

Radom Noew 381

Chapter 381: Recommend Expulsion

Seeing the expression on Lin Yi's face, Li Chuhan hesitated for a moment.

'What did he mean by that?'

"Alright, you guys wait!"

The middle-aged woman shouted at the other middle-aged woman beside her.

"Big Sis, you stay here for a while. I'm going to call his father. We have to deal with this seriously!"

"Hurry up and get my brother here," the tanned middle-aged woman said. "Doctors nowadays are becoming more and more immoral. We can't let them off so easily!"

"We have to get them to give us an explanation. They said that was the one who stitched the wound, but in the end, it turned out to be a new doctor. We have to deal with this seriously!"

Seeing the middle-aged woman leave, the medical staff and patients in the emergency department turned their attention to Lin Yi and Li Chuhan.

Usually, the attending doctor would be in charge of the more difficult tasks when dealing with such patients, and assistants would be in charge of the most simple tasks like suturing the skin.

This was normal and there were normally no issues with it, but no one would have thought that this woman would make such a big mess.

As expected, people with status like them were the hardest to deal with.

"Director Li, Lin Bro, what do we do now?" Qiao Xin asked worriedly.

"I saw your video just now. It should be on your phone, right?"

"Yeah, yeah, I wanted to record it as evidence, but I don't know if it'll be useful."

"Send me a copy of the video."

"Okay."

Lin Yi walked to a corner after receiving Qiao Xin's video and forwarded it to Liang Ruoxu.

"This person seems to be the director of the construction committee. She came to the hospital to cause trouble. You should take care of her."

A few minutes later, Liang Ruoxu replied with an OK sign.

Although he didn't say anything else, it was enough for Lin Yi.

Someone as resolute and decisive as Liang Ruoxu would definitely take care of this matter.

Seeing Lin Yi walking over from afar, Li Chuhan was suspicious. Did he go to take care of this matter?

However, did he really have the ability to deal with it?

“Isn’t there nothing else? Let’s go back to the office. What are we standing here for?”

Seeing Lin Yi’s nonchalant look, Qiao Xin was a little confused.

Things had already gotten to this point, so how could Brother Lin still be talking and laughing?

“You guys go back first, I need to take a call.”

After saying that, Zhou Ziqiang took his phone and walked to the stairwell.

“Uncle, you were looking for me.”

“What’s going on? It’s your first day here, why did something happen in the emergency department?”

“It’s all because of that Lin Yi guy. He didn’t have any skills, but he started suturing the patient. In the end, the patient’s family wasn’t satisfied and wanted to complain.”

“Suturing the skin shouldn’t be difficult, right?”

“It’s not difficult for me, but his skills are limited, so naturally, he can’t do it well,” Zhou Ziqiang said.

“And he even spoke ill of the patient’s family. A lot of people in the emergency department saw it. If this matter is blown up, it will definitely affect the hospital’s reputation. A person like him doesn’t deserve to stay in Huashan Hospital.”

“I know. You guys wait for me in the emergency department. Don’t go anywhere. Director Zhao and I are going over now.”

“Director Zhao’s coming too?”

“He’s the vice director in charge of administration. Something this big has happened, so he’ll have to deal with it.”

“That’s great. I’ll go back to my office and wait for you guys.”

After hanging up, Zhou Ziqiang returned to his office with a faint smile on his face.

Zhao Jianwei wasn’t only the vice director of Huashan Hospital, he was also a teacher in medical school. His temper there was notoriously bad.

Lin Yi had caused such a huge mess. With his temper, he definitely wouldn’t let him stick around.

He probably wouldn’t even need to work the night shift tonight before he would be kicked out.

Thinking of this, Zhou Ziqiang’s smile grew wider. Luckily, he didn’t sew it up himself just now.

Otherwise, things might have really gone wrong.

At that moment, everyone in the office had different expressions on their faces.

Li Chuhan was the type of person who had more skills than experience.

With her skill level, as long as there was no major medical accident, the hospital wouldn't dare to say anything. Otherwise, it would be a loss of Huashan Hospital.

Qiao Xin's face was filled with worry. She didn't know what the final outcome would be.

A few minutes later, the office door was pushed open and two middle-aged men walked in from outside.

One of them was Cao Jiawang. He was wearing a white coat and a pair of slippers.

The other man was dressed in casual clothes. He was thin and had a serious expression on his face.

This man was the vice president of Huashan Hospital, Zhao Jianwei. He held a lot of power here.

"Director Zhao."

Seeing the middle-aged man, Li Chuhan stood up to greet him and introduce him to Lin Yi and the others.

"Director Li, What's going on? I heard from my subordinates that someone wants to complain about you."

"The patient's family is making trouble for no reason. There's nothing we can do about it," Li Chuhan said calmly. She did not take this matter to heart.

"Director Li, I don't want to criticize you, but if it were an ordinary patient, it would definitely not be a problem for you to handle it this way. However, you also know the identity of the other party. How could you hand such a big matter over to a new doctor to handle?"

"In my eyes, any patient is the same. Forget a simple suture, even when I perform a heart operation, I would still hand it over to my assistant to handle," Li Chuhan said calmly.

"Moreover, I have already looked at the sutured wound. The results meet my requirements, so I don't think there's anything wrong with this matter. It's the family members of the patient who are making trouble without reason. I hope that Director Zhao can take this matter seriously."

"I understand the situation, but I've already said that the patient's family isn't an ordinary family. They'll call us with complaints very soon, and they might even blow up this matter further. This will have a huge impact on our hospital's reputation, so we have to deal with this matter seriously."

"Director Zhao, mitigate the damage, I think we should fire him," Cao Jiawang said.

Lin Yi glanced at Cao Jiawang, but didn't say anything.

He was probably afraid of taking responsibility, so he was willing to cut this man off.

Zhao Jianwei nodded. "I'll think about it."

If it were just a new doctor, Zhao Jianwei wouldn't hesitate and fire him for sure.

However, this matter involved Li Chuhan, so it wasn't so easy to handle.

Directly firing Lin Yi was equivalent to slapping Li Chuhan in the face.

However, the director had spent a lot of money to recruit her, so he had to take care of her.

“Director Zhao, everything is clear now. There’s nothing to think about, right? He’s just a new doctor. Just fire him.”

Just as Zhao Jianwei was hesitating, the office door was pushed open.

The middle-aged woman came rushing in.

“Director Li, I know I was wrong. Please give me a chance. If I don’t have this job, I will be finished. Please forgive me!”

Chapter 382: I’ll Take You Somewhere. Do You Dare to Go?

Everyone in the room was stunned.

Li Chuhan was the assistant director of the cardiology department, and she had nothing to do with this lady’s work. What right did she have to fire him?

This was bullsh*t.

Li Chuhan started thinking. She didn’t do anything, so how did this woman get fired?

Subconsciously, Li Chuhan thought of what Lin Yi had said earlier.

‘Let’s see who gets fired.’

Could this be the outcome of the prophecy?

Subconsciously, Li Chuhan turned back to look at Lin Yi, trying to find an answer from him.

However, Lin Yi just shrugged and didn’t say anything. He didn’t explain the matter.

“This has nothing to do with me. I hope you won’t make a fuss anymore.” Li Chuhan said.

“No, Director Li, I know you still hold a grudge against me, but please give me a chance to apologize. Now, it is not only myself, even my husband has been fired. Our family still needs to survive.”

“I really can’t interfere in this matter. It’s very likely that the family members of the other patients posted your actions online and the leaders of the relevant departments saw it. You should look for another explanation. Please don’t disturb my work.”

Zhao Jianwei and Cao Jiawang stared at the middle-aged woman in front of them.

She had said that she would file a complaint, but how did they get fired in the blink of an eye?

Even if the bad behavior was posted on the Internet, it couldn’t be dealt with so quickly, could it?

Could someone be adding fuel to the fire?

However, there were only a few people here, and they were all doctors from their own hospital, so who had the ability to do so?

“Miss, what’s going on? You guys were fine earlier. Why were you suddenly fired?” Zhou Ziqiang asked.

He was waiting for Lin Yi to be fired, but he didn't expect such a reversal of the situation.

Didn't it happen a little too fast?

"I don't know what happened either. I did want to file a complaint against you guys, but after I called my husband, the higher-ups informed me that I was fired. Then, my husband called and told him that he was fired too," the middle-aged woman said with tears in her eyes.

"I know it was my actions that made you unhappy. Please talk to the higher-ups and give us another chance."

After learning the truth, Zhao Jianwei and Cao Jiawang looked at each other.

Since she had been fired, this matter was easier to handle.

"Madam, I think there might be misunderstanding this matter. I hope you can leave now and not delay our work."

Zhao Jianwei called the security guard over and brought the middle-aged woman out of the emergency department. He sent her to the corresponding ward to visit her son so as not to disturb the other patients.

However, at that moment, everyone had a big question mark in their hearts.

How did she get fired so easily?

"Let's just let this rest quietly."

Zhao Jianwei and Cao Jiawang turned around and left after saying that.

Zhou Ziqiang was the only one with an ugly expression. He thought that he could use this opportunity to get rid of Lin Yi.

It seemed like he had to find another opportunity.

Everyone in the office was looking at Lin Yi, unintentionally or unintentionally.

However, at this moment, Lin Yi had no intention to pay attention to such things.

This was because the system notification had sounded in his mind.

[Treating a patient, rewarded 100,000 experience points.]

[Job completion: 10%, rewarded with master-level suture.]

Lin Yi's expression was both serious and suspicious as he heard the notification sound in his head.

This master-level suturing skill seemed to have the same effect as the master memory reward he had received before.

However, this reward wasn't self-chosen, and it was limited only to the suturing skill.

"System, this master level suturing skill should be pretty awesome, right?"

[Yes.]

“But I want to know, how awesome is this master-level suturing technique?”

[The best in the world.]

Lin Yi sucked in a breath of cold air. “Is it like the master’s memory?”

[Yes, but only the suturing technique. The host’s other clinical skills are still at the beginner level.]

“Okay, I understand.”

Wasn’t the system’s standard a little too high?

The ability given to him by the sage’s wisdom was already very impressive, but in the system’s eyes, it was only at the beginner level.

Perhaps only someone at master level could be considered professional in its eyes.

Feeling the memories in his mind, Lin Yi realized that although the suture technique wasn’t eye-catching, there were a lot of skills required.

He’d be able to do it better if he’d mastered the technique earlier.

Li Chuhan had also made some mistakes when suturing the patient’s muscles and fat. He’d have been able to do it better if he did it himself.

However, it didn’t matter if there were some flaws in such a simple suture. It didn’t have any effect on the patient’s health.

If it was like a thoracotomy or a craniotomy, there couldn’t be any flaws.

“Lin Yi?”

Just as Lin Yi was thinking about these things, he suddenly heard Li Chuhan calling him.

“Director Li, is there something you want to talk to me about?”

“Come here, I have something to talk to you about.”

“Okay.”

Lin Yi was called to the stairwell by Li Chuhan.

“Director Li, what do you want to talk to me about?”

“I want to know who taught you how to suture.” Li Chuhan asked.

“I’ve seen a lot of young doctors over the years, but none of them were as good as you when they first come to the hospital. I’m a little curious.”

“It’s nothing, really. It’s just a suture. Director Li, don’t make a big deal out of it.”

“I’m calling you good, but you’re still denying it.”

“I can’t help it. It’s so difficult to keep a low profile nowadays.”

Li Chuhan raised her head. "I'll take you somewhere. Do you dare to go?"

"Where?" Lin Yi asked.

"Why are you asking so many questions? Just tell me if you dare."

"What's there to be afraid of?"

"Come with me." Li Chuhan said.

Lin Yi pursed his lips. This cold-looking female doctor wasn't planning to cheat with him, was she?

The two arrived at the lab under Li Chuhan's lead.

"Director Li, is this the new houseman?"

The director of the lab was a middle-aged lady named Sun Lizhu. She had short hair and a very kind smile.

"He is the new doctor. He just started today. I'll be in charge of him," Li Chuhan said.

"Sister Sun, help me prepare a set of nerves and blood vessels for him to take a test."

"No way? You want to test him on suturing nerves and blood vessels?" Sun Lizhu said in surprise.

"Normally, he would need at least five years of experience to suture these two things. You want him to try it now?"

"This new doctor is not ordinary. I want to test his level."

"That's a little too much. I don't believe that our hospital has a doctor who is better than you. Although he looks good, he is still too young."

Chapter 383: Perfect Suture!

"I don't believe so either, that's why I want to test his skill."

Li Zhu smiled at Lin Yi. "Young man, did you offend our Director Li? Go buy some osmanthus cakes and apologize."

"So Director Li likes osmanthus cakes. I'll buy some when I'm free." Lin Yi said.

"No matter what you buy, this test is unavoidable," Li Chuhan said.

"Sister Sun, please help me get a set of blood vessels and nerves. Just charge the fee to the cardiology department."

"Director Li, I'm only doing this for you. If it were anyone else, I wouldn't even bother," Sun Lizhu said with a smile. "But since you said this, it works for me."

"Thank you, Sister Sun."

"What are you thanking me for? Just wait."

Sun Lizhu didn't hesitate and turned to leave. A few minutes later, she came back empty-handed.

"What's wrong? Did you run out of materials?"

"No, I forgot something. The electron microscope has a glitch. The new backup equipment hasn't been delivered yet. If you want to test him on suturing nerves and blood vessels, I'm afraid you won't be able to do so today. The backup microscope will arrive in three days. You can come again then."

Because nerves and blood vessels were very small, it was impossible to see them clearly with the naked eye. It was basically impossible to suture them.

Therefore, a high-power electron microscope would be used during the suture.

This was especially true for some eye surgeries. Without an electron microscope, it was impossible to perform the surgery.

"Then, I'll come back in a few days. Thank you, Sister Sun."

"We're all on the same side. There's no need to be so polite."

"Cough, cough, cough... Director Li, actually, I don't need an electron microscope. I can do it with an ordinary microscope."

Chu Han and Li Zhu were both stunned.

"What did you say? You can sew up nerves and blood vessels with an ordinary microscope?"

"Pretty much. I can give it a try. They're all props anyway. It won't kill anyone if I mess up."

"Director Li, isn't your newbie a little overconfident?"

Sun Lizhu had a pretty good impression of Lin Yi at first after seeing how handsome he was.

However, he'd said something like that, which was a huge taboo for doctors.

Lin Yi was the type of person she most disliked. He appeared to be someone who didn't know the immensity of Heaven and Earth.

Even Director Li wouldn't be able to sew up blood vessels and nerves at such a young age.

How could he possibly do it?

"He's already said it, so let him try. The materials aren't that expensive anyway."

"Alright, since you've said so, I'll go get the materials for him." Sun Lizhu said.

She was a little unwilling, but she still brought the simulation materials over for Li Chuhan's sake.

There was also an ordinary microscope.

"I've brought everything. Let's try it."

"Okay."

Although it was the first time he'd seen such simulation material, Lin Yi wasn't unfamiliar with it due to the help of the master-level suture technique.

He started operating with ease.

Li Chuhan and Sun Lizhu both took a step back to avoid disturbing Lin Yi's operation, eventually maintaining a one-meter distance between them.

"Director Sun, what are you doing?"

The others from the equipment room walked over, wanting to know what was going on.

"Director Li brought a newbie here to test his ability to suture blood vessels and nerves."

"Isn't the electron microscope broken? How are you going to test him?"

Sun Lizhu shrugged. "He said that he could operate with just a normal microscope."

"That's impossible, it's a bit of a stretch."

The bespectacled male doctor looked up and saw Lin Yi sitting in front of him.

"No way, isn't this guy too young?"

"I think he's bragging too much, but he said that he can do it, so we might as well let him try."

"Are you kidding me?" The male doctor said.

"Even with Director Li's skill, she wouldn't be able to suture blood vessels and nerves at this age, would she? Besides, he's using a normal microscope. This young doctor is overconfident."

"I think so too." Sun Lizhu said.

"But it doesn't matter. The simulation materials don't cost much anyway. Let's give him a try. It's good for young people to suffer some setbacks."

"I agree with you."

"Ok, ok." Lin Yi exhaled.

"What?! Are you done?"

Sun Lizhu exclaimed. She and Li Chuhan looked at each other in shock.

"Are you sure you did it? You didn't mess up?"

"You can see for yourself."

The three of them hurried over and were surprised to see that Lin Yi had stitched up all the simulated blood vessels and nerves.

The stitching was neat and smooth. Even they themselves couldn't have done it this well!

Most importantly, he was using a normal microscope!

This was even more unbelievable!

“You... How did you do it?” Li Chuhan stared at Lin Yi with her almond-shaped eyes. She couldn’t believe that Lin Yi could do something like this.

“It’s just stitching one needle at a time,” Lin Yi said matter-of-factly. “It’s not a magical operation, so you guys don’t have to make a fuss over it.”

Li Chuhan stopped talking when she saw the stitched up blood vessels and nerves.

There were many doctors who could stitch up blood vessels and nerves, but none of them could do it so well!

At the very least, she didn’t have the ability to do this. Even Director Duan, who was the best at it in the hospital, would only be at a similar level.

“Director Li, am I considered to have passed the test?”

“Sew it again. I want to see how you operate.”

Lin Yi smiled. “Do you want to learn?”

“Yes.”

Li Chuhan nodded, not denying anything.

In doing so, she was admitting that she could not do the same. She was genuinely too humble.

“Wait a moment, I’ll go get another set.” Lin Yi said.

Sun Lizhu ordered her subordinates to get another set of simulation materials.

Lin Yi didn’t say anything and continued with his work.

Li Chuhan and the others were watching, and it affected Lin Yi’s operation.

This time, he was faster and more skilled than the first time.

During the suturing process, Li Chuhan noticed that Lin Yi didn’t make any unnecessary movements, perfectly exemplifying the meaning of the word ‘precision’.

This was crucial in this surgery because every second saved would increase the chances of the patient surviving!

“I’m done,” Lin Yi said.

Li Chuhan was in awe as he looked at the blood vessels and nerves that were perfectly sewn together.

It was like looking at a piece of art.

“Why did you only use your thumb and index finger when you were suturing?”

This was what Li Chuhan wanted to ask from the start. It wasn’t easy to operate like this.

“This is a simulation of a real surgery,” Lin Yi said.

“There are thousands of different types of patients. It’s very likely that I might encounter a situation that will limit my movements and make it difficult to operate. I wanted to use this method to simulate this.

“But this kind of suture is still a little boring. There’s not a single drop of blood in the surroundings, and it won’t cause any obstruction to the vision. In a real surgery, we still would need to use an electron microscope. This kind of ordinary suture is a little boring.”

Chapter 384: Director Lin, You’re a Role Model for My Generation

“You’re simulating a real surgical environment!”

Li Chuhan didn’t know how to describe her feelings. It was simply too unbelievable.

At first, she thought that it was Lin Yi’s special habit to self-regulate his actions, but she didn’t expect him to be doing it on purpose.

If she offered him a normal suturing environment and gave him a precise electron microscope...

The effect would probably be better.

“From today onwards, you’ll be my assistant. I’ll take you with me when there’s a surgery,” Li Chuhan said.

“Does that count as a promotion?”

“You silly boy,” Sun Lizhu laughed.

“Director Li is a famous pretty doctor in Huashan Hospital. It’s not just a promotion, you’re getting a chance to work directly with Director Li.”

“That’s really good.”

Li Chuhan’s expression didn’t change much after being teased like that by Li Zhu.

It was hard to tell if she really cared or not.

Sometimes, Lin Yi felt that Li Chuhan was as calm as a machine, and he couldn’t even tell if she had any emotion.

Perhaps this kind of personality was more suitable for a place like the hospital.

“Did you have lunch? I’m going to order something, and I have something I want to talk to you about.” Li Chuhan said with a smile.

If it was someone else who said that, Lin Yi would have thought that they were trying to flirt with him.

However, the words coming out of Li Chuhan’s mouth appeared very innocent.

She really just wanted to have lunch together.

“Silly boy, what are you waiting for?” Sun Lizhu nudged Lin Yi from behind.

"I'm telling you, Director Li has been in here for over two years, and this is the first time she's taken the initiative to invite a member of the opposite sex out for a meal. Even though it's takeout, you should cherish it."

"I'd be honored, then." Lin Yi said with a smile. "Why don't I treat you to this meal? You're my boss, after all. Give me a chance to show off."

Sun Lizhu gave him a thumbs up. "You know how to handle things, young man."

"Sure, I'll treat you next time."

Li Chuhan didn't waste too much time on the matter, and took out her phone to show her WeChat QR code.

"This is my wechat. Add it and it'll be easier to communicate whenever I have something for you to do."

"Okay."

After adding Li Chuhan's WeChat, Lin Yi sent a message to Wang Tianlong, asking him to send some lunch over.

Takeaways on group purchases were too casual, so he had to make it classier.

"You go to 809 first and wait for me. I'll go prepare something and I'll come find you later."

"Okay."

Lin Yi went to 809 according to Li Chuhan's instructions.

The office wasn't big. There was a computer and a printer, and there were a lot of Li Chuhan's personal belongings as well.

Rather than calling it an office, it looked more like a temporary resting place.

From this, one could see that Huashan Hospital was different from the rest.

Other hospitals only had comprehensive offices, and the department directors all worked together, just like the places he'd been to before.

However, Li Chuhan had her own lounge, which was very impressive.

About half an hour later, Li Chuhan walked in from outside with a large stack of documents in her arms.

She conveniently placed the documents on the table and casually took off her white coat. Inside was a simple white Nike t-shirt. His figure was not bad. It was neither too big nor too small, and he would be able to hold everything with one hand.

At this moment, the door to the lounge was pushed open. Three young nurses pushed the door open and walked in while laughing.

"Director Li, we don't have a place to eat. Can we borrow your..."

The nurses stopped talking halfway when they saw Lin Yi.

“Oh, so Dr. Lin is here. We’ll be going then.”

“It’s fine. Let’s eat here. There’s no issue,” Li Chuhan said politely.

“Really?” The long-haired nurse said. The name written on her badge read Yuan Siqi.

Li Chuhan nodded. “Pack up the documents on the table at the back and place them on the windowsill.”

“Director Li, have you eaten with Dr. Lin yet? The cafeteria prepared meat loaf today. It’s very delicious. I’ll go buy it for you,” Yuan Siqi said.

“Dr. Lin ordered takeout. You don’t have to worry about me.”

“Oh, then will you be eating here?”

“Yeah.”

It was obvious that although Li Chuhan was a little cold, she had a good relationship with her colleagues.

In a normal hospital, nurses wouldn’t have the guts to break into the director’s lounge.

The three nurses were eating quietly, glancing at Lin Yi from time to time.

“Dr. Lin is so handsome, I can smell his testosterone even from a meter away.”

“I think you’re in heat. You can even describe the scent of sweat as hormonal. Still, Doctor Lin really is handsome.”

“It’s useless even if he’s handsome. He’s going to be taken down by Director Li.”

“Director Li is the belle of our hospital. He seems to be a good match,” Yuan Siqi said with a smile.

“But I don’t think this is good. Director Duan from the logistics department has been pursuing Director Li. If he finds out about this, it will be difficult to handle.”

“You’re right. Director Duan is rich and overbearing. In this aspect, Dr. Lin might be a little lacking.”

1

“Alright, let’s eat first. This isn’t something that we should worry about.”

“Right, right, right. Let’s eat first. Director Li is discussing something with Dr. Lin. Let’s not disturb them.”

The three of them ate silently. Li Chuhan took the file and said,

“I need to discuss something with you. It might take you a long time. It’s almost noon, so will it disturb your rest?” Li Chuhan said. “I can talk to you in the afternoon.”

“It’s fine. I’m full of energy and I don’t have a habit of napping. You can just brief me now.”

Li Chuhan nodded. “I have an important surgery tomorrow. I’ve simulated the procedure many times, but I still feel that the suturing after the surgery isn’t good enough. I feel that the risk is too high and I’d like to hear your opinion.”

“With Director Li’s ability, can’t you handle it?”

Lin Yi had a comprehensive understanding of Li Chuhan's abilities from the introduction.

If even she felt that the surgery was a high risk, then an ordinary person wouldn't be able to handle it.

"The risk comes from two aspects. One is the patient's condition, and the other is the person's identity." Li Chuhan smoothed her long hair that fell on her forehead, "If something goes wrong, Huashan Hospital won't be able to shoulder the responsibility."

"Huh?"

Li Chuhan's words piqued Lin Yi's curiosity.

Huashan Hospital was a behemoth in Zhonghai.

Even the city gave them special treatment. As long as the number of medical incidents was limited, no one would hold them responsible.

However, Li Chuhan said that even Huashan Hospital couldn't afford to offend this patient.

That was special.

"Are you curious about the patient's identity?"

Lin Yi nodded, not hiding anything.

"The patient is..."

Dang dang dang..

Just as Li Chuhan was about to speak, there was a knock on the door of the lounge.

"Come in," Li Chuhan replied.

The door was pushed open and a man in casual clothes came in. He was over 1.8 meters tall and had a buzz cut. He had a burly figure.

In the man's hands were several bags that looked like takeout items.

The man's name was Duan Peng. He was the deputy director of the logistics department of Huashan Hospital.

The logistics department sounded very unremarkable, but it held a significant position in the entire Huashan Hospital.

The logistics department was a very big department in Huashan Hospital.

They were responsible for all the medical equipment purchases, and one could imagine how much profit they were making.

Duan Peng's appearance made the previously relaxed atmosphere tense.

The three nurses looked at Duan Peng and Lin Yi with their chopsticks in their mouths.

This was too much of a coincidence. Things weren't looking good!

Duan Peng's expression turned ugly when he saw Lin Yi.

"Director Duan, what's the matter?" Li Chuhan asked.

"It's not a big deal. It's not even noon yet. I was afraid that you wouldn't have time to eat, so I brought you something to eat."

"No need," Li Chuhan said. "Dr. Lin ordered takeout. We'll be eating together today. Thank you."

Duan Peng's expression changed to show hints of anger.

Where did this guy come from?

"How can his order be as good as mine?" Duan Peng said.

"I ordered this from my mom's restaurant next door. It's all good stuff. You've been too tired recently. There's a herbal soup here to help you."

"I won't trouble you anymore, Director Duan. Dr. Lin has already ordered takeout. We'll just be having a simple bite."

"Takeout isn't as nutritious as what I bought." Duan Peng took out the things from his pocket and said.

"I bought roast duck, pork trotters, beef bone soup, and..."

The three nurses drooled when they heard the name of the dishes. It was all good stuff.

Knock, knock, knock..

Someone knocked on the door midway through the conversation.

Tianlong Wang walked in from outside.

Tianlong Wang was stunned when he saw Lin Yi sitting two meters away from him.

Why was President Lin wearing a white coat?

He was going all out to get a female doctor!

President Lin was awesome! He was a role model for his generation!

"Mr. Lin, your takeout is here," Tianlong Wang said seriously.

"This is our best single-headed abalone, Australian lobster, bluefin tuna sashimi, Russian sturgeon caviar, Australian M3 steak, steamed wild Chinese sturgeon, and a bottle of Moscato Asti. It's very suitable for ladies to drink."

Chapter 385: Special Patients

Lin Yi was stunned for a moment when he saw what was on the table.

I only asked you to deliver a simple lunch.

You really pulled out all the stops!

Wang Tianlong was very proud. It was perfect. He didn't cause President Lin to lose face.

Perfect.

"Mr. Lin, your takeout is ready. I'm leaving now. Remember to give me a good review for five stars."

After saying that, Wang Tianlong turned around and left.

He left after putting on a show, concealing his success and identity in the process.

The three young nurses drooled when they saw the top-grade ingredients on the table.

Although the food Duan Peng prepared was not bad, the difference between it and the takeout ordered by Dr. Lin was like Heaven and Earth!

One dish on the table was more expensive than everything the former had bought.

The total cost of this meal was tens of thousands of yuan!

Wang Tianlong had never let anyone down throughout his pretentious journey.

"Director Duan, Doctor Lin ordered a lot of things. I appreciate your kindness."

Duan Peng's expression was ugly. What the f*ck was the meaning of this?!

"That's good. That's all for now. I won't disturb you meal."

Duan Peng awkwardly put away the lunch he had ordered and left Li Chuhan's lounge.

The three nurses couldn't stop laughing.

Dr. Lin's actions were a slap in the face!

"Director Duan is the vice president's son. Do you think he'll give Dr. Lin a hard time after this?"

"It's hard to say. He's making me worried about Dr. Lin."

While the three of them were whispering, Li Chuhan looked at Lin Yi and said,

"You ordered a little too much. Do you mind if we eat together?"

"No way." Lin Yi smiled. "If I knew they were coming, I would have ordered more."

Under such circumstances, anyone with a little EQ wouldn't choose to eat alone.

"Don't just stand there. Dr. Lin is treating you to dinner today."

"Can we really eat too?"

"Why not? Let's eat together."

"Hehe, then we won't stand on ceremony."

The three young nurses carried their lunch boxes and walked over from the desk at the back. They surrounded each other and ate a big meal together.

“After eating Dr. Lin’s meal, you guys have to cooperate with Dr. Lin’s work in the future.”

“No problem,” Yuan Siqi said, “I’ll be Dr. Lin’s full-time young nurse from now on.”

“Even if we didn’t eat Dr. Lin’s food, we would still be willing to help Dr. Lin.”

“You guys are really...” Li Chuhan said with a smile.

After a simple lunch, they knew that Lin Yi and Li Chuhan had something important to talk about. Yuan Siqi and the other two quickly finished their lunch and helped collect the leftovers.

“Are you sure you don’t want to rest for a while? Are you sure you want to continue chatting?”

“Yeah.” Lin Yi nodded. “Let’s continue the discussion. Who are we doing surgery on tomorrow?”

“The head of the garrison.”

Pfftt!

Lin Yi almost vomited blood. “Are you serious?”

“Of course I’m serious. I’ll be the assistant tomorrow and the two presidents will be the chief surgeons. I’ll just be the backup.”

“It’s only right.” Lin Yi said. “Such a big figure has to be watched carefully by the entire hospital.”

“The surgery is tricky, but we can handle it. The only thing I’m worried about is the suturing.”

“Who’s in charge of suturing?”

“Dean Duan, the top cardiologist in the country.”

“What did he say?”

“He said it’s not too difficult and there won’t be any problems, but I’ve come into contact with similar patients before at Mayo Clinic. Their suturing plans are different from what Dean Duan explained. That’s what I’m worried about.”

Lin Yi frowned. “Let’s talk about the patient’s condition first.”

“There’s an aneurysm at the heart area. The problem is that there’s a very thick layer of dissection required above it.”

Li Chuhan took the file and said.

“There are three layers around the aortic wall: the inner membrane, the elastic middle layer, and the outer layer. Now, the inner membrane of the aortic wall has become diseased. This will cause the blood that originally flowed to the entire body to pass through the lesion and flow to the middle layer. The accumulated blood will force the aorta to continue expanding, causing the aortic wall to become thinner until it is less than one-sixth of its original thickness. At this time, if there’s any vibration, the blood

pressure will rise abruptly and the patient will die within a minute. Therefore, the treatment plan we are offering is to replace the artificial blood vessel.”

Lin Yi took a deep breath as he realized the difficulty of this surgery.

“The potential risk now is that the patient weighs more than 180 pounds and is considered obese. This makes the surgery very difficult.

“Secondly, the suture of the artificial blood vessel is the most important factor. If he starts bleeding, he might only be left with 500 milliliters of blood in just a minute.” Li Chuhan shrugged. “He’ll die before he gets off the operating table.”

As she spoke, Li Chuhan took a few more documents and handed them to Lin Yi, “According to my estimation, there will be 240 to 300 suture points in this surgery. If one suture point is wrong, all our efforts will be wasted.”

Huff...

Lin Yi sighed.

“This is too damn difficult.”

“You don’t have confidence?”

“People make mistakes, even horses make mistakes. Only God can guarantee that there won’t be any mistakes while making 240 to 300 stitching points.”

The system gave him master-level stitching technique.

In other words, his skill level was the best in the world.

However, this standard was in comparison to a human, not a machine.

As long as it was a human, there was always the possibility of mistakes.

This was what Lin Yi was most worried about.

“Can you give me a treatment plan? Let me see if it’s feasible.”

“Are you sure you can trust me?”

“Your skills are pretty good, so I want to give it a try,” Li Chuhan said. “I can’t think of a better option anyway. Because of the uniqueness of the patient, it’s impossible to find a foreign doctor to do it, so I want you to give this a try.”

“Okay, I’ll give you a plan. Use it if you think it’s suitable. If it’s not, then forget it.”

“No problem.” Li Chuhan stood up. “You don’t have to go for the night shift of the emergency department tonight. Just find a quiet place to write the report. If you think the hospital is too noisy, go home. You can decide on your own arrangements.”

“Then I’ll go home.”

“Okay.”

Chu Han nodded. "Close the door when you leave. I didn't sleep last night, and I can't hold on much longer."

"Okay."

Lin Yi turned around and left. He changed into his own clothes and drove home, ready to complete the task that Li Chuhan had given him.

Lin Yi didn't think that the patient that he'd never met before would be of a higher level than that of an ordinary citizen.

Even so, he couldn't be sloppy with something like human life.

Lin Yi didn't do anything else after he got home. He focused on writing the report apart from talking to Ji Qingyan over the phone.

He didn't finish the report until midnight before sending it to Li Chuhan.

Just as Lin Yi was stretching and getting ready to wash up, Li Chuhan called.

"Did you finish this report on your own?"

"Of course. There's no one else in the house besides myself."

After a few seconds of silence, Li Chuhan said.

"The report is excellent!"

Chapter 386: You Want to Kill Lin Yi?

"If you think it's that good, then my hard work didn't go to waste."

"Feel free to come to work anytime tomorrow. Just make sure you turn up," Li Chuhan said.

"Thank you, Director Li."

"Drink a glass of milk before you go to bed. It'll help you sleep. Good night."

"Good night."

The call was short, and Li Chuhan's words were cold as usual.

Lin Yi didn't do anything else. He went to the bathroom to wash up and fell asleep on the bed.

Maybe it was because he was overusing his brain, but he didn't wake up until nine in the morning.

There was a WeChat message from Ji Qingyan on his phone, asking if he had breakfast or had already gone to work.

It was a simple conversation, but there was a hint of warmth to it.

After chatting with Ji Qingyan briefly, Lin Yi went to the bathroom to wash up, then prepared to go to the hospital.

He didn't have to go today, but the system mission was triggered during work.

Therefore, it was better not to go out if he could help it.

Ring, ring, ring..

Just as Lin Yi was washing up, his phone on the washing machine rang.

The person on the phone made Lin Yi's expression freeze. It was Cao Jingqiu.

Lin Yi stopped what he was doing and started thinking.

If it was about work, she probably wouldn't have contacted him.

It was probably a private matter this time.

Wiping the foam off his mouth, Lin Yi picked up the phone.

"What is it?"

"Mr. Lin, should I call you Director Lin or President Lin?"

"Huh?"

Lin Yi's heart skipped a beat. Did she know about his identity as the founding director?

Who leaked this news?

"What do you mean by director?"

"President Lin, it's too late now. There's no point in hiding this anymore," Cao Jingqiu said.

"I'd like to know, why did you form a relationship with my brother?"

"We're all businessmen. Businessmen chase after fame and fortune. Don't tell me I'm not allowed to earn my keep?"

With Cao Jingqiu's intelligence, it was useless to deny anything.

It would be better to say it out loud.

"With your talent and strategic mind, I don't believe that you and my brother would have a common topic to discuss," Cao Jingqiu said coldly.

"I also don't believe that you would take the initiative to hand over the production line and warehouse to someone else."

"Look at what you're saying. It's only for your brother to keep temporarily. I'm not giving it to him. As long as I get my money, I don't care about the process."

There was half a minute of silence on the other end of the line. "President Lin, I hope that we can continue doing business on the foundation of peaceful coexistence. Such shady methods won't last long."

“President Cao, look at what you’re saying. I just want to earn contract fees. Why are you talking about me like I’m a fraud?”

“You’re not such an unambitious person,” Cao Jingqiu said. “Sci-Tech might be dead, but in your hands, it might be revived.”

“I’m embarrassed to hear you say that,” Lin Yi said with a smile. “I’m being hands off mainly because I have other work and don’t have time to deal with Sci-Tech.”

“Busy?” Cao Jingqiu said. “You’re a hands-off boss to Lingyun Group.”

“I don’t deny that, but I’m busy saving lives every day. Though I admit, it’s not any better than being a CEO.”

“Busy saving lives?”

“Let me reintroduce myself. I’m currently a doctor in Huashan Hospital’s Department of Cardiology. If President Cao has any gynecological problems in the future, you’re welcome to call me. Don’t bother waiting in line.”

“A... a doctor of cardiology?”

“I’ll send you my business card later.”

Lin Yi hung up as he spoke, his expression darkening.

From what he’d heard from Cao Jingqiu, she seemed to only know that he was the president.

She didn’t know anything else.

Otherwise, she wouldn’t have been so passive during the conversation.

There wasn’t much to worry about Cao Xiangyu, but he was more guarded against Cao Jingqiu.

However, where did this woman find out that he was the head of Sci-Tech?

Lin Yi felt relieved after thinking about it for a few minutes.

The truth couldn’t be kept a secret. Anyone motivated enough would have found out the truth once they dug deep enough.

What more a woman like Cao Jingqiu.

Even so, the current situation didn’t seem to affect him much.

Longxin Research Institute, Qi Xianzhao, and He Yuanyuan’s identity were the most important things.

As long as this information wasn’t exposed, it wouldn’t affect his plans.

Cao Jingqiu would never have dreamed that the Longxin Research Institute was related to him.

Thinking of this, Lin Yi called Qi Xianzhao.

He told the two of them not to expose their identities in front of Cao Jingqiu, or the whole plan might collapse.

After thinking for a few seconds, Lin Yi called Shen Tianzhuo as a precaution as well.

“Boss Shen, I need your help with something.”

“Why are you being so polite?” Shen Tianzhuo said with a smile. “Tell me what you need.”

“Do you have any hackers under you?”

“Hackers? There are a few guys in the team who like to study these things, but their skills are limited. They can’t meet your requirements.”

Shen Tianzhuo understood Lin Yi’s intention. Normal situations weren’t worth his attention.

“But many of my former colleagues are experts in this field. Just tell me what you want to do.”

“There’s a website called ‘Heavenly Eye’. It’s a place where you can look up information about companies. You should know about it, right? Can you get someone to hack into this website and temporarily change the name of the legal owner of Lingyun Group in Zhonghai to Qin Han?”

Poor Qin Han would take the fall for Lin Yi without even realizing.

“Heavenly Eye?” Shen Tianzhuo muttered. “It’s a company in Yanjing, right? Isn’t the owner Li Zeming?”

“You know him?”

“He’s a former colleague of mine. He used to work at Microsoft. He’s a pretty good guy.”

“F*ck!” Lin Yi exclaimed. “Boss Shen is awesome. This makes it easier to handle.”

“Okay, I’ll give him a call now. Oh right, I just thought of something.”

“What is it?”

“In the past few days, we’ve had a small breakthrough in our research and development. The report has been sorted out, and I’ll send it to you later. Take a look at it when you’re free and come over to sign it when you have time.”

“I don’t think I should. I didn’t do anything. I wouldn’t dare to take Director Shen’s credit.”

“How can that be? Without your support, we wouldn’t have been able to develop these things,” Shen Tianzhuo said with a smile.

“Got it. I’ll take a look at then soon.”

“Okay.”

...

Fenglan Culture, General Manager’s office.

Cao Jingqiu had been sitting in place for more than ten minutes after Lin Yi hung up the phone.

She kept thinking about what Lin Yi had said and felt that it was very suspicious, but she couldn’t find any clues.

As for his identity as a doctor, he was definitely making it up. There wasn't any credibility to his claim at all.

After thinking for a long time, Cao Jingqiu could not help but call Cao Xiangyu.

"Brother, where are you?"

"I'm at the factory. What's wrong?"

"I have something to tell you. Wait for me at the factory. I'll go over now."

"Aiya, Jingqiu, don't come over yet. I have something to do later. I have to go out. Come over some other time," Cao Xiangyu said.

"Brother has other things to do, so I won't talk to you. That's all."

This was the most critical moment in this sibling power struggle. Hence, the person Cao Xiangyu disliked most at this time was Cao Jingqiu.

He even wished that he could silently arrange for her to get into a car accident.

"No!"

Cao Jingqiu ordered, "No matter what you have on your plate, you have to wait for me at the factory. I have something important to tell you!"

Cao Xiangyu didn't say anything when he saw Cao Jingqiu's unyielding attitude. "Then come quickly. I have something to do later."

After hanging up the phone, Cao Jingqiu took her handbag and car keys then drove to Xiangyang Industrial Area.

However, before starting her car, Cao Jingqiu checked Heavenly Eye and verified that the legal owner of Lingyun Group was indeed Lin Yi. Only then did she feel relieved.

Cao Xiangyu was sitting in his office with his legs crossed, enjoying the service of his female secretary.

Ever since that day, he had stopped smoking after chatting with Lin Yi.

The office door was pushed open and Cao Jingqiu walked in from outside.

"Jingqiu is here. I'll get you a glass of water."

"No need." Cao Jingqiu said.

"I'm here to tell you one thing. End the collaboration with Sci-Tech now! Now! Now!"

Cao Xiangyu was a little stunned.

'What kind of nonsense is she spouting?'

Was he still dreaming, or had she knocked her head and was now having a concussion?

'Does she know that she can't compete with me, so now she's starting to fool around?'

You're a little girl who hasn't even grown her teeth yet, and you want to tell me what to do?

"Jingqiu, do you know how much effort I've put in to take down Sci-Tech?" Cao Xiangyu questioned.

"Do you know how much profit we can make from Sci-Tech's contract manufacturing line? You want me to stop now? Do you know how much the company will end up losing? Where is your head at?!"

"I know this is difficult to accept, but to avoid unnecessary losses, we have to stop!"

Cao Xiangyu's expression was unfriendly, but the person sitting in front of him was his own sister.

Even though he had a lot of resentment in his heart, he hid it well.

"Jingqiu, you're my sister. Even if you make such an unreasonable request, I can still talk to you calmly as long as you give me a proper explanation."

Cao Jingqiu frowned slightly. If she was asked to give a specific reason, she really couldn't answer him.

She had too little information in her hands, and everything was based on her intuition.

However, this wouldn't convince her big brother.

"I've already found out that the person you're working with is called Lin Yi, but he's definitely not a simple character."

There were some things that Cao Jingqiu didn't say directly, for fear of hurting Cao Xiangyu.

From her point of view, her big brother's IQ wasn't on the same level as Lin Yi's.

Lin Yi's abnormal behavior didn't fit his style at all.

There must be some other scheme behind his actions.

"You're right, Lin Yi is indeed not an ordinary person. Otherwise, I wouldn't have spent so much effort to deal with him," Cao Xiangyu said.

"But do you know his real identity?"

"What real identity could he have? He's just Wang Tianlong's brother-in-law," Cao Xiangyu said disdainfully.

"It's not as simple as you think. He's the boss behind Lingyun Group and he controls a huge financial company. He's definitely not an ordinary person."

Cao Xiangyu and his secretary were stunned when they heard that.

They didn't expect Lin Yi to have such an identity.

After these few encounters, Cao Xiangyu thought that he knew him like the back of his hand.

He was a greedy and lecherous playboy.

It would be too strange if he had a company behind him.

"Are you sure?"

“Of course I’m sure. Otherwise, I wouldn’t have come all the way here to tell you this.”

Seeing that Cao Xiangyu had listened to her words, Cao Jingqiu secretly heaved a sigh of relief.

“If you don’t believe me, go and check on Heavenly Eye. The company’s public information is listed there.”

Cao Xiangyu nodded and gave his secretary a look.

“Jiameng, go and look up this Lingyun Group.”

“Okay.”

Cao Xiangyu’s secretary took the computer and searched for information about Lingyun Group on Heavenly Eye. Very quickly, she got the results.

Sitting on the sofa, Cao Jingqiu felt much more relaxed and gratified.

After so many years, he was finally willing to listen to her.

Before she came, she had already confirmed the information on Heavenly Eye. Therefore, there would definitely be no problems.

Once her big brother checked it, he would be able to see what was going on.

Just as Cao Jingqiu thought that she had finally convinced Cao Xiangyu, she saw him sneer.

“Jingqiu, I am really disappointed in you.”

Chapter 387: Don’t Run Around. Remember to Keep Your Phone On

“Brother, what do you mean?”

“You still have the nerve to ask me what I mean? See for yourself.”

Cao Xiangyu’s expression turned ugly. He did not even care that the person sitting in front of him was his sister anymore.

Cao Xiangyu turned the computer around. When she saw the content on the computer, Cao Jingqiu was stunned.

This was because Qin Han’s name was written in the legal owner’s column!

“How... how is this possible?!”

Cao Jingqiu widened her eyes, not understanding what was going on at all.

She had been absolutely sure that Lin Yi was the boss of Lingyun Group, or else he wouldn’t have invested in her!

How did the legal owner become Qin Han?

“Impossible, the boss behind Lingyun Group is Lin Yi, I can guarantee that!”

“Then what’s going on?” Cao Xiangyu asked coldly.

“You asked me to check Heavenly Eye. Don’t tell me you don’t believe the information here?”

Seeing Qin Han’s name, Cao Jingqiu felt that this scene was unreal.

Her mind spun quickly as she tried to think about how things could have turned out this way.

Before she came here, she had already looked it up herself. She clearly saw that the legal owner of Lingyun Group was Lin Yi!

How long had it been? Less than an hour! How did things turn out like this?!

Even if Lin Yi was powerful, he couldn’t have changed the legal owner of the company in such a short period of time!

How did he do it?

“My dear sister, do you really doubt my motives?” Cao Xiangyu said.

“You have already established your own company. You will also be a married girl in the future, so this is like pouring water on the ground. Why do you always have a hard time accepting me? Could it be that you are unwilling to accept my achievements? As a member of the Cao family, it’s a little petty for you to do this.”

“I’m not being petty!”

Cao Jingqiu shouted coldly, “Since I’ve gone out to start my own business, I’ve stopped having thoughts of working under the Cao family’s business. I’m just trying to protect the Cao family as much as possible!”

“Protect?”

Cao Xiangyu sneered. His eyes were filled with disdain and disgust. It was hard to imagine that he was looking at his own sister.

“Do you think that asking me to stop the OEM manufacturing contract with Sci-Tech, making the family unable to fulfill the order on time to face a huge penalty for breach of contract is your so-called protection?”

Cao Xiangyu’s arrogance was overbearing. He did not even give Cao Jingqiu a chance to speak.

“Or did you want to use this to obstruct my plans? So that father will be biased against me and raise your status in the family? Is that what you are trying to do?”

“At the end of the day, we are of the same bloodline. I am not as despicable as you think.”

Cao Jingqiu was so angry that her body was trembling. Her lips were white and even her lipstick could not hide it.

“Then how do you explain the matter in front of you? I hope that you can give me an explanation.”

Phew...

Cao Jingqiu let out a heavy breath.

“Since things have come to this, I have nothing more to say. Let’s just leave it as it is.”

Cao Jingqiu clearly knew that at this point, nothing she said would be of any use.

She might as well just leave it as it was. She could no longer explain things clearly.

“I wish you good luck.”

After saying this, Cao Jingqiu took her handbag and left without any hesitation.

Back in the car, Cao Jingqiu calmed down after a few minutes, but she still found it difficult to let the issue rest.

She picked up her phone again and dialed her father’s number.

“Jingqiu, I was just about to call you.”

“What’s the matter?” Cao Jingqiu didn’t rush to discuss her own matters and asked instead.

“Your brother called me just now. He said that you arrived at the factory.”

“Yes.”

Cao Jingqiu’s brows were deeply furrowed. A bad premonition spread in her heart.

“What did my brother say?”

“Actually, it’s nothing much,” Cao Jiadong said with a smile:

“Recently, our Cisco has been doing quite well. Your brother has accomplished a lot, so you don’t have to worry about him. How’s your media company? Do you need Dad’s help?”

“You called me just to say this?”

“Yeah, it’s nothing major. I just wanted to ask you about your situation.”

“It’s going fine, don’t worry about it.”

“By the way, why did you call Dad?”

“It’s fine now.”

Jingqiu hung up the phone and threw it to the side. She leaned back in her chair weakly.

“Lin Yi’s gonna kill all of you sooner or later.” Cao Jingqiu said.

...

At Jiuzhou Pavilion.

Lin Yi drove to Huashan Hospital after settling Cao Jingqiu’s matter.

The moment he entered the hospital, Lin Yi felt that the atmosphere in the hospital was different from the day before. It was a lot more serious and depressing.

There were more than a dozen jeeps and A6s parked in the parking lot, with black and white plates on them.

Lin Yi thought of the special patient when he saw the plates.

It was probably because of him that so many military cars were parked here.

However, there was also a red civic parked here that was very eye-catching.

The red logo showed that it was a Type R.

Although it didn't look very different from a normal civic, the price was vastly different.

The Civic Type R was sold for 800,000 yuan in Huaxia. It was more than enough to buy an entry-level sports car.

"There are quite a few people who know their cars in this country."

Lin Yi muttered as he parked the car. At that moment, Shen Tianzhuo's report was sent over.

There was a line of notes at the bottom reminding Lin Yi to sign his name as one of the developers.

Lin Yi glanced at the report since he had nothing to do.

He suddenly had the feeling that an expert would know when to act.

The topics involved in this work were too complex, and even he, an expert in the chip field, couldn't understand them.

He didn't have these feelings when he read Lu Ying and Sun Fuyu's report back then.

He glanced at it briefly, and thought for a few seconds. Then, he closed the email and called Tianzhuo.

"What's wrong? Is there something wrong with the report?" Shen Tianzhuo asked.

"How could there be anything wrong with Director Shen's work?" Lin Yi said. "I want to add the column for 'mentor' at the bottom of the report. Ask Lu Ying to change it and send it to me later."

"It's a small matter. I'll send it to you later."

"Okay, there's no rush."

Shen Tianzhuo didn't know why Lin Yi was doing this, but it wasn't something he needed to care about. He just needed to do his research properly.

Soon, the revised documents were sent over again. Lin Yi immediately went to the 8th Inpatient Department of the cardiology department.

According to the rotation order, he should be resting today and not going to the emergency department.

However, the system mission was triggered during work, so he had to come to the department and ask Li Chuhan to assign some tasks to him.

When he arrived at the department, he saw busy figures everywhere. Apart from Qiao Xin, there was no one he knew here.

It was obvious that she had just arrived as well. In order to leave a good impression on the leader, she had only rested at home for a while.

“Lin Bro, you’re here.” Qiao Xin greeted when she saw Lin Yi.

Lin Yi nodded. “Where did Director Li go? What task did she assign to us today?”

“I just arrived too. I haven’t seen Director Li yet.” Qiao Xin said.

“But I heard that Director Li has an important surgery today. I don’t know when she’ll be able to come by.”

“Then I’ll stay here.”

Not long after, Li Chuhan rushed in from outside. Cao Jiawang and Zhou Ziqiang were following her.

Zhou Ziqiang smiled arrogantly when he saw Lin Yi, as if he was superior to everyone else.

“Director Li.” Qiao Xin greeted when she saw Li Chuhan.

“You just finished the night shift yesterday. Why are you here so early?”

“I slept well. I wanted to come back to the department to study.”

“You two don’t have any shifts today. If you have nothing to do, go to the emergency department. If you’re tired, go to rest. You can take care of yourselves.”

“Got it, Director Li.”

“Sigh, I really envy you guys. You don’t have any tasks today. Now, you can just go to the emergency department to pass the time,” Zhou Ziqiang said.

“The same can’t be said for me. I was on the night shift yesterday, and I have to sit in on the surgery consultation later. I can’t even keep my eyelids open right now.”

“If you’re tired, go back and rest. Lin Yi wasn’t on duty yesterday, so I asked him to come over,” Li Chuhan said.

Zhou Ziqiang, “...”

Director Li, did you come here to ruin the show?

“No, no, I’m just making small talk. I’m not sleepy at all,” Zhou Ziqiang said awkwardly.

Cao Jiawang didn’t say a word, his face unsightly.

Qiao Xin smiled as she organized her study materials, preparing to go to the emergency department to study. Lin Yi had the same plan.

“Lin Yi.”

The moment Lin Yi turned around, Li Chuhan called out to him from behind.

“What’s the matter?”

Li Chuhan paused for a second. “Don’t keep running around later. Remember to keep your phone on.”

“Got it.”

Lin Yi was a little confused. He didn’t know what Li Chuhan meant by that.

Could he still be needed for the surgery later?

Had he missed something?

Chapter 388: Stunning Suturing Report

After Lin Yi left, Li Chuhan and the other two returned to the consultation room with a pile of documents in their hands.

Cardiovascular surgery had always been an extremely complicated surgery ever since ancient times.

This made it inevitable that such a surgery would require multi-disciplinary experts. If there was a single mistake, it would fail.

At this moment, all the technical backbones and high-level leaders of Huashan Hospital had gathered here.

This was to ensure that the surgery was flawless.

Other than that, there were two men in military uniforms in the corner of the consultation room. They did not say a word and merely listened quietly.

The person sitting at the head of the consultation room was a short, slightly fat man.

The hair on his temples had already turned white. He was at least fifty years old.

The man’s name was Miao Guofeng. He was the director of Huashan Hospital and the top vascular surgeon in the country. He was also the chief surgeon for this operation.

Although Miao Guofeng was the chief surgeon, he was only responsible for part of the surgery.

Diseases like aneurysms were not rare in the country. Therefore, all of them had plenty of experience in treating this.

However, the biggest difficulty was with the multiple phases they would encounter during the surgery.

If one part went wrong, then all the efforts would be in vain.

“We discussed eight possible risks just now. The biggest risk is with the suturing of the artificial blood vessel.”

After saying that, Miao Guofeng looked at Duan Yongchun. “Old Duan, will there be a problem here?”

Duan Yongchun shook his head. “No problem. I have the ability to handle it.”

After getting a positive answer, Miao Guofeng felt a lot more at ease. He then looked at Li Chuhan and said,

“Director Li, the patient’s current situation is not very optimistic. The diameter of the ascending aorta is very large, and the false lumen is also very large. The true lumen is close to closing, and it could rupture at any time. The surgery will be very difficult. Are you mentally prepared?”

“I have already mitigated the risk to keep it as low as possible. Throughout the entire country, no one will be able to better reduce the risk. Even if my teacher came back from the dead, he would only be able to do so much. Please rest assured, Boss, I will do my job well.”

“Okay!” Miao Guofeng said.

“There are no problems with any aspects now. Tell all departments to prepare. The surgery will begin in thirty minutes.”

“Wait!”

Just as everyone left the table to prepare for the surgery, Li Chuhan called out to everyone.

“Director Li, do you have anything to add?” Miao Guofeng asked.

“I think there’s something wrong with the suturing plan.”

“There’s something wrong with the suturing plan?”

As soon as he said this, everyone in the consultation room became uneasy.

Especially the two men in military uniforms, whose expressions became even stranger.

“Director Li, what do you think is wrong?” Duan Yongchun said with an unfriendly expression.

“The preparation of the suturing plan is insufficient, and the suturing method also needs to be investigated. There is too much unknown for a surgery which is at risk of constant fluctuation.”

“Director Li, I have decades of rich experience in the field of surgery. I’ve performed thousands of surgeries of all sizes. Are you doubting my experience and skill?”

“I believe in Director Duan’s ability, but the patient’s situation is very special. It’s very likely that there will be many complications. We should prepare a more precise surgical plan before the surgery,” Li Chuhan said.

Miao Guofeng was a little confused. Duan Yongchun was a top surgical expert in the country. In terms of suturing, even he was inferior to him.

Department Director Li was even worse off.

Why did she choose to question Old Duan at this time?

Could it be that she had a better plan?

“Department Director Li, this is a surgery, not a game. If you question my plan, you can come up with a better plan to convince me.”

Li Chuhan took the USB and inserted it into the computer.

“This is a suturing plan made by a doctor in our cardiology department. I think it’s pretty good. It can reduce the risk by at least 20%. You can try it.”

“Your department’s plan?”

Miao Guofeng’s gaze fell on the other three directors of the cardiology department.

“Which one of you wrote it?”

Cao Jiawang, Liu Yongsheng, and Fan Shufang looked at each other. They didn’t remember coming up with such a plan.

“This plan wasn’t written by the three directors. It was written by a new doctor in our department, Lin Yi.”

“Lin Yi?”

The three directors almost jumped up when they heard Lin Yi’s name.

“Director Li, are you kidding me? Lin Yi just started work yesterday and he has no clinical experience at all. The proposal he wrote is worthless!”

Cao Jiawang was about to vomit blood. What was going through Li Chuhan’s mind?

Was she trying to recommend Lin Yi just because he was handsome?

This was surgery, not a child’s play!

“This was written by a houseman?”

Guofeng Miao’s face was gloomy, and he had a disapproving expression on his face.

What was going on with Li Chuhan? How could he still have the mood to mess around at a time like this?!

“Director Li, I think you understand the importance of this surgery. I hope you can give me some constructive suggestions.”

“I really think that Lin Yi’s plan is very solid. Everyone can look at the contents of the plan first before passing judgment.”

Li Chuhan stood up, “This report lists a total of fourteen possible sutures, including the risks that we didn’t expect. Different types of sutures are recommended to be used on different tissues and organs. This will greatly reduce the risk of the surgery and the patient’s recovery after the surgery will be better.”

Li Chuhan continued flipping through the PowerPoint.

“He also prepared an animation demonstration in this report. The same issues will have different recovery processes if different sutures are used, so I think this report is more accurate and more suitable for this surgery.”

Everyone in the consultation room was in awe when they saw Lin Yi's PowerPoint report.

The complexity of the presentation was beyond their imagination.

No one would have thought that it would be written by an houseman if Li Chuhan hadn't mentioned it.

Everyone's eyes fell on Duan Yongchun after Li Chuhan went through the contents of the PowerPoint.

He was an expert in surgery in the country, so he naturally had the right to speak.

"This is nonsense. These are all the academic theories, and they're not suitable for an ever-changing surgery. Those animation presentations were all made up by his imagination, and they're useless in actual application."

Miao Guofeng was silent for a long time before he looked at Li Chuhan and said,

"Director Li, tell me your thoughts."

"I want Lin Yi to participate in this surgery. I know his skill level, and his participation might unexpectedly benefit us."

"I disagree!"

The person who spoke was Duan Guowei, and he didn't look too good at that moment.

"Just because he performed an outstanding emergency suture yesterday, you think he has the ability to perform today's surgery? Isn't that too much of a joke?"

Chapter 389: I Want This Female Doctor to Show Me

"Yesterday's emergency suture was only one part of it. I tested him afterward, and the results surprised me. With this report, I think Lin Yi has the qualifications to be an assistant in the operating theater."

"You want him to be my assistant?!"

Duan Yongchun looked disdainful. "He's just a houseman, and he probably hasn't even been in a real operating theater before. What are you thinking by letting him participate in such an important surgery?"

"It's precisely because this surgery is so important. I want to reduce the risk as much as possible."

"I don't agree," Duan Yongchun said decisively.

"I don't want to let someone who doesn't have any surgical experience become my assistant. Not only will it not reduce the risk, but it will even increase the risk."

"This is only a suggestion. You have the right to reject it."

The consultation room quieted down. No one had expected something like this to happen in the final stage of the consultation.

They didn't expect Li Chuhan and Duan Yongchun to have such an intense argument.

Guofeng Miao, who was sitting in the main seat, didn't say a word.

His eyes were fixed on the PowerPoint slides on the projector.

Whether it was purely theoretical, or combined with practice, this report was perfect.

Putting aside whether the young doctor called Lin Yi had any surgical experience, this PowerPoint alone was enough to prove his talent.

About a minute later, Guofeng Miao looked at the two men in military uniforms and said.

"What do you think?"

"We are amateurs in surgery. It's not right and we don't have the right to interfere in this matter. Director Miao, you are an expert in this field. Everything is up to you to decide."

After thinking for a few seconds, Guofeng looked at Li Chuhan.

"Then let's bring Lin Yi into the operating room, but only as a spectator. It'll be good for him to gain some experience."

Miao Guofeng was very experienced, and did not do anything to offend either Li Chuhan nor Duan Yongchun.

However, Duan Yongchun's expression wasn't very good.

This was because he didn't want Lin Yi to enter the operating room at all.

However, facing Miao Guofeng's words and Li Chuhan's own strength, he couldn't say anything else. He could only nod and agree.

Meanwhile, Li Chuhan was expressionless. No one knew what she was thinking.

"Alright, the consultation is over. All departments prepare for the final examination of the patient. The operation will begin in thirty minutes."

Hearing Miao Guofeng's order, all the doctors in the consultation room started preparing for the next operation.

At this moment, a tall woman in blue jeans was standing outside the consultation room.

The woman's hair was tied up neatly, and her beautiful almond-shaped eyes were shining with worry.

The woman in front of her was none other than Liang Ruoxu.

Seeing the door to the consultation room open, Liang Ruoxu hurried over to the two men in military uniforms.

"How's the situation? Why did you take so long to come out?"

"There was a dispute in the final stage. Fortunately, it was resolved peacefully. Now, they want to do the final examination on the chief. The surgery will take place soon," said one of the men in military uniforms.

“What did they say about the risk? Is it serious?”

“It’s hard to say. Their Director Li said that the risk has been reduced as much as possible. Based on the domestic environment, this hospital should be the safest place to conduct the operation.”

Liang Ruoxu’s expression was solemn. “From the looks of it, we can only take it one step at a time.”

“I believe that the chief will be fine.”

“Yeah, I think so too.”

...

Lin Yi and Qiao Xin went to the emergency center and tidied up before they started working.

“Lin Bro, you can take the lead today. I’ll write your medical records and medical advice for you.” Qiao Xin smiled. “Give me a chance to learn.”

“Don’t say that. We’re on the same level. There’s no need to talk about learning.”

“Don’t be modest. I saw it when you stitched up the patient yesterday. Even Director Li praised your skills, so your level must be above mine. I’m not in a very good state either. You should take the lead today.”

“Alright, I’ll take the lead today and we can swap tomorrow.”

“Okay.”

Qiao Xin looked at Lin Yi with eyes full of stars.

Lin Yi was so handsome, so skilled, and so kind.

Was there anyone in the world more perfect than him?

There definitely wasn’t.

If there was, the person wasn’t human.

There were a lot of patients in the emergency department, but a lot of them were just panicked.

Their injuries looked serious, but in reality, it was nothing.

Lin Yi could handle them with ease.

Creak.

Just as Lin Yi was finishing his examination of a patient and asking Qiao Xin to write the patient’s medical advice, he saw a middle-aged woman rushing in from outside.

“What are you doing?” Lin Yi asked.

“Doctor, look at me, my stomach is killing me.”

“Wait a few minutes, I’ll check you after I finish writing the patient’s medical advice.”

“What’s the need for medical advice? Let me take a look at him, he doesn’t seem to be sick at all. Let’s go, don’t delay my treatment.”

Lin Yi frowned. He was about to speak when the honest-looking elder brother said,

“Doctor, I’ve remembered all the medicine you prescribed me. You listed down the things I need to pay attention to earlier. There’s no need to write down the medical advice, you can attend to this elder sister first.”

“Alright.”

Seeing that the patient did not mind, Lin Yi was indifferent. He turned to the middle-aged woman and said,

“Sit down, give me your medical card.”

“Medical card? What medical card?”

“The medical card they gave you when you registered.”

“There were too many people waiting at the registry, so I didn’t register. You should check me first.”

“No registration? How can I check you if you didn’t register?”

“There are so many people waiting at the emergency centre window. How long will it take? You have to check me first. My illness is urgent.”

“Your illness is urgent, but others aren’t?”

“I’m already so old, and there are so many young people behind me. They will be fine waiting a short time. Their situations aren’t as important as mine. Check me first.”

“Either you go queue up or go to another hospital. Don’t take advantage of your seniority here.”

Lin Yi thought that he was a good-tempered person, but he couldn’t help but get angry when he met such a person.

“Young man, what are you saying? I’m not bored enough to do that, and you’re still young. How dare you claim that I’m taking advantage of my seniority!” The middle-aged woman pointed at Lin Yi’s nose and said, “Believe it or not, I’ll file a complaint against you!”

“I’m already flattering you by saying that. Get lost!”

Seeing Lin Yi’s cold eyes, the middle-aged woman was so scared that she didn’t dare to say anything. She left the room with her tail between her legs.

“What a narcissist. There are all kinds of people here,” Lin Yi muttered.

“Yeah, yeah, Lin Bro is right,” Qiao Xin praised.

Lin Bro was so domineering just now. He was so manly. This was how she had to deal with such an unreasonable person in the future!

Sye had to learn as well.

At this moment, the handsome buff was on full display.

Lin Yi's scolding was viewed as manly. An ugly person scolding was viewed as uncultured and rude.

"Next."

Lin Yi called out. Ten seconds later, a young woman in simple clothes walked in.

Her looks and figure weren't bad, but her expression was a bit intriguing.

The patient was very proactive. She handed in her medical card in advance, but her eyes were sparkling.

"Describe your symptoms first. Where are you feeling unwell?" Lin Yi asked.

"Doctor, can I discuss something with you?" The woman asked tentatively.

"Go ahead."

"Can I get this female doctor to see me?"

Chapter 390: Did He Lose Interest in Women?

Lin Yi and Qiao Xin immediately guessed her condition.

"You want to see a gynecologist, right?" Qiao Xin asked.

"Yes, yes..."

Qiao Xin changed her position and looked at the female patient.

"First of all, I want to clarify something with you. I'm also a woman and I understand a lot of things, but you have to understand that this is a hospital. Some of the sensitive parts to you are just ordinary organs to us. You have to believe that the doctors in Huashan Hospital are all professionals.

"Second, Doctor Lin's is higher ranked than me. Just tell him if there's anything you need to say so as not to delay your treatment. It won't be good for you either."

Lin Yi rubbed his chin.

What do you mean higher than yours? You make me sound like a gynecologist.

"Yes, it's like this..." the young woman stuttered for a long time, making Lin Yi and Qiao Xin anxious.

"The cucumber broke."

"Ah? Say that again, what's broken?"

"Yellow, cucumber..."

The two looked at each other. They were both adults, and they were both doctors at the hospital, so they guessed what she was saying right away.

Qiao Xin glanced at the young woman's abdomen. "It can't have broken in there, right?"

The woman's face was unbearably red, and her voice was barely audible.

"Mmm..."

"Xixinxin, you can handle this. You're both women, so you know better than me."

"Brother Lin, what are you talking about? I've never broken one before," Qiao Xin explained.

"Never broken one before? That means that your technique is good, and you're even more qualified than me to guide her."

"No, no, no, I didn't mean that. I've just never used a cucumber before."

"I'm pretty much in the same boat. You should do it."

Qiao Xin led the female patient to the cubicle at the back helplessly.

A few minutes later, he heard a sound as though somebody was in extreme comfort. The lady probably couldn't control herself.

Soon, Qiao Xin and the girl walked out. The female patient's expression had returned to normal.

"Brother Lin, how do you write this medical advice?" Qiao Xin asked.

Lin Yi thought for a few seconds. "I suggest eggplant next time."

Pfft!

Qiao Xin almost spat out a mouthful of blood.

Brother Lin was really an expert!

The female patient took Qiao Xin's medical advice slip and left in embarrassment. This was too embarrassing.

"Brother Lin, I can see that you're an experienced driver."

"Actually, I haven't drove for a long time. This guess was mainly because of my talent," Lin Yi said.

"For example, that female patient just now used a cucumber from the northeast. It's very likely to have come from the Longjiang Province."

"Why?"

"Not only is Longjiang an old industrial base, it's also a large agricultural province. The cucumbers produced there are full of refreshing liquid and are especially suitable for eating raw, but the only drawback is that they break easily."

"However, southern cucumbers are different. They're tough enough not to eat raw, so they don't break easily."

"Although the southern cucumbers have a natural advantage for this use, they're still no match for eggplant. After all, they are covered in sharp bumps."

"Lin Bro, I think you're wrong. I'm going to refute you," Qiao Xin said.

“My theory is so solid. Can could you possibly still refute me?”

“There are certain toys covered in such bumps. You should know that, right? This kind of surface could even be preferred in certain cases.”

“Oh, right.” Lin Yi suddenly understood. “Xinxin, I think we have a good partnership. If I ever join a rally, I’ll definitely ask you to be my navigator.”

“Ah, Lin Bro, I was just joking.” Qiao Xin said as she covered her face.

Ring, ring, ring...

Just as the two were exchanging experiences, Lin Yi’s phone rang. It was Li Chuhan calling.

“Director Li.”

“Come to the 13th floor of the hospital. You can join in as my assistant for the surgery later. Hurry up.”

Lin Yi was stunned. She was really going to let him join?

This woman was really bold!

“Got it.”

Li Chuhan’s room was on the 13th floor of the 8th inpatient department. She had simplified the address to save time.

“Director Li needs me for something. You can take charge of the emergency department.”

“Okay.”

Lin Yi quickly walked to the 13th floor of the 8th inpatient department.

He’d barely taken a few steps when Lin Yi stopped in his tracks.

This was because he saw Liang Ruoxu.

At the same time, Liang Ruoxu saw him as well.

Their gazes met midway, but Lin Yi was calm enough to guess why Liang Ruoxu was here.

Liang Ruoxu, on the other hand, was confused!

She wouldn’t have said anything if Lin Yi was wearing casual clothes.

However, he was wearing a white lab coat and a mask. What was that supposed to mean?!

“You... What are you doing here?”

“Let me introduce myself. I’m Lin Yi, a doctor of cardiology, and Director Li’s assistant.”

“Ah!?”

Liang Ruoxu could never remain calm when she heard the news, no matter how prepared she was.

He was a second-generation billionaire, the director of Longxin, and a world-class chip expert...

None of these identities had anything to do with being a doctor!

Such a professional skillset wasn't something you could learn on your own!

Besides, only a genius like Li Chuhan would be qualified to perform a surgery of this level without at least ten years of clinical experience.

How did Lin Yi do it?

"Little Sister, do you know each other?" One of the men in military uniform asked.

"Yes, his name is Lin Yi." Liang Ruoxu nodded, but she didn't reveal Lin Yi's other identity.

This was because she still didn't understand what was going on.

"So you are Doctor Lin." The middle-aged man reached out his hand. "Hello, Gao Chong."

"Hello, Lin Yi."

"Oh? You guys know each other?"

"Just now in the consultation room, the doctors from Huashan Hospital quarreled because of him. Director Li took his suturing report and convinced Director Miao. Otherwise, he wouldn't be here."

"No way. The most difficult part of the surgery is the suturing. The suturing report was actually written by him?"

"That's right," Gao Chong said.

"I just sent the report to the general doctor and the latter gave him a very high evaluation. Doctor Lin's skill is definitely good enough."

Liang Ruoxu's head buzzed.

Brother Gao had always been proud and arrogant. For him to give such a high evaluation was enough to prove that Lin Yi's suture skill had reached a very high level.

However, this job required a lot of experience. How could he have such high skill at such a young age?

If he was only proficient in one thing, it could be explained by pure genius.

However, Lin Yi was different!

He was also an expert in the field of microchips!

And most importantly, he was a rich second generation!

At that moment, Liang Ruoxu's head was filled with stars.

Lin Yi was so rich, so why did he always pursue unexpected and impossible things?

Could it be that he wasn't interested in women anymore?

This wasn't right!
