

Revenge On My First Love Chapter 231

Sophia glared at him. "Stop seducing women!"

Drake shrugged. "I didn't do anything!"

"Your face is captivating!"

Drake touched his cheek and said innocently, "What could I do about it? I was born handsome. Didn't you fall in love with me because of it?"

Flynn got goosebumps. "Drake, can you stop being so cheesy?"

"Stay away from us if you can't stand it!"

Flynn was out of words.

Drake had really changed! The old Drake would never say something like this. But now, it seemed he could do anything to please Sophia. It was all because he was afraid she would leave him.

The break was soon over. Zain came to the front of everyone. "Just now, all the tender were presented. And I believe you can guess the winner. I will not keep you in suspense. I have decided that we will use the tender of Sophia from Slylane Group!"

In an instant, everyone applauded.

Drake, Flynn and Bailey smiled.

Sophia stood up and bowed to everyone. "Thank you. I will cherish this opportunity!"

When she was about to walk onto the stage, Abby suddenly stood up and asked. "Mr. Berry, I have an objection. I want to see the Ms. Lawson's bidding price."

In an instant, everyone started expecting a dramatic turnout.

Zain had expected this, so he calmly said, "Of course. I can frankly tell you that Ms. Lawson has given a bidding price lower than yours. However, she has presented me with such an excellent tender, which was why I had a conversation with the executives during the short break just now."

"The price is important, but there are some other factors that are equally important. And after careful considerations, we decided to give the opportunity to Ms. Lawson."

"Ms. Pearce, is there anything else?"

Abby had been confident in their tender. She was confident that she would win the bidding even in the face of such strong opponents like the Riley Group, the Price Group, and the Duncan Group.

She wanted to show Drake that even though Sophia had a powerful family background, it was all she had. She wanted him to know that she was the only person who could help him in business.
