

## Revenge On My First Love Chapter 299

Sophia walked out with Chloe, who kept silent during the conversation between Sophia and Spencer.

"I am so pleased right now. It's so funny watching Spencer get pissed off!"

"He shouldn't have come to me and provoke me. I didn't intend to do anything to him, but he had reminded me to do so."

"Sophia, you did the right thing. He won't be in the company these days, you can take the time to establish your presence in this company."

"I will."

Sophia and Chloe went back.

At this time, Rodney came to work and saw the two of them. He waved at them and said, "Sweetie, what a coincidence! You are also late for work today?"

Sophia and Chloe ignored him.

Rodney didn't learn the lesson of being beaten up at all and approached Sophia despite his injuries. "Don't worry. I have got a lot of sales contracts signed and brought profits. Tell me which department you are in and I will have your back!"

Chloe gave an ironic smile, "You have our back? I'm afraid you're even unable to protect yourself!"

As she said, they walked in without even clocking in.

Rodney hesitated for a moment and followed them, "Sophia, don't leave yet. Tell me, which department are you in? I can really have your back."

Chloe was impressed by Rodney's colleagues. They all seemed to be afraid of Rodney, but no one had told him which department Sophia was in. It meant that they all treated Rodney like a fool.

Chloe warned him, "If you didn't go back to work now, you will lose your monthly bonus!"

Rodney looked proud, "I won't!"

He was sent here by Spencer, whom no one dared to offend. And he had heard that the CEO had been in discord with Spencer. But that CEO was new here while Spencer had worked here for years. He bet that CEO didn't have the guts to go against Spencer for now.
