao." Lin Yi smiled.

"You're welcome. You've made such a great contribution to the school. This is the least I should do." Zhao Qi said.

"Teacher Lin, why don't I arrange for an office for you? The school committee room is too small for you and is inappropriate." Zhao Qi said with a smile.

"I'm not practising martial arts in there. It's fine as long as I have a desk. Besides, I'm not at school often. There's no need to waste money."

“I know you keep a low profile and don’t want to expose your identity, so I won’t say anything. Also, don’t worry about the school. Even if you don’t come to school, no one can do anything to you. You will just need to say your name.”

“In that case, I’d like to thank you, Principal Zhao. If there’s nothing else, I’ll go back first.”

“I’ll send you.”

“No, no, I know the way.”

“How can that be? I’ll drive you.”

Lin Yi had no choice but to go back with Zhao Qi.

..

Song Jia and the others were not looking too good inside the school’s Committee office.

They figured that Lin Yi would have to pack up and leave by the time he got back.

What should they do?
