

## Revenge On My First Love Chapter 181

Although Sophia was a woman, her aura was solid and threatening. The maid was scared.

"She... She's in that room." The maid pointed at a room.

Sophia looked in that direction and rushed over.

Some security guards blocked her way, but the next second, Drake's men dealt with them.

Sophia could tell the security guards had been divided into two groups evidently.

Therefore, Drake must have sensed the danger earlier. Otherwise, the family would have fallen into Olivia's hands already.

Sophia arrived at Aria's bedroom door. Much to her surprise, it was locked from the inside.

A man yelled, "Who's there?"

Sophia realized there were other security guards in the room besides Aria.

Instead of answering, she took a few steps back and ran to kick the door open.

Her sudden appearance shocked everyone in the room.

Aria didn't expect her to rescue her for real. She had been locked in the room for several days without eating anything.

She asked others for help but failed to reach Drake on the phone.

She called Cecelia, who agreed to help her but called Olivia back. Others whom she had contacted had never come to save her.

When she called Sophia, she didn't have any hope. After all, she had mistreated Sophia back then, and it would be expected if Sophia didn't show up.

However, Sophia came to rescue her for real.

The security guards returned to their senses and didn't fear her. Therefore, they fought with Sophia.

Shortly after, they were all shocked by Sophia's fighting skills. They used to fight with other tough women but never expected such a good-looking woman to be so skillful in fighting.

Besides, Sophia didn't want to waste time on them. Hence, she quickly defeated the security guards.
