Chapter 21

Chapter 21 The Passage to Her Heart

"It was me who gives the shares to you, isn't it?" Adams's grayish-brown eyes were cloudy, but his mind was very clear. "If you are afraid of suffering losses, sell the shares now. I established Riven Group by myself. Even if it would be destroyed by Anaya, I am willing to accept it!"

Aria was so shocked that her face changed, "Adams, what are you talking about? It is because you spoil her too much that Anaya is so arrogant! If you support her like this, do you want Riven Group and all of us to be killed by her willfulness?"

"Who said that without the Maltz family, Riven Group would be finished?" Anaya's fair and delicate face was calm and frivolous, "Without you, Riven Group can still stand up."

Aria sneered, "Everyone knows how to talk big. But if you want us to believe you, you have to have a good result! In my opinion, if you give the position of vice president to Mark, there is a possibility that Riven Group can stand up."

Anaya raised her eyebrows, "Do you mean that Mark has made a major contribution to the company?"

Aria snorted and seemed to be a little proud, "It is not a major contribution. He just managed to close a deal that you failed to."

Not long after Anaya returned to the company, she was doing only a few projects, and each one went smoothly.

Thinking twice, she couldn't know which project it was, so she asked, "Which project is it?"

"Champin Company refused to cooperate with you. Is that true?"

So it was Champin Company...

"Yes, it's true." Anaya looked at her meaningfully.

Aria sneered when she saw Anaya was still indifferent in such an unfavorable situation. "Why didn't you tell others about the failure of this deal? If Mark hadn't found the problem in advance and contacted Champin Company, do you know how much Riven Group would have lost?"

Frank had originally planned to wait for tomorrow's board meeting to announce it in public and give Anaya a hard slap. He wanted to vent his anger for what happened last time about Sega Corporation, but he did not expect that Aria would say it today.

However, with the other members of the Dutt family present today, it would be good to be able to dampen Anaya's spirit and create a positive image of Mark.

As soon as Aria finished speaking, all of them started to complain.

"How could Anaya do so? If she doesn't have the ability, she shouldn't have taken over such a big project."

"Champion Company and Riven Group have worked together several times and Anaya messed up this project. That's unexpected."

"She's gone stupid after being a housewife for a year?"

"In my opinion, Frank and his son are more reliable. How can a woman be the vice president?"

In the face of everyone's denouncement, from beginning to end, Anaya had a calm smile on her face. "I cancel the cooperation with Champion Company deliberately."

"Did you do it on purpose? Do you think work is child's play?" Frank was a little angry.

"Not really. It's just that at that time, I had already made a deal with Green Company."

Frank and Aria were stunned as if they were struck by lightning

Quick as a flash. Aria said, "You're lying!" Mark has already negotiated with Green Company before, but he hasn't

signed with them. How can you make it?"

Champion Company and Green Company were not on the same level. It was extremely difficult for the Dutt family to win Green Company's cooperation.

"Although I am a stupid housewife, I will not joke about this."

Anaya borrowed Adams's phone, logged into the cloud disk, and opened the electronic contract backup in front of

everyone.

People on Frank's side changed color, but the others were happy to see that.

If Riven Group made money, every one of them had a share.

They were not close to Mark, and Mark's family losing face had nothing to do with them.

"Green Company and I have already prepared the contract. I just need your signature, Frank. I was going to tell you tomorrow..."

Anaya put away her phone unhurriedly and smiled, "Frank, Aria, why didn't you tell me in advance that Mark interfered in my work?"

"Don't tell me he has already signed a contract with Champin Company? Are you paying for the breach of contract by yourself or using the company's public funds?"

Riven Group now could only afford to make a deal with one company. And everyone would choose the latter one between Champin Company and Green Company."

Frank was pale, and Aria lost her imposing manner. She totally changed her attitude and said to Anaya, "Anaya, the penalty fee is quite a difficulty for our family."

"We haven't signed the contract with Green Company yet. Why don't we continue to cooperate with Champin Company and forget about Green Company..."

Without waiting for Anaya to speak, the other voices of opposition had come out.

"Since you got Green Company, why did you lower your level to cooperate with Champin Company? Riven Group is not your family's company. Are you going to sacrifice the entire interest of the company for your family?"

"It's a difficulty, which means it can still be solved. Mark made the mistake, and you should take responsibility for it!"

"Yes, Mark made his own decision to sign the contract with Champin Company. It has nothing to do with us!"

Anaya looked coldly at the group of people arguing.

Dogs bit dogs.

That was what her relatives did.

For a little benefit, they could soon become enemies.

This was the family that they talked about all day long.

Frank and Aria were lost for words.

Anaya waited for everyone to finish arguing before saying, "If you don't trust me and feel that the Dutt family is powerless, then return your shares to me. I'll buy them at market price."

Det sie

Since she said so, there was no point in arguing anymore.

Everyone looked at each other and did not speak

Selling shares was a big matter. T
