

Revenge On My First Love Chapter 236

Olivia was in bad luck today. She thought the forged video would make Sophia beg her. However, the police station ruined her plan.

And now, she even met someone that she didn't want to see.

"I don't want to live like a widow. I don't think anyone can bear it except you. Speaking of which, I really admire you sometimes!"

"You are just jealous of me! Just because you don't get to see anything doesn't mean my life is miserable. Listen, my husband likes me very much. He wanted to stay with me all the time but he got something urgent and he had to leave."

"Really?"

Zoe looked at Olivia with a deep smile.

Olivia said proudly, "Of course, did you see? My husband gave me all these cards so I can buy things at will. "

"Oh?" Zoe didn't speak, as if she had seen through Olivia.

Olivia wouldn't admit it anyway.

However, to everyone's surprise, the next second, they heard a familiar voice.

"Emma, I am so sorry. Please give me a chance! Aria, please tell your mother to forgive me!"

Aria glanced at him. "Dad, can you leave us alone? We are shopping!"

Aria had been studying for several days. Today, she decided to take a break and relax a little. She didn't have many friends around here. Emma also wanted to go shopping, so they went together.

"Aria!" Baron called out helplessly.

Zoe deliberately shouted, "Wow, someone said her husband had something urgent."

The crowd that gathered to watch understood immediately. Zoe did take the initiative to provoke Olivia but she was telling the truth.

Olivia's face looked awful. She felt humiliated.
