

Revenge On My First Love Chapter 175

"Therefore, I do apologize for that. I also want to send my sincere apology to Oakaid Pharmaceutical Company. Please rest assured. Their medicine has no problem. I'm willing to be responsible for the trouble I made."

Although the government and the patient's daughter explained to the public, it took time to eliminate the negative impacts on Oakaid Pharmaceutical Company.

Sophia had foreseen it earlier, so she didn't panic but would resolve the problems gradually.

She believed her company would gain the public's trust again sooner or later.

After she returned to the Skylane Group, Chloe asked, "Sophia, don't you think this incident is too weird?"

"Not at all. That woman was bribed. I've found the manipulator."

"Who's the son of bitch? How dare he do it! Tell me. I'm gonna kill him."

Chloe was really angry because this incident almost harmed Sophia and her reputation.

Once Oakaid Pharmaceutical Company was convicted, all of Sophia's companies would be ruined.

One thing was for sure, the manipulator aimed to ruin Sophia, definitely.

"It's Paula Frost."

Chloe gaped at her for a while. "Sophia, you've found out the manipulator. Why didn't you report her to the police and expose her evil deeds online? She deserves to die."

Sophia chuckled. "An eye for an eye. But your method is not good enough. Besides, I don't mean to let go of her, although I don't expose her. Just wait and see. She'll end miserably."

"I knew you wouldn't let go of her."

"Of course not. No worries."

A few days ago, the Frost family transferred the shares to Sophia, so she decided to let go of them.

However, Paula seemed to have a death wish, so Sophia wouldn't mind making her wish come true.

...

While Paula was enjoying her victory, Cecelia dropped by.

"Paula, didn't you guarantee that woman would be doomed? Why did she turn the tables?"
